VOICE of THE HERALD

Pigeons Create Real Mess

Even town has its problems and as far as we're concerned, right now in Tecumseh, ours is the unwanted pigeon.

If you walk along S. Evans St. to Chicago Blvd. and view the littered sidewalk, you'll probably agree.

It's actually a crime to have such an unhealthy, shabby mess in our downtown area. The pigeons aren't satisfied with just S. Evans, they now also are along the boulevard.

Their favorite roosting places are on the Pallman building, which houses the Watkins Shop.

In recent weeks, they seem to have grown into even more of a problem and that's why we are now calling it to the attention of city officials and owners of the structure.

Something of a permanent cure must be started. It might mean removal of the building bric-a-brack, upon which the pigeons roost. It might mean extermination of the breed, but this likely wouldn't be the complete end.

But let's get at it, whatever is to be done.

On with the Kickoff

Once again, football season has arrived.

We can't help but think what a tremendous change has come over Tecumseh in the past few years as far as the grid sport is concerned.

With a winner comes snap and precision. Every outing becomes a spectacle which attracts overflow crowds and sends happy spectators home talking to themselves.

Success brings success. The better our gridders play as a unit the better each man performs, the better the cheer leaders are, the snappier the band marches, the better folks enjoy the games.

Tecumseh has always maintained a high standard of sportsmanship and we know 1960 will see no change in this. Good play — whether by our lads or their opponents — is always recognized.

Boos are practically unheard of here.

We like Tecumseh football and we like Tecumseh's fans.

Soon with the kickoff.

Like a College Campus

Citizens of Inkster, a community of 16,700 in downriver Wayne County, will see their new $600,000 civic center open and ready for use this month.

Pictures and a story about it appear on this page.

We're particularly interested in the Inkster center because it might well offer some definite angles for the Tecumseh Community Fund Foundation in its future planning.

Two years ago the idea of a civic center for our city was first broached. From this grew the Foundation, which is a fabulous thing for Tecumseh. At present, there is more than $80,000 in assests in the Foundation.

Last spring, a committee was formed to learn what folks in the city wanted most in the way of new community facilities.

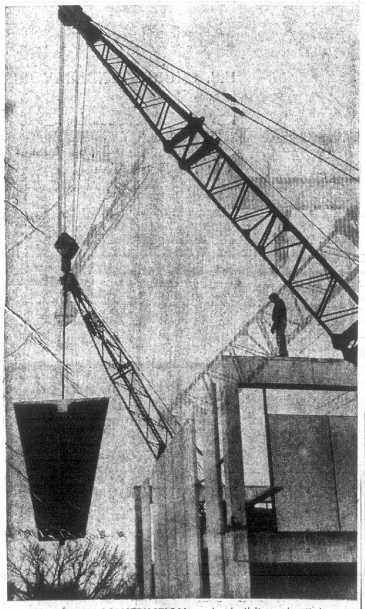
A dozen major items, based on suggestions from townspeople, were carefully investigated. Trustees of the Foundation are going into these more deeply and have not decided as yet on any given course.

We still feel that the civic center plan is an excellent one. Maybe not a $600,000 plant like Inkster's, but along these lines.

Inkster has come up with the functional idea of combining its public buildings at one location, much like a small college campus.

Tecumseh could consider this, starting with our city hall and the new post office, which will be going up directly across the street from it. Land in that general area could be acquired with the long-range plan that community center buildings, including a new library, be eventually situated there.

INKSTER CIVIC CENTER — The city's new library is on the left, showing a definite Japanese influence in its design. The ultra modern, two story building at right is actually the municipal hall which houses village offices. In Tecumseh, this might be a community center, a structure which has been talked about over a period of two years. It would contain an area for young people, meeting rooms, possibly a city historical museum.



INEXPENSIVE CONSTRUCTION — In building the Inkster civic center, the pre-cast concrete method was used. Here a section of wall is hoisted into place. Three-unit project cost $600,000.

To Open $600,000 Community Center

(Editor's note: Marg Webster, editor of the Inkster Ledger-Star, kindly provided The Herald with these pictures and story regarding that community's new civic center. See editorial about this in columns at left.)

Inkster's three-unit Civic Center is being completed, ready for its dedication ceremonies tentatively set for Saturday, Sept. 24.

It is being financed by a $600,000 bond issue approved, 7-1, by the voters in December of 1958.

It contains a $100,000 police station (one-story brick building) $368,000 municipal hall (two-story rectangular concrete and glass building) and a $111,000 library. This is circular in design with glass outer walls, a center dome and a semi-circular brick wall separating it in effect from the nearby municipal building.

Two Relate Impressions of Synodical

Mrs. N. L. Hart entertained members of Circle 1 of the Presbyterian Church last Tuesday. She was assisted by the officers of the group.

Cake and coffee were served to observe the birthday anniversary of Mrs. Guy Pocklington.

Mrs. Victor Voorhees, program chairman, presented Mary, Mrs. William, Mrs. M. R. Blanden and Mrs. Stanley Kruse, who told of their impressions and experiences at Alma College when they attended the Presbyterian Synodical.

For afternoon devotional, Mrs. Albert Merz read an article entitled "The Basque Shepherder and the Shepherd Psalm," to be printed in the Readers Digest.

TOM RIORDAN'S Long AND Short

Marty Mackin and Jeff Peters are a couple of three-year-olds who live along Pine St.

When the kindergarten schedule had to be changed last week, bus drivers were busier than usual getting lined up with their new times and riders.

One bus came down Pine, when the driver spied Marty and Jeff sitting on the curb. They were dressed neatly in their little jackets and he thought, "There are the two I get along this block."

He pulled up in front of them, opened the door. The lads quickly stood up and began to board, ready to start off on an exciting new adventure.

Marty's mom, Mrs. Terry Mackin, happened to be looking out the front window at the time and when she saw what was about to develop, rushed outside to warn the driver of his mistake.

Marty and Jeff looked chagrined as they quietly returned to their morning thoughts, wondering when the world of adults would finally get organized.

Bob has been making regular runs down to Monroe with his 16-foot craft, accompanied on various trips by Charlie Butler, Frank Purcell, Leo Bishop, Dutch Heeson and others.

The Moore parties have a secret hole where the fish practically leap out of the water and into the boat.

Charlie says on one outing, he stuck a cigar into his mouth and then his line into the lake. Before he could dig out a match to light the stoggie, he had a whopper.

After boating this one, there was another and another. He never did get the cigar going, he says.

On various days the catch has ranged from 185 to more than 200.

And that's no fish tale.

☆

"You mean you were at the game?"

"Think I could miss an Indian opener. No, sir, not me."

It was Bootin' Pussy, back from a winter in Florida.

"How did you get the dough to make the trip?"

"Remember that Adrian game, six and oh? My friends in the gracious Maple City provided

all the funds I needed. A few discreet wagers, up and down Maumee St., took care of everything."

How did the 1960 squad look to Bootin'?

"Great team, great coach, great fans. We should go all the way. Love those boys."

"I didn't see you at the game, where were you sitting?"

"Very neat new spot for me. Right on the roof of the house that Tim Neil built. Real cozy."

"So long pal, see you at the Dunkee skirmish," said Bootin'.

The Cuban revolution regularly comes to Tecumseh — in the form of stamps on mail from Cuba to the Products overseas division.

The stamps read:

"Our revolution is NOT Communist. Our revolution is HUMANIST. The Cubans only want the right to an education, the right to work, the right to eat without fear, the right to PEACE, JUSTICE, FREEDOM."

OK, Fidel, you may can the corn any time.

Honey, our beagle, has a new home.

She became a member of the Carl Brighton family in Franklin Twp. Sunday afternoon.

Her new masters include Carl, 10; Gregory, 9; Kevin, 5 and Terry, 2½.

Last week I noted that Honey would be happier with a home in the country, instead of being chained in our back yard. Mr. Brighton dropped by Saturday and offered to take her. It was heart-breaking to let her go, but Honey will probably be happier.

This absolutely will be the last dog the Riordans will own.

'If You're Not Registered, You Can't Vote,' Is Slogan

An army of Tecumseh High School government students will do a genuine service for local citizens, starting this week.

"If you're not registered, you can't vote," is the slogan of these youngsters, all seniors, who are knee-deep in a special pre-election campaign.

With this thought, their giant project will take one of them to the front door of every non-registered, eligible voter in the city.

Ninety students in three classes, taught by Wayne Reganall, move out on their effort this week, following long hours of careful planning and preparation.

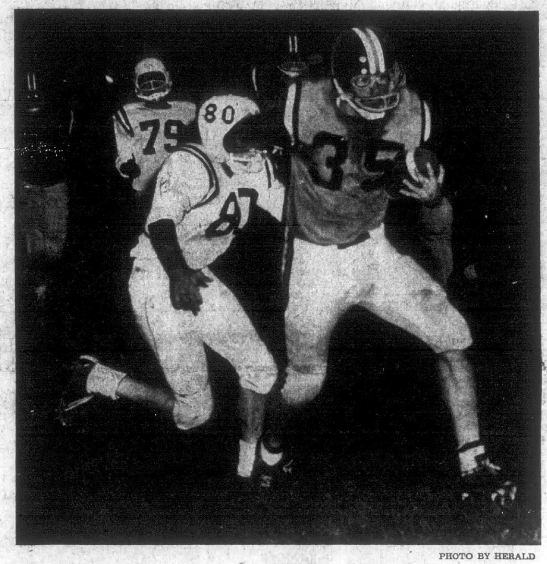

PHOTO BY HERALD

FIRST SCORE—Burly Bob Koffron (35) snaked his way into the end zone with Tecumseh first touchdown in the Indians' brilliant 39-0 win over Willow Run. Bob also scored another TD. Jon Aho and Mike Green also tallied twice. This week Tecumseh entertains Dundee at 7:30 p.m. Friday. Complete details appear in the second section, page 2.

It was Mr. Reganall's idea and the youngsters have taken to it with tremendous enthusiasm — much more than the teacher guessed was possible.

The project evolved from textbook work during the first two weeks of classes. Covered was the American electoral process—political conventions, registration, balloting.

First step was to get names of all registered voters in the city's three precincts.

From that point, students make up cards on 3,000 eligible voters, using the city directory for cross reference.

Those who were not registered to vote were placed into separate catagories by precincts.

With this done, the youngsters had the people whom they would contact.

Special permission was granted by principal Neville Hart so that the government students can use their regular class period and study halls, starting Thursday, to pound the pavement.

When they are finished, every non-registered citizen will have been reminded to get on the voting rolls before Oct. 10.

Plans have already been made for the final day of registration. Students will provide transportation to city hall for those who are not well enough to make the trip themselves.

Students will be prepared for any questions about voter eligibility—must be 21-years-old, a Michigan resident for at least six months, live in the city for 30 days.

This get-out-and-register project is just the beginning, states Mr. Reganall, in making these seniors conscious of the democratic electoral process.

As soon as this non-partisan service is completed, the government students will be encouraged to go out and campaign for the candidates of their choice.

The Tecumseh Kiwanis Club is cooperating in this phase, the instructor explains, furnishing the youngsters with campaign signs and buttons from both parties.

This is Mr. Reganall's first year at THS. He is a graduate of Michigan State University and comes from Deerfield.

CARDS READY — More than 3,000 eligible voter cards were prepared by 90 Tecumseh High seniors, including these three, Thomas Barton, Inez Boltz and Dennis Irelan, who show some of the stack to their instructor, Wayne Reganall. Now the group will contact all persons not registered and urge them to do so. To help advertise their campaign, the students are making posters, which read: "If you is for Fiz, or any other candidate, register and vote. But please don't be late. Deadline Oct. 10." The idea ties in with classroom text work.

Driver's Act of Kindness Probably Saved Her Life

School bus driver Mrs. Donald Woods bent down just in time.

She did it to help a rider and Mrs. Woods' act of kindness probably saved her life.

With a load of 65 children Friday morning, she was going east on Russell Rd., near Occidental Rd.

Mrs. Woods stopped her bus where a Consumers Power Co., work gang was hoisting two-inch gas distribution pipe with a power lift.

One of the workers waved her on.

As the bus started by the truck, the pipes swung loose on their sling and rapped the vehicle.

Mrs. Woods immediately braked the vehicle and in so doing one of her passengers, Julius Delos Santos, a second-grader at St. Elizabeth, fell forward. He was in the first seat, just opposite the driver's side.

Mrs. Woods leaned over and extended her right hand to aid the child and when she did one of the pipes crashed through the right side of the windshield, shot over her head and smashed out the side window next to Mrs. Woods.

Jack Hallenback, another driver, whose bus was immediately behind Mrs. Woods' called Purkey's Garage, which sent another bus, into which the children were transferred. Purkey's also sent a wrecker to bring in the damaged vehicle.

Consumers men attempted to remove the length of pipe, but were unable and ended up cutting it off. It was taken out at Purkey's where the glass was replaced by Richard Clum of Lansing, representative for McFadden Corp., which has a franchise to service Tecumseh buses.

Saturday Service Is Held for H. H. Hanna

Funeral services were held Saturday at the First Presbyterian Church for Hugh H. Hanna, former Tecumseh mayor, who passed away Thursday at Herrick Memorial Hospital.

Mr. Hanna, 76, had been a patient for two weeks following an illness of two months, including hospitalization in Ann Arbor.

A public official for 46 years, he was a member of the council and county board of supervisors at the time of his death.

He was a member of the charter commission when Tecumseh changed to the city form of government in 1953 and served as the first mayor, holding the office for six years.

Mr. Hanna had also been township clerk, and postmaster.

Mr. Hanna was active many years in the Republican party.

Born June 5, 1884, in New York state, Mr. Hanna was the son of Hugh and Margaret MacCracken Hanna.

He moved to Tecumseh as a child and attended high school here.

He married Mabel Edwards at Coldwater Sept. 13, 1930.

For 19 years Mr. Hanna was employed at the Tecumseh Products Co., reaching the position of office manager before his retirement.

Since that time he was an agent for the Travelers Insurance Co..

In addition to his wife, Mr. Hanna is survived by two daughters, Mrs. Donald Oseid of Salonica, Greece, and Mrs. Richard Griffiths of Chagrin Falls, O.; three grandchildren; a sister, Mrs. Fred Marsh of Tecumseh; a half-sister, Elizabeth Hanna of Geneseo, N.Y., and a number of nieces and nephews.

He was preceded in death by three brothers.

To Be Oct. 11

More than 600 high school musicians will be joined by 350 chorus members at this fall's Lenawee County Band Festival in Tecumseh.

No Garbage at 'Free' Dump

By JIM LINCOLN

A new city dump ordinance was given its second and third readings at council Monday night, then approved.

Principal features of the new law:

1. No garbage allowed at the dump after Oct. 1.

2. No charge to Tecumseh residents for using the dump, starting the same date.

(The complete dump ordinance was published in the Sept. 8 issue of The Herald.)

In conjunction with passing this legislation, council awarded a garbage-collection contract to Tecumseh Hauling Service, owned by Herb Dillon.

Tecumseh Hauling will also pick up rubbish.

Tecumseh Hauling's bid for the collection service was lower than those of William Schadewald Jr., of Deerfiled, and Elwin Jones of Jackson.

A bid from Weasel Brothers Trucking of Tecumseh, was comparable, but limited the number of cans per pick-up.

All bidders agreed to dispose

$1,700 Is Beef Dinner Net Profit

St. Elizabeth's parish netted $1,700 from its fifth annual roast beef dinner Sunday.

Offer Use of Headquarters

Perhaps your club is planning a card party, bake sale, fashion show, art exhibit.

If you're looking for a spot to hold it, here may be the answer.

It's 25x60, room for about 100 people, and free.

Interested parties should contact Del King, 819.

At present, the local GOP headquarters are open Friday evenings and all day Saturday. The building would be available at any other times interested parties might wish to use it.

As Nov. 8 draws near, party chairman Charles Trickey hopes to have visits by leading candidates.

Strange Animal

"That" strange animal was seen in the Tecumseh area this past week.

Mrs. James Tonneberger and Mrs. Burton Wright were on their way home on Newburg Rd. Sunday evening when they saw a long-legged beast dash across the road, directly in front of the car.

Shaken, because the thing went so fast that they couldn't get a good look at it, the two went home and called police officers.

Police could find no trace of the yellowish brown or orange animal, like a "great, huge cat."

Mrs. Tonneberger said, "Now I wish I could have hit it."

Ostrander - Halliwill Nuptial Held Saturday

Betty Jo Ostrander, daughter of Mr. and Mrs. Clifford Ostrander of rural Onsted, and Franklin James Halliiwill, son of Mr. and Mrs. LeRoy Halliwill, of rural Addison were united in marriage Saturday evening at the First Baptist Church.

The Rev. Blair Bashore performed the ceremony before a background of palms and six cathedral candelabra.

Altar vases were filled with white blossoms and the family pews were marked with white satin bows and sprays of greens.

Sharon Williams and Charles Emery sang, accompanied by Judy Allen.

The bride was given in marriage by her parents. She wore a floor-length gown of white chantilly lace, fashioned with a Sabrina neckline of scalloped lace trimmed with sequins and pearls.

Her finger-tip veil was secured to a matching lace headpiece trimmed with pearls and sequins.

She carried a white, lace-covered Bible topped with an orchid and Frenched carnations, interspersed with strands of ivy.

Sandra Bradish was maid-of-honor wearing a gown of melon silk organza fashioned with puff sleeves, scoop neckline and lace cummerbund.

Her head piece was of illusion and dotted velvet.

She carried a cascade arrangement of white carnations centered with melon ones. Lois Halliwill, sister of the groom, Georgianna Shultis and Joyce Russell were bridesmaids wearing gowns of turquoise fashioned as the maid of honor's.

Their flowers were similar in design centered with turquoise carnations.

Deborah Moore and Deborah Figy were the flower girls wearing dresses of white nylon chiffon over taffeta with melon sashes.

Larry Halliwill, brother of the groom, carried the rings.

Fred Halliwill was the best man and the guests were seated by Dennis Halliwill, John and Joe Bowman and Harold Halliwill and Charles Ostrander, junior ushers.

Mr. and Mrs. Leo Alderdyce and Mr. and Mrs. Dean Moore were hosts for the reception held at the Products Union Hall for 400.

A four-tiered pedestal cake, decorated with roses and lilies of the valley, centered the linen covered bride's table.

Others assisting at the reception were Joyce Robins, Mrs. Fred Morast, Wanda Sue Phillips, Linda Phillips, Mrs. Dean Moore, Marcella Gristiffon and Mary Schumacher.

The bride, a graduate of Onsted High School, is employed at the Onsted Community Schools

The groom, a graduate of Cement City High School, is employed at the Don Moon Lumber Company at Manitou Beach.

They will make their home on N. Main St. in Onsted.

Janet Snyder of Kalamazoo Marries David Champanois

The First Reformed Church in Kalamazoo Sept. 10 was the scene of the fall wedding of Janet Marie Snyder and David E. Champanois.

The bride is the daughter of Mr. and Mrs. J. R. Snyder of Kalamazoo and Mr. Champanois is the son of Mr. and Mrs. Clarence D. Champanois, 403 Outer Dr.

Wedding hampers filled with gladioli formed the background for the impressive double ring ceremony performed by the Rev. Donald P. Buteyn.

The traditional wedding march was played and the vocalist sang "Because" and "The Lord's Prayer" while the couple knelt at the altar.

Mr. and Mrs. Snyder gave their daughter in marriage.

The bride's gown of Schiffli embroidered tulle was floor length, fashioned with beaded lace flower applique on a Sabrina neckline and had long tapering sleeves.

Her finger-tip veil of French illusion was attached to a crown of sequins and pearls.

Her only jewelry was a white gold cross, a gift of the groom. She carried a white lace-covered Bible topped with white bouquet rosettes and carnations interspersed with tiny ivy leaves forming a cascade effect.

Bonnie Devalle was the maid-of-honor. Her gown was pink satin covered with white lace with pink chiffon streamers down the back. She carried a bouquet of pink carnations.

Karen Snyder, sister of the bride, wore a write dress with a pink sash. She dropped rose petals from a basket.

Johnnie Snyder, cousin of the bride, was the ring bearer. He carried the rings on a white satin pillow.

Clarence C. Champanois served his brother as best man and the usher was James Snyder, brother of the bride.

A reception for about 125 relatives was held immediately after the wedding in the church youth center.

The guests enjoyed singing and were entertained by a trombone soloist and piano player. The four-tiered cake was then served.

Mr. and Mrs. Champanois left later on a short trip in northern Michigan, the bride wearing a lavender dress and hat ensemble and a corsage from her bridal bouquet.

On their return they will make their home in Kalamazoo where they will both attend Michigan University as sophomore.

Church of God Is Host Here

McDOWELL REPORTS

Several changes have been made this week in the Tecumseh public schools, in part to improve the program and in part in the interest of economy due to lack of operational funds.

Some have resulted in a curtailment of services which seem easiest to do without any changes in class meeting times.

Since there have been 318 kindergarten children enrolled and we have only four kindergarten rooms, only eight half-day sections of approximately 37 children ever could be taught.

Since these sections are too large for one teacher another teacher has been added and kindergartens at Patterson and Tecumseh Acres will meet in three sections each as follows: 8 to 10:30; 10:30 to 1; and 1:30 to 4.

The additional kindergarten section will make the groups average about 31 each.

The number of children enrolling in grades one and two was less than expected and so by shifting pupils at Macon and some of the city schools it is possible to eliminate two classrooms.

Not needed was a first grade, which was to be in the Sutton School, and a second grade, which was to be in the West Branch School.

These children will be placed into other sections in the city or transported to Macon.

One of the two teachers whose class has been combined with other first grades will teach the extra two sections of the kindergarten. The other teacher was to a substitute basis and has been assigned other substitute work.

The special education program for mentally retarded children will be housed in the West Branch School.

Selfish Desires Sometimes Cloud Thoughts of God

The God we think we want and the God we need are not necessarily the same person.

Many times the God we think we want is the sum total of all our selfish desires, but the God we need comes and shows us our inner selves and we are never quite the same again.

This is the theme of the sermon "The God I Need" by the Rev. Allen Wittrup at the Methodist Church Sunday.

It will be Rally Day in the church service and Church School. Children and Youth will be promoted in the Church School hour, with special recognition being given to those being promoted to new departments.

Following the morning worship service, there will be Open House at the Educational Building. Members and friends are invited to visit and inspect these new classrooms and facilities.

The Intermediate Youth Fellowship will meet at 5:30 and the Senior Youth Fellowship will attend the rally at 3 p.m.

The official board will meet on Wednesday evening, with the commissions at 7:30 and the board at 8:30 P.M.

Living Church Will Be Topic at Holloway

"The Living Church" will be the sermon topic Sunday at 9 a.m. in the Deerfield Presbyterian Church and at 10:30 a.m. in the Raisin Holloway Presbyterian Church.

"What is the living church?"

"Does the church play a vital part in the community today?"

"What is the responsibility of every church member?"

"What is the advantage of belonging to the church?"

All these and other questions will be answered in the sermon.

God's Creation

The eternal, harmonious nature of God's creation will be brought out at Christian Science services Sunday in the Lesson-Sermon on the subject of "Reality."

Biggest Problem in Life Is Topic

A recent gallup poll, seeking to determine what is the chief problem confronting the U.S. today, produced the following concerns:

"Avoiding war, living costs, integration, atomic control, juvenile delinquency, foreign aid, need of religion, farm problems."

To this could probably be added the current conflict over religion in the coming election.

What is the biggest problem confronting people today? This Sunday's sermon at the Presbyterian Church entitled, "The Biggest Problem of Life" will consider this question.

Program Given for Society

Mrs. Willis Kilbourn presented the program for members of the Missionary Society of the Friends Church Thursday evening.

Sunday, Nov. 20, has been designated CROP Sunday in Lenawee County churches.

Delegates from churches of the five areas in the county met recently with the board of directors of CROP.

They decided that the Thanksgiving season was the most appropriate time to call on all people to give food or money to CROP for distribution to areas of greatest need around the world.

Non-church organizations are also asked to co-operate in this gigantic nationwide effort to provide food for starving people.

GIFT TO GRAY LADIES — Mrs. James Tonneberger and Mrs. John Quigley happily accept a brace of toys, valued at $135, from Bill Engle owner of Hobbyville. The items will be used for hospitalized youngsters locally and at th e Ypsilanti State Hospital.

Tipton Post Office Will Be Dedicated

Tipton's new post office will be dedicated Saturday.

Located on M-50, it is part of the Post Office Department's leasing program, which uses private financing for new facilities. Mrs. Thelma Swarts is postmaster.

The Tipton office has 960 sq. ft. of interior space, in addition to 32 sq. ft. of platform space and 3,600 sq. ft. of parking and maneuvering area for use of postal vehicles and the convenience of the public.

Guests who will attend the dedication ceremonies, set for 11 a.m. include the Hon. George Meader, Congressman of the second district, and Harry Kendall, field service officer of the Post Office Department from Kalamazoo.

The mail business has more than doubled in the past 10 years in the Tipton office.

The Tipton Post Office was first established in June 26, 1834 when located in a home, where Willard Cowen now resides.

William Camburn was the first postmaster.

Buying $1 Toy, Gets $135 Gift

Mrs. James Tonneberger went shopping for a $1 toy last week and ended up with a car-full worth $135.

A Gray Lady at Herrick Memorial Hospital, she stopped at Hobbyville to pick up a gift for a young patient.

Chatting with Hobbyville owner Bill Engle, she wondered if she was hearing things, when he offered to give her a raft of items he figured just weren't going to sell.

Retail value: $135.

Mrs. Tonneberger readily accepted and the same afternoon the variety of merchandise was loaded and on its way.

She said that much of it will be used here for young patients, while some will be sent to the Ypsilanti State Hospital, where there are upwards of 150 youngsters.

Mr. Engle explained that when he purchased the local hobby shop, certain inventory was included which he felt would not move readily and was happy to donate it.

Mr. Engle wonders if other business places, dealing with items for children, might have merchandise which could be given to the Gray Ladies.

Mrs. Tonneberger said she's be happy to pick it up.

Parents Forgives Murderer

The Women's Association of the Presbyterian Church is sponsoring a family night potluck supper and program on Wednesday, Sept. 28, starting at 6:30 p.m.

Beverage, rolls and butter will be furnished.

During the program, the movie "An Epistle from the Koreans" will be shown in the sanctuary.

This film is a challenging presentation of the true story of In Ho Oh, a Korean graduate student at the University of Pennsylvania, who was senselessly and brutally murdered by a gang of adolescents in the spring of 1958.

The city (including church-

Mrs. Earl Woods, Mrs. Kenneth Herrick and Mrs. Winthrop Winfield attended the fall style show at the Grosse Pointe Yacht Club Tuesday. They were luncheon guests of Mrs. Ida Wood Cook.

men) felt a helpless rage. Powerful public passions wanted to make these young murderers pay for this crime with their lives.

The peculiar anguish that Philadelphia experienced was not caused or relieved by the mass urge to give these boys maximum punishment.

The anguish was directly created by a letter written to Philadelphians by the murdered boy's parents.

The letter forgave the murderers, requested that justice be tempered with mercy and asked simply that a place be found to bury the boy.

The letter was written by Christians who expressed a miraculous transmutation of grief into Christian purpose to a city whose name means brotherly love.

Members and friends of the church are urged to attend this unusual movie by the committee in charge and to ponder where we live—at length and in depth.

CLEAN TALK

How To Block Sweaters

By ROYAL WELCH

Nearly every woman alive has had the experience of hand washing a sweater or knit garment, then fighting with it to put it back in its original shape.

Here are a few suggestions on the best way to get the results you want.

1. MEASURE THE GARMENT THOROUGHLY. By that we mean both the length and the width. The same with the sleeves. And make a special measurement of the shoulders. A good idea suggests itself from the experience of the cleaning industry. Take the garment before it's washed or cleaned, lay it on a clean piece of cardboard which will not fade, outline the garment, cut out the marked area. That is the shape to which the garment should be restored. Use lukewarm water and the mildest of soaps or detergents. Squeeze gently. After rinsing, roll the garment in a towel to remove excess moisture, then merely lay the damp garment on your "template" and gently stretch to the required shape. Or, if you've done a good job of cutting, you may be able to slip the garment over the board. Dry in the shade.

2. SIZE THE GARMENT. This is one of the effective of all ways to help a sweater or knit garment keep its shape. Not all garments can safely be sized, nor does the sizing last forever. But if properly done, not only will you have a garment of the identical size and shape after washing, but it will resist soiling and wear longer.

However, let us emphasize again, don't experiment. Why not instead, let the experts do the job—and do it right?

MYSTERY FARM PICTURES

IN OUR HERALD ADS . . .

Beginning in October, we'll run an aerial picture of farms in the Tecumseh trading area. To the first person who correctly identifies the farm, we'll present a pair of tickets to the Strand Theatre. Then, we'll give the original glossy print of the picture to the man who owns the farm. If he happens to have a John Deere tractor on his layout, we'll go one better. Our gift: a large color print of the picture! So watch for our first Mystery Farm — it may be yours.

Fleet Backs Roll Up 453 Yards in Victory

A surprisingly easy 39-0 romp over Willow Run here Friday night in the grid season opener proved one thing—Coach Dun Lectka has assembled a superb offensive unit which can move and score.

The Indians were sensational in exploding against an opponent which boasted of eight lettermen in starting roles.

Only the Tecumseh line, which to an extent is still untested, remains a question mark. Unless scouting reports on Dundee are misleading, the THS line will face a forward wall comparable in size, but with more experience.

Dundee, fresh from a 33-0 victory over Ida, brings one of its best teams in recent years to Tecumseh Friday night. Local fans also remember that the Vikings gave the Indians fits last year before a second-half surge won for Tecumseh, 20-0.

Against WR, the Indians simply had too much speed and power. Every Indian back starred.

Bob Koffron, Jon Aho and Mike Green tallied two touchdowns a piece. Tim Sisson, reserve quarterback, passed to Aho and Green for two of the scores.

Quarterback Dale Tuckey was easily one of the outstanding players on the field. His passing and ball handling exceeds all expectations.

Although the line's opposition was questionable, Ron Hathaway showed enough to indicate he'll handle his position capably. It was one of his best games for the senior tackle.

Tecumseh broke the game wide open in the initial period. After kicking off to WR and with less than three minutes gone in the game, Koffron broke loose on the third play for Tecumseh's first score.

Late in the first period, Tuckey hit Denny Bryan with a pass for 34 yards and a first down on the four. Two plays later, Green plunged over.

☆

AHO TOOK a screen pass from Sisson midway in the second stanza for 20 yards and the third score. Aho scored again in the third quarter with a five-yard jaunt around right end.

Tecumseh rolled up its final TD on the last play of the game. With the clock showing just seven seconds, Sisson flipped a short pass to Green with the 165-pound fullback covering the last 28 yards to paydirt.

Koffron hit the .500 mark on the place kick attempts. He punted well the two times Tecumseh had to boot.

Statistics tell the story with Tecumseh amassing a staggering total of 453 yards on offense while rolling to 17 first downs.

Willow Run gained 110 yards, lost 44, for a net total of 66. The visitors made six first downs.

Aho clipped off 66 yards in one play in the third period, the longest and prettiest play of the game.

Kuhlman Concrete Adds Another Link in Chain

Kuhlman Builders Supply & Brick Co. of Toledo, which has a concrete plant in Tecumseh, has acquired Knapp Ready Mix, Inc. of Monroe.

Acquisition of the Knapp firm, for many years one of the area's leading concrete suppliers, establishes the fourth Michigan yard for Kuhlman during the past 12 months.

The new truck-mixed concrete facility will enable the company to better serve its southeastern Michigan customers, Clyde Stevenson, Kuhlman president, said.

Ball Concrete Service, formerly operated by Kuhlman in Monroe, will be consolidated at the new location.

All of its Michigan plants operate under the name, Kuhlman Concrete, Inc.

Kuhlman currently is the exclusive concrete supplier for a series of bridges and interchanges on relocated US 23 between Dundee and Milan.

Founded in 1901, Kuhlman Builders Supply & Brick Co. was a pioneer in the development of truck-mixed concrete—dispatching its first load in 1928.

The company's seven Toledo yards supply a large part of northwestern Ohio's concrete and building material requirements.

Main office and display rooms are at 1845 Collingwood Boulevard.

Terry Makin, 205 Pine St., is Tecumseh manager.

Other Guy Not Always the Victim

About one farm family in four will suffer an accident during the next year. That could include yours.

The average farmer hears a lot about safety, according to Richard Pfister, agricultural engineer at Michigan State University. But he often feels he hasn't had an accident in years, so why worry.

"Next time you catch yourself doing something unsafe," Pfister urges, "think how it might seem to:

"Sleep with a painfully infected hand.

"Read a newspaper with no arms to hold it.

"Walk on a sprained or fractured ankle.

"Drive a tractor with a sprained back that aches constantly."

What Do Prescriptions Contain?

Sometimes you get a large bottleful or perhaps a few tiny tablets or capsules. But, each one also contains several priceless ingredients.

A prescription represents the accumulated knowledge a physician acquired after many years of study. To compound it properly, a pharmacist had to attend a College of Pharmacy for a long time. The drugs in it took much research to perfect and extensive clinical testing to insure safe use. Yet, the average prescription costs only about $3. Truly, an amazingly low price for better health.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

Tecumseh school board awarded contracts for fuel for the local schools at its meeting last week.

Beach Bros., Tecumseh, was given the contract for No. 2 fuel oil, and Lakeside Refinery Company of Kalamazoo was low bidder on Nos. 4 and 5 fuel oil.

Differences in bids and acceptance of low bids meant up to $1,200 savings for the schools, Supt. James McDowell reports.

Other bidders were Mobil, Sinclair, Sun Oil, Gulf, Leonard and Farm Bureau.

In other action, the board:

1. Approved selling the Culberston school.

2. OKed conversion from coal to gas at the junior high.

3. Approved a $23,900 library budget.

4. Set tuition for primary and secondary students, who come from outside the district.

Primary tuition is $164.19, and secondary, $177.11.

ELEPHANTS? LIONS AND HORN BILLS

Yep, we're back to Africa again. Several weeks ago we warned that perhaps we could not break the dark continent's spell and so it has happened. Of course, everything seems to have worked towards that end lately.

All the news mediums are full of the political unrest but that in itself would not warrant an article. What really started us was the magnificent wild life in the movie, "Master of the Congo Jungle."

Closely following this was the September issue of the National Geographic—always outstanding, this time they have out-done themselves and, with the exception of two articles, the whole wonderful issue is devoted to what else, Africa.

And lastly an outstanding bird-book "Living Birds of the World" came our way. The exceptionally beautiful colored pictures and surprisingly complete text did it—let's talk some more about Africa.

I never cease to become excited and thrilled at the mere mention of elephants and lions—they fascinate me.

The Belgian movie, which we talked about two weeks ago, had magnificent sequences of both these animals. With the African scene changing so rapidly we could not help, but wonder how long all the wild-life can survive.

☆

OUR FEARS were partially answered by the timely arrival of the Geographic. Coming right to the point they say "Africa's rich heritage of animal life must rely for its survival on an uncertain element—man's compassion."

The authors of another article have hope. They found "indications that more and more educated Africans—those who are now in power or who one day will lead their people — are . . . sympathetic to the concept of conservation."

Let's hope so.

In addition to the serious aspects, the magazine was fun, too. Imagine camping out and being awakened by a strange rumbling. Going to the window and peering out, but seeing nothing because it was pitch-black. Realizing that it should not be so dark outside because it was a bright moonlight night—of course he could see nothing, an elephane had his whole face in the window! Wow!

(The rumbling, by the way, was coming from the elephant's stomach. I understand their digestive systems can be frightfully noisy.)

☆

THERE WERE also many things of interest. For instance, did you realize that in his harem the king of the jungle, the male lion, keeps lionesses who are past breeding age to help the young mothers as baby sitters?

Or did you realize that the world's tallest animal, the giraffe, may give us the secret of controlling high blood pressure?

It seems that these animals have extremely powerful hearts, they pump blood up to the animals' brain, often a height of more than twelve feet.

When the head is lowered, a valve prevents a too rapid down rushing of the blood and likewise, when our tall friend stands up, valves again prevent a too rapid flow. Complete understanding of this may be beneficial to man.

☆

JUST AS it would be impossible to pick a favorite animal, I'll not even try to single out a favorite bird but certainly, among all those shown in that movie about the Congo, high on the list of the most interesting must rank the hornbills.

Here's where the bird-book enters the picture. We have already mentioned what a lovely book it is, the pictures, both black & white and colored, are just tremendous. Their article on the hornbills is most interesting.

It seems that throughout the warmer parts of the world there are some 45 species of this odd bird, all of whom have the same trait of imprisoning the female in a nest-fort.

When the family raising season arrives, the males, as is the case with so many other birds, court the females by feeding them.

If her answer is yes, they retire to a tall tree with a cavity in the trunk and she enters. Altho' she may leave several times, as soon as the clutch of eggs is complete, she settled down for a long stay. The nest opening is sealed up with only a bill-size slit being left open.

Thank goodness the male is the personification of thoughtfulness—all through the incubation period and even after that, until the young are able to leave the nest, he is the family's sole support.

So it is that in movie, magazine and book, Africa is full of the interesting, the fascinating, the exotic.

Next week however, we'll be back in Tecumseh, thinking back to the lovely summer nights which much, much too soon we had to bid goodbye.

Scouts Go to Tecumseh, Ont.

The Fuzz-Wart patrol of Boy Scout Troop 73, with Scoutmaster Howard Wilson, Jr., spent the weekend at Tecumseh, Ontario where they participated in the International Zone Campout.

The camp-out, which included the Windsor area, is a part of the world-brotherhood Scouting program.

The boys attending were Mike Higgins, Tom and Mike Wilson, Terry Haughn and Albert Cook.

The boys were interested in the type of camping the Canadian Scouts use.

They have large tents, with 10 or 12 each, and they do not use dinner flys such as U.S. scouts are accustomed. If it rains in the soup, it rains in the soup.

All Scoutmasters present had completed the wood badge course. This course includes training, with one year to answer 30 questions which are examined by national, district and local headquarters before the applicant receives his award.

All boys in the Fuzz-Wart patrol play instruments which they took with them and played for marches and at evening campfires.

All arrived home with plenty of swaps, which included, hats, belts and patches.

How to get up to 33% LONGER WEAR from clothes

Clothes washed in soft water wear longer because there is no soap curd. Your hard water curd makes the fibers in all fabrics brittle, and they wear out faster. In soft water, clothes wash whiter, cleaner, last longer.

He Was 'Mr. Mayor'

They called him "Mr. Mayor". The title could just as well have been "Mr. Tecumseh."

Hugh H. Hanna—just about everyone called him Oley—was a great booster of his hometown.

When he died last week at 76, condolences poured in from folks of all walks of life. The Green-Dunn Funeral Home was completely packed with flowers as mourners paid their respects.

A great crowd attended funeral services for Mr. Hanna in the Presbyterian Church Saturday afternoon.

Oley was one of the first persons we got to know upon coming to Tecumseh three years ago. He was gracious and extremely helpful in making us familiar with the operations of city government.

His wealth of knowledge about the past and present of the City of Tecumseh will be missed, especially by council and administrative officials.

He was a leader in the community, and as Tecumseh's first mayor, he was just and fair in his post as the city's leading official. His experience proved invaluable as a councilman this year.

Although we did not always agree with Oley, we always respected his judgment and views. He often came to our office to give us background information about city problems and projects.

Oley loved sports and especially baseball. As a young man he was an avid follower of the Tecumseh team, which played in a professional league. He could readily recount past actions of town nines as if the games had been played last week.

Oley was among the first, to refer to Tecumseh as "The Biggest Little Town on Earth." When someone mailed him a letter from a distant city with this address and the state, he was thrilled.

As a mayor, councilman, county supervisor, postmaster and township clerk over a span of 46, he served his fellow men with sincerity and dignity.

We will miss his office visits. He was quite a guy and made quite a record, one to be proud of.

A Brilliant Opening

It was a brilliant opening Friday.

Everything was perfect for the first football game of 1960. The weather, the band, the happy crowd and, oh, those Indian gridders.

Football is always fun. When your team is a winner, it makes the evening that much more enjoyable. Dundee comes next and we hope our lads are as sharp this week as they were last.

Coach Lectka says there is need for drill along the defensive line and we imagine that this phase is what he worked on during the week.

Dunc called the '60 opener the best in his three years here. We agree.

Two years ago we recall that heartbreaking 0-0 tie with Hudson. Without an electric clock to guide our quarterback, the game ended with Tecumseh not taking time out and losing a chance for a final play as we had the ball on Hudson's one-yard line.

Thank goodness, the Exchange club worked so hard to get a scoreboard and the players now know exactly how the time stands. Careful pacing through the final 60 seconds has won more than one game.

And thanks go to the Boosters Club, which is bringing us vastly enlarged and improved press box facilities, so vital for public address, movie work as well as room for newspaper reporters.

The Boosters still need members—at $1 each—and every fan in the area should sign up. Tim Neil, safety director at the Products, is the man to see on this.

Beyond this, there are still several items needed for the local gridiron.

First and foremost, new, more powerful lights are vital. They would replace ancient ones, which went up 20 years ago. The lights at Adrian's field, probably twice as efficient as ours, are what we should have.

More seats come next, enough to at least double our permanent facilities. At present, there is room for less than 1,500 in the home grandstand. More seats would mean more fans and increased income to pay for them.

Finally the field should be fenced in, to prevent non-paying guests, also another fence, immediately behind the benches, and enclosing the playing area, to keep fans off the edge of the gridiron.

Football in Tecumseh is a major operation and should be provided for as such. Money invested now will come back twofold in years to come.

In the meantime, keep fired up, you Indians.

Visiting Teachers Will Help Emotionally-Disturbed Child

(Editor's note: This is the first in a series of three articles on special education now offered to children throughout Lenawee County.)

VISITING TEACHER

The visiting teacher program is a school special service which deals with children who are having problems of personal or social adjustment in school, home and commmunity.

ONE IN A SERIES

The program is a preventive mental health service in the school and will be concentrated at the elementary level this year.

When a child is helped to adjust, more serious bad behavior as a juvenile and adult may be averted. About two children of every 100 need adjustment problems.

Symptoms of serious adjustment difficulties are extreme unhappiness, low achievement, lack of friends, withdrawal, strong feelings about authority.

The visiting teacher works with students on an individual basis. There are no group meetings.

It is the purpose of the visiting teacher program to help pupils understand themselves, to adjust to their environment and to assist parents and teachers to understand the specific problems and to help the child.

A written referral to the visiting teacher will be filled out by the classroom teacher, signed by the principal or his designated representative.

Before referrals are made to the visiting teacher program the teacher and or principal will have discussed the child's problem with the parents. Working with the child will be a cooperative effort. Parents will be important members of the team.

As the visiting teacher studies the child's problem, it is sometimes found that with some children the problem can best be helped through utilizing the services of a specific community agency.

The visiting teacher will work in each building on a regular schedule and will see each referral at scheduled interviews.

The visiting teacher will also work in a team relationship with the classroom teacher, the principal and the family.

Mrs. Nora Marie Johnson will serve the schools of Adrian and Madison area. Mrs. Elizabeth Kelley will has Addison, Hudson, Morenci, Onsted and Sand Creek.

Robert W. Johnson will work with youngsters in Blissfield, Britton, Clinton, Deerfield, and Tecumseh.

IMPORTANT TEAM MEMBERS—Visiting teacher Robert Johnson chats with the mother of Tecumseh students. When a child is emotionally disturbed, Mr. Johnson works with his teacher and parents, who join together in a team effort to help the youngsters overcome his problem. Thus, the mother and father play important roles in this new county visiting teacher program.

Set Date for Phone Directory

Sept. 23 is the final closing date of the Britton, Clinton, Tipton and Tecumseh directory, Dale Clark, district manager for General Telephone, said.

All customers who wish to make corrections or additions to the directory are asked to call the Tecumseh business office before Sept. 23.

"We 'lock up' the directory and send it almost immediately for printing to the General Telephone Directory Co. in Des Plaines, Illinois", Clark said.

"Our directory company prints millions of copies of directories each year and operates on a deadline basis, much like a newspaper. This is the reason we cannot accept any changes after the September 23 date.

"The directory company will assemble, print, bind and return the new Tecumseh directory in a relatively short period of time," Clark concluded.

Rummage Sale To Be Sept. 23, 24

Plans were to be completed for a rummage sale Sept. 23 and 24 at the Eagle Hall by members of the Eagle Auxiliary at a meeting Wednesday evening.

The sale, which also will include bake goods, will be Saturday beginning at 10 a.m.

Members who have rummage are asked by the committee to bring it to the hall by Thursday evening.

Don Brazee Is Among MEA Officers

LANSING — Educators in Region 3 of the Michigan Education Association will hold a regular regional council meeting in Monroe High School, Sept. 22, at 6 p.m.

About 75 teachers and administrators from Jackson, Washtenaw, Lenawee and Monroe counties are expected to attend.

Purpose of the session is to develop programs and formulate plans for action for the 1960-61 school year.

Presiding at the meeting will be Doris Stahl, Morenci, president of Region 3. Among regional officers are Don Brazee of Tecumseh.

Sonya Over Butler returned Wednesday evening from Riverside, Calif. where she has been a guest of the Roy Richard family for the past month. She visited her husband, First Class Electrician Ronald Butler at Long Beach.

Goal for 1960 Fund Drive: $70,000

Operation Tecumseh Foundation, 1960, is ready to roll.

A goal of $70,000 was set for the 1960 drive by the trustees of the Foundation at their Tuesday evening meeting.

This will be Phase No. 2 of the effort to bring Tecumseh a community center, as well as taking care of charitable obligations.

Last fall, in the initial effort by the Fund Foundation, after $20,000 had been donated to local, county and state charities, assets totaling $80,000 were banked.

James McKenna, local attorney, has been named chairman of the '60 drive, which will run from Oct. 18 to Nov. 10. His co-chairman will be Don Murphy, Chamber of Commerce secretary.

A breakfast for the drive's 150 workers will be staged in the American Legion hall Wednesday, Oct. 5.

Chairman of the six major divisions of the drive named so far:

Residential — Mrs. Ray Sluyter.

Industrial — Joe Fortunato

Commercial — James Mull and Jack Osburn.

Professional (including teachers) — Dr. Richard Coak.

Municipal employees — Cal Zorn.

Still to be named is the township group leader.

Of the $70,000 sought this fall, $23,000 has been budgeted for local charitable needs, also donations to Lenawee County United Fund agencies and Michigan United Fund groups. The balance will become part of the building fund.

No greater pleasure can come to editors than seeing more and more folks subscribing to their publications.

So it is with Jim and me as we go over current circulation figures — highest in The Herald's history.

Our Earn-A-Bike campaign shattered all expectations, bringing 591 new homes onto our subscription rolls, with a few days left in the effort.

As the deadline of Oct. 1 nears, bicycles have been given to 31 junior salesmen, who did such a terrific job in marketing subscriptions.

What did you think about the TV debate Monday night?

If you're like most of the people with whom I talked, your reaction probably was, "Didn't Nixon look awful?" (meaning his physical appearance.)

Being a Nixon man, I felt a little unhappy that he should appear so wane, drawn and pale.

I suspect that someone had the bright idea to powder his face because he has such a heavy beard.

Mrs. Wendell Disbrow, 516 Seminole St., has become an avid collector of unusual bugs, much to the delight of her sons, Randy, 8 and Rickey, 5.

When Mr. Disbrow arrives home from a hard day at work, he's not surprised to find his family diligently studying some new catch.

There was real excitment last week as Mrs. Disbrow discovered a praying mantis on a forsythia bush in her yard.

Like the expert she is, she snatched him up and had the mantis in a shoe box, with a neat cellophane cover complete with breathing holes, in a matter of minutes.

Randy and Rickey went wild and have practically done in the mantis showing him off.

Mrs. Disbrow did some research and comes up with the fact that such insects are usually found in warmer climates. (Hubby told her, maybe this means a mild winter.)

She also learned they are a mating insect and always travel

Ambrose Hamaker, Local Adman, Dies

Ambrose C. Hamaker, 61, Tecumseh advertising and public relations man, died early Wednesday morning at Herrick Memorial Hospital.

He had been confined since Saturday evening when he suffered a stroke at his home on N. Evans St. His death apparently was due to another stroke.

Known nationally in public relations and advertising circles, he was founder and president of A. C. Hamaker and Co., public relations and advertising firm. It was established in 1941.

Besides this work, he managed and operated the Tecumseh Motel, located next to his home.

Mr. Hamaker, frequently called "Bill" by his friends, was a member of St. Peter's Episcopal Church and a past member of the vestry.

He belonged to the American Pharmaceutical Assn., Michigan State Pharmaceutical Assn., and Michigan Academy of Pharmacy.

Mr. Hamaker often worked at The Herald when the late Earl Wickwire published the newspaper, and assisted here for a time after the publisher died in 1952.

During World War II, he volunteered for navy duty and was in uniform three years as a pharmacist mate, taking part in the

Final arrangements are not yet complete.

THS Ranks 8th in State

In the first state ranking of the Class B Schools this week, Coach Dunc Lectka's Tecumseh Indians rated eighth.

Unbeaten THS squeaked by Dundee last week and the narrow victory probably had something to do in the rankings.

Tecumseh has an 11-game winning streak going and should stretch it to 12 at Ypsilanti Lincoln Friday.

REPORT on BUSINESS

Mother-To-Be Gives Approval

"You know," smiled the early-morning customer of Clayton Greenwald, "This is the most marvelous thing for pregnant women."

She had just placed a pile of soiled clothing onto Mr. Greenwald's new in-car service counter without having to get out of her auto.

"There have been many such comments about our new setup and naturally we're real pleased," the owner of the local dry cleaners and laundry said.

Now situated on W. Chicago Blvd., near Bud's A&W Drive-In, Greenwald's has expanded into a 40x100 cement-block structure with brick facing on the front.

A special in-car bay is located on the east side. Eventually, an island driveway will help guide the flow of traffic.

When the move "west" was planned by Mr. and Mrs. Greenwald, they decided to add dry cleaning and have installed $20,000 worth of new equipment.

They have hired a seamstress, Mrs. Zora McWilliams, who handles alterations and repairs, also inspects all cleaning before it is released.

All toiled, the Greenwald staff includes 11 employees, among them a 16-year veteran with the firm, counter girl, Mrs. Margaret Hite.

This is open house week at Greenwald's and folks are invited to drop in and look around. There will be free coffee and donuts for all guests.

Large Tracks Are Discovered in Soft Earth

Lee Fogelsong, local contractor, found further evidence of "that strange animal" last week.

In the soft earth, just recently moved around by a big dozer, he found several large tracks, not pad marks like a dogs, but with the imprint of four toenails.

"Tracks about the size of tea cups", he told Mrs. James Tonneberger as he left work on Tonneberger Dr.

The animal moving with great speed, was sighted a week earlier by Mrs. Tonneberger on Newburg Rd., north of the city limits.

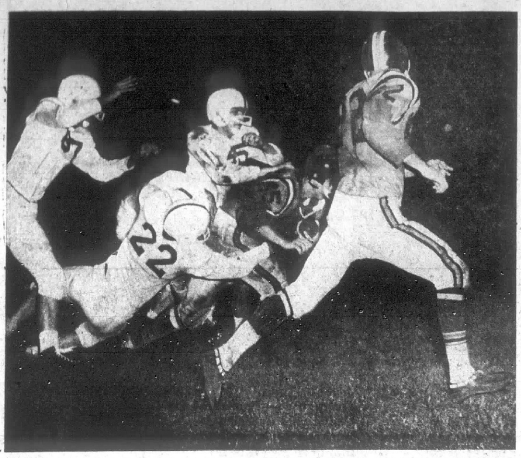
It Was Close, But Indian 11 Manages Win



GO, BOB, GO — Bob Koffron (center) slashed ahead with Dundee gridders doing their best to halt him. At right, Capt. Jon Aho swings in to see if he can be of any assistance.

By JIM LINCOLN

Dundee exploited a defensive weakness in the Tecumseh football team here last Friday night and nearly traveled home with a tremendous upset.

The Indians rallied to defeat Vikings, 14-12, for their 11th straight victory, but were far from impressive. Only two extra point kicks by Bob Koffron spelled the difference between a tie and a win.

Coach Dunc Leetka's squad has a chance to iron out some of their difficulties this week when the Indians tangle with Ypsilanti Lincoln.

The game there should be a breather, compared to the Dundee tilt, with the Indians winning by three or four touchdowns.

Completely outmanned in the line, Dundee took to the air and immediately found success.

Struggling to hold the Indians in the initial quarter, and doing so with a couple of mix-ups in the Indian backfield, the Vikings took over on their own 33 and scored in three plays — the only plays they ran in the entire period.

After two running plays netted just two yards, quarterback Joe Uhl hit Don Reifert all alone behind the Indian secondary. The husky Dundee halfback outraced two Indians for the score.

Tecumseh took the following kickoff and scored shortly after the second quarter began.

Big play in the drive was Koffron's 15-yard burst to Dundee's one. Mike Green bulled over to tie the game on the next play.

The Indians appeared on their way in the third period with Jon Aho and Green leading a march to Dundee's six. A fumble temporarily delayed their second TD, but Don Hathaway soon pounced on a Dundee fumble on the Viking three.

Aho scored on the first play, and Koffron kicked his second straight point to give the Indians a 14-6 lead.

The visitors, stopped on the ground, tried their aerial game again. With third down and nine on their own 43, Uhl connected again to Tecumseh's 33.

Reifert on the last play of the third quarter cut inside end for 12 yards, the longest ground gain of the tilt for Dundee.

Two plays pushed the ball to the 15 where Uhl tossed again to Reifert for a score. About everyone, except the officials thought Green had intercepted.

The two rolled into the end zone with Reifert coming up with the ball, and Dundee's second score.

Dundee threatened again just before the end with one pass just skipping off the intended receiver's fingers in the end zone.

The Indians then took over and moved 76 yards in six plays to Dundee's 19, where the game ended.

Aho sparked the final spree, running at his best and picking up 46 yards of the 76 total.

A glance at the statistics, without knowing the score, would indicate an easy romp for the Indians. Tecumseh totaled 16 first downs to Dundee's three.

The visitors also collected only 33 yards by rushing but 116 yards in the air. Tecumseh's total offense was 291 yards.

Dundee	6	0	0	6	—12

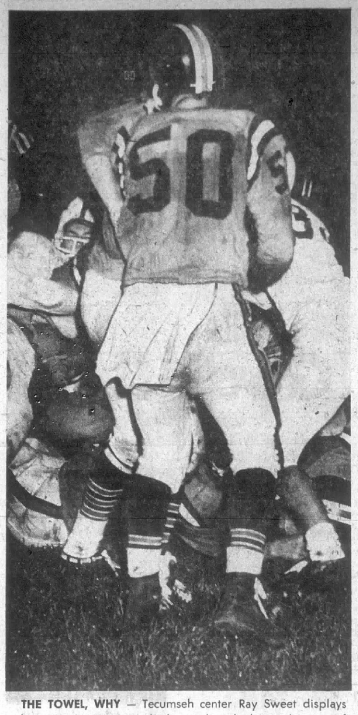
QB HURT — Star Tecumseh quarterback Dale Tuckey cracked a collar bone in practice last week, two days before the Dundee game. Dale was particularly outstanding in his ball handling and passing in the Willow Run fray. He'll probably be out for the year. Taking his place is sophomore Tim Sisson.



THE TOWEL, WHY — Tecumseh center Ray Sweet displays his extra equipment, a bath towel, tucked into the rear of his grid pants. How come? fans ask. It's elementary, Doctor Watson. When the field gets wet, so will the ball. A slippery pigskin can prove disasterous. Ray's towel, then is used by the T-quarterback to dry the ball and his hands. In the above action, Ray is watching Mike Green tally in the first half against Dundee.

Hunters Receive Warning

LANSING—Hunters are being cautioned by Dr. Albert E. Heustis, state health commissioner, to make sure their trailer heaters are safe to prevent a recurrence of the tragedies which killed nine and hospitalized at least four hunters in Michigan last year.

Deaths among hunters and others using trailers were attributed to a heater whose vent was improperly designed and constructed.

It allowed carbon monoxide to accumulate in the trailer instead of being drawn out into the air where it would be harmlessly dispated.

If you have reason to believe your trailer heater may not be functioning properly, have it checked immediately by a reliable service agency.

Hubby Surprises Guests of Wife with Dinner Music

Members of the Tecumseh Music Club held a potluck dinner recently in the home of Mrs. James Danforth.

They were surprised and delighted with organ selections played by her husband as they dined.

Following the business meeting the organ again came into the spotlight, this time under the fingers of Mrs. Donald Bush as she accompanied the group in singing familiar old songs.

The program was planned by Mrs. Perry Hayden.

Emphasis on more participation from more members is an aim this year.

In line with this next month's meeting will be "guest night", during which visitors as well as members will perform vocally, with instruments, or by offering some information on a certain composer or piece of music.

Wheeeeee. But we love it.

We are interested in any and all news and would especially ask that residents remember that the many student, service men and out-of-town subscribers are also interested.

Judy Doesn't Have To Change Last Name When She Marries

Judy May Palmer and James Harold Palmer were united in marriage in a double ring ceremony Saturday at the Raisin Valley Friends Church.

The bride is the daughter of Mr. and Mrs. Medford Palmer, 307 S. Maiden Lane, and the groom is the son of Mr. and Mrs. Walter Palmer of Adrian.

The Birdsall church was enhanced for the candlelight ceremony with palms on the altar, hampers of white gladioli and pompons and cathedral candleabra.

Louise Anderson and Robert Emery were the soloists accompanied by Wanda Cramer at the organ.

The bride was escorted to the altar by her father. She wore a floor-length gown of sheer organza and chantilly lace, featuring a Sabrina neckline with appliqued lace and iridescent sequins and pearls.

Her fingertip veil of bridal illusion was secured to a tiara of sequins and pearls.

The single strand of pearls at her throat were a gift of the groom.

She carried a white, lace-covered Bible topped with a white gardenia and pink rosettes.

Mrs. Richard Keller was the matron-of-honor, wearing a mint green chiffon gown with white cummerbund, a matching crown with short veil.

She carried a crescent shaped bouquet of tangerine carnations and fluffed white pompons.

Nancy Nighswanger of Imlay City, formerly of Tecumseh, was the bridesmaid, dressed identically to the matron of honor.

Roger Palmer, brother of the bride, was best man. Joyce Steuwe cousin of the bride, was flower girl, carrying a wicker basket of pompons and tangerine carnations.

Douglas Allshouse, also a cousin of the bride, carried the rings on a heart-shaped white satin pillow.

Guests were seated by William Emery, LaVern Allshouse, Jerry Emery, John Jeffrey and Jerry Cramer.

A reception, featuring a five-tiered wedding cake, topped with miniature bride and groom was held in the church parlors.

Louise Anderson and Jacki Rippa presided at the tea service.

Following a wedding trip to Sault Ste Marie the bride will make her home with her parents and the groom will leave Oct. 4 to go to Florida where he will attend a navy school for sonar technicians.

The bride is a graduate of Tecumseh High School and attends Jackson Beauty College. The groom is a graduate of Adrian High School.

The rehearsal dinner was given by the groom's parents Friday evening.

There was also time for a roll call, pledge to the flag, devotions, and an "assembly period" during which the business of the class was conducted by the president, Dick Butler.

Jalair Knudson Marries in Idaho Ceremony to Fellow Brigham Young University Student

Guests from California, Utah, Idaho and Michigan were present for the recent wedding of Jalair Knudson and John A. Crooks at the Idaho Falls Temple, Church of Jesus Christ of Latter Day Saints.

The bride is the daughter of Mr. and Mrs. Clifford Knudson, 302 N. Wyandotte St., and the groom is the son of Mr. and Mrs. Niles Crooks of Shelley, Idaho.

President John Davis of the Temple performed the ceremony.

For her wedding, the bride chose a floor-length gown of white silk organza over taffeta, fashioned with a scoop neckline and long tapering sleeves.

Her finger tip veil of French illusion was attached to a crown of sequins and pearls.

Her bridal bouquet was yellow roses and copper chrysanthemums enhanced with green fern.

The bride's three attendants included her sister, Linda, who wore a white nylon gown with green cummerbund and a short illusion veil dotted with sequins.

She carried yellow and copper chrysanthemums and yellow roses.

Sylvia Smith Is Married to John Green

The bride is the daughter of Mr. and Mrs. Cletus Smith, formerly of 709 Ternes Rd., and the groom is the son of Mr. and Mrs. Gordon Greene, 412 S. Pearl St.

"Close, but what do you expect with our star quarterback sidelined," were Bootin's first words after the Dundee squeeker.

Before we could respond, Bootin' was off again, "And Sisson filled in real well. A mite nervous, but game. He'll be all right.

"Before I forget," our guest went on, "How about a little ink

for that band Don Johnson has?

"Do you realize he is working with 93 kids"

"And of that number, 40 are freshmen? He's a great music coach, which is as it should be because we fans enjoy that halftime show as much as the games.

"So, come on, do a feature story on our band," our guest demanded.

"Well, the only answer we could give was, "Yes, certainly."

Watch for it next week.

☆

Tecumseh residents will surely miss Florence Howe's friendly personality around the downtown area. A story this week tells of her ending a 36-year career here.

Just to set the record straight Charlie Mensing was the first mayor Tecumseh had when it assumed the status of a city.

Charley served for a period of several months prior to H. H. Hanna's long rein as "Mr. Mayor."

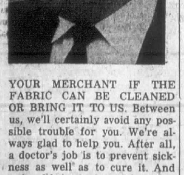
CLEAN TALK

Plastic and Plasticized

By ROYAL WELCH



Many articles of wearing apparel, such as raincoats, windbreakers, jackets, children's playsuits, housecoats, removable linings, as well as household articles such as curtains, drapes and slipcovers now are either made of plastic cloth or are treated with a butyrate or some other plastic.

Admittedly they have many advantages. However, when it comes to cleaning, not all plastics are ideal materials.

Here's the reason.

Some of these plastics may dissolve in cleaning. Some can be restored, others cannot. Some peel, crack or lose their dyes. Still others, consisting of two or more fabrics glued or "laminated" together with bonding agents, may come apart. And some, unfortunately, will last until they've been cleaned several times before coming apart!

It is not the purpose of these articles to try to make an expert out of anyone. Mainly we're concerned with helping you get more out of your clothes and other fabrics.

So here's the best advice we can give you! EITHER ASK YOUR MERCHANT IF THE FABRIC CAN BE CLEANED OR BRING IT TO US. Besides us, we'll certainly avoid any possible trouble for you. We're always glad to help you. After all, a doctor's job is to prevent sickness as well as to cure it. And we're fabric doctors. Remember too, we're always ready to do a good cleaning job every time you BRING IT TO Welch's Cleaners

Announcing the 1961 Ford . . .

Beautifully proportioned to the

CLASSIC FORD LOOK

An honor to be proud of. this is the medal presented by the international fashion authority. Centro per L Alta Moda Italiana. to the 1961 Ford for functional expression of *classic beauty.*

The 1961 Ford Galaxie Club Victoria—beautifully built to take care of people

BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

The 1961 Ford introduces a whole new concept of what a car can do for you . . . *and for itself!*

It lubricates itself. New nylon bearings and a newly developed lubricant keep the '61 Ford freshly greased for 30,000 miles. Good-bye grease racks! What's more, it cleans its own oil. The 1961 Ford's Full-Flow oil filter lets you go 4,000 miles between oil changes.

It adjusts its own brakes. A "mechanical brain" keeps brakes adjusted for the life of the lining.

Rust? Ford's body is specially processed to resist corrosion, even to galvanizing body panels beneath doors.

Ford takes care of itself on the turnpike, too, with a new 390-cu. in. Thunderbird Special V-8 that has all the punch you'll ever need. The 352 Thunderbird Special V-8 and 292 Thunderbird V-8 thrive on regular gas. And, for top economy, you can choose the '61 Mileage Maker Six.

This is the 1961 Ford . . . beautifully proportioned to the Classic Ford Look . . . beautifully built to take care of itself.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

LUBRICATES ITSELF. You'll normally go 30,000 miles without a chassis lubrication.

CLEANS ITS OWN OIL. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

ADJUSTS ITS OWN BRAKES. New Truck Size brakes adjust themselves automatically.

GUARDS ITS OWN MUFFLER. Ford mufflers are double-wrapped and aluminized—normally will last three times as long as ordinary mufflers.

PROTECTS ITS OWN BODY. All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing body panels beneath doors.

TAKES CARE OF ITS OWN FINISH. New Diamond Lustre Finish never needs wax.

Letter Writing Week Theme: Post 2 Notes

Twenty-third annual Letter Writing Week will be celebrated in Tecumseh Oct. 2 to 8, it was announced by postmaster Jack G. Metcalf.

Mr. Metcalf noted that there has been a revival of personal letter writing during the last few years.

"A letter remains the most economical, longest—lasting and sincerest means of extending greetings, communications social news, and exchanging ideas," the postmaster said.

During Letter Writing Week, he suggested that individuals write at least two letters: one to a friend or relative from whom you have not heard in a long time, and the second as a reply to a friend or relative who recently wrote to you.

He also urged correspondence to people in other countries as a means of promoting greater understanding among the people of different nations.

The slogan of this year's event, is "Letters Are Links to Friendship."

More than 200,000 posters will go on post office bulletin boards, and rural carrier vehicles, as well as in various schools and libraries.

Supervisors Reject Bid

An appropriation of approximately $3,000 for the Adrian Branch of the Huron Valley Child Guidance Clinic was rejected by the Lenawee County Board of Supervisors at a recent meeting.

George Kunze, chairman of the finance committee, said that the work of the clinic overlaps that of the newly-instituted Lenawee County special education program for handicapped children.

Dr. William Hewes of Adrian had requested the appropriation for the balance of 1960. Money would be available Jan. 1, 1961 from the United Fund.

Mr. Kunze also said that the board would investigate the regular appropriation to help support the main clinic at Ypsilanti.

Milton C. Porter, county superintendent of schools, and William Austin, superintendent of Adrian public schools, did not agree with the rejection of the supervisors.

Mr. Porter said that the needs of the local clinic would be even greater since probably more disturbed children would be discovered by three psychologists on the special education program.

Through My Window

THERE JUST WEREN'T ENOUGH OF THEM

By feel and by calendar summer is a thing of the past. My, wasn't it hard to say good-bye—of course, we are such sun lovers and enjoy the warm weather, so much I suppose that no matter how long it was, we would never be ready for summer to end.

This year, good weather was terribly late in arriving, but finally August and the first part of September "warmed right up."

We spent much time on the screened porch and it was wonderful. The evenings were equally pleasant. In fact, this year's summer evenings seemed more interesting than usual.

First, and although we didn't especially like them, it was quite a sight to see the huge flocks of starlings and grackles.

Early each evening, just before it started getting dark, they would start coming in from the country where I assume they had been feeding all day.

So noisy—the air was full of the sound of their voices and even their wing beats seemed to soosh and swish.

It was amazing how the flocks turned and wheeled about with such precision that, instead of many birds flying together, it looked like a single unit.

☆

FOR SEVERAL weeks, just as the dusk deepened into practically total darkness another noise dominated the evening.

Owls—we were sure of it and finally we actually saw one. There was just barely enough light left to see his silhouette, but out on the white end-of-the-street-barrier was a little round-topped figure — it could have been nothing but an owl.

After the first appearance he became, for a short time, a regular and although usually it was dark before he flies away, once he took off early and as he sailed into the trees on the far side of the creek, we were amazed at his wing-spread. It was surprisingly large.

☆

ANOTHER SUMMER evening treat was man-made.

It became—and in fact it still is—quite a favorite past-time for the west end of Logan Streeters to watch Echo.

Each new appearance schedule is carefully checked and at the appropriate time, everybody goes outside to satellite sight.

Fortunately Echo is quite punctual—think of the stiff necks that could result were he very late.

Much to my consternation his passes have co-incided with my being up only twice, but on these two occasions it has been most exciting to watch that bright "star" twist and turn and Bob and twinkle across the sky.

☆

OVER THE Labor-Day weekend it was our good fortune to see a short film about Echo Produced by the Bill Laboratories it was a vivid description of how the satellite was developed and why.

The message was most effectively told and we now think of it as not just a curiosity, but an important technicological advancement in communications.

We must not forget that little Sir Echo is a real feather in our caps—we are outdoing the Russians in things which are no tall show, but really amount to something.

BUT BACK to other summer evening pleasures. When, and already it is beginning to seem far away, all the windows and doors were opened the night time noises were something to hear.

Mother Nature's chorus gave full scale performances each and every night. Everything blended together, it was impossible to pick out any soloists.

To sit on the porch, feel the evening's refreshing coolness coming on and just listen to all the outside night things—glorious summer living.

But they say sight adds to sound and the finishing touches to these evening concerts came in the flickering form of many, many fire-flies. Our yard was full of them, it must have been an especially good fire-fly year.

SPLASH, SPLASH—one late visitor we couldn't see, but we think there is little doubt as to his identity. When dogs wade through the creek they make a certain type splashing sound and this definitely was not it—besides our Lady and the Duke across the street always announce other dogs and there was no barking at this splashing. We feel certain that it was a racoon.

We heard him only the one time, but chances are he visited us quite often. At least it's exciting to think so.

So it is that the summer evenings were lots and lots of fun. We enjoyed them so very, very much, our only complaint being there just weren't enough of them.

New $175,000 Dining Hall To Be Built

Construction on the new Boysville dining hall will begin early in the spring, according to Brother John Lavelle, CSC, school director.

The new facility will allow a larger enrollment at Boysville. A new dorm is also planned.

The dining hall will be located just north of the present one and the infirmary will either be moved or disassembled.

The new hall will have one large dining area, which will be divided into three smaller ones by partitions.

The partitions may then be opened to provide space large enough for banquets and dances.

The cost of the dining hall, approximately $175,000, has been raised by the Committee of 100.

MYSTERY FARM PICTURES IN OUR HERALD ADS . . .

Beginning in October, we'll run an aerial picture of farms in the Tecumseh trading area. To the first person who correctly identifies the farm, we'll present a pair of tickets to the Strand Theatre. Then, we'll give the original glossy print of the picture to the man who owns the farm. If he happens to have a John Deere tractor on his layout, we'll go one better. Our gift: a large color print of the picture! So watch for our first Mystery Farm — it may be yours.

Guest Soloist Sings from Germany

Betty Ann Reister and David Heimerdinger were married Saturday at The Congregational Christian Church in Clinton by the Rev. O. E. Priest.

The bride is the daughter of Mr. and Mrs. Rolland Reister of Tipton and the groom is the son of Mr. and Mrs. Clarence Heimerdinger, Sr. of Clinton.

A tape recording of the voice of Bill Heimerdinger, brother of the groom who is stationed in Germany, singing appropriate solos, enhanced the beauty of the ceremony.

The bride chose a floor-length gown of embroidered silk organza over taffeta featuring a full skirt topped with an overskirt.

She carried a white, lace-covered Bible topped with orchids and tiny yellow roses. The Bible was a gift of the family.

Mrs. Ruth Auten, sister of the groom, the matron-of-honor.

Judith Reister, sister of the bride, and Lassie Slusher were the bridesmaids.

Hudson Miller served as best man and the guests were seated by Terry Reister, brother of the bride, and Roger Brooks.

A reception for 250 was held in the Fellowship room of the church.

A four-tiered wedding cake, decorated in yellow and white, was encircled with a bridal wreath.

Among those assisting at the reception were Janet Cesario, Jan Rasmussen, Mary Ann Proctor and Ella Littrell.

Both young people are graduates of Clinton High School and the groom completed a short course at Michigan State University.

Following a one-week trip to northern Michigan, the couple will make their home in Clinton.

EARTH GIANT by Edison Marshall — At the age of five, Hercules crushed in his chubby fists the heads of two messengers of death that had invaded his bed of sheepskins. Who was this child? What was the source of his seemingly supernatural strength? Here the author searches for the man behind the myth.

POOR NO MORE by Robert Ruark — Craig Price was determined to get away from the poverty, hunger, and loneiness of his Carolina youth to where he wanted to go—the top, the pinnacle of power. The means to this end was not important. At the top too, was Susan Strong. It cost him a fortune to get her; the price proved too high for both the man and the woman.

THE DINNER PARTY BY Claude Mauriac—The time is autum. The The place is an elegant apartment in Paris. The people are a successful editor and his wife, and their six guests. The whole story takes place between the time the guests are seated, and the time they rise and pass into the living room for coffee.

TROUBLE IN THE FLESH by Max Wylie — Seton Farrier, the greatest dramatist of his time, lived in the clenched anviety of a man pursued by demons. Jill Farrier did what she could to quiet his restless soul. But her compassion could not shield her raging blackguard of a husband from himself.

THE LAND LIES PRETTY by Merritt Greene—Here is a tale in which the author takes his readers back to the rough Northwest Territory of 1832 during the lusty period in the history of the Great Sauk Trail undergoing its transion from a mere military road to the Chicago Turnpike, now U.S. 112. Authentic Indian legends and customs of the Potowatomi tribe are faithfully presented. Called on to teach what would be the equivalent of an integrated school today, through circumstances beyond his control, Martin Langdon sees the real friction between the red man and the settler brought to a focus. Complicating the picture is the struggle between Owaysa, a half breed girl, and Ellen Van for his affections.

From where I sit ... by Joe Marsh

Huck Saves the Day

Saturday's always "together" day for Huck Roberts and his missus. Five days a week Huck's selling on the road, so they like to spend Saturday afternoon by themselves.

Most of Huck's friends know this and stay away unless invited. All except one couple. Then Huck found a polite way to send them home.

Soon as Huck would spot the couple driving up, he'd put on his hat and coat—and step out the front door. Polite as could be, Huck would say, "Sorry we can't ask you in, we're just on our way out!" Then, soon's the couple drove off, Huck went right back inside!

From where I sit, neighborliness means a mutual respect between neighbors—for one's privacy, feelings and preferences. This holds for little things too. For instance, when a neighbor prefers a glass of beer or buttermilk, that's his business. And it's our job to respect his preference every day of the week—Saturdays, Sundays and holidays included.

VOICE of THE HERALD

Buffoon, Inc.

Even the greenest GI wouldn't go parading around in a wrinkled field jacket while attending a formal function. He'd have sense enough to don his best dress uniform and act like a gentleman.

Not ill-bred Fidel Castro.

While serving as a delegate from Cuba to the UN general assembly, hapless, hopeless Fidel lounged over his desk, garbed in an ill-fitting field jacket.

This single incident, better than anything else, sums up this man's entire makeup. It goes a long way towards explainjng his love-match with K and the Pink People.

We're convinced UN representatives from almost all of the other nations see the pair as we do—swaggering, egotistical; well, just plain fat-headed.

It's too bad that the august and distinguished United Nations general assembly should be subjected to such hacks.

But, from another angle, it's good. This has been the quickest way everyone can see what one segment of the world leadership really is like.

We applaud our president for his distinguished attitude. We hope the United States continues to operate only on this high plain.

The UN has come a long way in its 15 years of existence and it can continue to grow and prosper, so long as we quash such combines as Buffoon, Inc.

In Just Three Years

May we present two figures regarding the circulation of your weekly newspaper?

Sept., 1957 — 1,900 subscribers

Sept. 1960 — 3,350 subscribers.

For the most part, this has been a steady addition of new homes into which The Herald is delivered every week.

The growth has been, we feel, a reflection on our policy of packing every edition with well-written news and feature material, along with good, local pictures.

Tecumseh area folks want Tecumseh area news. Their hometown paper is usually the only place they'll get it—especially when it comes to reporting "in depth", the whole story, the "why" something has taken place.

The other evening, in skimming over some of our 1957 editions, we noted an article about "readability." It was written after folks had made comments to the effect that they liked the "new" Herald and found it easy to read.

The '57 piece was by way of explanation on this point, telling what your editors were attempting to accomplish as we produced The Herald.

Briefly, this is that thought.

Newspaper articles should always be made extremely easy to read. To do this requires careful writing and equally proficient copy editing.

All the interesting points of a story must be included, usually starting with the most important. Each sentence should be full of facts, devoid of useless words. Readers want to know what happened, without having to extract ideas like teeth.

Laying out the pages is another job which we tackle with great pains. Just as a sloppy dining table can stifle a hungry man's appetite, so can careless page makeup dull a reader's interest.

Staff-written editorials have been another fetish with us. Mostly they're about things which directly affect you, as a citizen of Tecumseh.

We shall continue these policies, always striving to make each edition more interesting than the last.

If you have any suggestions, please pass them along to us.

A Health Problem Beaten

As of Oct. 1, the operation of the city dump will change. For one thing, no garbage will be allowed.

Tecumseh was one of the last cities in Michigan to allow food wastes. It has been an unhealthy situation. We're glad that beginning Saturday, no more can be left at our dump.

Another point of interest to city residents: there'll be no charge to use the dump.

What happens to garbage now?

For those without disposals, this is going to be a problem. It can be removed by Tecumseh Hauling Service, at a price, of course, or carried to some approved place (we know of none at this writing) outside the city, or given to a farmer seeking food for his pigs.

Garbage cannot be burned within the city, except in a smokeless incinerator.

Folks who violate any phase of the new ordinance will be committing a misdemeanor, which could draw up to a $100 fine or 90 days in jail.

We congratulate council on the job it has done with the long-time dump problem.

Now, as far as we're concerned, the next job on the docket concerning health and welfare of local citizens, is to eliminate the pigeon menace in downtown Tecumseh.

MRS. ALBERT A. MUSCH

WHAT'S COOKING?

Really, She Is Not a Red

Mrs. Albert A. Musch, 4372 Blood Rd., stopped work on floral arranging at the Tecumseh Greenhouse long enough to share with Herald readers her recipe for Russian dressing.

Mrs. Musch enjoys her work with flowers as much as most people enjoy their hobbies.

Because of the variation of doing corsages, funeral pieces and arrangments for weddings and other social functions, she says it is never monotonous.

Mrs. Musch and her husband, "Ollie", bought the greenhouse now known as The Tecumseh Greenhouse, Floral Shop, Nursery and Garden Center in 1946 from Mr. and Mrs. Bert Oosterhout.

They have one daughter, Pamela, who is a junior at Tecumseh High School this year.

She was especially helpful to her parents this summer by doing corsages and floral arrangements when they were busy or away. She enjoys this work as much as her mother.

The family likes to entertain, bowl and golf.

The Greenhouse sponsors a ladies and a high school girls bowling term.

Mrs. Musch is a member of the First Presbyterian Church, the Herrick Memorial Hospital Auxiliary, the Country Club and the Order of the Eastern Star.

As may be seen in the picture, Mrs. Musch fills a wooden bowl with salad greens including head lettuce, celery, onion, cucumber, radishes and green pepper.

She garnishes the top with tomato quarters, hard cooked egg slices and olives, sometimes a bit of cheese.

To this she adds her easily made Russian dressing:

½ cup Chili sauce
⅔ cup mayonnaise
2 tablespoons cut sweet pickle
1 chopped hard cooked egg

The Holy Communion will be celebrated in the two churches of Deerfield and Holloway on Sunday, Oct. 2, as this is World-Wide Communion.

Discuss Fair Entries

A round table discussion concerning entries at the Lenawee County Fair was held at the meeting of the Lanning Wolverine 4-H Club Thursday evening.

Hugh Wright presided at the session when Gary Seevers, county 4-H extension agent, and seven members with their parents were present.

Of the eight members of the group, two were awarded blue ribbons, four awarded red ribbons and two white.

Jimmie Stites was chosen to display his entomology entry at the State Show. He won second place.

Hugh Wright was the other blue ribbon winner.

Mr. Seevers and parent leader, worked on the boys project records to be evaluated along with their cases.

The Achievement program will be held Oct. 20.

LaVern Stites was elected club reporter. Each member chose a project for fall and winter.

The home of Mr. and Mrs. James Feight will be the meeting place Sept. 23.

Refreshments were served by the Stites boys and Mrs. James Feight.

Acres PTA Fun Night Is Oct. 15

Tecumseh Acres PTA is announcing plans for the annual Fun Night.

It will be held at the school on Saturday, Oct. 15, from 5 to 10 p.m.

HERE!
'61 CHEVY TRUCKS
WITH WORK-PROVED INDEPENDENT FRONT SUSPENSION!

Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more... the latest editions of the haulers that **scrapped the I-beam axle and proved the important advantages of independent front suspension!**

You'll find new models for '61—long-wheelbase 4-wheel drive units—and thoughtful refinements throughout the line. But the big news for '61 is nailed-down proof (based on owner reports) that Chevy's torsion-spring design is the best thing that's happened to trucks in decades!

With Chevy's independent front suspension and Sturdi-Bilt design, you cruise over trails where other trucks creep. You feel the difference in less wheel fight and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of more work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all of them.

Check the latest specs with your Chevrolet dealer: capacity, power teams, options. Then, by all means, drive a '61. Once around the block and you'll never be satisfied with a front axle truck again!

Long AND Short

By TOM RIORDAN

Be sure to read Marda Gene Duncan's "Thru My Window" column this week. It's hilarious.

Before Marda hurt her back a dozen years ago, she was an active, athletic gal, served as a Tecumseh High cheerleader four years.

It was while a rather brash frosh at THS that she suffered a fantastic embarrassing event. That's what she tells about in her column.

☆

Goodwill does an unusual job. There are two stories about the organization in this edition, both well worth your reading.

☆

Ralph Helzerman, freshman pre-med student at the University of Michigan, was one of 300 who tried out last week for the Famed Men's Glee Club.

When 24 candidates were chosen, Ralph was among them.

That's like winning a spot on the "M" football team—maybe even better.

Among off-campus concert appearances for the group is usually a tour of Europe during summer vacation.

☆

Fay Whelan has been advertising that pictures of mystery farms from this area would begin appearing in his Herald ads starting with the first issue of October.

But there has been a delay — and it's partly our fault.

We arranged to have the aerial pictures made of 52 farms in this part of Lenawee County. The special photo team said, "You'll have your prints Oct. 1."

When nothing appeared last week, we wired the home base of the outfit in Iowa, "Where are our mystery farm pictures?"

A reply came via long-distance telephone Tuesday.

"We're real sorry for being late," said the young lady, "But our best camera has been getting repaired. It should be about two more weeks."

So there'll be more waiting, but we're sure everything will work out all right and it's certain the series Mr. Whelan plans will be most interesting.

☆

Second chapter: The Praying Mantis.

"Don't bring them into the house," advises a reader, who asked to go unnamed, "They do such a wonderful job of catching insects in the garden."

☆

Well, it happened.

You've got to hand it to those Democrats — they'll go all out for new members to their party, no matter how young.

Several leading Democratic candidates were in Tecumseh last week and I mentioned the desire of my nine-year-old political renegade daughter to have a Kennedy pin.

I confessed that I was pro-Republican, but that didn't detour their kind act. They did regard me with a little pity at my admission, but their eyes seemed to add, "All right, you're not one of us, but there is always your daughter."

So Carol has her wish fulfilled.

Probably the next thing will be a banner, then a stack of literature to pass out among the neighbors. Imagine, raising a Democrat.

Anyway, Carol can thank Sanford A. Brown, state treasurer who seeks re-election; Fred Gorth of Blissfield, hopeful for representative to the Legislature; and Madelyn Amstrong, who'd like to be county clerk.

I assured Harvey Hansen, Lenawee County chairman, that our newspaper would be happy to report Democratic activities in our area, just as we have the GOP.

With this, Harvey said that Governor Williams will be in Adrian for a coffee Thursday, Oct. 6, at headquarters there, 128 W. Maumee St., along with John Lasinsky, candidates for lieutenant governor.

Potato Grower Finds Answers

★ ★ ★ ★ ★ ★

He Builds Rig That Doubles Field Production

For 21 years, Frank Csokasy, a Tecumseh Township farmer who lives at 6548 Smith Rd., has raised potatoes as the main means of earning a livelihood. His crops have been excellent, his spuds of prime quality.

But Frank has long been nagged by two problems: 1. How to insure that all potatoes dug in a day's time are picked up and stored, thus not subjecting them to possible over-night frost. 2. How to keep workers happy

If America is a land of inventive genius, then potato farmer Frank Csokasy is a true nephew of his Uncle Sam.

Over a period of two years, Frank has perfected his own potato harvester.

In doing so, he has licked several nagging problems, the most serious being keeping frost from nipping potatoes which, have been dug, but not picked up.

MORE PIX PAGE 2

At the same time, he boosted employee morale 100%.

Without benefit of a drawing board or plans, Frank utilized a variety of junk and lumber he found around his farm.

His only purchase was a $62 conveyer belt about 20 feet long. His major material included two Model A Ford wheels and axle, several lengths of 2x4, odd pieces of metal and gears from an implement (Frank doesn't know what), which he discovered in his cellar.

Basically, here is the idea.

A conventional tractor pulls the rig, which starts with a regular potato digger. Frank has extended and heightened its conveyor.

Next comes his trailer — his invention — with running boards on which workers can stand.

The trailer is actually a long mobile conveyor extending the length of the digger. The spuds drop onto the trailer and with them come clods of dirts and vines.

The conveyor belt is wire mesh. Through its openings, workers punch down the dirt and debris. The potatoes roll along, drop down a chute at the rear of the trailer.

The spuds fall into crates, which sit upon a small deck (note picture on this page.)

A man behind the trailer sits the crate upon the ground when it is full, at the same time sliding an empty one under the chute.

When a row is complete—dug and crated—workers switch over to the Csokasy truck and drive along, loading on the crates. These are then moved to inside storage.

How is production?

Frank will grin when you ask him that.

"We used to pick eight rows in a nine-hour day. Now we do 16."

Besides potatoes, Frank also markets carrots and cabbages, most of which are contracted for by Campbell Soup at its Napplean, O. plant.

Hardly had Frank finished telling about his "new invention" than he pointed out a long, bare strip of soil.

"That's where I'm starting to raise Merriam blue grass," he explained. "I understand selling sod is a pretty good deal."

Yes, a real nephew of his Uncle Sam.

Band Festival To Be Tuesday

A 350-voice chorus is being added to the Band Festival this year. The theme for the big event staged on the Tecumseh Recreation Field Tuesday, Oct. 11, will be "The United Nations."

Eleven bands have converged on the field every autumn since the idea was originally conceived 14 years ago by Clare Camburn of Macon, THS band instructor for many years.

Choruses from several of the participating schools will sing in the finale. They will also do the National Anthem.

He Pleads Guilty to Two Charges

Holloway postmaster Harold F. Sackett pleaded guilty last week to possession of stolen mail and forgery.

He was arraigned before Federal Judge Ralph M. Freeman in Detroit.

The 40-year-old postmaster also operates a general store in the village.

Assistant US attorney John R. Jones said that Sackett forged two names to a $90.68 income tax refund check and cashed it at his store.

The check should have been sent to F. W. Post, Onaway, Mich. and it was only recently that he made a complaint, though it reached the Holloway post office in September of 1958.

Mr. Sackett received $2,100 a year for serving as postmaster.

Free Pancake, Sausage

★ ★ ★ ★ ★ ★

Being Served at Legion Hall Friday

WANTED—3,000 hungry Tecumseh area folks who enjoy pancakes and sausage. Report American Legion Hall, Friday, anytime between 2:30 and 8:30 p.m. Retail businessmen of Tecumseh.

That's pretty much the story. Tecumseh merchants, members of the Chamber of Commerce, are tossing their second annual free pancake supper.

Everyone is welcome.

A duty roster, that would put to shame most army KP lineups, will be made up of local merchants.

They'll set tables, clear them, pour coffee, refill syrup jugs — but primarily, they'll flip pancakes, thousands of them.

With half a dozen portable grills, the storemen will produce about 1,600 cakes an hour.

How much food is needed to stage such a gigantic affair:

600 pounds of pancake mix
700 quarts of milk
70 pounds of butter
100 gallons of syrup
300 gallons of coffee
300 quarts of milk
200 pounds of sausage

While folks are dining, they'll be entertained by Aunt Jemima, who is an accomplished radio and television vocalist.

In real life, she's Viola Sators, who is now an entertainer over Detroit radio stations WCHB and WJLB.

While living in North Carolina, she appeared on TV in Ashville and also did disc jockey spots on a Spartanburg, S. C. station.

"Remember," merchants state, "It's entirely free. This is our way of saying thanks to our wonderful patrons and friends."

Roosting Pigeon Problem Discussed by Councilmen

By JIM LINCOLN

Reports from city attorney James Beardsley at Monday night's council session revealed that three situations—

1. Roosting pigeons.
2. Post office lot transfer.
3. Lot leases for parking lot construction

—were yet to be completed.

Pigeons in the downtown area have been a nuisance with store owners for sometime.

Mr. Beardsley reported that "Roost No More", a chemical solution, has been applied to the Pallman building and is apparently working satisfactorily.

However, residents at the meeting reported the pigeons are now taking up posts on other downtown buildings and the nusiance is still not eliminated.

Also, the chemical applied at the Pallman building is merely temporary and will eventually wash off.

City officials are being held up in improving the parking lot behind Adrian Federal Savings and Loan until the government gives final approval for swapping that lot for a similar portion of Adams Park, across from city hall.

The local attorney said that telephone discussions indicate that the government is satisfied with the trade, but has yet to receive confirmation by letter.

Two leases are still outstanding for preparation of the area behind businesses in the northeast business block for a parking lot.

Mr. Beardsley said that he expected to have the leases at the next council meeting.

JOHN HAMILTON, councilman, was appointed to the Lenawee County Board of Supervisors, succeeding the late H. H. Hanna.

Council balloted with Hamilton receiving three votes and councilman Royal Welch, two.

An agreement to delay appointing a successor for Mr. Hanna on council again was made with an appointment scheduled for Oct. 17.

Robert Bonner, chairman of the city planning commission, and Robert Fuller were considered at Monday's meeting.

☆

IN OTHER action, council held the first reading of the Civil Defense ordinance.

Steve Illeck, CD director, reported functions and duties of the organization.

Recent CD appointments were: Steve Walsh, medical supply office.

Joe Rice, communication officer.

Wynn Matteson, deputy director in charge of field operations.

Milan Reds Sport 2 Fleet Halfbacks

Tecumseh's chances of winning or losing Friday night against Milan are dependent on two factors: the performances of Milan's Al Hassen and Bill Laskey and the Indians ability to recover from two poorly-played games.

Milan's coach-son combination has worked well this year with coach Ty Hassen's son Al sparking the team to a 2-1 record.

The young Hassen had a terrific '59 season and his dad already is reportedly tutoring him for all state honors.

Sporting No. 32 on his back, he tallied four TDs so far this season, including his team's only score against Grosse Ile.

Whether Hassen is better than Laskey is questionable. Several midwestern college student giants already are scouting Laskey, 6-1, 185 pounds, and one of the fastest backs in this area.

The Indians definitely will be below par for the Milan tilt. Besides losing quarterback Dale Tuckey for the season with a broken collar bone, Coach Dunc Lectka will miss halfback Bob Koffron and tackle Ron O'Neill Friday night.

Koffron bumped his knee on the opening play against Ypsi, and O'Neill under went an appendectomy Sunday night.

Clarence Champanois will start in place of Koffron at right half.

Clerk Says, 211 Sign Up To Vote Here

About 211 citizens have registered to vote since last August according to city clerk, Naomi Sallows, at the city hall.

Until recently when the students in classes of Wayne Reginall started a canvass only 37 had registered.

This definitely is a big jump in voter registration and mostly due to the work of the students.

Mrs. Sallows says that machines will be open and instructions for voting will be given at the city hall and at the fire barns for about a week before election day.

Absentee ballots are available at the office now, says Mrs. Sallows.

Deadline for registration is Monday.

County Goodwill Is Now 'On Its Own'

"As of tomorrow, we're on our own," Lenawee County Goodwiill executive director John Metz said.

This was last Friday, indicating that Oct. 1 was the date of the switch from being a part of the Detroit district to an independent unit.

Goodwill operates as a self-sufficient organization.

When a unit is "on its own" that's exactly what is meant. It must make its own way by selling things which Goodwill workers salvage.

In cases of capital improvements, outside help is permitted.

The Lenawee unit's operating ledger has been in the black so far in 1960—and that's the way it will have to stay.

During 1959, Goodwill made sales of $32,000 as against expenses of $40,000. Since it was then part of Detroit, the deficit was made up from there.

The Lenawee setup is currently being expanded, moving into the former H. W. Tuttle building, 261 W. Maumee St., Adrian.

This will consolidate the sales office and plant, where 14 physically-handicapped folks renovate used machinery, appliances and clothing, under the direction of Mr. Merz.

Buying the building, getting additional machinery and trucks will cost $35,000—all capital investments. This means a Goodwill fund drive, explains Mr. Merz.

When the Adrian location is squared away, he hopes to open a salesroom in Tecumseh.

Goodwill Provides Jobs for Handicapped Folks So They Can Earn Their Way

This is National Employ the Physically Handicapped Week.

It was originally designed to alert employers to benefits derived through hiring physically handicapped persons.

Today a more important purpose is telling the public what they can do to help. The best method available is through contributions of discards to Goodwill Industries.

Among all rehabilitation agencies it is unchallenged in preparing people for jobs after they have received medical rehabilitation.

Goodwill Industries enables every housewife, in a sense, to become an employer of a disabled man or woman.

Each bag of clothes contributed, or its equivalent in usable household discards, is an estimated day's work or a day's training in Goodwill's sheltered workshop for severely handicapped people.

Others even more severely disabled are given vocational evaluation and are then trained in home-bound work.

Those whose disabilities are less severe and whose handicaps do not bar them from jobs in private industry are given complete vocational rehabilitation service by Goodwill.

These people receive vocational evaluation which ferrets out his or her job potential, fits his or her abilities to a particular job, and then trains each person for a vocation in which the disabilities are an asset instead of a liability.

Thus by contributing discards to Goodwill, the public, without cost, offers hundreds of disabled persons a new design for living.

It is a fundamental fact that there is no complete rehabilitation for the physically handicapped unless rehabilitation winds up with a job for the person involved.

Goodwill Industries is unchallenged in following through in this essential step.

In addition, Goodwill itself is the largest employer of handicapped people in Michigan.

A non-profit organization, the only shareholders are disabled persons of today and tomorrow and the public in general, who save us taxpayers over an estimated million dollars each year through the Goodwill method of operational self-support.

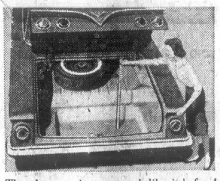
FRIDAY! THE GREATEST SIXTY-ONEDERFUL CHEVROLET

Here's the car that reads you loud and clear—the new-size, *you*-size '61 Chevrolet. We started out by trimming the outside size a bit (to give you extra inches of clearance for parking and maneuvering) but inside we left you a full measure of Chevy comfort. Door openings are as much as 6 inches wider to give feet, knees, and elbows the undisputed right of way. And the new easy-chair seats are as much as 14% higher—just right for seeing, just right for sitting.

Once you've settled inside you'll have high and wide praises for Chevrolet's spacious new dimensions (in the Sport Coupes, for example, head room has been upped as much as 2 inches, and there's more leg room, too—front and rear). Chevy's new trunk is something else that will please you hugely—what with its deep-well shape and bumper-level loading it holds things you've never been able to get in a trunk before.

Yet, generously endowed as this car is with spaciousness and clean-etched elegance, it holds steadfastly to all the thrifty, dependable virtues Chevrolet buyers have come to take for granted. Your dealer's the man to see for all the details.



There's never been a trunk like it before! The floor's recessed more than half a foot and the loading height is as much as 10½ inches lower.

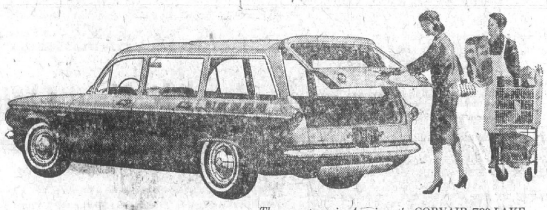
NEW '61 CHEVY CORVAIR

More space . . . more spunk and wagons, too!



The newest car in America: the CORVAIR 700 LAKEWOOD 4-DOOR STATION WAGON.

CORVAIR 700 CLUB COUPE. *Like all coupes and sedans, it has a longer range fuel tank.*

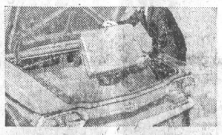
CORVAIR 700 4-DOOR SEDAN. *Provisions for heating ducts are built right into its Body by Fisher.*

Here's the new Chevy Corvair for '61 with a complete line of complete thrift cars.

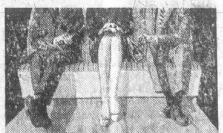
To start with, every Corvair has a budget-pleasing price tag. And Corvair goes on from there to save you even more. With extra miles per gallon . . . quicker-than-ever cold-start warmup so you start saving sooner . . . a new extra-cost optional heater that warms everyone evenly. Riding along with this extra economy: more room inside for you, more room up front for your luggage (sedans and coupes have almost 12% more usable trunk space).

And our new wagons? You'll love them—think they're the greatest thing for families since houses. The Lakewood Station Wagon does a man-sized job with cargo, up to 68 cubic feet of it. The Greenbrier Sports Wagon you're going to have to see—it gives you up to 175.5 cubic feet of space for you and your things.

Corvair's whole thrifty lineup gets its pep from a spunkier 145-cu.-in. air-cooled rear engine. Same rear-engine traction, same smooth 4-wheel independent-suspension ride. See the polished and refined 1961 Corvair first chance you get at your Chevrolet dealer's.



Spare tire is in the rear in coupes and sedans—leaving more luggage space up front.



Even middle-seat passengers sit pretty, thanks to Corvair's practically flat floor.

Now in production—the GREENBRIER SPORTS WAGON *with up to twice as much room as ordinary wagons (third seat optional at extra cost).*

A hydraulic patient lifter for invalids and convalescents is available for use in Tecumseh area homes.

It just arrived and will be immediately put to use in Herrick Park.

This equipment has been added to the supply already made available to residents here by the American Legion Auxiliary through its annual magazine sale.

"There is absolutely no charge for the equipment," said Mrs. Manwaring.

Now called Vern's Gulf, it has been completely repainted, inside and out.

Tecumseh High School band just launched its first "Safellite," in the form of a sheet of music.

In a rehearsal on the field this week, a sudden gust of wind came along and lifted music from most of the players racks and flung it around the field.

After a mad scramble, most was recovered, but one lone group of notes soared high up into the blue.

After school was dismissed, the music was still visible going higher and higher. One student was heard to remark, "Well, if it lands on the moon, the Reds will know we were there first."

Michigan Way Short of Nurses

A study of nursing manpower in Michigan, just completed by the Michigan State Nurses Association, indicates that Michigan is 27% below the number of registered nurses necessary to give safe nursing care to the people of this state.

Michigan needs 6,160 RNs.

Hospital nursing directors replied to a survey that 9,861 full-time registered nurses are needed to provide safe nursing care to the 241 hospitals included in the survey.

There are presently only 6,647 full time nurses employed in these hospitals, and survey data shows that 1,376 budgeted nursing positions remain unfilled.

In an effort to combat the shortage, 3,280 part time nurses, averaging two days per week, provide 18% of the total nursing care now available in hospitals.

Salaries for general duty nurses in Lenawee County averages $299 to $357 per month.

Judo Experts Show Kiwanians How It's Done

Fundamentals of judo were demonstrated to members of the Tecumseh Kiwanis club and their wives at a dinner meeting last week.

Harry Beswick, E. R. Barry, R. J. Marzola and Jack Cullip from the Milan Federal Prison told of the use of this method as a protective measure, since guards within the walls do not carry arms at any time.

Behavior problems, methods of handling them, as well as latest theories on correctional methods were also discussed by the four.

It was pointed out that today's prison sentence includes many advantages to the prisoner, including educational and vocational opportunities, heretofore not carried out in prisons.

Demonstration of a "shakedown" was given by Mr. Beswick and Mr. Barry, with a surprising number of "articles" being uncovered on the body and clothing. A demonstration of materials used by dope addicts followed.

The 17 Kiwanians and their wives also witnessed two "perfect attendance" awards given to Donald Judd and Harold Kopka.

Mr. Quigley told state police that he stopped at the intersection, but failed to see the Jones vehicle.

REMEMBER 1954?

The cautious buyer in 1954 decided to "Wait for prices to come down." — Remember ?

He's paying 11% more than the 1954 prices for the same house today and 61% more than the prices 11 years ago! Yes, we know that the 1960 buyer is even more cautious today, but we'd like to remind you of what happened before and, we feel sure, **will happn again** — he'll pay more in 1961 and 1962 than today's prices.

Shooter Hits 70 Out of 75 Clay Pigeons

William Vollmer was awarded the first prize cup and the traveling trophy for one year at the Fulton County Sportsman Shoot at Wauseon, O. Sunday.

Using a 12-guage shot gun, he broke 48 out of 50 clay pigeons and then 70 out of 75, topping 67 participants from northern Ohio and southern Michigan.

Mr. Vollmer has been doing registered shooting for five years and shot three years locally previous to that time.

He is a member of the American Trap Association.

He says about 2,400 gathered for a big trap shoot in August at Vandalia, O. that lasted for a week.

Mr. Vollmer loads his own shells, which cuts down on the cost of his hobby, a sport he recommends to other Tecumseh residents.

Blacktop Driveways

Driveways and parking facilities at St. Elizabeth's Church and School are being completely blacktopped this week.

48 HITS OUT OF 50 WON THE TROPHY — William Vollmer won the traveling trophy, first prize, at the Fulton County Sportsman Shoot Sunday. He broke 48 out of 50 targets with his 12 gauge shot gun, the best score of the 67 participants.

FOR ALL WE HOLD SACRED
. . . ATTEND CHURCH !

Grownups forget that a child experiences fear, disappointment and despair even more often than they.

Experience prepares the adult for sudden shocks. A child stumbles upon them unaware.

And each will breed more bitterness in his heart, if he has not found firm foundation for his courage, perseverance and hope.

But when a boy or girl has been given the undergirding of religious faith, the dreadful moments challenge rather than destroy.

Our children pray more often than we realize. They believe more confidently than we suppose. Life teaches them to draw strength from their faith . . . self-confidence from their trust in God.

But you and I must provide them opportunity to acquire faith. And our own example in worship and life must inspire their trust in God.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

+ We're As Close As Your Phone, Is Firm's Slogan

A well-known company uses this slogan "We are as close to you as your telephone."

This so adequately describes prayer in our relationship to God. Prayer has become so mysterious to many people that they have failed to see how practical and reasonable it is.

The Rev. Allen Wittrup will be enlarging on this concept as he speaks next Sunday, on "Person to Person", at 10 a.m. in the Methodist Church.

Also at this service, new Christian and American Flags for the sanctuary will be dedicated. They were given by the Mary Foster Circle.

The Intermediate Fellowship will meet at 5:30 p.m. and the Senior Youth Fellowship at 6 p.m.

Get Out and Work, He Says

William E. Kreger, Republican candidate for secretary of state, spoke to a luncheon at local GOP headquarters Friday.

He urged his audience of 50 to get out and work for GOP candidates.

"Don't just talk to Republicans. Talk to independent voters and Democrats."

Kreger said that under the regime of Governor Williams, Michigan, the state with the greatest industrial potential in the nation, was suffering the worst losses.

He claimed sloppy thinking in Lansing by the state administration had helped create Michigan's cash crisis.

Pointing out the state is $71 in the red, he said for example, in liquidating the $50 million veterans trust fund, nearly $10 million was lost because of inept handling.

Mr. Kreger is currently Wyandotte's mayor, serving his seventh year in the post.

Mrs. George Meads, 315 Adrian St., is now managing the local Bancroft Cleaners outlet.

She takes over from Mrs. Charles Howe, now Adrian driver's license bureau chief.

Mrs. Meads is being assisted by Mrs. Robert Kempf

Objective: New Band Bassoon

About 35 members of the Tecumseh Band Boosters Club met Thursday evening at the high school cafeteria and elected Mrs. Donald Beevers president for the coming years.

Other officers:

Vice-president — Mrs. James Barton

Secretary — Mrs. E. S. Oyer

Treasurer — Mrs. Hary Beland

Reporter — Mrs. John Surratt.

Mrs. Wayne Kaiser, chairman of the nominating committee, presented the slate of officers.

The retiring president, Mrs. Curtis Wright, presided at the meeting when the group voted to hold a teen dance Nov. 25 from 9 to 12 p.m.

Mrs. F. Dickinson, Jr. will be chairman of the event.

Members also voted to sell "Sta-green" again this year.

It is hoped that proceeds from the annual Tag Day will buy a bassoon for the band. These usually cost about $400.

Dates for the sale have been set for Oct. 14 and 15. The past two years about $500 has been added to the treasury each year through the sale of tags.

The money has been used to purchase two timpani cymbals, a baritone saxophone, six snare drums for the elementary grades, instrument racks, seven uniforms, drum cabinet and a scholarship for Dorinda Winters to Interlocken last summer.

Don Johnson, director, introduced Miles Cowdrey, his assistant, and his wife to the group.

He also expressed appreciation both for himself and Mr. Cowdrey, as well as for the school board, for the cooperation and excellent work done by the Band Boosters Club.

The band is anticipating a busy schedule for October.

Friday they play for the Homecoming festivities; Oct. 8 is Band Day at the University of Michigan; Oct. 11, the all-county Band Festival and Oct. 14, another home game.

Police Blotter

George Steele, 609 S. Evans St., was arrested Thursday and charged with violation of probation. He was given 10 days in the county jail.

Frederick Wayne Morley, 25, of 1006 Willow St. was arrested Tuesday and charged with insufficient funds. He was found guilty and fined $10 and costs of $4.30 and ordered to make restitution for three five-dollar checks.

David Harold Trelan, 16, of 417 Occidental Hwy., was given a summons Saturday for driving with a defective muffler.

Alice Marie Shirley, 16, of 412 W. Brown left the road Tuesday at 7:10 p.m. when she was turning east on Cummins St. from S. Evans and ran over the railroad tracks, causing her to lose control of her car.

Dr. and Mrs. Ralph Helzerman are in Gillette, Wyo. this week for antelope and mule deer hunting.

Coffee Flows at GOP HQD

Coffee is flowing at Republican headquarters in Tecumseh Wednesday, it was in honor of Judge Breaky, candidate for the state supreme court.

Next week, Oct. 12, Congressman George Meader will be in town, occasion for more brewing of the coffee bean.

Thirsty voters are invited to stop by for a cup—and of course, to chat with the GOP candidates.

TO THE EDITORS:

Enclosed find check for $4 for next year's Herald. I have taken The Herald for many years. It certainly has improved. I lived in Tecumseh 40 years. Now live in the lovely Irish Hills, Laphams Landing.

TO THE EDITORS:

Have you ever suffered from Righteous Indignation? My husband had a sever attack of it recently and hasn't recovered completely as of this date. After living in this town 22 years he forgot only once to pay the water bill on time. What happened?

Along came a letter stating that if it wasn't paid within so many days, the water would be turned off and a fee charged for turning it on again. The result was that both of us said naughty words (no children or young adults or ministers were around) and wondered what Tecumseh was coming to since we are a city.

The man of the house then hotfooted it down to the City Office, paid the bill, and made his complaint with the answer from them that they were only following procedure as outlined in the ordinance.

Our thinking now is that, perhaps, it is high time to amend the ordinance with reference to first offence. A telephone call would have brought in the money, saved four cents plus cost of the printed notice enclosed.

No wonder the city doesn't have money for replacing curb and gutter in front of our property that have gone to pieces in less than five year. Oh yes, I brought it to the attention of the proper authorities two years ago, last year, and again this year but to no avail.

Now Mr. Editor's will you please use your influence and ask the city officials not to hurt the feelings of any more residents who have been prompt in paying their bills through the years.

My feelings weren't hurt — sometimes I wonder if I have any—but I was plain angry when they hurt my husband who is very conscientious about such things.

Thanks for your prompt attention on my behalf.

Sincerely,

Ruth V. Rentschler (Mrs. T.)

314 West Shawne Street

P.S. I will write you some more letters about other things in Tecumseh.

TO THE EDITORS:

The 12th grade government classes of Tecumseh High School, under the direction of Mr. Wayne Reganall are undertaking a project as a community service.

We want to make sure that all eligible persons in Tecumseh are registered by Oct. 10 to vote in the coming election Nov. 8.

Citizens of Tecumseh may register every day 8 a.m.-5 p.m. and Saturdays 8-12 noon at the city hall.

Starting Thursday, Sept. 22, students will be calling at the homes of those people who have not yet registered.

This is a non-partisan effort on the part of our class, as we feel the need to stress the importance of taking an active part in governmental affairs.

This is the first time students have engaged in such a campaign, and only with the cooperation of the citizens of Tecumseh can it be a success.

REALLY BIG THIS YEAR—The sweet potato crop is breaking new records this year, at least in the garden of Hamilton Moore, Jr. of Macon. Mr. Moore holds a couple of giants he grew. They weigh nearly three pounds, are almost a foot long. Usual weight is about one-half pound. Why such a good crop? Mr. Moore states that the big amount of moisture helped, so did the not-to-torrid temperatures. While not gardening, Mr. Moore is a tool and gauge inspector at the Ford plant in Ypsilanti.

Shrimp Curry From India

By DOROTHY GRIGG

While traveling in the Far East the sumer of 1959, Mr. and Mrs. Joe Rice, 310 W. Logan St., were waiting in the Bombay air terminal for confirmation of reservations.

Their next hop was to be New Dehli.

As Mrs. Rice waited for her husband to return from the reservation desk, an attractive Indian girl walked up, smiled and said, "I might as well keep you company."

She was an Indian air lines ground hostess and as they chatted happily, she asked where in the United States the Rices lived.

When the Tecumseh lady said in a small community near Detroit, she replied. "My brother is attending the University of Michigan."

After Mrs. Rice had introduced her husband to the charming Kumid Kumble, who wore her sari with so much distinction, they promised to look up her brother when they returned home.

Thus has begun a strong, warm international friendship.

Raghuir Kumble, more often called Bab, is a graduate student in engineering and a regular house guest of the Rices.

He was here a weekend ago and of course that called for his favorite dish—curry.

This time they made it using frozen shrimp.

☆

MR. AND MRS. RICE were impressed with the people of India. They're happy to have become acquainted with their friend, Bab, who continues to help them understand his countrymen and their ways.

Mrs. Rice says, "Since English has been the official language of India for 150 years our understanding of the country is so much greater than of many others because we can speak and think as they do."

☆

SINCE THIS story started out to be one for the cooking column it seems appropriate to include the recipe as given to The Herald by Mrs. Rice.

Mr. Kumble taught her to make it.

SHRIMP CURRY

1 pkg. frozen shrimp, thawed and cleaned.
7 large onions, diced quite fine
¾ lb. butter
½ large green pepper, chopped
1 tsp. tumeric
½ tsp. red pepper
¾ large garlic bud or 3 small buds, diced

Cook onions in butter. Mix green pepper and spices with shrimp and marinate about 10 minutes. Add to onion mixture and cook until it browns about 45 minutes to an hour.

Don't let burn.

"Onions will sweeten the pepper," says Mr. Kumble. Cooked over a medium low heat, the curry is delicious served with a pilauf of rice mixed with slivered almonds and white raisins browned in butter with salt and pepper.

Mrs. Rice suggests buttered green peas and a salad of cucumbers and ground peanuts with sour cream dressing may be served with the curry and rice.

Wegner Family Buys Historic Residence

The Turner house, 710 Chicago Blvd., was recently purchased by Mr. and Mrs. Melvin Wegner, owners of Wegner's Market.

Since this home holds a prominent position in Tecumseh history, it seems a fitting topic for a story.

With the aid of Clara Waldron, Tecumseh's historian, this information was revealed.

The huge home was built during the years 1856-57 by Judge C. A. Stacy, following the design of an English castle he admired.

He hired a Scotch architect to come here to direct the building of it.

The house has a central hall with circular stairway to the third story cupola. It originally had two parlors, library and nursery beside dining room, kitchen and large pantry.

Servant quarters were on the second floor at the rear.

☆

JUDGE Consider Alphonso Stacy came to Tecumseh, as a stripling lawyer, in 1836 to join a Mr. Morey, with whom he had been associated in New York state.

He practiced law here for nearly 50 years, part of the time as partner of Edwin B. Wood.

He was Judge of Probate and Prosecuting attorney for Lenawee County and for 26 years was a member of the local school board.

With Perley Bills he built the town's first brick business block; the Sage building.

His home, when built, looked directly down Tecumseh's main street and was for years a center of the town's social life.

When the Judge and his wife celebrated their 50th wedding anniversary in 1888, 700 guests attended the afternoon and evening receptions.

A son, Scovel Consider, was a popular editor of The Herald for several years.

After his death and that of his brother, George, the estate came to the Turner family in 1917, through Mrs. George Stacy and the house was theirs until the recent sale.

☆

THE WEGNERS have become enthralled with their purchase and its history and plan to "put everything back the way it was."

Mrs. Wegner said, "Many things were left just as they were, including Judge Stacy's bookcase with his books. We found the old Stacy Bible of 1843 and births and death records from 1794.

"We plan to clean up the grounds, clean the brick and take down some of the vines that have grown out of hand.

"We have been told that underneath the paint the wood is tulip and black walnut. We are going to dig down to the original and find out," she stated.

Rummage Effort To Be Combined with Bake Sale

Mr. and Mrs. Richard Lask were hosts to 35 who attended the Christian Workers Class party at the Youth House of the First Baptist Church Friday evening.

Orville Bishop presented the devotions.

During the business session, following the potluck dinner, it was decided to hold a bake sale in connection with the rummage sale on Saturday, Oct. 29.

The class is planning an all-church family night with a potluck dinner and program of movies on temperance for the next meeting.

Enclosing Stage Increases Room at Patterson

Patterson PTA recently held its first meeting of the year.

It was opened by president Richard Hicks.

R. J. Gilliam, principal of Patterson, spoke on the problem of enclosing the stage in order to provide additional space to meet the growing needs of the school.

The teachers in the school were introduced and a room count was taken.

Miss Gibson's first grade won the prize for the largest number of parents at the meeting.

The meeting was adjourned and a "get-acquainted" program, followed with games and prizes.

Refreshments were served by Mrs. Wilbur Andrews and her committee.

Get Cub Pack, Speaker Tells Herrick Park PTA

Orville Collins, Boy Scout executive from the Wolverine Council, was speaker at the Herrick Park PTA Thursday evening.

He told of the necessity of getting a Cub Scout Pack organized under the sponsorship of the PTA.

Mrs. Leo Neitling's first grade won the banner award for attendance of parents at the meeting.

Cookies and coffee were served to nearly 60 by Mrs. William Rohweder, Mrs. Neal Brazee and Mrs. John Damon.

Dens May Be Discontinued If Parents Won't Take Part

Cub Scout Pack 73 holds its first meeting of the fall season Sept. 21 in the Union Hall when Carl Collingsworth, Glen Stoner, Robert Boyers and Robert Morley conducted the flag ceremony.

Members of Den 8 staged a candle service.

The plea for adult leadership was again voiced and it was noted that dens which cannot recruit den mothers from among their members, will be discontinued.

This means that work already completed by the Cubs will have been in vain as they must have a leader to advance them.

During a candlelight ceremony Mervin and Marvin Maynard and Barton Gillin were received into the Pack bobcats.

Other awards presented were:

John Gilbert — wolf and gold arrow

Billy Stone, David Filter — wolf

Bradley Brees, Steven Chumney — bear

Charles Gillies, Leland Milosh — lion and gold arrow

Carl Collingsworth, James Goodman, Terry Packard — Webelos badges and three-year pins.

A 50th anniversary achievement award was presented to Gregory Wise.

The committee encourages the Cubs to complete the requirements for this special award which will be given only during 1960.

The requirements include activities under the heading of sharing, learning about things, being fit and helping others as well as assisting with the "get-out-the vote" campaign.

It was stressed that parents must be present at Pack meetings to enable the boys to receive their awards.

Mrs. Wayne Pence will be in charge of used uniforms for those who do not have them.

The meeting was closed with a living circle.

Eric Robinson Named Director

Eric Robison, 16 year-old son of Mr. and Mrs. Ellsworth Robison, was elected a junior director of the Junior Livestock Association at the annual banquet Sept. 21.

He is a member of the Macon 4-H Rangers, led by Fred Long.

Special awards were presented that evening to Sharon Mitzner, Jerry Forsyth, Tim Johnston, Dick Faust and Judy Henry.

Kiwanis Club Welcomes City's New Teachers

Welcomed to Tecumseh at last week's Kiwanis meeting were seven new teachers in the Tecumseh school system.

Brief "hellos" were given by Mayor Harold Easton, Chamber of Commerce Secretary Don Murphy and Kiwanis president John Pobuda.

An address by Rev. B. O. Bashore followed.

Among the teachers were Wayne Reganall, Ron Croll, Worth Tyler, Ted Todd, Jerry Potter and Miles Cowdrey.

Announcement was made of completion of the new library sign.

The club also emphasized its interest in the coming elections, with support to Mr. Reganall's Economic classes in the high school in making the city aware of its citizenship responsibilities. This is a part of the Kiwanis "Citizenship Quotent" program for this year.

Welcomed as a new member was Dean Keeler, of Dean's Girls and Boys Center.

CLEAN TALK

Clean Last Summer's Things Now

By ROYAL WELCH

It's just plain cussedness — "human nature", if you want to call it that — but most of us are careless when it comes to cleaning a garment after we're through wearing it for a season.

Now is the time to clean them. They should, of course, have been cleaned and wrapped to protect them during storage. Then they'd be ready to wear, and less deteriorated too. (Also, may we recommend you bring this winter's clothes to us and have them cleaned before you put them away for the summer?)

And when it comes to cleaning of last summer's clothes, we recommend you bring them to us. Tell us that the garment hasn't been cleaned since last summer. That way we'll take the necessary corrective steps to put it back in shape. To do it yourself—even if you wanted to—is almost impossible.

However, if the garment can be washed, and you want to do it yourself—these suggestions will be helpful to you.

1. Measure the garment carefully.
2. Remove buttons or other trims that washing may harm.
3. Soak in soft water.
4. Wash by hand using a mild soap which will lather well. Be sure temperature of water is not more than 100 degrees F.
5. Rinse in clean, soft water 5 or 6 times to remove all soap.
6. Carefully squeeze out excess water and stretch to correct dimensions and allow to dry.
7. Press carefully and the garment is ready to wear.

Any way you look at it it's a lot of work, isn't it? So why not avoid all that? Just BRING IT TO Welch Cleaners.

Christmas

Groups Views Display

There's a little corner of Christmas in Frankenmuth, Michigan.

It's perennially abloom with the bright and spirited Yuletide decorations that most of us see during only a few weeks of the year.

Wally Bronner, who presides over it, calls it the largest display of outdoor Christmas trimmings this side of the North Pole. He estimates that about 95% of all outdoor Christmas decorative items manufactured in the U. S. are on display in his showrooms.

Among those from Tecumseh who saw a preview of this Christmas season's decorations at a special showing conducted by the Bronner Display and Sign Advertising Company were Don Murphy, Harold Green, Arlene Oustrehout and Sally Pope.

They represent the Chamber of Commerce as a special committee to obtain new decoration for the downtown area.

This was the annual early bird showing, which ran nine days.

Visitors are prospective buyers—representatives of cities and towns, stores, churches and private citizens. They come from many states and Canada.

A delicious Frankenmuth family-style chicken dinner, which Frankenmuth is famous for, was enjoyed by the local folks that attended the showing.

The private display precedes by about two months a display of this year's Christmas creations for the general public.

Players Will Hold Matinee

The Tecumseh Players will give a dress rehearsal matinee of "Charly's Aunt" in addition to the evening performance on Oct. 26.

This will give students an opportunity to see the show at half-price.

The cast read the entire play at the Player's meeting Sunday.

Forty persons have signed up to work on play productions so far. Mrs. Dick Coak is still interviewing. Anyone interested please call 492.

If the group continues to grow at the present rate, it will assure several plays each season rather than the two originally approved.

The group is now collecting costumes for its permanent wardrobe, along with props and furniture of various periods and styles for future productions.

'Sweetest Day' To Be October 15

All across the nation, sayings like "courtesy costs nothing" and "kindness is contagious" will take on an active meaning with the observance Oct. 15 of Sweetest Day.

Traditionally, the third Saturday in October has been set aside "to acknowledge courtesies and acts of kindness and make every effort to bring happiness to others."

Chief executives of committees have issued such proclamations asking their citizens to carry out the "make someone happy" slogan for one of the nicest observances of the year.

Sweetest Day began more than 30 years ago in Cleveland, when a kind-hearted man distributed small gifts to the orphans and shut-ins of the city to show them they had not been forgotten.

MARDA GENE DUNCAN'S Thru My Window

MEMORIES OF AN EMBARRASSING MOMENT

Watching some of the neighborhood gals practicing what we have taken to be cheer--leading routines, has brought back lots and lots of memories. Years ago, and I shudder to think exactly how many, I was a cheer leader for THS and believe me, it was lots of fun.

Just as now, we had championship teams in those days and being part of all the excitement was great. Memories however, are not made up of just the good things and one incident I remember was horribly embarrassing.

It used to be—and this will really date me—that Blissfield was one of the games of the year. It was the last game of the season and in my freshman year the rivalry was particularly intense.

Our record was good—but so was theirs.

A week or so before the game, a couple from Deerfield dropped by to call on us. They were old friends of mom and dad, but somehow I had not seen them for years and years.

Although this is the flimsiest of excuses, it is the only explanation I can offer for the unbelievable thing that happened.

☆

WINNING TEAMS always generate much excitement among the general public and so it was quite natural that our guests had not had been here long before the main topic of conversation became the upcoming game.

They were faithful Blissfield supporters and we, of course, rabid Tecumseh fans.

I was supremely confident about our team. There just wasn't a chance of their losing to the Sugar Boys—I was completely serious. When one is a freshman, football is nothing to be treated lightly. Ed had a wonderful time teasing, because of course, I bit at every baited line he threw.

Finally a bet was proposed, he wagered a hot dog that at the half, his team would be ahead of mine. I was sure of winning.

Game night came and although I don't remember the actual temperature, it is safe to say that it was cold.

It was always cold when we played Blissfield, especially when the game was there. In fact we were lucky if it weren't played in a snow storm or at least a freezing drizzle.

I do remember how exciting the first half was—the crowd was loud and noisy, they made cheerleading easy and, as the team played their usual game the thought of that hot dog got more and more real.

☆

HALF-TIME and we were ahead. Now Ed knew whose team was best. Bursting with excitement and ready to do lots of razzing about the lost bet, over to the opposite side of the field I went.

It wasn't long before I saw two men talking and yes, one of them was about medium height, rather slender and wore glasses. I went up to him and demanded payment.

He looked a little surprised, grinned at his companion and asked what I was talking about. Ho ho, he wasn't going to get away with that—I had lots of fun kidding, teasing and razzing about what a poor sport, his team was losing and he wouldn't even honor a bet and buy a poor starving cheerleader a hot dog.

I gave a tremendous performance and at last he shrugged his shoulders and paid up. My, but it was a delicious hot-dog.

Back on our side of the field, almost smug with self-satisfaction I was waiting for the second half to begin when someone spoke, my name and I looked around to see a medium sized man, rather slender and wearing glasses. Where had I been, he wondered, he had a hot-dog to buy.

☆

IN A SPLIT second I knew what had happened. It couldn't be—it just couldn't—and yet I knew that it was. "My friend" on the other side of the field had been a complete stranger. How horribly embarrassing.

I remember the rest of the evening as a nightmare. Wanting nothing more than to find a hole somewhere and crawl in, I had to go out onto that huge field time after time, after time, and there, in full view, lead cheers.

It was terrible — all I could think of was going up to a strange man and begging for a hot-dog. Never had a football field been so big, nor a cheerleader so alone and somehow the cold night suddenly became very warm.

When finally, after what was I'm sure the longest half of any football game ever, I dashed to the Blissfield side but alas, the hotdog buying stranger was gone. I had hoped to at least offer an explanation and an apology.

I was denied even that, however and for the next three years I struggled through the last game of each season with a red face which must have clashed badly with my orange sweater.

So it is that as I watch our little neighbor, she brings back many memories. I am still blushing at one of them.

VOICE of THE HERALD

Balance Could Be $127,000

We've said it many times before: Tecumseh is indeed unique and fortunate to have its Community Fund Foundation.

Not only does this organization take care of all our charitable responsibilities, but it also builds a surplus, which some day will bring us a civic center.

The Foundation officially went into operation last year. Its opening campaign was 'way over the top.

After $20,000 had been given to such group as Boy and Girl Scouts, the local Service Club (which aids families in distress), Red Cross, Salvation Army, the Heart Fund and half a dozen other such groups, the building fund was begun.

Its assets totaled $80,000.

Trustees of the Foundation announced last week that the goal for 1960 has been established at $70,000. From this, first of all, come $23,000 for charity.

If the drive is a success — and we know it will be when each of us digs in and does his share — the Foundation's cash balance will hit $127,000!

This would put Tecumseh well on the road to getting a community center.

Tecumseh is probably the first city in America to have a Foundation. (Britton now has one, too, patterned exactly after the original.)

We should look upon ours with great pride as it will shower benefits upon our community for many years to come.

Like Reading with 25-Watt Bulb

The football fan took a drive out to Britton to see the Tories in action and take a look at their new grid lights.

His first comment: "My gosh, these lights are nearly twice as bright as Tecumseh's. It's like night and day, the difference between the two fields."

How true.

Tecumseh's lights are 20 years old. They're dim and ineffective. It's like trying to read the evening paper with a 25-watt bulb in the lamp next to your chair.

The poles are the next thing to being tottery. It's difficult to get electricians to climb them and make needed repairs.

With more and more folks following Tecumseh football, it seems that something should — and now could — be done.

Of course, more stands are badly needed, so that more paying customers could be seated.

We note that Band Festival receipts always are split evenly between participating schools. Maybe, if a portion of gate returns went towards purchase of new seats, we would see the yearly Festival grow and prosper.

In any event, some concrete plan should be started.

One Vote — How Important?

We're getting along in years as a nation.

Isn't it time this question was answered? Remember Rutherford B. Hayes? One electoral vote put him in the White House.

One congressional vote saved Selective Service, just 12 weeks before Pearl Harbor.

One vote can take a frightened child off a busy highway and onto a new schooli bus.

A wise man once observed, "Liberty means responsibility. This is why most men dread it."

But if you dread it and ignore it, how long can it last?

Freedom like a receding hairline, isn't lost all at once. It goes gradually.

If you can spend a few minutes each day using hair tonic to save your hair, can't you spend a few minutes each year at the polls to save your scalp?

EDITORIAL in PICTURE

Autumn, what a wonderful time of the year. With it comes the first touches from Jack Frost's Finger tips, then the tumbling leaves of bronze and yellow and orange. What aroma is so tanilizing as their burning? Fall is a time for football, too. Each year a new batch of youngsters, in the five and six-year-old bracket, is introduced to this thrilling game, kids like Jackie and David Myers, sons of Mr. and Mrs. Dick Myers, 512 Nokomis St. The boys weren't satisfied with just a ball to handle, they insisted on head gears, complete with nose guards, of course. Jack takes over pivot duties with Dave handling the T-quarterback role.

Wash and Wear Woolens Are Coming in 12 Months

Wash and wear woolens for your wardrobe may be just 12 months away.

Bernetta Kahabka, clothing specialist at Michigan State University, says machine-washable, no-iron wool fabrics already have been produced in laboratories.

She notes that researchers are optimistic about the future

Wool fibers do not naturally muss or pill as easily as cotton or man-made fibers, but they do have a tendency to felt or shrink when washed with agitation and steam.

Researchers have tested various chemicals and resin finishes to stabilize the fiber. They found some treatments would control shrinkage, but would leave unwanted side effects, such as yellowing, change in hand or fiber damage.

Two promising treatments for wool have been developed aboard —one in Australia and one in Israel.

Researchers with the Wool Bureau in the United States believe minimum care woolen fabrics can be obtained through improved yarn constructions and better yarns, perhaps in combination with some slight chemical modification.

They report that untreated worsted fabrics woven of fine yarns and of tight construction have performed as well as in wash and wear tests as many resinated cottons.

They'll Have Secret Pals

The Progress Extension Club met Sept. 26 at the home of Mrs. Arthur Holdridge.

Present were two guests, Mrs. Lee Norcross and Mrs. J. Faulke.

The new chairman, Mrs. Kennard Wise, presided at the business meeting when it was decided to have a secret pal for the coming year.

The lesson on "Tasty Salad" was given by Mrs. Rowland Boyers.

Mrs. Frank Rice Wins at Bridge

Mrs. Frank Rice won high score at bridge Wednesday at the Country Club. Mrs. Orville Laidlaw took second.

Table prizes were won by Mrs. Harold Easton, Mrs. Kenneth Hall, Mrs. F. C. Hanna, Mrs. Fred Dickinson and Mrs. Paul Keyser.

Hostesses were Mrs. Hugh Andrews and Mrs. Joe Horvath.

Pvt. Sheldon J. Nichols, son Nichols, has been sent to of Mr. and Mrs. Lauren Fort Belvoir, Vt. where he attends drafting school with the Engineering Department of the army. He spent his 14-day leave at his home here.

When Friends Marry

BRITTON—Marilyn Plank and Donna Ivan are friends of long standing. The time tables of their lives, so far, have seemed to run in unison.

Donna was born in Britton. Marilyn moved here as a fourth grader. A close friendship soon had grown between the two.

They graduated together from high school last spring. Both had fellows and it wasn't long before the respective engagements were announced.

Marilyn picked her wedding date first, originally for November, but the navy wouldn't cooperate by granting leave to her fiance. Uncle Sam finally said he could give the groom a few days in early October.

Suddenly the old friends found themselves set to marry on the same weekend and they started to work out their plans together. When the pair brought their wedding pictures in, they requested they be run together.

Now the girls will be apart for the first time in many years, when Marilyn leaves with her husband for New York, where he is stationed.

"But we promised to keep in touch by mail," Donna told The Herald.

IVAN - BENEDICT

Tall vases and floor baskets of white gladioli, cathedral and palms former the setting for the wedding of Donna Elaine Ivan and Jerry C. Benedict. It was held Saturday at the Congregational Christian Church in Britton.

MRS. BENEDICT

The bride is the daughter of Mr. and Mrs. Martin Ivan, Jr. and the groom is the son of Mr. and Mrs. Gerald Benedict, all of Britton.

The Rev. Gustav Hannevik performed the ceremony. Bill Exelby accompanied by Peggy Jo Pocklington was the soloist.

For her wedding, the bride chose a princess styled gown of white silk organza short sleeves, scalloped bateau neckline outlined with sequins and Venice lace applique motifs on the bodice.

A seed pearl crown held her fingertip veil of silk illusion in place.

She carried a cluster of white butterfly roses and pinnochio pompons with cascades of the same blossoms outlined with foliage.

Three flower girls preceded the bride, wearing floor-length gowns of turquoise nylon over taffeta. They were Janay and Cindy Cevora and Debbie Benedict.

☆

MRS. HERMAN HOUPT was matron-of-honor in a ballerina length gown of turquoise silk organza fashioned with scoop neckline, cap sleeves and a butterfly bow at the waist of the full skirt.

Janice Ivan, Carol Becker and Janet Beal were the bridesmaids wearing Paris pink gowns styled identically to that of the matron-of-honor.

All of the bride's attendants wore lace mitts and pearl earrings, gifts of the bride. Their head pieces matched their gowns.

They carried reed circlets in cascade design with eggshell chrysanthemums and wood roses, outlined with brown satin oak leaves and centered with Fuji chrysanthemums and natural wheat.

Larry Patterson served as best man. The guests were seated by Neil Benedict, Kenneth Ivan and Larry Miller.

A reception for 600 was held at the Tecumseh Products Union Hall following the ceremony.

A five-tiered cake, encircled with a garland of foliage and nosegays of pink chrysanthemums centered the bride's table.

Among those assisting at the reception were Pat Eberhart, Bette Bailey, Kay Benedict, Deame Ivan and Elsie Trenasty.

The bride and groom are both graduates of the Britton-Macon High School.

The groom attended Jackson Business University and is employed by L. A. Davidson Construction Co.

They will make their home in Bay City.

The rehearsal dinner was given Friday evening by the groom's parents.

PLANK - SWANSTON

Six candelabra each holding five lighted tapers and decorated with clusters of brown oak leaves and large, white chrysanthemums, tied with autumn ribbons formed the background for the wedding of Marilyn Lee Plank and John William Swanston Sunday afternoon.

The Rev. Robert Allison Mitchinson performed the ceremony at the Ridgeway Methodist Church before 250 guests.

The bride is the daughter of Mr. and Mrs. Donald J. Ries, 8347 Dibble Rd. and the groom is the son of Mr. and Mrs. Thomas A. Swanston, 6288 Clinton-Macon Rd.

Dewey J. Frayer was the soloist, accompanied by Charlene Prielipp at the organ.

The bride wore a gown of white, silk organza over taffeta, designed and made by her former kindergarten teacher, Mrs. Earl Goetz.

It was fashioned with a rounded, scalloped neckline, short sleeves, and a full skirt which fell into a chapel length train.

Appliques of lace embroidered with crystal beads enhanced the bodice and a butterfly bow added further beauty to the back of the gown.

A four-tiered French imported silk illusion veil fell from a dainty Juliet cap of lace and pearls.

A white orchid surrounded by violets centered the cascade arrangement of pompons and chrysanthemums carried by the bride.

Cynthia Frayer was the maid-of-honor in a street-length gown of gold satin, fashioned with rounded neckline, short sleeves and bell shaped skirt.

She wore a pill box hat with nose veil of gold and carried a cascade arrangement of gold and copper chrysanthemums against a background of braided nylon wheat.

Janet Sue Beal, Pat Eberhardt and Sally Swanston were the bridesmaids, wearing street-length dresses of emerald green satin styled identically to that of the maid-of-honor.

They were matching pill box hats and carried floral arrangements of the same color, designed as that of Miss Frayer.

☆

DAWN DENISE BETZ, daughter of Mr. and Mrs. Dwaine Betz, of Toledo was the flower girl wearing a white gown in the exact design of that of the bride.

Her pillbox hat was of silk organza and lace and she carried a gold fabric basket with gold and copper chrysanthemums, dropping petals as she proceeded down the aisle.

Gowns of all of the bride's attendants were created by Mrs. Goetz.

Steven Porter, son of Mr. and Mrs. Ed Porter, of Sand Creek carried the rings on a white satin heart shaped pillow.

Jerry Rhodes served as best man. Kenneth LeRoy Plank, Van Lowe Frayer and Jerry Miller seated the guests.

Mr. and Mrs. Lloyd Wagner were hosts for the reception held in the parlors of the Church following the reception.

Arrangements of brown oak leaves and large white chrysanthemums were used to decorate the room.

☆

A FIVE TIERED white cake topped with miniature bride and groom with a garland of gold foliage and nosegays of white chrysanthemums and bows centered the bride's table.

Mrs. Ted Morlock cut and served the bride's cake and Mrs. Kenneth Plank served the grooms' cake.

Others assisting were Jean and Janet Linn, Bette Bailey, Mrs. D. J. Frayer, Kay Miller, Karen Condit, Charlynn Fairbanks, and Mrs. Jerry Miller.

The couple left Willow Run by jet for New York City where they will make their home. The groom, a Clinton High School graduate is an electrician's mate in the US Navy.

MRS. SWANSTON

The bride is a graduate of Britton-Macon High School and attended Jackson Business University.

The rehearsal dinner was given by the groom's parents.

THS 11 Stumbles to Another Win

By JIM LINCOLN

A lethargic Tecumseh eleven struggled to its 12th straight victory last Friday night with an unimpressive 26-6 measure over winless Ypsilanti Lincoln.

The Indians gave their poorest exhibition since strating their streak, missing tackles, blocks, fumbling five times and losing the ball on four occasions.

The undefeated record could well be something of the past after this Friday night when Tecumseh meets a strong Milan team in the annual Homecoming tilt.

HERALD PHOTO

LINEMAN OF WEEK — Husky Ron Hathaway was chosen top man along the forward wall by Coach Dunc Lectka in Tecumseh's victory over Ypsilanti Lincoln. "He has been outstanding in every game this year," the coach added. At 202 pounds, Ron goes both ways, playing tackle on offense and guard on defense. His first place kick attempt for an extra point, against Ypsi, was straight and true. Ron is a senior and was a regular on last year's undefeated squad. The THS mentor will name a Lineman of the Week for the balance of the season.

Milan, rolling to two easy victories to start the season, was upset last week by Grosse Ile. The Big Reds could well have been looking to their Oct. 7 date with Tecumseh.

Unless the Indians shake their listless play, Milan will boast more speed and certainly better tackling and blocking.

☆

FUMBLES AND intercepted passes cost the Ypsi Railsplitters a possible upset over the Indians. Ypsi dropped the pigskin eight times, losing it five times and had three passes intercepted.

All four Tecumseh scores resulted from Ypsi fumbles or pass interceptions.

Coach Dunc Leckta's club tallied twice late in the second quarter, the first time going 55 yards in seven plays with Mike Green going over from the one.

A few minutes later, the Indians pounced on a wild lateral on the Ypsi 35. Tim Sisson hit John Britton for 15 yards to the 20, and after an incomplete pass, Britton took a handoff, sweeping left end for the TD.

Green, who ran over for the extra point after the first tally, succeeded again only to have a penalty called against the Indians. Sisson's pass attempt then fell incomplete.

Tecumseh capitalized on two intercepted passes in the third stanza with Jon Aho scoring two TDs, one after a 19-yard sprint.

A penalty again nullified Green's run for the extra point on Aho's first score, but Ron Hathaway's placement on Aho's final TD stayed on the scoreboard for the Indians' 26th point.

Ypsi' Dave Sparrow, throwing 15 passes in the final quarter, connected late in the game from the Tecumseh 12. He hit big left end Larry Domas all alone over the middle of the Tecumseh line.

☆

THE INDIANS were only a shadow of the great team of last year and the 11 which trounced Willow Run in the opener. Injuries may or may not be a contributing reason.

Right Halfback Bob Koffron jammed his knee in the game's initial play. He missed the rest of the Ypsi game and is not expected to appear again Milan.

Green, subbing for the Koffron in the punting department, did well in his first test. He also subbed once, and unquestionably his last, for Koffron in kicking off. It's doubtful that he got much more than a cleat into the pigskin which rolled barely to midfield. A penalty nullified the muff.

As expected after Dundee's passing success, Ypsi moved through the air against the Indians with Sparrow tossing a total of 24 passes, completing 10.

Denny Bryan took much of the sting out of the passes, intercepting three, running one back 55 yards for a TD, only to have a clipping penalty nullify the score.

Whet's Going On at BOYSVILLE

By LOUIE CIAVONE

There has been quite a lot of action going on at Boysville since school began.

One activity, started just this year by Richard Heynen, Biology teacher, is "The Boysville Weather Station."

A group of boys, together with Mr. Heynen, will try to predict the coming weather from information gathered at the station.

☆

The Boysville Marching Band will go to Detroit to march in the Pulaski Day Parade Sunday.

In the evening, the Band will play a short concert at the Knights of Columbus Council 305 on Woodward Avenue for the benefit of the Holy Cross Auxiliary.

The Auxiliary is comprised of parents and relatives of Brothers of Holy Cross (who staff Boysville) from the state.

Brother Romain Healy, CSC is the adviser of the Auxiliary group.

☆

A new bowling league has been started by Brother Edward Cole, CSC.

This circuit has been split into "A" and "B" Leagues.

Each rolls once every two weeks at the Tecumseh Airport Bowling Lanes.

The owners of the Lanes have been very co-operative in helping Brother Edward set up the competition.

☆

Among other groups on the Boysville campus, we have the Biology Club, under the direction of Richard Heynen, which has for its purpose the acquainting of its members more fully with the study of life.

Last week, the **Biology Club** members elected their officers:

Joe Liscio — president
Gary Frei — vice-president
Dave McKnight — secretary
Rick Williams — treasurer.

☆

After taking their first two games from St. Mary's of Wayne and Deerfield, the **Fighting** Knights of Boysville did it again — emphatically.

The Boysville 11 **defeated the** Britton Tories, 45-0, last **Friday** night on the well-lighted **Britton** field.

This Friday the Knights **take** on Summerfield at Petersburg in another River Raisin Conference contest.

☆

The Boysville Junior Knights lost their opening game **of the** season to Morenci's JV, **48-14.**

Although well coached **by Te**cumseh Products' Joe Fortunato, the battle was too much **for the** inexperienced **Junior Knights.**

The Boysville JV take **on Sum**merfield's JV on the **Boysville** gridiron Thursday.

OPEN DAILY 2 TO 9 P.M. SATURDAY 11 A.M. TO 6 P.M.

THE DAUGHTERS OF NECESSITY by Peter Feibleman — This is the story of Edmund Choate, a man haunted not by his past but by his future, and of the women who changed, and were changed, by his life.

THE CHAINS OF LOVE by Zoe Oldenbourg — Two star-crossed lovers meet again after seven years of separation, during which Elie has been a prisoner of war, and Stephanie has raised their little daughter through a period of utter misery and want. But there are ghosts that stand between the two. Against the background of postwar Paris, its problems, its political ferment, Stephanie and Elie pursue their mortal struggle until one of them is destroyed.

MRS. SHERMAN'S SUMMER by Marjorie Fischer — "Here it was the beginning of July," reflected Mrs. Sherman, "and the summer had gone well so far. Maybe it would last." But Mrs. Sherman knew better. Crisis, not calm, was the natural state of her family, and Belle, the beautiful daughter, was the first to break the spell.

TRUSTEE FROM THE TOOLROOM by Nevil Shute Norway — Keith Stewart's well-ordered world revolved around his basement workshop. There he made his models, little engines, little clocks, and all sorts of things that worked. His was a happy, though rather uneventful life, until his sister and brother-in-law went down with their sailing ship somewhere off Tahiti, and Keith became trustee for his ten year old niece. This is a story filled with goodness, the charity, the best capabilities of man.

THE SECOND CHANCE by Almet Jenks — An observant stranger could have seen on him the hallmark of the upper-class Easterner; good schools and enough money. His many friends admired him. But no one, not even the women who loved him, knew that Blaine Winter was held captive by an eroding awareness of his own imperfection. This is the revelation of his second chance.

WALK EGYPT by Vinnie Williams — This is the story of a woman who wanted desperately to be a better person. It has for its setting a beautiful and authentically portrayed region of the Georgia hill country. The baby girl was named Toy because she was so tiny and doll-like, but by the time she was fourteen she had been hastened to a hardened maturity that ill matched her happy name. Only one person knew that under Toy's harsh, unfriendly exterior lay a basically gentle nature.

THE MANCHURIAN CANDIDATE by Richard Condon — A human time bomb is turned loose on an unsuspecting nation in this startling novel, at once a spy story, a love story, a fascinating tale of adventure, and a satire. Sergeant Raymond Shaw, brainwashed secretly and then freed with the rest of his patrol after capture in Korea, comes home an unwitting hero to be idolized by America. Only the Communists who indoctrinated him know when and how he will explode, and they alone control his actions as the fateful hour approaches.

THE SUN IS MY SHADOW by Robert Wilder — Against a brilliantly drawn background of America and Europe in the vital years of the late twenties and the thirties, Robert Wilder has written a vivid novel of the passions and hopes of the people who inhabit a world where money is the ultimate weapon which can bring them everything they want and need — except happiness.

A TWIST OF SAND by Geoffrey Jenkins — The locale of this story, a shoal infested, gale ridden strip some hundreds of miles long on the coast of South West Africa, actually exists, although it has never before been used as a fictional background. Young Captain Geoffrey had first seen this infamous coast during World War II when he was handed a suicidal top secret assignment. On this assignment the fate of Britain might depend.

Mr. Stork Protects the Gifts

A surprise cradle shower was held Sept. 24 for Mrs. Raymond Smith at the home of Mrs. Robert Bird, 805 S. Union St.

Assisting hostesses were Mrs. William Radar and Mrs. Jennie Bird.

A color scheme of yellow and orchid was carried out in decorating with streamers, extending from a chandelier to a white-covered table.

A cake, iced with yellow and orchid and made by Mrs. Bird's aunt, Mrs. Leon Quigley of Adrian, centered the table.

Mrs. Radar had charge of the games. Mrs. Smith opened gifts from a bassinette, guarded by a large white stork.

Far East Missionary Speaks

Marie Adams, missionary to China and Japan, will be the speaker at an evening meeting in the Methodist Church Thursday, Oct. 13, at 8 p.m.

It is sponsored by the WSCS.

Miss Adams is a graduate of DePauw University. She did graduate work in Boston, Chicago and Columbia universities and Union Seminary in New York City.

After 35 years of missionary educational work in China, she was sent to Japan where she was a teacher in Tokyo Woman's Christian College.

Retired in 1956, she returned to the States and spends most of her time speaking at churches, before women's clubs and high school student bodies.

She taught two courses in the WSCS Conference Schools of missions in six states the past four summers.

While in China, Miss Adams wrote some 30 articles for youth religious educational.

In 1955, she revised the last six books she did in China for re-publication. These have gone in to a second edition.

She has been ordained by the North Indian Conference as a local deacon and by the North China Conference as a local elder in appreciation of her service.

Available for regular Sunday morning services, she has been doing Lenten services in many places.

Being a photography fan, she has colored slides of Toyko Woman's Christian College, views of Japan, views of the royal city of Peiping and a large set of "Toyko to New York by Suez."

Refreshments will be served following the talk by Miss Adams.

'M' Project Looked Like Blue Sunset

Ed Heilman, Cal Zorn and W. G. Waldron attended the district supervisors meeting held in Ann Arbor Sept. 29.

The highlight of the day was a trip of the north campus, where a tour of the Michigan Memorial Phoenix Project was made.

Mr. Waldron said, "The main point of interest was the view of the reactor down through 20 feet of triply-distilled water. Something like a bright blue sunset."

Taxation was the morning session topic, with a member of the University of Michigan faculty as speaker.

"When Herman Titley died we lost the best supervisor Franklin Township ever had," Bud Smith, who with his sons farms 400 acres there, said Friday.

This was a comment made with great sincerity.

I never met Mr. Titley, but from the way Mr. Smith regarded Mr. Titley, he must have done an excellent job representing his constituents.

For a second time, someone has stolen a $39 transistor radio from Sluyter's Electric.

"If the person who took it will stop back, I'll give them the instructions and guarantee," Jesse related without a trace of humor in her voice.

This was a Channelmaster transistor and possibly some parent has seen one floating around the house and wondered where it came from.

Walt Nichols, Strand Theatre manager, wonders if there are about 10 dog owners in town who would like to have their pets attend an obedience school.

An expert is willing to hold classes here. All breeds would be welcome and the weekly sessions would go for about one and one-half hours on Saturday afternoons for 10 weeks. Both the dog and owner would attend.

If you're interested, call Walt, 395.

☆

When folks devote dozens of after-work hours to practice for a play, it's obvious they're dedicated to the job—and are having a lot of fun.

So it is with the Guild of Tecumseh Players, who are racing the calendar to have "Charley's Aunt" letter-perfect for two performances Wednesday, Oct. 26.

The other evening I wandered into a rehearsal and was astonished at the way these people have mastered the show's feeling.

As you probably know this comedy is about some English college students who invent an aunt for Charley. This calls for a man (it's Dr. Bob Murray) to dress as an old maid.

Mrs. Alton Snyder, who is in charge of costumes, did a masterful job with Bob's costume.

The evening I sat in was the birthday of Dr. Dick Hammel (he's Jack Chesney in the show). Dick was too busy for a party, so someone baked a cake and brought it along. The cast took a few minutes break and helped devour the pastry, then back to work.

Others in the show are Dick Boyd, Frank Dalton, Bertha Vale Ilunga, Mrs. Bob Murray, Dr. Carlton Cook, Earl Kotts, Mrs. Gloria Jadwin and Laura Seager.

Laura, who is only 13, might seem out of place with an adult group, but she was scouted for the small, but exacting role of a "17-year-old blonde" and according to reports, fits the job perfectly.

Mrs. Vallelunga, who is Dr. Archie O'Connor's assistant in Clinton, is exceptional in her rendering of Amy Spettigue — and for good reason. She used to work in stock productions in New York state, doubling in makeup.

The key to this whole operation is, of course, the director, Duane Furbush.

Duane teaches drama at Taylor Township High School and once was a THS instructor. He still lives here, making his home with his mother in their residence at "The Pit".

Duane is devoted to the theatre and has gained real respect from his Tecumseh Players. He settles for nothing short of perfection.

"Charley's Aunt" will have a matinee at the Strand Theatre for students at 3:30 p.m. on Oct. 26 with the evening show going on at 8:15. At night the ticket price is 95c.

Tickets can be obtained at Hodges Drug, Wright's Drug and Eggleston's Jewelry, or from members of the Players.

Grave Markers Will Be Sold

A sales office for grave stones has been started by Tom Corkery.

Being called Tecumseh Monument Sales, it will be located at the residence of Bill Pace on W. Chicago Blvd., next to Kroger's parking lot.

Mr. Pace is serving as firm manager. He recently completed a course at the Delano Granite Works in Minneapolis.

School Expenses Are Cut

By JIM LINCOLN

Money-conscious school board members learned Monday night that school administrators already had taken steps to curtail expenses.

Questioned as to possibilities of reducing some of the expenses, Supt. James McDowell replied that cuts already had been enacted. He doubted that further expense cutting could be achieved without altering the school program.

Savings have been made through a reduction in the instructional and custodial staffs. Last month, further investigation into the oil bids saved the schools about $1,200.

☆

IN OTHER action, Mr. McDowell explained the unsatisfactory performance of several school busses purchased recently.

He said that it was his opinion the chassis was not heavy enough, while the dealer has implied that the bodies are the trouble.

Two teachers were given extended sick leave pay, the amount to be the difference between regular salary and that of a substitute.

A fourth grade boy's request to be excused from physical education was denied, unless a psychiatrist recommended it.

A resolution completing legal requirements for sale of the Culbertson school was passed. Sale price was $3,300.

A request to excuse high school students at 2 p.m. for a matinee performance of "Charley's Aunt" was refused.

Found in Georgia

BRITTON—A pair of 16-year-olds, who vanished Saturday, were picked up by Savannah, Ga. police Tuesday afternoon.

Carl Cross and Dick Sommers, both juniors at Britton-Macon High School, were being headed back home Wednesday by Georgia authorities.

The Cross youth was supposed to go to Ann Arbor for Band Day and had a new pair of shoes, purchased for the event, and his trombone in his auto when he left home at 6:30 a.m.

Instead of driving to Michigan Stadium, he came to Tecumseh, withdrew his entire $221 savings account.

In Tecumseh, he met Sommers, who had driven there in the family car and abandoned it behind the Strand Theatre. Sommers brought along some family savings bonds.

Parents of the youths notified Britton police Sunday morning and a national alarm was flashed.

At press-time, it was not known why the lads took off.

Tecumseh Has Auto Show

A Tecumseh Auto Show is being staged Friday and Saturday by The Herald on the parking lot of Country Markets, Inc.

All city car dealers, Spec Simmons, Bob Karie, Harvey Wilson, Louis Schneider, Keith Bailey and Gale Fisher are taking part.

Country Markets, Inc. is donating the use of its east lot for the affair.

All '61 models—standards and compacts—will be there. Included are Chevrolet and Corvair, Ford and Falcon, Pontiac and Vauxall, Buick and Buick Special, Plymouth and Valiant, Oldsmobile and Olds F-85.

Approximately 25 cars will be shown. They'll be moved onto the lot shortly after noon on Friday and remain on display that evening, all day Saturday and that night until 9.

Free refreshments are planned Saturday for all guests — cotton candy for youngsters, coffee and donuts for adults.

There'll be a give-away Saturday at 6 p.m. Three certificates, each worth $300-off-list-price on a '61 model, are the major prizes. Awards are being offered by each of the five dealer.

A baton-twirling contest for youngsters will hold the Show's spotlight, Saturday between 4 and 6 p.m. Prizes are to be awarded to the four winners. Cynthia Poley and Lana Wright, top THS twirlers, will act as judges, also stage an exhibition.

Various contest classifications are:

A. Up to and including seven-years-old.
B. Ages 8, 9, 10, 11.
C. Ages 12, 13, 14.
C. Ages from 15 to 89 inclusive.

Kids entering the baton contest may sign in Saturday afternoon at 3:30 with Cynthia and Lana.

THS band director Don Johnson will have a 25-piece "pep unit" playing Saturday afternoon during the baton contest.

This group will also be required to have the text book used at Adrian College for first-year Spanish.

'Last Supper' Oil Painting Given Church

A numbered oil painting of Leonardo da Vinci's "Last Supper" was made and presented to the First Baptist Church Oct. 2 by Mrs. Neil DePuy.

The painting was unveiled in the chancel for the communion service and has been hung permanently at rear of the sanctuary.

During the worship service Oct. 9, the Rev. Blair Bashore read the service of dedication for David James Kroske.

The baby is the son of Mr. and Mrs. James Kroske of Ypsilanti, and the first grandchild of the Rev. and Mrs. Bashore.

On Sunday, Oct. 16, five deacons will participate in the service observing Layman's Sunday.

Burt Knapp will also be present as a representative of the Gideons and an offering will be taken to assist that organization.

Mrs. Sallows Gives Program to Class

Fifteen members of the Friendly class of the Friends Church met Oct. 4 at the home of Mrs. Herbert Murphy with Mrs. Naomi Sallows assisting as co-hostess.

Mrs. Sallows presented a program on the American Indians.

Mrs. Charles Manley presided at the business session when plans were made for a gift for Harvest Home Day.

Citizens Asked To Pay Tickets

Citizens are reminded that they can save themselves money and the police department much time if they would be more prompt in paying their parking meter violations.

When it becomes necessary for the city attorney to draw up a warrant for the police to serve, the fine is automatically $10 or two-days in the county jail.

'60 Fund Drive Opens

With a goal of $70,000, the yearly community charity campaign begins.

This will be the second year that the effort has been held as a part of the Tecumseh Community Fund Foundation.

Of the goal, $23,000 goes to local, state and national charitable groups.

This budget is broken down:

American Red Cross — $3,250
Catholic Social Service — $250
City recreation — $3,415
Huron Valley Child Guidance Center — $1,500
Irish Hills Girl Scout Council — $2,000
Lenawee Humane Society — $500
Michigan United Fund — $4,000
Tecumseh Party Fund — $1,200
Tecumseh Service Club — $1,200
Salvation Army — $1,500
Wolverine Boy Scout Council — $2,400

Enlarging upon several of these catagories, it should be noted that the $4,000 going to the Michigan United Fund will be split over about 30 agencies, including such groups as the Heart Fund, Multiple Sclerosis, Sister Kenny.

The Catholic Social Service is open to any family in the county regardless of creed, race or color. It supplements county court services to broken families.

Everything collected in this drive, over and above the budget, goes into the Foundation's building fund. At present, the organization has assets of more than $80,000.

This could swell to over $127,000 if the 1960 goal is reached.

The Foundation expects to announce its initial building about March of 1961.

Drive dates are:

1. Industrial, Oct. 10 to 25.
2. Commercial and municipal, Oct. 25 to Nov. 2.
3. Residential and township, Nov. 2 to 10.

80 Volunteer Workers Attend Opening Session of 1960 Fund Campaign

Eighty volunteer workers attended the Kick-Off breakfast for the annual Tecumseh Community Fund Foundation drive Wednesday at the American Legion Post.

General Chairman James McKenna mapped operation battle plans to the workers.

First he expressed gratitude to the American Legion for the facilities and to the Auxiliary for preparing the food.

Mr. McKenna also thanked Al Snyder of A & P, Don Saul of Kroger, Merl Hoag of Country Markets, Inc. and Joe Church of Van's Pastry Shop for the food, Richard Hicks of D & C and John Day of Woolworth's for the paper goods.

As a keynote for the drive, the local attorney selected a quote from the New Testament, "And a certain lawyer seeking to test him said 'And who is my neighbor?' "

Mr. McKenna said, "Test yourself. Who is my neighbor? In a sense and more restrictively, the people of this community with their sorrows, their joys, their plenty, their want, their hope and their accomplishments.

"This is my neighbor."

Mr. McKenna said further that the aim of the drive this year is to satisfy the great need of charity and to promote the cultural, social, moral, educational and recreational growth of the community.

In closing he said, "May I ask that in the course of this drive, you join with me in asking the blessings of Almighty God in our efforts to make Tecumseh a better community in which to live."

Go-Kart Races Set for Fayette

This special card of races will include three 50-lap features.

Clinton Bandsmen Hit Peak

By DOROTHY GRIGG

Bleachers were filled to capacity and the slopes about Recreation Field were loaded with people watching the 14th annual Band Festival here Tuesday evening.

From the presentation of the colors by members of the American Legion Post and the raising of the flag by Boy Scout Troop 73, until the last note of the National Anthem died away, the show was an inspiring success.

Clinton High's unit was especially outstanding among the 11 bands, from all over Lenawee County, taking part.

Each group, led by snappy drum majors and majorettes, presented songs and drills pertaining to the theme, "United Nations."

The chorus of 350 voices, with the mass band of 600, climaxed the evening, singing under the direction of Robert Whitacre of Adrian.

Kiwanis Club Sells Peanuts on Saturday

Tecumseh Kiwanis Club members will hold Phase 2 of their annual Kids Day peanut sale Saturday.

Due to the increased scope of the club's participation in and support of the youth activities, it has been found necessary to increase the fund raising projects.

Kiwanis Clubs throughout the world traditionally hold their Kids Day sales during the fall months to raise funds for worthwhile youth activities.

The local club supports by donation:

1. Little League baseball teams
2. Campfire Girls
3. Forney Clement Foundation at U. of M. for maintenance of awards for crippled children.
4. A boy to Boy's State.

Members of the club ask for public support in helping make this fund raising project a success.

Square Dancing Starting Here in Adult Course

Bonnie Mattis of Adrian, well known square dance instructor and caller, will be the instructor for eight-week square dance course being offered by the Tecumseh school adult education program.

The first session will be next Tuesday, Oct. 18, at 7:30 p.m.

All those interested may register at the first session, which will be held in the Tecumseh High School cafeteria.

The cost will be $1 per couple for each night, according to John Pobuda.

TEENS

By CAMILA GRIGG and JANE HODGES

Petite, blonde Janet Murphy was crowned queen of the 1960 Homecoming Friday night during half time of the THS—Milan game.

Janet and her court were encircled by the Tecumseh High School Band in a heart formation.

Carl Wilt, co-ordinator of Homecoming, presented the queen with roses.

Dale Tuckey crowned Janet.

Attendants were Karen Brosamer, senior; Linda Refner, senior; Suzie Mordon, junior; Angela Lopez, sophomore and Mary Smith, freshman.

Also announced during half time were the winning floats, which were judged in the afternoon parade.

The senior float took first place among the class entries, using the motto of Alaska, "S'no Wonder, We're on Top."

The float featured the top half of the globe with Alaska emphasized.

The winning club float was built by the Girl's Athletic Association using Minnesota's motto," Star of the League."

A large blue star decorated with silver trimming was presented on a blue base.

Annual homecoming dance, "Pacific Paradise", was held in the gymnasium this year from 9 to 12.

The Hawaiian theme was carried out by multi-colored fish nets encircling the dance floor.

Paper starfish, crabs and other fish from the sea were "caught" in the nets. A false ceiling of dark blue and light blue streamers completed the color scheme.

A grass hut was placed in the middle of the dance floor. During the grand march, the couples passed through it. As each couple entered the dance, the girl was presented with a tiny imitation lei.

The Ed Charles orchestra provided the music.

Injuries 'Fatal' to THS as Milan Romps to Victory

By JIM LINCOLN

There was no joy in Tecumsehville last Friday night when a visiting Milan eleven trounced the Indians, 27-0.

The loss, snapping a 12-game winning streak, was the first for the Indians since joining the Huron League last year.

Coach Dune Lectka's team failed time after time in trying to stop Milan's powerful offense, which moved almost at will in the first half.

After the first few minutes of play, Tecumseh's offense was practically eliminated with the loss of Mike Green and John Aho. A limping, Aho returned to action, but was far be o e par.

With the return of several regulars to the starting lineup, Tecumseh should get back into the victory column when it entertains Flat Rock here Friday night.

Flat Rock is winless in four outings and has dropped three straight league contests.

☆

MILAN capitalized on two fumbles for two of their three first-half touchdowns against Tecumseh, and intercepted a pass in the final minute for their last TD.

The visitors' second score resulted from an 82-yard drive. Bill Laskey capped the march with a 27-yard romp around Tecumseh's right end.

Milan scored in the first five minutes of the game when a Tecumseh fumble was covered on the Indians' 25. Five plays later, 185-lb. fullback Willie Thomas crossed over right tackle for the TD.

After recovering on another Indian fumble on the Tecumseh 25, quarterback Jerry Hitchcock hit Chuck Blackmer with a pass on the first play. Only 25 seconds were left in the half for a TD.

Tecumseh's deepest penetration came right after Milan's first score when the Indians missed by inches of making a first down on Milan's 16.

Only twice thereafter did Tecumseh move the ball into Milan territory. The Indian's inability to move was justified — their punch was gone.

In their drive to the Milan 16, Tecumseh lost both Aho and Mike Green, the only two starters left from the Indians backfield which started against Willow Run in the opener.

Bob Koffron, regular halfback, bumped his knee in the Ypsi game and sat out the Milan tilt. Quarterback Dale Tuckey was lost for the season when he broke a collar bone in practice before the Dundee tilt.

Up front in the line, Jim Simmons and Danny Greene both were hurt. Coupled with the loss of Ron O'Neill, through an appendectomy, Tecumseh's line was also below par.

☆

IT'S QUESTIONABLE that a physically fit Tecumseh team could have stopped Milan Friday night.

The Big Reds were fired up and determined to snap the Indians winning streak.

Clarence Champanois, subbing for Bob Koffron, was terrific for the Indians, especially on defense where he dumped Milan runners time after time.

He also nearly broke away for 75 yards on a kickoff runback following the second TD. Denny Bryan was also a victim of a "last-man" tackle on the game's opening kickoff.

Mrs. Mildred Carpenter of Addison spent several days last week with her cousins, Mr. and Mrs. Fay Dowling.

OUT GOES MIKE — Mike Green had to be carried from the gridiron during the rugged Milan game. His exit more or less symbolized the THS plight this year—loss of key players through injury. Mike may be back against Flat Rock Friday. Bob Koffron, out for two games, might also be in uniform.

DENNIS ROLLS — Dennis Bryan played an outstanding game against Milan, as did Clarence Champanois. Here Dennis is brought down after a short gain.

Junior High Gridders Clash

First Junior High School football game was held Wednesday evening with Dermont Poley's heavyweights playing Don Berkley's heavyweights.

A game between the lightweights coached by Ted Todd and those of Mr. Poley will be played under the lights at 6:30 p.m. Tuesday, Oct. 18.

Kiwanis Launches 'CQ' Program

A challenging new citizenship program is being launched in Tecumseh by the Kiwanis Club.

Merle Hoag is chairman of the club's committee.

Called the "CQ" program, it is aimed at challenging the individual citizen to appraise his personal CQ (citizenship quotient) and to determine if his acceptance of citizenship responsibility is in keeping with the problems before him and his community.

It is hoped that, if he finds himself deficient, he will set about improving his CQ and thus his community and his nation.

Part of the program is carried on by Kiwanis International, Mr. Hoag said.

A number of activities will be undertaken initially to familiarize citizens of Tecumseh with the existence and the nature of the program, and to start them on their own efforts to rate themselves.

A booklet entitled "How Do You Rate Yourself?" is being distributed by the committee. This booklet lists 20 aspects of citizenship responsibility and provides spaces for the individual to "rate himself" on each.

Plans by the committee include displays in stores, schools, a Sunday designated for local religious leaders to emphasize the CQ program.

There will also be participation with the Tecumseh High School government classes in their "Get out the Ballot" program.

Plans for a contest for design of a Tecumseh "City Flag," previously started, will be included in this program, Mr. Hoag announced.

Highlighting the termination of this program will be the Kiwanis Club dinner meeting on Nov. 3, when a Senior and Junior Citizen of Tecumseh will be honored.

From where I sit ... by Joe Marsh

Name That Name

Mrs. Wilkens, our kindergarten teacher, told me this one about her first day of class.

"To get acquainted with the new children," she said, "I go around the classroom and ask them to recite their names."

"What's your name?" I asked one little boy. "Freddie," was the reply. "You mean Frederick." I said, "We use only our proper names in class." So when I asked the next little boy what his name was, he stood up proudly and answered, "Beberick, ma'am!"

From where I sit, Bobby reminds me of folks who think what's right for one must be right for another. For instance, my neighbor used to scoff at my having a good glass of beer with supper. He believed that only coffee was proper. Truth is, a mealtime beverage, like most other things, is purely a matter of personal preference. When we can respect the other fellow's opinion as well as our own, we'll have passed the first "lesson" in tolerance.

Tecumseh's 92-piece High School Band in their black and orange uniforms made a spot about the size of a fifty-cent piece on the field of the Ann Arbor Stadium Saturday from where we sat in section 16.

But what a thrill to use the field glasses and locate Tecumseh's director and that one French horn played by the middle man in our family in this spectacle of 12,000, the world's largest band.

Such a panorama of vivid color as the 189 school bands swept the field in a matter of seconds during the halftime of the Michigan-Duke game.

Among the 70,000 attending the 12th annual Band Day were these Tecumsehites, Mr. and Mrs. James Lincoln, Mr. and Mrs. Terry Mackin, Dr. and Mrs. Robert Murray, Dr. Arthur Brown, Mr. and Mrs. James Blocker, Mrs. Curtis Wright and Mrs. Joe Poley.

She and her husband, with Mr. and Mrs. Wallace Wilkin and Don Daniels, spent 2½ hours Sunday painting cross walks on the county road running past the school and also on both sides of M-50 at the intersection of the town. They also painted the word, "school", on the road to warn drivers that there is need to go slow and watch for the little people.

There will be Baptism at the 10 o'clock service, and those desiring to have children baptized may call Rev. Wittrup.

Intermediate Youth Fellowship will meet at 5:30 and Senior MYF at 6 p.m.

This figure is possible through contributions of canned fruit, vegetables and produce, by friends of the Rescue Home.

Colorful displays will be arranged by Mrs. Herbert Murphy, including a special table for the boy's and girl's gifts.

All gifts are to be delivered to the church by Friday evening.

2 Streets Are Paved

Crews from Ayling Asphalt Paving Co. of Adrian were busy with three projects in Tecumseh this week.

The firm was black-topping portions of N. Union St. and Brown St., along with the off-street parking lot behind the fire station.

Total cost of the work: $23,000.

City manager Ed Neison states that he had hoped also to black-top the lot behind Adrian-Federal Savings & Loan, but the title transfer with the federal government has not come through.

The postal department owns the land and is trading it for the lot across from city hall. However, the official paper has still not been cleared.

If it should reach Tecumseh before Ayling has finished the current work, the other lot will also be paved.

Union St. is being done from Chicago Blvd. to Evans Creek, just below St. Elizabeth Church.

Work on Brown started at N. Evans St. and continued to the New York Central tracks. It was originally planned to go to Union St., but funds were running low and the short strip from the tracks west seemed in fair shape.

Next step for the parking lot will be lining, lighting and metering it.

Supper will be served in the cafeteria from 5 p.m. on. The menu will consist of sloppy joes, hot dogs, potato salad, baked beans, potato chips, jello, pie, ice cream bars, pop, milk, coffee

Parents wishing to furnish any of the above contact any room mother, Mrs. Harold Ruhl (Macon phone) or Mrs. Charles Bater (Tecumseh phone)

The next meeting of the committees will be Oct. 26 at 1:30 p.m. at Hall Memorial Library in Ridgeway. All room mothers are to be present and prompt.

CLEAN TALK

Fruit Juice Stains Are Mean

By ROYAL WELCH

Grapefruit, orange juice, lemon juice—restful, refreshing morning pickups, yes sir!

But when the hand is shaky, or Buster grabs and spills the fruit juice in your lap—or maybe dribbles it all over that new suit you just got for him—then you got trouble.

Well, fruit juices penetrate into the very fibers of the fabric, and often they're invisible — until heat is applied. Then a brown spot appears. And they're a breeding spot for moths too.

So bear with us when we repeat once again:

If the garment is washable — sponge with clear water. Don't use soap. And don't iron unless absolutely sure the stain is out.

If the garment is cleanable—leave it alone. Don't rub or wipe, as this will cause deeper penetration into the fabric fibers. Just let it dry and bring it in to be cleaned . . . the sooner, the better.

Fruit juices, being acid, require quick action because of their effect on dyes. If allowed to stay too long, not only will they effect the dye, but through aging, often become permanent.

And when that happens, another garment will become an "around the house" item.

And if you're like everybody we know, including ourselves, we have too many of those "around the house" things already and not enough "Sunday Best!"

To keep your clothes at their "Sunday Best" longest BRING THEM TO Welch Cleaners

GLEN GRIPTON

Firemen Honor Glen for 35 Years Service

BRITTON — Glen Gripton was honored Monday for his 35 years as a member of the Ridgeway Township Volunteer Fire Department.

Thirty-one persons were present for the chicken dinner held at the Britton Hotel.

Besides Mr. Gripton and his wife, Florence, the firemen and their wives, four township board members and their wives attended.

Fire Chief Bill Exelby presented Glen with a handsome trophy on behalf of the group.

Engraved on it was:

In appreciation for 35 years of faithful service, 1925 to 1960, to Glen Gripton, from the Ridgeway Township Fire Department.

In his acceptance speech, Mr. Gripton told of many interesting events during his years on the force.

He noted the many changes in the department, which started with a hand pumper. A model T Ford truck with a power pump followed, then a model A Ford, a Reo pumper and the International pumper, which now serves the community. It was purchased in 1948.

He missed the largest and most costly fire in Britton history, when the J. J. Walper Elevator burned a few years ago. He and his wife were at their cottage on Wamplers Lake.

☆

IN THE 40 years history of the Fire Department, Mr. Gripton states that there were no records kept for five or six years.

He also says to his knowledge that he is the only member to be treated by a doctor due to an accident while on duty.

On the way to a fire, in his own truck, he was in an accident and as a result spent 31 days in Bixby Hospital.

Some time ago Mr. Gripton remarked that he would resign as soon as the community purchased a resuscitator.

Its Ridgeway Township Board recently purchased one. It is used for victims of heart attack, drownings or suffocation.

Glen and his wife live in an apartment above the Gripton Hardware store on Main St., which he now operates and has been in the Gripton name since 1898.

The Griptons have two daughters, Mrs. Bernard Joyce Waterbury of Ypsilanti and Mrs. Ronald Ardith Frayer of Britton and four grand children.

TECUMSEH COMMUNITY FUND FOUNDATION NEWS

We Said Last Year . . .

"For years, the Tecumseh Community Chest has been operated by a group of local citizens who have done a very outstanding job for charitable and worthy causes . . .

"During the course of the past year, various meetings were held with the present board and interested citizens to discuss the possibility and advisability of carrying our own Fund and at the same time to help in the county drive and in the state drive.

"Therefore it was decided that we could go independent and work with an organization to operate as follows:

"With state approval and by the U. S. Treasury Department approval, we now have the organization under the jurisdiction of both the State laws and the Federal laws. The reason for this measure was to be sure that all monies given to this Fund will be tax exempt.

"The name given to the organization was the Tecumseh Community Fund Foundation.

"Also, there are many people who make out wills and have no way of leaving their legacy to the benefit of the citizens of Tecumseh and by having these approvals, the door is open for all citizens to do something for the future growth of Tecumseh.

"The present Board of Trostees has taken every step possible for profection and safety of the monies given to these annual drives. When citizens give donations to this drive, they have accepted a membership of this community and when projects are brought forward in years to come, they will have a voice in expressing what the surplus monies are to be used for.

"What are some of these projects that residents of the City of Tecumseh and the surrounding communities should look forward to? Here are just a few that are needed:

"1. A Civic Center. It could be used for high school graduation, for our teen agers, church conventions and other conventions, civic dinner parties, programs during the winter months to the public, etc.

"2. A new Library. Our present library was built approximately 35 years ago, when the City of Tecumseh was small. Today, a new library is needed badly.

3". A playground area for the southwest section of Tecumseh.

"4. Improvements to the athletic field for the benefit of all citizens, and especially for the boys and girls during summer vacations.

"5. A public park for picnic grounds and the benefits of all citizens.

"Your board feels these and many other projects could be planned for in years to come with the surplus monies over and above the Community Fund items. Each one of you will have an opportunity to present different ideas for consideration of this Board."

WHAT HAS BEEN DONE SINCE THE FOUNDATION WAS FORMED IN THE SPRING OF LAST YEAR

1. After last fall's annual drive was completed and all charitable responsibilities met, the Foundation banked assets of $80,000.

2. The Board of Trustees instituted a special committee—Foundation Action Committee of Tecumseh—which was authorized to learn what each citizen in the area thought should be done with surplus funds.

3. FACT made an intensive study, climaxed with a door-to-door survey. Through newspaper advertising, FACT urged area people to submit their feelings. Among the most mentioned suggestions were:

   A. Community Center — Auditorium. Plans should be so designed that construction can be made in two units. The Community Center, including a Teen Club, would be the first unit constructed. This idea is contingent upon acceptance of the city to assume operation and maintenance responsibilities, as well as a year-around, professionally-supervised recreation program for all ages.

   B. A new library.

   C. The auditorium should follow construction of library.

   D. The "Pit" should be purchased for a swimming, fishing, skating and park area, whenever it becomes available.

4. The Trustees concluded that each of the building programs would cost a minimum of $200,000.

What Is the Next Step for Our Community Fund Foundation?

First of all, there is this year's charity budget (note complete breakdown below), which totals $23,165. This includes $600 for administration, printing and advertising.

The Trustees have established a goal of $70,000 for the annual Drive. Thus, after distributing the $23,165, there would be approximately $47,000 to be added to the the Foundation's capital improvement fund. This would mean banked assets of $127,000, eventually to be used for the first in a series of public buildings.

- **Irish Hills Girl Scout Council -- $2,000**
- **Tecumseh Scout Organization – $600**
- **Tecumseh Service Club – $1,200**
- **City Recreation – $3,415**
- **Huron Valley Guidance Clinic–$1,500**
- **American Red Cross – $3,250**
- **Lenawee Humane Society – $500**
- **Wolverine Boy Scout Council - $2400**
- **Tecumseh Party Fund – $1,200**
- **Salvation Army – $1500**
- **Michigan United Fund – $250**
- **Catholic Social Service – $250**

How Will You, as a Resident of This Community, Be Able To Help?

Every wage earner in Tecumseh and Tecumseh Township will be given an opportunity to donate to this 1960 Community Fund Foundation Drive.

As explained above, the monies given in the '60 campaign will go to worthy charities, which benefit all of us — adult and children, alike. Everything exceeding the budget will become part of the fund which one day soon will bring Tecumseh new community improvements.

The gift from each donor is vital. And whether it be 50c or $500, the Trustees will be as appreciative for the small as they are for the large.

How much will folks be giving?

This is, of course, a matter of personal judgement. But as a guide post, may we suggest that your gift could total one hour's pay per month? If you earn $1.50 an hour, your gift would then be $18 for this year. You would give "once for all", donating to charity and helping to build a greater Tecumseh.

MARDA GENE DUNCAN'S

Thru My Window

OF AND ABOUT WARBLERS

Knock, knock, knock! The front door was opened and after the usual exchange of greetings, I heard a small voice ask, "Will you please give this to Marda Gene?" then, almost as an afterthought "It's a dead bird!"

Surprised — well yes, and certainly, when Gram and Ida brought the little white sack into my room, their expressions were a bit dubious. Fortunately, as soon as I read the accompanying note, their doubts gave way to smiles.

It seems that Mrs. Raymond Puffer's second grade students had found a bird dead on their play-ground. It apparently caused quite a stir of commotion, never had they seen a bird like this before.

A pretty, bright colored thing, there was great excitement trying to find its name. The note explained that finally they had decided it must be a yellow-throated warbler. What did I think?

Looking at the bird resting on the white Kleenex in which it had been carefully wrapped, I agreed. A yellow throated warbler—the yellow throat and upper breast, the dark back and wings and most distinguishing, the dark band around his head.

Yes, our books agreed with those used by the second graders, we, too, think their bird was a yellow-throat.

Mrs. Puffer stressed the interest the children had in the bird and how curious they were about its identity. How nice to know that they are being encouraged to observe the wonderous world of the out-of-doors. Mother nature has so much to offer and childhood curiosity can grow into a life-time source of pleasure.

☆

THE PATTERSON School is ideally located, situated on the creek as it is—there should be many birds and animals to spark the children's imaginations.

But lets get back to the warblers. Several weeks ago we had an all too brief encounter with one. It had been an unusually dull morning and although the camera was set up "ready to go", the sparrows, who were about the only feeder patrons we had had, were not very good picture taking material.

With nothing much going on outside my attention was focused upon a good look until suddenly that seventh sense, the one which has stood me in such good stead before, prompted me to look outside.

The feeder shelf held one measley little sparrow but wow — perched atop the Y-shaped limb at the corner of the feeder was a tiny mite of a bird. Olive greenish yellow in color and with quite decided wing bars; he was a real cutie.

I feel quite sure he was a pine warbler—it is difficult though, with just a quick glance, to spot and remember characteristics which, when looking through the bird-books, distinguish one from another.

☆

OUR LITTLE newcomer was not, of course, interested in anything the feeder had to offer. He was apparently just curious and flew in for a brief look-see.

A new bird is always exciting but this one was also a little frustrating. First, the family was having lunch in the breakfast nook and I knew they could not possibly get in here in time to see the little guy.

Second, although the camera was all set for me to take pictures, it was aimed at the feeder proper and not at the top of the post. I had to enjoy the pine-warbler all by myself.

So it is that I think the second graders were letting me see their new bird and giving me this chance to talk about mine.

Summary on Race for Chair

We hope you're keeping up to date on various phases of the political scene through the excellent coverage in all daily papers distributed in the area.

Metropolitan editors are doing an excellent job of presenting opinions from both sides of the fence. They are meticulous in being fair. For example, nightly stories of Bagwell and Swainson are written to come out with the same number of Linotype slugs. No favoritism here.

We imagine that in reading direct quotations from various hopefuls, you have become almost as confused as we have, so much is direct contradiction.

Slicing away all the guff, the race for the governor's chair in Michigan stacks up like this:

1. Taxation—Bagwell wants an additional penny sales tax. Swainson is for personal income. Michigan needs funds just as quickly as possible, thus Bagwell is right here. (Note No. 2 to find out why.)

2. Constitutional Convention—Bagwell is all-out for con-con, Swainson says no, indicating more patching. Michigan's tax structure and limitation hamstringing use of state income, as established in the Constitution, needs a clean sweep-down, fore and aft.

The 4c sales tax would get us over the hump, keeping a finger in the dike until a new Constitution could establish a fair, over-all tax program.

3. Backing—Swainson is locked up, bag and baggage by labor. (Whatever Walter wants, Walter gets and little man Walter has you.) Bagwell is down the line with his party and that's it. We're not knocking labor, but no candidate can go sled-length with one economic faction.

Paul Bagwell is a capable, intelligent candidate. He gets our vote.

The Con-Con issue, despite smoke screens going up almost daily, would benefit Michigan.

A "yes" majority this November does not call a convention. It merely would change the long-time method of tabulating a future vote on a convention—a majority voting on the question would determine the outcome, not a majority of voter casting ballots on all questions.

Con-Con ties in much more closely with the over-all Michigan problem than folks might realize.

NICE TOSS — Aunt Jemima took to the griddle, much to the delight of patrons at last week's free pancake and sausage supper. It was attended by well over 3,000, report Carl Lamb and Merle Hoag, who did yeoman work as co-chairmen of the event. It was under sponsorship of the retail division, Chamber of Commerce. Businessmen pitched in, many doing duty behind the griddles, others pearl diving in the kitchen or clearing the tables. Kiwanis Clubmen also joined the fun of feeding 3,000.

Go Home Without Weary Feet

If Detroit can stage an auto show, why not Tecumseh?

With this rather zanzy thought, The Herald proposed a joint showing by our community's five dealers and all accepted readily.

In one spot, the east parking lot of Country Markets, Inc., folks will be able to view all 1961 lines, standards and compacts.

Whether you're in the market for a new model or not, you should enjoy the show.

Of course, there will be some extras—free refreshments, a giant give-away and baton twirling contest.

So, in lieu of trudging a dozen miles through Cobo Hall, come to Tecumseh's show, see practically the same thing and go home without weary feet.

Announcement Comes Next Winter

A real fine kick-off breakfast last week signaled the official opening of the 1960 Community Fund Foundation drive.

There are a lot of hard-working volunteers helping out and we're sure the effort will realize its $70,000 goal.

As you'll note in our page-one story and also the full-page ad, explaining the Foundation's plan, the trustees will be announcing their first building project early next year.

There's a real bright future for Tecumseh and much of the credit for this goes to the Fund Foundation.

Parking Second to None

Hard-topping of downtown off-street parking lots began this week.

Crews spread and packed the ebony asphalt onto the big lot behind the fire station. Later it will be lined and lighted, then metered.

This gives downtown shoppers their second improved lot (the other being behind Woolworth's and Gambles). The pennies and nickels which will go into the meters are paying for this work.

When all four downtown blocks have their off-street lots completed, Tecumseh will offer municipal parking second to none.

TOM RIORDAN'S Long AND Short

While copy-reading Marda Gene's column this week, about the bumper crop of nuts in her yard and how the squirrels are so excited they don't know which ones to pick up, the years rolled back.

A similar sort of thing once happened to me. They weren't acorns laying about, but German cameras.

It was near the end of World War II. I was with the 45th Division public relations and had been sent to a newly-captured town to check out a Kraut warehouse.

I reported to the military commander of the town and after a brief visit, he asked if I'd like a camera.

Would I? You bet.

As our troops took over the German communities, citizens had to turn in all radios, cameras and fire arms to the city hall.

The major led me into a room heaped high with cameras. You can imagine my pounding heart — every size, shape and variety.

"Take what you want," he told me, "but be sure to keep them under your jacket. We don't want the Germans to think this order is out just so we can loot their stuff."

He left me with the booty.

Like the tiny animals in Marda's piece, I could hardly retain myself. First, I'd snatch up a sleek Leica, than an Exakta, oh, look at that Rollie.

There must have been 400 of 'em. I'd fill my field jacket to bursting, then see two others that I had to have.

I'd unload, rearrange and come up looking like a mom-to-be at eight months. No Christmas was ever like that. Fully stocked, I left.

After returning to my unit an hour later, I told the other fellows. Several wanted to go back that evening after chow.

We drove over and pulled up at city hall. As we jumped out of our vehicle, I spied the major.

"Say, could these fellows get a couple of those cameras?" I asked.

"Sorry, fellows, they're all gone," he replied.

I just couldn't believe his words and stumbled into the room where I had seen the cameras. There wasn't a single one remaining.

From the time I had been there until I returned — perhaps six hours — GIs had poured into that tiny city hall and assumed ownership of the cameras, which I guess one would call the spoils of war.

Franklin Township Considers Question of Liquor-by-Glass

Residents of Franklin Township will vote on a liquor-by-the-glass question Nov. 8. Below are both sides of the issue.

For

A petition, containing the necessary number of signatures, has been filed with township clerk Maurice Evans.

It was circulated by Stanley Mieduck, owner of the Pike Inn on Rt. 112, west of Clinton about six miles.

At present, his tavern is allowed to dispense beer and wine by the glass.

Mr. Mieduck told The Herald in a telephone interview Tuesday that during his two and one-half years of ownership, the Pike Inn has never been cited for violation of state liquor commission regulations.

(This fact was verified by the state police post at Clinton.)

The tavern owner said he refuses to serve anyone under 21.

He plans to submit a statement to The Herald for next week's edition from the Table Toppers, an organization of state tavern owners.

Against

United Citizens For a Better Franklin Township was formed by Tipton Community Church members Sunday evening.

The organizational session, held at the church, was moderated by the Rev. Paul Frederick, pastor.

"In the interests of a better and safer community, the group opposes the sale of hard liquor by the glass in Franklin Township, an issue to be decided at the Nov. 8 election," said the group's chairman, Mrs. Chester Blaska.

A number of points were brought out during the discussion. Among them was the fact "that a startling rise in arrest for drunk driving, accidents and drunkenness in a community invariably accompanies the introduction of selling liquor by the glass," explained the chairman.

It was also pointed out that Franklin Township would not gain financially, although that idea has been circulated.

Dean Cook will assist Mrs. Blaska with financing and Mrs. Robert Osburn will handle publicity.

Plans May Startle Some

By JIM LINCOLN

Maps and information relative to the future development of Tecumseh and the area were revealed at Monday night's council session by architect Jim Smith of the planning commission.

The information was startling in some aspects and should draw comments from the public.

The maps and general information will be published in The Herald in a series of articles at a later date.

The maps included growth pictures of the general area, population, parks and recreation areas, business and commercial developments.

Revival of the parks and recreation board was verbally recommended with Don Brazee, former councilman and member of the old board, under consideration to organize a new board.

Membership on the board would possibly be two councilmen, two school board members and four or five at large members.

In other action, Council approved:

1. Erection of four street lights between Ottawa and Oneida on E. Chicago Blvd.

2. Purchase of a $10,000 certificate of deposit.

3. Some minor preliminary work on the post office lot behind Adrian Federal Loan and Savings.

4. Second reading of the Civil Defense ordinance.

Appointment of a new councilman to replace the late H. H. Hanna was tabled until the Nov. 7 meeting.

The reason given for the delay was the absence of councilman George McCombs.

Card Players Donate $500

The Hospital Auxiliary is $500 richer, thanks to a series of card parties held in 32 homes throughout the area on Tuesday evening, with 450 women taking part.

This money will help purchase a cardoscope and defibrillator for the hospital operating room.

Prize winners were:

Mrs. Leland Hubbard, Onsted —transistor radio.

Mrs. Milt Meyer— Sunbeam frypan.

Mrs. Virgil Tucker—Electric food warmer.

Mr. B. B. Hannibal— 17-pc. beverage set.

Mrs. Lizzie Barrett — Carry salad set.

Players Present Comedy

"Charley's Aunt" will be staged by the Tecumseh Players at the Strand Theatre Wednesday, Oct. 26.

This is the world-famous farce which has moved millions to tears of laughter.

Jack Chesney, (Dr. Dick Hammel) violently in love with Kitty Verdun, (Mrs. Bob Murray) and Charles, (Frank Dalton) equally enamoured of Amy Spettigue (Mrs. Bertha Vallelungas invite the young ladies to their rooms for luncheon—in order to meet Charley's wealthy aunt from Brazil ("where the nuts come from").

But alas, the millionaire aunt sends word that she will have to defer her visit for a few days.

The problem is solved when Jack and Charley force another Oxford undergraduate (Dr. Bob Murray) into a black satin skirt, a lace fichu, a pair of mitts and an old fashioned cap.

As Charley's Aunt then, this old frump is introduced to the sweethearts, to Jack's father, (Dr. Carlton Cook) and to Stephen Spettigue (Earl Kotts), Miss Spettigue's guardian.

In the middle of the fraud, the real aunt (Mrs. Gloria Jadwin) turns up.

The student matinee is at 3:30 and the evening curtain goes up at 8:15.

Rally Set by Kiwanians for Oct. 27

As part of the Citizenship Quoient Campaign by the Tecumseh Kiwanis Club, Merle Hoag, chairman announces an intense program of action.

It is aimed at getting all of Tecumseh's eligible voters out and have them well-informed by election day.

The program includes plans for displays in retail and school areas of the CQ program, as well as a Religious Sunday observence by local leaders of the citizenship ideals.

Highlighting the effort will be a bi-partisan rally planned for Oct. 27.

Representatives of both Democratic and Republican parties have agreed to be present.

It will be preceded by a large parade through Tecumseh, ending up at the Union hall.

A "Share and Not To Scare" theme has been chosen for the UNICEF Halloween program tihs year.

According to Mayor Harold Easton the city has approved the program jointly sponsored by five churches, Presbyterian, Gloria Dei Lutheran, Methodist, St. Elizabeth and the First Baptist.

A movie, "Assignment Children," will be shown as an added attraction at the Strand Theatre Oct. 19 through Oct. 22.

Danny sees miraculous changes in their spirit and their health through medicine from UNICEF and laughter at his antics.

Mrs. Edna Wilcox is chairman of the event, which will take place Halloween night, Oct. 31.

Refreshments will be served following the canvasing.

Enthralls Audience of 60

Mrs. Russell McAfee of Adrian enthralled an audience of 60 persons at the silver tea given Oct. 11 by the St. Peter's Guild of the Episcopal Church.

Mrs. McAfee reviewed the book, "To Kill a Mocking Bird," taking the part of a tomboyish little daughter and giving a delightful interpretation to the story.

The book, by Harper Lee, is a best seller and tells of a lawyer who is trying to raise his children so they'll deal fairly with their fellow men.

Mrs. E. C. Boss introduced Mrs. McAfee and after the review presented her with a gift from the Guild.

Refreshments were served by Mrs. Lloyd Rhein and Mrs. M. W. Wilson with Mrs. R. K. Anderson and Mrs. H. H. Hammel presiding at the tea table.

Mrs. Thomas O'Hara arranged lovely centerpieces of marigolds and purple asters for the tables.

The next meeting will be held Oct. 27 at the home of Mrs. M. W. Wilson with Mrs. Rhein and Mrs. Hammel as co-hostesses.

SCORED TWICE—Spunky Clarence Champanois tallied twice against Flat Rock on sprints of 62 and 22 yards. He picked up 162 yards running, for an average of 13-per-attempt. Tecumseh flattened the Rocks easily (see details and two more pictures on page three), but may run into trouble Friday night at Airport. Balance of the schedule includes games at Blissfield, here with Grosse Ile and at Adrian.

Youngsters Vie for Prizes in Ticket Sales

West Branch will join Ridgeway and Macon children in selling tickets for the PTA Fair coming Nov. 5 at Ridgeway School.

Cash prizes will be awarded to the top three children selling the most tickets.

The tickets sold will enable the purchaser to be eligible for the drawing of many gifts.

The public may buy more than one ticket per person if desired.

Voters Welcome at Gathering

Area voters are welcome to attend the "Meet Your Candidate" gathering being sponsored by the Farm Bureau.

It will take place Monday evening at 8 in the Adrian Consumers Power office.

On hand for questioning will be candidate for state Legislature.

Local Group Seeks Option on Building

A group of men in Tecumseh is attempting to obtain an option on the Quaker Oats plant here.

They make up the Chamber of Commerce's industrial development committee.

Their objective is to move an industry into the vacant Tecumseh plant and feel having an option on the building can speed the process.

Four representing the committee, Robert D. Moore, Jack Osburn, Karl Schneider and Royal Welch, flew to Chicago Monday to meet with a Quaker Oats official.

The committee pointed out to W. G. Kromer, assistant treasurer of Quaker, that Lenawee County is a surplus labor area.

They stated that there are six empty plants in the county (besides the one here, two in Adrain, one in Clinton, one in Hudson and one in Manchester.)

Need for a realistic price on the local building and speedy disposal of the plant was stressed by the Tecumseh contingent.

Mr. Kromer stated, "The Quaker Oats Co. has a deep interest in Tecumseh and will help in every way possible."

No decision was reached in Chicago and negotations will be continued.

Tag Days Show Net of $581

Donations totaling $581.01 were able to assist Boosters this year due to the school recess for Teachers Institute.

Tag Days were organized by Mrs. Don Beevers, president, and Mrs. E. S. Oyer, secretary.

The Boosters are grateful to generous townspeople who have assured the purchase of the needed bassoon and other equipment.

"The fine response is certainly evidence that Tecumseh is proud of the good performance of the band and their directors, Don Johnson and Miles Cowdrey," Mrs. John Surratt, Booster reporter, said.

A Good Team Bounces Back — That's Tecumseh

By JIM LINCOLN

A good team bounces back from defeat — and Tecumseh showed it Friday night, shellacking a visiting Flat Rock team, 45-13.

Most significant in winning was the desire of the Indians, who scored three times in the first period, three in the third and once in the final stanza.

Although Flat Rock is winless, the ease and margin of victory for Tecumseh was surprising. It was the worse defeat this year for FR, which earlier bowed 26-13 to Grosse Ile in its best game.

The Indians are on the road this Friday night, playing at Airport. The Jets bowed to Milan last week, 46-13, dropping out of a three-way tie for first place in the Huron League with Tecumseh, Milan and Grosse Ile.

Coach Dune Lectka tossed everything including the bench at Flat Rock in Friday's win. Several freshmen (and they looked promising) and sophomores played considerable portions of the game.

Clarence Champanois picked up from where he left off last week and broke the game wide open in the initial period.

The senior halfback, now recovered from pre-season injuries, stooted 62 yards on the first play from scrimmage for Tecumseh's first TD. The game was only 45 seconds old.

Four minutes later Tim Sisson pitched to Larry Titley in the end zone, the TD play covering 28 yards.

Tecumseh's last TD in the first half resulted after a double reverse with Champanois carrying over from FR's 22.

Flat Rock's lone first-half tally came early in the second period when on fourth down and 13, the visitors pulled a simple reverse around the Indians' right end for the score.

In the second half, the Indians racked up two TDs in just 14 seconds.

Jon Aho, held out of action throughout the first half, sped over right tackle for 31 yards at the 8:04 mark in the third quarter.

On the following kickoff, Del Poskarbiewicz picked up a FR fumble on the 35 raced untouched for the fifth TD and with the scoreboard clock reading 7:50.

Mike Green, also held out until the second half, accounted for most of the yardage in Tecumseh's sixth TD. The drive covered 54 yards, with Green chewing up 49 of them.

Late in the fourth period, Flat Rock's quarterback Crowder hit end Peacock in the end zone.

Aho tallied his second score just before the end of the game with a 13-yard burst, again cutting over tackle and through the FR secondary.

Ron Hathaway had an unusual night attempting extra points. Two were kicked through the middle, one was blocked, two were wide, and although two passes from center were high and fumbled, the 202-pound tackle picked up one and raced around left end for the extra point.

TECUMSEH'S JACK SISSON MAKES A FUTILE DIVE FOR ROCK BALL CARRIER

What's Going on at Boysville

By LOUIS CIAVONE

The Boysville Glee Club will sing at the Parent-Teacher meeting at Boysville on Oct. 30.

Under the direction of Brother Philip Armstrong, CSC, the Glee Club has been practicing each day on a number of different songs.

The Boysville Weather Club has chosen officers.

They are:

Nick Somma — president.

Tony McFarr — vice-president.

Louie Ciavone — secretary.

The Weather Club is planning a trip to the Detroit Metropolitan Airport on Saturday, Oct. 29.

They will go to the airport weather bureau to study some of the weather equipment there.

Another group this year at Boysville is the Hobby Club, moderated by Brother Austin Maley, CSC.

The members work on different hobbies in their own Hobby Shop.

Some of their hobbies are stamp collecting, model making, and collecting scrap metal. So far there are about 40 enthusiastic members.

The Photo Club is also back at work again under the direction of Brother Aloysius Glombowski, CSC.

Members take and develop pictures of campus activities.

Pictures are taken and developed for boys not belonging to the club — for a slight fee, of course.

Boysville's Fighting Knights eked out a victory over a powerful Whiteford eleven Friday night, 20-13.

Quarterback Ken Snooks made the first Boysville touchdown on an eight-yard keeper play.

Speedy halfback Johnny McGeshick, Lenawee County's top scorer, crossed the end zone stripe twice for the Knights, once on a 15-yard end run and the other on a jaunt of 51 yards.

Bill Gager went over after both of McGeshick's touchdowns for the extra points.

The scoring by quarters was:

Boysville	6	7	7	0	—20
Whiteford	7	6	0	0	—13

The Knights, under the fine coaching of Mike Gendrwill and Dick Heynen, continue to be the top contenders for the River Raisin Conference Championship.

They take on Sand Creek this Friday.

The Boysville junior varsity lost its second game in three starts to Saline's JV 14-12.

Tom Ryan and Bob Stuart made the touchdowns for Boysville. Ted Malinowski added one extra point.

An intercepted pass returned for a touchdown in the last couple of minutes of play gave Saline the victory.

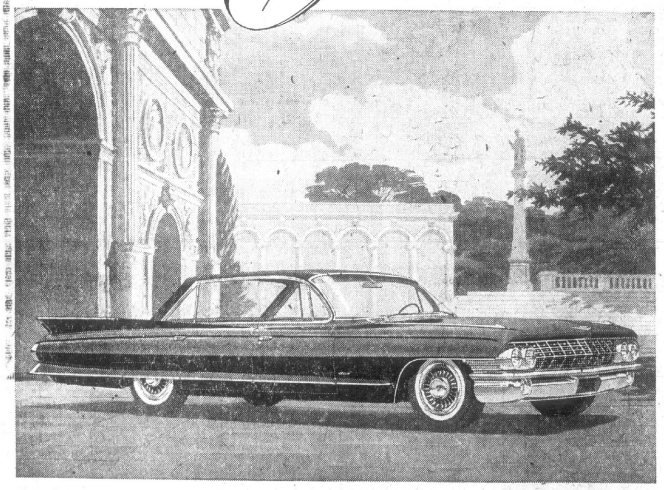
Cadillac



The unmistakable stamp of Greatness!

In commerce, as in art, it is rare indeed that a creation emerges so inspired in concept and so flawless in execution that it is destined, from the very beginning, for certain greatness.

And yet, it seems not too soon to say that the Cadillac car of 1961 will take its place among the most memorable of the peak achievements of the automotive craft.

Its clean, classic form introduces a new look for the world's motor cars to emulate. There's a new proportion of glass to steel . . . a new "oneness" of contour and shape . . . an entirely new relationship of interior to silhouette.

Inside, the story is equally remarkable. Here is new roominess in every dimension. Head room, seat height, and entrance room, for example, have been notably increased with impressive results in greater comfort and luxury.

And as its beauty is . . . so its performance does —incredibly nimble and quick . . . smooth and floating . . . quiet and obedient in operation.

Cadillac's new engine is the very essence of controlled power . . . steering is feather-light and sure . . . and its new ride seems to make the roadway vanish beneath the wheels.

This is one car you must see and drive for yourself. The facts are simply too numerous and too exciting to accept second hand.

It's the 1961 Cadillac—and we know you'll agree that greatness is written all over it.

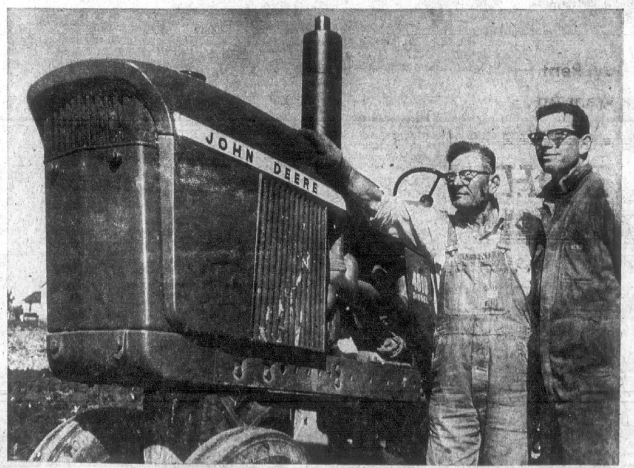
'We really like it . . .'



That's what Bud and Gordon Smith, a Franklin Townwship father-son farming team say, about their all-new John Deere tractor. Its "ease of handling, smooth power take-off, handy controls" . . . are things the Smiths mention when asked what they think of the Deere. "The seat sits fine," grins the elder Smith, "I'm anxious to try it when I'm fitting." The Smiths are currently farming 400 acres and put their tractors through the toughest paces known to their profession.

Tom Payne Refutes Meader

Thomas P. Payne, Democratic candidate for Congress for the Second Congressional District, was in Tecumseh Monday for a luncheon arranged by Edward Heilman, proprietor of Gaston & Son Jewelry Store.

Mr. Payne said, "In one and the same breath, my opponent (George Meader) takes issue with Senator Kennedy for discussing matters of foreign policy, when Mr. Meader and Senator Joe McCarthy, among others, cheerfully, and with a vengeance back in 1952, while American troops were engaged in a life and death struggle against Communism in Korea, harangued the people of the United States with their distorted version of the Korean War.

"Then they deemed it perfectly proper to have General Eisenhower and every Republican orator across the length and breadth of the country tell the Red Chinese that we were going to throw in the towel.

"If trying to prevent useless loss of American lives is treason, then what should one call the actions of the GOP when our boys were engaged in a life and death struggle?" he asked.

Among those present at the luncheon were Fred J. Groth of Blissfield, Democratic candidate for state representative from the Lenawee District, William Wright, proprietor of Wright's Drug store in Tecumseh, and Ernest Oliver, Tecumseh justice of peace.

Payne is touring towns and communities throughout the district this week.

Our Readers Write

TO THE EDITORS:

This letter is aimed at trying to explain to the participating bands, and the thousands of persons interested in our annual Band Festival, the headline in your Oct. 14 issue that read, "Clinton Bandsmen Hit Peak".

Without taking anything away from the Clinton Band, I would like to say that each of the 11 participating bands had an equal share in making our show this year the success that it was.

Since the beginning of this show 13 years ago the understanding has been that there is no competitive action and no promotional stunts, and so long as the show is held in Tecumseh there never shall be.

We have in our show something unique, due to the fact that here is no competition, no profits outside the participating bands and band directors and we intend that it stay that way.

To my knowledge there is no other show of its kind in the country, many band shows maybe, but none where the participants are the only ones to profit, and only then on an equal share and as a group.

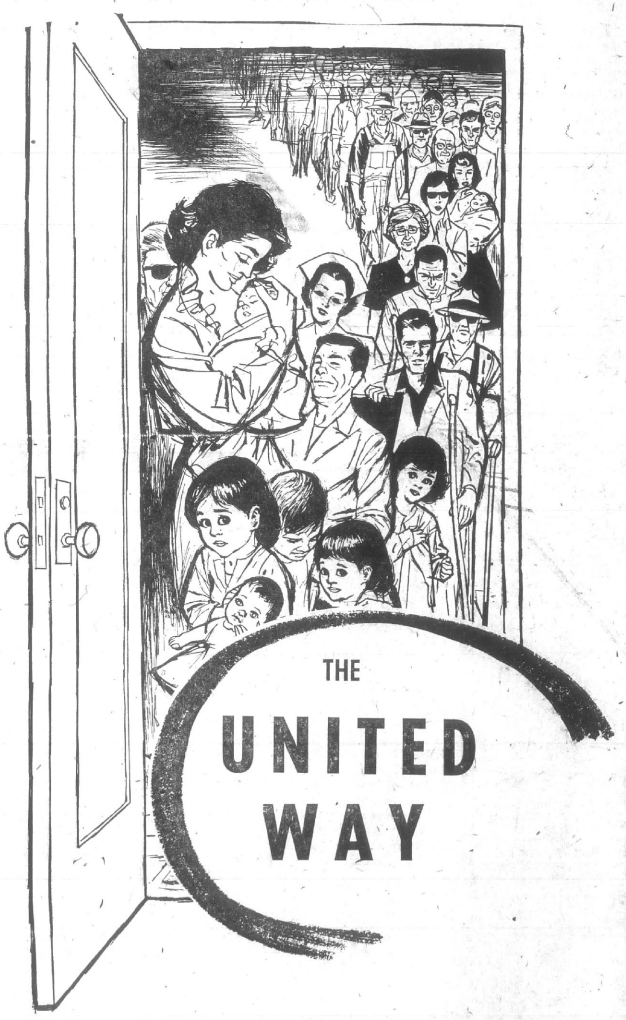
TECUMSEH COMMUNITY FUND FOUNDATION NEWS

Why You Are Asked To Give . . .



GIVE GENEROUSLY!

OUR 1960 - '61 BUDGET

1. Tecumseh Recreation Program $3,415

Emphasis here is on softball and baseball for both girls and boys. The city's little league field and complete league activities are an excellent example. There are also tot lots at several locations, supervised by young adults, for play activities of little ones. In winter months this program helps maintain ice skating rinks throughout the city.

2. American Red Cross . . $3,250

Red Cross covers dozens of worthwhile items. Here are two, both which directly effect this area. Gray Ladies, who are so helpful at Herrick Memorial Hospital and last year turned in 1,297 hours of work, assisting nurses and doctors. Water safety, which helped provide senior life guards for the city pool through the training program at Whitehall, Mich.

3. Irish Hills Girl Scout Council $2,000

The morals and standards of the Girl Scout Movement are those expressed in the Promise and Laws. Public funds are used toward the execution of good programming with all troops participating besides partial costs of camping and training courses for the leaders.

4. Catholic Social Service in Lenawee County $250

What is the purpose of the agency? The immediate purpose of the agency is to offer social casework service to anyone in Lenawee County wanting and needing such help. Who may use these services? Anyone who lives in Lenawee County may use these services. Religion, color, or station in life is never a barrier.

5. Lenawee County Humane Society $500

The Lenawee County Humane Society will use the amount alloted, in part, to retire the mortgage debt on the Society Shelter and in part for operating expenses. The Shelter for small animals, located on Academy Rd., east of Adrian, is one of the cleanest and best operated in Michigan. The Society rehabilitates worthwhile animals and humanely does away with those which are destructive or unwanted. Founded in 1921, it serves the county well, and keeps complete and accurate accounts to establish its needs.

6. Salvation Army $1,500

Money given to the Salvation Army is used for direct relief to families throughout the county as well as providing for transients. This includes meals, lodging, clothing—occasionally medical and transportation costs in exceptional circumstances. It also aids in running the Men's Social Service centers in Detroit and Toledo; the Children's Home in Detroit; the hospitals for unwed mothers in Detroit and Grand Rapids.

7. Wolverine Council Boy Scouts $2,400

Maintaining a concise, coordinated program makes for a better Boy Scout setup. Through its office, run by professional, full-time personnel the Council is able to assist and guide leaders throughout the area.

8. Michigan United Fund $4,000

U.S.O., American Heart Association, Cancer Resource, Multiple Sclerosis Society, and Leader Dogs for the Blind are familiar names among the 34 agencies on the state and national levels available to serve our community.

9. Tecumseh Service Club $1,200

Immediate assistance is provided by the Tecumseh Service Club to families hit by disaster until a more permanent plan is worked out. This group gives that little "extra" to the unfortunate at Christmas time, last year assisting nearly 50 families. Its members distributed food and clothing. The Service Club acts as a cleaning house at holiday time, when other groups wish to provide baskets for families, making sure to eliminate duplications and insure all the needy getting help.

10. Huron Valley Child Guidance Clinic $1,500

Through professionally-trained persons, the State Department of Mental Health provides treatment for children, three through 17, with emotional problems. Staff members, working together, combine their specialized skills to permit a team approach to the understanding and treatment of the child's problem. The clinic deals directly with children and parents, cooperates with other agencies and school officials.

11. Community Party Fund Fund $1,200

Under the auspicious of the Tecumseh Chamber of Commerce, three major events are staged for the youth of the community each year. 1. Christmas party, including a free movie, treats and visit with Santa. 2. Halloween parade and party, free cider and donuts, prizes for best dressed and two free dances for teen agers in the evening. 3. The high school Band Festival which brings 10 bands here for an exciting program of music and pageantry, always viewed by an overflow crowd.

12. Tecumseh Scout Organizations $600

The funds are used for the maintenance of the Scout Cabin in Elliott Park. This cabin is used constantly by Boy and Girl Scouts. Expenses cover heat, water, lights, repairs, insurance and cleaning equipment.

13. Tecumseh Community Development . . . . . ?

Whatever surplus monies collected in the annual drive are placed in the Foundation. In future years these will be used to help build a civic center, library, another town swimming pool and better city recreation facilities.

14. Administrative expenses $600

Promotional materials and advertising are needed to promote a successful campaign and this accounts for a portion of the annual budget.

CLEAN TALK

Fruit Juice Stains Are Mean

By ROYAL WELCH

Grapefruit, orange juice, lemon juice—restful, refreshing morning pickups, yes sir!

But when the hand is shaky, or Buster grabs and spills the fruit juice in your lap—or maybe dribbles it all over that new suit you just got for him—then you got trouble.

Well, fruit juices penetrate into the very fibers of the fabric, and often they're invisible — until heat is applied. Then a brown spot appears. And they're a breeding spot for moths, too.

So bear with us when we repeat once again:

If the garment is washable — sponge with clear water. Don't use soap. And don't iron unless absolutely sure the stain is out.

If the garment is cleanable—leave it alone. Don't rub or wipe, as this will cause deeper penetration into the fabric fibers. Just let it dry and bring it in to be cleaned . . . the sooner, the better.

Fruit juices, being acid, require quick action because of their effect on dyes. If allowed to stay too long, not only will they effect the dye, but through aging, often become permanent. And when that happens, another garment will become an "around the house" item.

And if you're like everybody we know, including ourselves, we have too many of those "around the house" things already and not enough "Sunday Best!"

To keep your clothes at their "Sunday Best" longest BRING THEM TO Welch Cleaners

Ralph Helzerman Wins Singing Spot with 'M' Friars

Ralph Helzerman, Jr. is now a member of the Friars, a special group within the University of Michigan Men's Glee Club.

He was one of the two basses from among 16 young men who auditioned for Dr. Philip A. Duey, director.

An accomplishment to be selected to sing in the Glee Club, this is even greater attainment for the young pre-med student.

The Friars have appeared locally several times and always give a splendid performance with much frivolity added to their singing.

They will make their first appearance at Homecoming in Ann Arbor, Oct. 22.

The Sewing Circle will meet Friday afternoon Oct. 14 at 1:30 p.m. in the home of Mrs. Lawrence Gafner.

FORD FOR '61... BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF ... THE FIRST 1961 CAR DEALER-WARRANTED FOR 12,000 MILES OR ONE FULL YEAR

Lubricates itself. You'll normally go 50,000 miles between chassis lubrications.

Cleans its own oil. You'll go 4,000 miles between oil changes with Ford's Bull-Dog oil filter.

Adjusts its own brakes. New Truck Size bushed wheel cylinders adjust themselves automatically for the life of the lining.

Guards its own muffler. Ford mufflers are double-wrapped and aluminized—normally will last up to three times as long as ordinary mufflers.

Protects its own body. All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing body panels beneath doors.

Takes care of its own finish. New Diamond Lustre Finish never needs wax.

Extended warranty. Ford Dealers were the first to extend their warranty on '61 cars to 12,000 miles or *one full year*, whichever comes first. Ask your Ford Dealer for details.

AND IT TAKES SUCH BEAUTIFUL CARE OF YOU

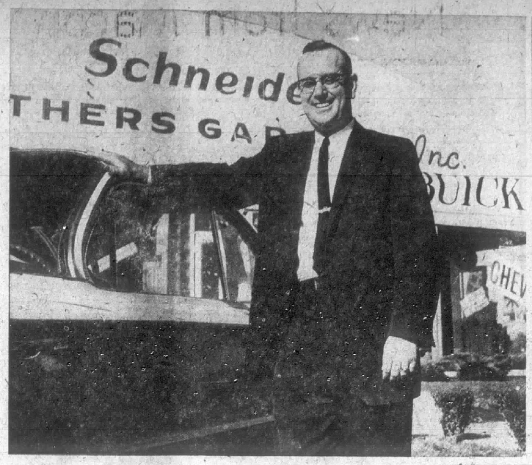
HARVEY WILSON, Plymouth, DeSoto, Valiant dealer, remarked, "I felt our Show got very good acceptance. The people who attended seemed to enjoy themselves. They had a chance to see all the new cars and compare them. Next year we'll get better lighting and have the display area shine like a Christmas tree. Incidentally, everyone I talked to said they like the new Plymouth design—no fins."

Tecumseh Dealers Were Pleased with Showing of Their 1961 Models



LOUIS SCHNEIDER, Buick, Chevrolet and Opel dealer, states: "It was too bad that the weather turned 'damp' during our joint display of 1961 models. We still were pleased with the Show and noted lots of activity at our show room, too. Next year, we can use one of the new downtown off-street parking lots and have a much bigger Show, maybe even invite the farm implement people to join us. The Herald deserves a thank-you for getting the 1960 event going."

KEITH BAILEY, Oldsmobile dealer, commented: "To the people selling Oldsmobiles one of the big items this year is the new compact F-85. We had one on display at the Show, along with the '61 Rockets. The F-85 drew lots of attention, which pleased us. We enjoyed joining the other fellows in displaying the new models and feel that the public liked the idea. We've already begun talking about what we can do with the introduction of the 1962 models in the way of a combined showing for Tecumseh area folks."

'Ask Permission' Hunters Are Urged

About three quarters of a million small-game hunters will head for Michigan fields this month. Most will find that farmers aren't such bad guys.

In a 1958 survey, the Michigan Conservation department found that four of five farmers would let a party of one or two hunt on their land.

"They seldom say 'no' when a hunter asks permission," points out Charles Shick, Michigan State University wildlife specialist. "Most sportsmen are responsible people, and conservation groups are working on the few who aren't."

For example, the Michigan United Conservation clubs have printed cards offering a $50 reward for information leading to the arrest of any hunter who causes damage. The clubs' 65,000 members leave a card with each landowner they visit.

Small-game season opens on October 20 south of a line from Bay City to Muskegon. October 1 was opening day north of that line.

Shick passes on these tips to hunters:

"Get to know a farmer before the season opens. Then chances are he'll be glad to see you come.

"Don't hunt in groups of more than three or four. No one likes to feel he's being invaded.

"Invite the farmer to join you. He'll appreciate it even if he can't accept.

"Find out where the farm boundaries are. Then you won't accidentally trespass on a neighbor's property.

"Ask the farmer where you can park in his yard. The car assures him you'll return before going home.

"Never fire a shotgun toward livestock or buildings, even though they may seem out of range.

"Keep guns unloaded and pointed in a safe direction around people, farm buildings and livestock.

"Ask the farmer first."

Fingers Tell Story

Mrs. Blair Bashore spoke on "Religion in Family Life" at the joint meeting of Circles 1 and 2 of the Presbyterian Church Oct. 4 at the home of Mrs. H. L. Spencer.

Mrs. Bashore compared characteristics in the home to the fingers on the hand:

Thumb—discipline
Action finger—direction
Tallest finger—duty
Ring finger—devotion
Smallest finger—determination

She said that symbols of Christianity should be found in the home.

Mrs. Bashore was presented by the program chairman, Mrs. Dale Bowen.

Devotions were presented by Mrs. Bowen.

Cake and coffee were served by the hostess assisted by Mrs. Bowen, Mrs. Jack Hanna, Mrs. Paul Keyser and Mrs. Ben Gillies.

The circles divided for the business sessions. It was announced that Mary Whitlock is at the Bayless Nursing Home and would appreciate callers.

The treasurer reported $40.35 for sewing for the Korean orphans.

Tecumseh' Post Office Nearing $100,000 Mark in Yearly Revenue Picture

Mail volume in the Tecumseh area contributed to a new national record of nearly 64 billion pieces of mail, including a billion pieces of parcel post, during fiscal year 1960 ending last June 30, Postmaster Jack Metcalf said.

Present day figures represent an increase of 25% over the 1953 volume.

This increase, along with a sharp discontinuance of mail-carrying trains in recent years, has helped foster a complete revolution in postal transportation pattern for Tecumseh has changed in the following manner:

Mail deposited before 5 p.m. should be delivered the next day in the lower peninsula.

During this same period, revenue of the Department also has shown an impressive gain with an increase from $2,091,714,000 in fiscal year 1953 to $3,276,800,000 for fiscal year 1960.

Here in Tecumseh, receipts of the post office climbed from $55,534 in 1953 to $93,800 last year.

Farm Loan Plan Is Altered

Farmers who have regular off-farm employment, if otherwise eligible, may obtain farm operating and development loans from the Farmers Home Administration, under the recently revised regulations of the agency.

Carl L. Robinson, Farmers Home Administration county supervisor for Lenawee and Monroe counties, said the new regulation went into effect Oct. 1.

Previously, except in rural development counties, a farmer had to spend most of his time farming in order to qualify for a loan.

Experience gained in rural development counties has shown that many farmers who are regularly employed off the farm can profitably use the Farmers Home Administration's credit facilities to increase the farm portions of their total incomes.

The regulation, which had limited credit assistance to farmers who spend most of their time farming, prevented some from obtaining the maximum income from their farms and from taking advantage of opportunities for industrial and other off-farm employment.

Other eligibility requirements remain unchanged.

Applicants must have sufficient farm experience to carry on sound farm operations, must need credit, and be unable to obtain financial assistance from other sources.

The Farmers Home Administration office serving Lenawee and Monroe counties is located at 128 E. Maumee St. in Adrian.

Another told of a canoe trip on the River Raisin and one of picking huckleberries.

Mr. and Mrs. John Surratt and Mr. and Mrs. Carlos Jones were assisting hosts.

The next meeting will be held at the home of Mr. and Mrs. Herbert Munger and the program will be "Forty Years of Teaching and Preaching" by the Rev. Alvin Brazee.

We'll Always Write 'Em

This is National Newspaper Week.

The Herald, entering its 111th year of serving this community, has always been sincere in its role as an independent voice in Tecumseh.

No pressure group has ever dictated to the editors and publishers.

No Herald owner has used these columns to hone a personal ax.

The goal has steadfastly been the same: Do everything possible with this weekly newspaper to build a better Tecumseh.

Noting our city's progress over these 110 years, it's evident that The Herald has helped play an important role, thanks greatly to a firm editorial policy.

The editorial is the heart of a newspaper.

When it is locally written, concerning local situations, presenting honest opinion — whether it praises or constructively criticizes — the newspaper is truly serving its readers.

When your editors hear a comment that The Herald would be better off not to run local editorials — as we did Tuesday morning — then we knew our words have been hitting the bullseye.

Rather than deter our efforts, this sort of statement literally spurs us on.

We have eyes, we can see what is going on. We have ears, we can hear for ourselves and we can learn from reliable sources what takes place here.

Often what we see and hear are good things, which help to develop our town. We editorialize on them, with our congratulations.

Sometimes, they are the opposite.

Negative attitudes and unwillingness to tackle a responsibility stifle progress. When this is the case, we feel a responsibility to speak out—and do.

As we observe National Newspaper Week, it is well that one fact be emphasized: Editorials will always be a vital part of The Herald.

After all, what is left of a being that doesn't have a heart?

How Many Will Vote?

As matters stand, 92% of all eligible voters in Tecumseh are now registered.

In numbers, this totals 3,700. Of these citizens, 530 are brand new registrants, who signed up mainly as a result of the recent drive conducted by Tecumseh High School government class members.

Now, the question is, how many of them will vote Nov. 8.

In the past few years, Tecumseh citizens have turned in some horrible performances from the standpoint of turning out for elections.

It has been between 30% and 40%.

This amazes us.

We know that most folks take for granted their privilege to vote.

But here, as is the case in most American cities, the physical effort required to check off a ballot is so slight and the conveniences so great, we'd think it would be an easy addition to every Tecumseh citizen's agenda on voting day.

The polls open at 7 o'clock in the morning, stay in business until 8 p.m. That means for the working man a chance to vote with ease, before or after he punches in or out.

Moms can come to the polls after the kids are in school, or when dad gets home from work.

Neighbors can easily take turns babysitting.

But, human nature has always been a big factor here in keeping people from voting.

Realizing this, the senior government scholars of teacher Wayne Reganall, aren't going to stop with getting people to register.

Right now, these boys and girls are pounding the drum for their particular favorites — both Democratic and Republican. This should help rouse more interest in the coming vote.

On the actual day of balloting, they'll go all-out in the final phase of their quest to practice the things they've read about in their text boks about the American electoral system.

They'll form car pools to take to the voting places citizens who are physically unable to make the trip themselves.

The contributions these young folks are making to their community at the time of the annual November voting is invaluable.

Never Quite Works Out

Council has been considering a candidate to replace the late H. H. Hanna at its past three meetings — without reaching a conclusion.

We realize that filling a council chair does take time. This we understand.

What we can't reconcile is the fact that after Monday's meeting was officially closed and the problem still unresolved, councilmen quietly held a star session and apparently decided who the new member will be.

This is public business and should be handled as such.

Secret sessions, when news of them leaks out, always will leave citizens with an uneasy feeling. Even if held with the best of intentions, the "unofficial meeting" will break down citizen confidence in the elected representatives.

STUDENTS CALL — Linda Refner, center, and Lauranne Williams call on Mrs. Lawrence Hebert, 513 N. Union St., to urge her to register. A total of 530 new registrations, an all-time high, have been made since the government classes under the direction of Wayne Reganall have been working on this project. Registered voters in town now hit approximately 3,700 out of a possible 4,100 — or almost 92%, according to city clerk, Mrs. Naomi Sallows.

Candidates Will Debate October 31

A debate between Republican state senator Elmer Porter and his Democratic opponent, James Hauser of Addison, will be held in Tecumseh.

Patterned after the Nixon-Kennedy meetings on television, the session is being sponsored by Wayne Reganall's senior government classes.

It will be Monday, Oct. 31 in Tecumseh High School.

Representatives from two area daily newspapers and two radio stations will question the candidates.

530 Are Registered as Result of Drive by Government Class

Mrs. Namoi Sallows, city clerk, reports that 530 citizens came in to register soon after senior government students had made their rounds, encouraging folks to sign up.

This pushed the list of eligible voters here to an all-time high of 3,700.

In addition, she said, many others phoned to make sure they were registered.

Most thought because they hadn't voted in the past few local elections their names weren't on the list.

In most cases they happily learned all was well.

For the 90 eager seniors and their teacher, Wayne Reganall, this is only the beginning.

Now that the registration project is complete, the youths are being urged to support and campaign for the candidates of their choice.

Both Republican and Democratic parties have been asked to furnish buttons, signs, pictures and literature which the young people can use for ammunition.

If their efforts match the first portion of their work in the government course, November's election around this city should be mighty lively.

FFA Moms Plan Meal

At a meeting of the FFA mothers Oct. 10, plans were made for the banquet to be given Monday, Nov. 7.

The guest speaker will be Don Shepard, course co-ordinator of the NSU Short Course Department.

Mrs. Albert Neuman is general chairman of the event and Mrs. Zane Norgan is dining room chairman.

VOL. 110 — ONE HUNDRED ELEVENTH YEAR — NUMBER 2 | TECUMSEH, MICHIGAN, THURSDAY, OCT. 27, 1960 | 14 PAGES — TEN CENTS A COPY

TOM RIORDAN'S Long AND Short

Al Russell, ad manager at the Products, got to fire his shot gun only once—and then without success—during a full day of pheasant hunting last week.

But he still came home grinning.

A feat by Al's dog, Cindy, was the reason.

The trim, tiny Brittany pointer snuffed out a rooster and when the bird started a lethargic take-off, Cindy bounded forward and caught it.

So the Russells enjoyed roast pheasant, without a single report of someone munching on a piece of buckshot.

Bird season in the area got off in good fashion and where ever one looked that beautiful opening day Thursday, there were hunters beating the fields.

Kill reports were spotty.

The birds seem to be in pockets and, man, have they been sitting tight. It practically takes a crowbar to get them to fly.

In one party, Cliff Wilson, a West Virginia guest at the Dr. Bob Laidlaw home, actually stepped on the tail of a hen pheasant before she took off.

Cliff found feathers under his left boot. As the bird jerked free and bolted skyward in front of him, he felt the hen's takeoff movement.

A good dog is the key in pheasant hunting. There isn't much sense working without one. Those crafty Ringneck roosters will run circles around a man and he'll never know they're within miles.

Well-trained dogs, like Al Russell's, will find the birds for their masters—often when the hunter least expects one.

The time to go out is another important element. Shooters find best success when they arrive just at daybreak in the roosting areas, moments before pheasant chow call.

Another good time is in late afternoon, about 5 o'clock, when the birds return for the night.

Locating them during the day is a tiring task—they could be most anyplace.

Now, for the fan of the pheasant, like your writer, who finds it difficult to get a true aim as the Ringneck zooms into the blue, here is what we're shooting at

. . . so post this sketch on your livingroom wall, six feet from the floor. Then stand back about five feet, snap your shot gun to shooting position and pretend you're blasting. Jerk the trigger. (It's best not to have the gun loaded.)

Following a few such practice sessions, you should be a dead-eye.

Your next time in the fields will surely be productive. When you return home and the kids ask, "Did you get anything, dad?" you can casually reply:

"My limit, naturally."

Be prepared at this point to catch the little woman, who will now be fainting—either from the news you actually shot a bird and/or, that she will have to clean it.

IT'S HALLOWEEN

Kids Will Collect Funds for UNICEF

With a "Share and Not to Scare" theme, the UNICEF program will be held Monday, from 6 to 9 p.m.

Mrs. Edna Wilcox, chairman, explains the drive is under the auspices of five local churches, First Baptist, First Presbyterian, St. Elizabeth's Catholic, Gloria Dei Lutheran and First Methodist.

Children are to come or be brought to the Baptist Youth House to receive cartons and identification tags.

From there, they will be taken out and brought back to the church by car. Refreshments will be served when they return.

Anyone willing to drive is asked to call Mrs. John Hamilton, 542-M, so that a route may be assigned.

"Householders will be contacted only once and are asked to be generous as this is the only time of year that the appeal is made," says Mrs. Wilcox.

Funds from UNICEF are used to aid children and mothers, regardless of race, color, creed or religion, in underprivileged nations.

Halloween Parade Will Be Monday

Annual Halloween parade will be held Monday afternoon, Oct. 31, at 4:30 p.m., beginning at the library and proceeding to the park across from the city hall.

Mrs. Cal Zorn is chairman of the event. She'll be assisted by Mrs. Richard Beemer and Mrs. Richard Loughney.

Don Murphy of the Chamber of Commerce will have charge of judging and refreshments.

Judges will choose first and second winners in four categories — funniest, prettiest, most weird and most original.

Gift certificates of $10 for first prizes and $5 for second prizes will be awarded.

The event, arranged by the Chamber of Commerce, is financed by the Tecumseh Community Fund Foundation.

A barrel of cider and dozens of donuts will be waiting for the paraders when they reach the park.

Dances Are Set Monday for Youths

Dances for the Junior and Senior High School students will be held Halloween, Oct. 31, from 6:30 to 9:30 p.m. sponsored by the Tecumseh Community Fund Foundation.

Both gymnasium at the Junior High building will be open.

The High School party will be held in the cafeteria.

Door prizes of cider and doughnuts will be available at all parties.

Mrs. Carson House will chair the seventh-and-eighth grade and Bob Aten will have charge of the high school party.

Beggars To Fill Streets Monday

Turn your porch lights on Monday night and be well stocked with goodies—it's annual Trick or Treat night in Tecumseh.

★ Tipton, Too

TIPTON—Sunday School Department of the Tipton Community Church will sponsor a Trick or Treat party for UNICEF on Monday at 7:30 p.m.

All children from two to 18 are invited to attend in costume.

From 7:30 p.m. until 8:30 p.m., cars will take the masqueraders around the community. Youths will carry canisters to collect donations for UNICEF.

At 8 p.m. the UNICEFers will return to the Church basement for games, food and a costume-judging contest. Food will be provided by mothers and Tipton stores.

Approach Problems as Youth

Probate Judge Lavon Kuney was the speaker for the Rotary Club Tuesday evening.

He stressed a need for approaching our "people" problems at the children level rather than at the adult level.

He pointed out that the cost of Lenawee County police protection far exceeded the cost of juvenile service.

Al Merz, attendance chairman, spoke concerning the attendance record and served fair warning of dire treatment of delinquents.

Torchlight Parade Opening Rally

A torchlight parade through Tecumseh Thursday evening, followed by a bi-partisan political rally in the Products Union Hall, will dramatically focus attention on the coming election.

About 16 national and state candidates will be featured in the parade, riding in decorated convertibles. At the rally, they'll be questioned by local voters.

The parade and rally are sponsored by the Tecumseh Kiwanis Club, in cooperation with Wayne Reganall's Tecumseh High School senior government classes.

All 90 of these students are expected to be in the march from Union and Chicago Blvd., east through the downtown area and then south on Maumee St. to the Union Hall. The young people will carry hugh banners, which they have made, and torches. The latter will be old automobile oil filters, soaked in kerosene and mounted on poles. Mayor Harold Easton is providing the filters.

Leading the parade will be Don Johnson's Tecumseh High School band. Several floats are expected. The line of March forms on N. Union St., will take off promptly at 7 p.m. Questions and answers, with Don Murphy as moderator, begin as soon as the paraders reach the hall.

Free coffee, cookies and cider will be provided by Kiwanians.

Merle Hoag is general chairman of the event, with Carl Lamb serving as parade marshall.

Among the candidates taking part will be Congressman George Meader (R) and his opponent Tom Payne, state Senator Elmer Porter (R) and his foe, James Hansen. All Lenawee County office-seekers are also expected.

Others: James R. Breakey, Jr., running for the state Supreme Court, David R. Calhoun (R), for state treasurer, Fred Groth (D), for state representative.

Tecumseh Republican chairman Charley Trickey tried to get Vice-President Nixon for the parade, since his campaign train will be passing nearby (Monroe to Ypsilanti).

The GOP presidential candidate declined, since he doesn't want to leave the train. However, as a result of the conversation between Nixon officials and Mr. Trickey, he was invited to ride the Nixon special between the two cities.

DEMOCRATS—Congressional candidate Tom Payne and his lovely wife will wave to fans from their red Volkswagon during Thursday's torchlight parade in Tecumseh.

REPUBLICANS—Advocates of a GOP sweep, like Tecumseh High School senior Camilla Grigg, will decorate parade cars, with banners seeking votes for their party.

LIQUOR - BY - GLASS

Opponents Discuss the Financial Angle

Opponents in the coming liquor-by-glass vote in Franklin Township issued statements regarding the financial aspect of the question. So that residents may hear from the principals, The Herald is printing the two articles. Next week, there will be a concluding article, prepared by a Herald staff member.

PRO

Tax aspects of the liquor-by-glass vote in Franklin Township Nov. 8 has promoted Stanley Miecuck to issue the following comments.

"Liquor is now available to 80.3% of the American public. We seek this privilege in the spirit of American free enterprise to be able to furnish our patrons their choice of beverage.

"For the fiscal year, ending June 30, 1959, the Michigan Liquor Control Commisson turned over to the state treasury about $67,859,000.

"This amount has played an important part in our economy and in our tax structure.

"Franklin Township's share of a $500 annual liquor license for us would be 85% or $425. At present, our license for beer and wine (which is renewed each year) is $150. Of this, the township gets 85% or $127.50.

"There is no retail business in Michigan which operates under a stricter set of state-enforced rules and regulations than liquor. Continued eligibility to serve the public rests on maintaining a clean reputation," concludes Mr. Miecuck, who owns the Pike Inn on Rt. 110.

CON

"The idea that Franklin township would benefit financially by allowing the sale of liquor by the glass is erroneous," says Mrs. Chester Blaska, chairman of United Citizens for a Better Franklin Township.

"Liquor license refunds can only be used to enforce liquor laws and, because Franklin Township does not have a full-time constable, it is not eligible for any refund," the chairman explained.

"To become eligible for a refund of 85% of the liquor license fee a full-time constable must be employed. His annual salary would be at least $4,000, and the township's share of license fees from all establishments in the township serving alcoholic beverages would be less than $1,000."

"This isn't only a monetary issue, though much was made of that point when the petitions to have the question put on the ballot were circulated," Mrs. Blaska continued.

"We are too concerned about the safety of our children and all the people living and passing through here to let this issue pass without contesting it," the chairman concluded.

DAR Again To Sponsor Scout Troop

Twenty members of the Abi Evans Chapter of the DAR were present Oct. 14 for the meeting held at the home of Mrs. Joe Rice.

Members voted to sponsor a Girl Scout troop again.

It was also decided to hold a rummage sale Oct. 28 and 29 in the Greenwald Building with a bake sale on Friday afternoon.

Mrs. James Artman will be the general chairman.

The regent, Mrs. Cecile Smith, read a communication from the former regent, Mrs. Herbert Newman.

The program was presented by Mrs. Richard Carter, illustrated by colored pictures of two DAR-approved schools in the south.

Tea was served from a lace-covered table, centered with an arrangement of white blossoms from Mrs. Neil Pearson's garden.

Mrs. Pearson presided at the tea service.

The next meeting will be held in the evening at the home of Mrs. Herbert Munger.

Dance Proceeds To Buy Uniforms

Members of the American Legion Women's Drill team met Oct. 5 to discuss plans for their annual Halloween masquarade dance to be held Oct. 29 at 8 p.m.

There will be two cash prizes for costumes and two cash door prizes awarded during the evening.

The proceeds will be used toward the cost of the uniforms purchased for the gals' drill team this spring.

Gas Line Job Rips Asphalt on Newest Lot

Getting natural gas service for the city fire station resulted in 100-square-feet of the new off-street parking lot being torn up.

City manager Ed Nelson requested the one-inch gas line Sept. 29 from Consumers Power, knowing the paving operation was slated for mid-October.

Consumers foreman Don Gilbert had his crew in Bissfield and didn't start here until this week, although Mr. Nelson reordered several times.

The asphalt job was completed Oct. 14.

Mr. Gilbert's crew attempted to tunnel under the driveway at the west end of the lot, but broke a large drill on rocks.

Consumers has assumed all costs for repairing the pavement, states Mr. Nelson. A cold mix patch will be put in now and in the spring, after the digging settles, a hot asphalt will be substituted.

Gas service is needed for supplementary heating in the addition to the fire house for voting and later for complete conversion from coal to gas.

Legion, Auxiliary Will Provide Rides for Voters Nov. 8

The American Legion Post and the Auxiliary are offering rides to the poles for voters Nov. 8.

Commander Donald Woods is cooperating with Mrs. Roger Williams, Americanism chairman of the Auxiliary, to make this transportation possible.

Those desiring rides may call 7144-J.

The Auxiliary will hold a bake sale Friday, Oct. 28, at the Eberhardt Insurance Office beginning at 9 a.m.

Mrs. Carmon Hyland, Mrs. Ray Schlegel and Mrs. Mary Rufner will have charge of the sale.

THEY GOT PICTURES—Lawrence Rushenberg (left) and his aerial partner Gunner Gunnson of the R&S Air Photo Service in Harlen, Iowa, buzzed through the skies over the Tecumseh area three weeks ago. Making good use of their giant aerial cameras, they shot photos of 52 farms from their light plane. Mr. Rushenberg has been doing this for years and helped photograph thousands of farms in nearly every state in the nation. Their pictures begin appearing this week,

What's Going on at BOYSVILLE

By LOUIE CIAVONE

The Boysville High School library, one of the best equipped in the state for the size of the school, has been seeing a lot of activity since school began.

During the summer months about 500 new books were added to the shelves.

There are now about 6,000 volumes in the library.

A large donation by a Michigan Knights of Columbus Council in the Detroit area made this addition possible.

A wide variety of reading material is available to the students, ranging from the light variety to heavier study matter.

Required book reports in most English and history classes assures ample use of the library facilities.

Richard Heynen, biology instructor and assistant coach at Boysville, is working for the University of Michigan as a spotter for its football games.

Mr. Heynen played for the University and graduated from Michigan.

Last week, the Michigan State Inspectors of Schools made their visit to Boysville.

They talked with teachers and students, visited classes and remarked how Boysville had grown in recent years.

The visit was made for the purpose of determining whether Boysville would continue to be an accredited Michigan high school.

The Boysville Fighting Knights added another victory to their record when they overpowered Sand Creek, 46-0, Friday.

On the first play from scrimmage, John McGeshick ran 70 yards for Boysville's initial score. Bill Gager made the extra point.

Then Gager ran 47 yards on a trap play for a touchdown. McGeshick then hit again off tackle for 22 yards and a TD.

The last score of the first quarter was also made by McGeshick.

The only tally in the second quarter was on a 10-yard pass from Ken Snooks to Tony Mata.

At halftime the score stood at 33-0.

In the second half Dick Michniak, playing the quarterback position, hit Mata with a 22-yard scoring pass.

The final touchdown of the wiak, a freshman playing in the fullback slot.

The victory over Sand Creek brings the Knight's record up to six wins, no losses so far this season.

On Friday, the Knights take on their traditional rivals, the Manchester Dutchmen, at Manchester in a non-league contest.

On Wednesday, Oct. 19, the Boysville Junior Knights beat the Tecumseh JV, 7-6, in a very close game.

Tom Ryan, grabbing the ball from the Tecumseh quarterback's hands as he was about to pitch out, ran into the end zone for the only Boysville score.

On the point after, the Boysville quarterback fumbled, but wide-awake Milt Baxa grabbed the ball and ran over for the winning point.

Banquet Honors Grand High Priest Larry W. Larsen

A testimonial banquet honoring Larry W. Larsen, newly-elected Grand High Priest of the Grand Chapter of Royal Arch Masons in Michigan, has been planned for Saturday evening, Nov. 12, at the Tecumseh Country Club.

All Royal Arch Masons, their wives and friends are cordially invited to attend.

Tickets are available from Kenton Hunt at the post office. They should be picked up by Saturday, Nov. 5.

Devotion Theme: Being Tolerant, Understanding

Sixteen members of the Irene Circle of the Methodist Church met at the home of Mrs. Don Martin Oct. 17, when Mrs. Owen Partridge presented devotions on the theme, "Living Echoes."

She read from the book of Matthew and stressed the thought of being kind, understanding and tolerant of those around us.

She closed with a poem, "For Awareness", and "The Lord's Prayer."

Mrs. Herbert Dillon, Mrs. H. R. Shimmins, Mrs. George Wittrup, Mrs. Merlow Packard and Mrs. Tracy Lord presented the program, "Christian Citizenship."

Money Is Waiting

Some young people, who participated in the recent subscription sale for The Tecumseh Herald and did not earn bikes, have not claimed their money, $1 for each new subscription.

Dick Moon Gets Only Touchdown as Poley 11 Wins

Dermont Poley's Lightweights downed Ted Todd's Lightweights, 6-0, Oct. 18.

The only touchdown came in the second quarter.

Dick Moon made a 25-yard run and was brought down just short of the goal line. On the next play, Dick scored the touchdowns.

Marlowe Elliott, Dale Lee, Jeff Osburn, Max Williams, Danny Kelch, Tim Heflin, Jeff Baker, Ed Brazee, Chuck Randolph, Stanley Lewis and Dick Moon started for Mr. Poley's team.

Starting for Mr. Todd's team were Doug Gillies, Steve Hunt, Mike Crawford, Kingsley Dunn, Randy Work, Fred Kaschur, Tim Dickinson, Ron Rentschler, Jerry Hale, Alan Vallad and Ned Rosacrans.

Co-captains for Mr. Todd's team were Randy Work and Jerry Hale. Jeff Osburn and Danny Kelch were the co-captains for Mr. Poley's team.

Inquires Club Plans To Help a Needy Family

Mrs. Roy Beasley entertained the Tecumseh Inquirers Club Oct. 18 when plans were made for the Christmas open house Nov. 12.

Members also decided to assist a needy family.

Mrs. John Cameron, chairman, and Mrs. Beasley presented the lesson on "Tasty Salads" and served several for refreshments.

The next meeting, a Tupperware party will be held at the home of Mrs. Howard Morris on Nov. 15.

Monday, Oct. 17 was the date set for the girls to begin wearing uniforms. At this time the boys were also required to wear ties.

There was a game scheduled to be played at Britton Oct. 20. But because of unsatisfactory weather and the fact that our receiving report cards the Britton team was greatly diminished, the game was canceled.

The latter statement is also a warning to our boys. We are confident, however, that this will never occur here.

Students were dismissed Thursday at 11:55 so that both teachers and pupils would be able to attend the Auto Show.

The next day comments to this affect were head:

"I never saw so many different cars".

"I'd like to go again next year".

"I wish I had gone".

The seventh and eighth graders were greatly pleased when Father Collins came to their room one morning and delivered a talk on vocations.

He revealed many new ideas to them and clearly explained facts they were doubtful about.

As a result numerous students will be thinking about their calling in life sooner.

Friday, Oct. 21 the seventh and eighth graders enjoyed a skit directed by William Prochaska.

The "all-star" cast was made up of Rory O'Connor, David Lips, William Prochaska, Julie Muddett and James Greene as narrater.

Monday Club Making Tour

Members of the Tecumseh Monday Club will tour the Jiffy Mix Factory in Chelsea Monday.

The group will leave the Methodist Church parking lot at 1 p.m.

Church Notes

+ Cleveland Man To Speak Sunday at Luther League

On Reformation Sunday, Oct. 30 the Luther League will have as guest-speaker, Joseph Guttovz organist and choir director of the First Hungarian Lutheran Church at Cleveland.

He will talk on "Luther as a Musician."

Parents and guests are cordially invited to the meeting at 7:30 p.m. in the Parish House.

The Junior Choir will sing at the second service that morning, directed by Mrs. Stephan Illeck.

On Oct. 29, from 7:30 to 11 p.m., a social gathering will be held for husbands and wives in the Parish House.

Bryan Edward, the son of the Earl Ruttkofsky's was baptized Sunday.

An artistic sign was painted and donated to the congregation by Mr. and Mrs. Richard Kurath.

The Luther League hayride was a big success, with about 24 youngsters participating. They would like to thank Curtis Wright and Solarski.

Every Sunday two church services will be held, at 9:15 and 10:30 a.m. Sunday School starts also at 9:15.

+ In End, Score Touchdown for Christ

Football is the theme of an attendance contest at the Tecumseh Friends church.

In four quarters of play (or four Sundays), it is hoped the record attendance of 330 present in the Sunday school will be shattered.

Oct. 23, the first quarter of the game, found 252 in attendance with 19 visitors.

Mabel Lockwood scored in this quarter for the Friendly Class, by bringing the most visitors.

During the Sunday School hour, pins were presented for each to wear announcing this contest.

A skit was also presented by two teams, "The Wordly Scorners" whose cheers were WAIT and RELAX and "The Christian Victors" whose cheers were PRAY and WORK.

This was to stimulate enthusiasm for the members to work to win.

The theme of the Victors is "Be on the offensive, guard against sin, tackle complacency, and in the end, score a touchdown for Christ."

Posters were made and placed downtown. These are to be picked up and judged family night for winners in this division.

Prizes will also be awarded in other aspects of the contest.

+ Comforting

Comforting assurance of the final destruction of all sin will be given in the Lesson-Sermon entitled "Everlasting Punishment" to be presented Sunday at Christian Science church services.

+ Man's Beliefs Determines His Character

What an individual believes determines the type of personality and character of a man or woman.

The fundamental beliefs, goals and purpose of a life will give us the clue as to whether an individual will make a contribution to society by his life or only take from mothers to satisfy his own selfishness.

To know what we believe demands self-examination, and a desire to honestly evaluate the results.

This will be the emphasis of Rev. Allen Wittrup's sermon at The Methodist Church on Sunday at 10 a.m. when his subject will be "This We Believe."

This is Loyalty Sunday, when all members will be present at the morning service. It marks the beginning of the Financial Campaign for the 1961 Church budget.

The campaign will continue through Nov. 20. All members and friends of the church will be asked to support the church.

Intermediate Youth Fellowship will meet at 5:30 and Senior MYF at 6 p.m.

The Methodist Church joins with the other churches on Monday evening in the children and youth calling at homes for UNICEF.

The Woman's Society of Christian Service meets on Wednesday evening at 8 p.m. The program will be "Into All The World Together," lead by Mrs. Dunean Lectka.

CLEAN TALK

Avoid Belt Trouble

By ROYAL WELCH

Many belts are not only unserviceable — they're a down right menace to the garment with which they're worn.

Here's the story.

Some belts shrink, deteriorate, lose shape, warp and buckle, or — worst of all — even fade onto the garment itself. A bad thing which frequently ruins the garment.

And here's the answer:

LOOK FOR THE BELT THAT CARRIES THE LABEL. "CLEANABLE AND WASHABLE," — ALL BELTS CARRYING THAT LABEL ARE SAFE. THEY WILL NOT BE HARMED BY ANY OF THE USUAL CLEANING OR WASHING, WHETHER WE DO THE WORK FOR YOU OR YOU DO IT YOURSELF.

If the belt doesn't carry the "CLEANABLE OR WASHABLE" label, the best thing to do is look further. Try to buy only "cleanable or washable" belts and save yourself the difficulties caused by unserviceable belts.

Naturally, almost any garment can be paired with an almost endless variety of contrasting belts, so if the garment is just what you want, replace the belt before you wear it with a belt which won't ruin your garment. That way you'll be sure, just as you are when you BRING YOUR CLEANING TO WELCH CLEANERS.

Emmanual Lutheran Church Starts Building Program

BRITTON—Emmanual Lutheran Church on Ridge Rd. was organized Jan. 2, 1861.

In preparation for its 100th anniversary, plans have been made to build a new house of worship.

The present church has been enlarged and repaired on five different occasions.

On April 22, 1920 a cyclone damaged the church and parsonage so severely that they had to be almost completely rebuilt.

A building committee consisting of H. O. Miller, John Schroeder and Gus H. Daisher was appointed. Cost of rebuilding the property amounted to $8,300.

Larger and better worship and educational facilities are needed for the ever-increasing church membership.

A new church, with adequate space for seating 256, sacristy, nursery, overflow, offices, fellowship, Sunday School classes, kitchen and storage will be constructed.

Fourteen pastors have served Emmanuel from its beginning until now. The present pastor is Rev. James Moehring.

Sunday School is 9:30 a.m. and worship at 10:30.

Are You Satisfied With The Present Operation of The Lenawee County Probate Court?

Maybe you have had no experience with it. Then how about your neighbors? Your supervisor? Your Doctor? Are they satisfied? Why not ask them? The probate court handles human problems that cannot be solved by the use of dry, legal technicalities, but instead call for common sense and good judgement. It is for this reason that, **UNDER MICHIGAN LAW ONE DOES NOT NEED TO BE A LAWYER TO BE PROBATE JUDGE**, and that our neighboring counties of **MONROE** and **HILLSDALE** and many others presently have probate judges who are not lawyers.

I have a nine-point program for the probate court, based on what I believe to be good judgement, common sense and courtesy, that I urge you to consider. It is being published frequently in the local newspapers.

☆ IT IS TIME FOR A CHANGE! ☆

Elect JUSTICE MAURICE SPEAR

Your Probate Judge on November 8.

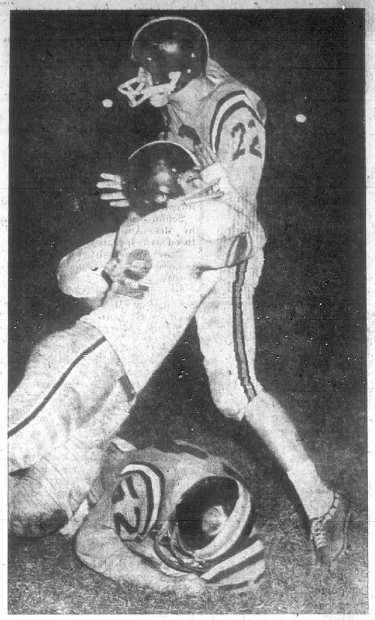
Bruce Hoekstra Learns New Art —Fixing 'Dozers

FORT LEONARD WOOD, MO. —Army Pvt. Bruce J. Hoekstra, son of Mr. and Mrs. Frank H. Hoekstra, 505 N. Pearl St., completed the engineer equipment maintenance helper course Sept. 30 at Fort Leonard Wood, Mo.

Hoekstra was trained to assist in the repair and maintenance of tractors, graders, bulldozers, air compressors and chain saws.

The 23-year-old soldier entered the Army last May and completed basic combat training at Fort Ord, Calif.

A 1954 graduate of Tecumseh High School, he was employed by General Motors Corporation, Fisher Body Division, Van Nuys, Calif., before entering the Army.



His Finest Effort

Capt. Jon Aho, a speedy halfback tabbed for high school stardom from the time he was a freshman, came into his own Friday evening against Airport. ABOVE, with knees high, Jon rams a would-be Jet tackler. Team mate Mike Rohrer (52) is the blocker. BELOW, Jon bulls his way in for a score, dragging an Airport player with him. Aho's coach, Dunc Lectka, said it was Jon's finest performance. He ran like a man posessed, straight-armed with a vengeance. On defense, Jon sparkled. An honor student, he also performs in track and basketball.

Aho Stars as Indian Gridmen Racks Up Fifth Win of Year

By JIM LINCOLN

Tecumseh dropped Airport completely out of the race for the Huron League championship last Friday night, 27-18, and enhanced the Indians own chances for the cup.

Coach Dunc Lectka's team still has two league games, and both will be tougher than last week's tilt with Airport.

This Friday night, Tecumseh tangles with Blissfield at the Royal's field. Blissfield squelched Flat Rock last week, 40-20, about the same score the Indians tallied against FR the week before.

The Indians, plagued by penalties again Airport, scored in every quarter with Jon Aho going over twice and Clarence Champanois and Mike Green, once each.

Aho was the workhouse of the backfield corps, carrying 22 times for 165 yards and a 7.5 average. The 190-pound senior halfback ripped off TD runs of six and two yards, and three times romped over for the extra point.

In the Indians' third TD drive of 71 yards, Aho carried eight out of 10 rushing plays.

He also accounted for three of five pass interceptions while on defense.

Clarence Champanois, dumped frequently on end sweeps, finally broke away in the second period on a double reverse for 12 yards and Tecumseh's second score.

Mike Green, who personally rolled up 62 yards rushing, bulled his way into the end zone in the final period. The TD run started on the 10 with Green simply ramming, carrying several Airport players on his back the last few yards.

Bob Maxwell passed for all Airport scores, one coming with just 40 seconds left in the first half and covering 59 yards.

He hit Art Herald early in the second stanza for Airport's first D and then Stach Browski just before the half. The period's second score was a Tecumseh gift, since the Indians knew a pass was coming and allowed the receiver to get behind them.

The Jets marched 65 yards for their final tally, Maxwell hitting on a fourth down pass to Jim Johnson in the end zone from the seven.

NO MARRIAGE IN HEAVEN by Grace Fletcher — Marcy Minton, a spoiled Texas belle, had always relied on her charm to get her own way until she met and married an impecunious Yankee preacher. From an elaborate wedding in Fort Worth Marcy descended to a shabby basement apartment on Boston's Beacon Hill where David was assistant minister at St. Luke's. This is the story of the clash between a man of God and a self-willed woman and their struggle for happiness and a final understanding.

THIS DEMI-PARADISE by Margaret Halsey — Suburbanites, rejoice. Here is the diary of a Weschester matron, and is a perfect antidote to those depressing tales of tired commuters drowning their mortgages in martinis. Here is proof of the most delightful sort that all is not TV dinners and adultery in those picture windowed homes on Look Alike Lane.

THUNDER HEIGHTS by Phyllis Whitney — Camilla King's trip up the Hudson to the huge Gothis mansion named Thunder Heights was in a way a return to the home that had never been hers. Over the enormous house hangs an atmosphere of gloom, impending danger, and strange crosscurrents...

A LITTLE WIDOW IS A DANGEROUS THING by Helen Hastings — The author tells the colorful story of her life among 500 head of scrub cattle and her Florida flatwoods neighbors; a story as energetic and irrepressible as the lady herself. Weekdays, she holds down a secretarial job in Ocala, but her most important hours are spent in a beat up jalopy and on good horseflesh, when she tends her cattle and her razorback hogs.

SOME ANGRY ANGEL by Richard Condon — This account of Dan Tiamat's doom-haunted rise from proverty to international renown as a newspaper columnist is the symbol of all mankind, blasphemously cursing the existence it has created for itself.

From where I sit ... by Joe Marsh
No News Like True News

Nothing makes a newspaper editor happier than a "scoop." But it seems to me some editors overdo it now and then.

Last week, for example, an editor claimed his paper was the first in his city to report the Mayor's "impending retirement." But, judging from the next day's edition of the same paper, the Mayor had other ideas.

As a result, the lead editorial in that newspaper then started off like this: "We are glad to be the first paper in the city to inform our public that the story of the Mayor's retirement is just a rumor."

From where I sit, facts and truth always win out, no matter how you disguise them. That goes for newspapers as well as for neighbors. For instance, your choice of beverage may be a glass of iced tea . . . mine is an occasional glass of beer. Now each of us could make up quite a "story" about which of us is right. But the fact is we're both right—now let's just respect each other's point of view.

Coffee Beans from Brazil Make History

TOLEDO — Capt. E. G. Innes of the ocean-going ship, Mormacpride, and sales manager Clifford Smith of A&P's Toledo Unit, were on hand as coffee history was made here.

First shipload of Brazilian Coffee to pass through the St. Lawrence Seaway was unloaded at Toledo Overseas Terminal as the pair watched.

The 2,500-bag shipment of Santos coffee arrived on the Moore-McCormack Lines cargo vessel on her maiden visit to this port.

The load of coffee was rushed to the nearby A & P coffee roasting plant and processed for distribution to Toledo Unit A & P Stores, including Tecumseh.

The event was witnessed by business and civic officials, who later attended a reception aboard the ship hosted by Capt. Innes, who has been a skipper for the line for nearly 20 years.

Fathers Are Failing in Discipline Dept.

Child Study Club No. 1 entertained their husbands at a meeting Oct. 10 when William Bannan, warden of the Southern Michigan Prison at Jackson was the speaker.

About 30 attended to hear Mr. Bannan at the home of Mrs. M. R. Blanden, who introduced him.

He spoke about recent events at the prison including a show presented by Jimmy Durante and also told of his life and training to become a warden.

He said that there is a lack of parental discipline especially on the part of fathers. People give their children material things rather than companionship.

Boy Scouts and Little Leaguers are seldom found among the inmates.

He said further that there is a definite need for sex education in the schools and highly approved the group guidance plan used in Tecumseh's system.

A discussion and quiz period followed Mr. Bannan's talk.

Pumpkin pie, mints and coffee were served and favors of nut cups with Halloween faces were used.

The annual bazaar will be held next month.

Through My Window

Through winter's snow, spring's rain and summer's heat we try to keep a supply of corn always available for the squirrels. The corn tree and the holder on the feeder are filled once a day. Unless we are particularly interested in luring squirrels close for picture taking reasons, there is also corn on the fence.

We figure the exchange is about even—we give the squirrels food and they give us enjoyment.

One would think, however, that there could be a little bit of gratitude shown. After all, to know where, day in and day out, you can always depend on a free hand-out should mean something, shouldn't it?

Well, the squirrels apparently don't think so. At least they have been doing a mighty good job lately of appearing ungrateful.

With haughty disdain they turn up their noses at our banquet boards — the corn tree, the feeder, the fence have not hosted a squirrel for at least 10 days. Old Dame Nature has opened her horn-of-plenty, the yard is full of fallen walnuts. Our fair weather friends have deserted us.

OK, if that's the way they're going to be, I'll just show 'em. I'll just watch as they make gluttons of themselves, feasting all day long and really, it is great fun to see.

☆

ACTUALLY, I can't blame them too much for deserting me — given a choice between corn and nuts, I would pick the latter, myself.

It would be nice, however, if now and then one of these long-tailed characters would spare a minute for an old friend, but I know this will not happen until the walnuts are gone.

This is apparently a good nut year — at least our trees have bumper crops. The ground is covered and my, they are all so big.

The squirrels are busy, busy, busy, and, as mentioned before, it is fun to see them. The big squirrels are following much the pattern they have in past years. They are quite careful about selecting their nuts, but rather haphazard about burying them. They can't possibly find all that are stored away and it is just a wonder that each spring there aren't little walnut trees springing up everywhere.

ONE OF THE neighborhood squirrels has an unusually long tail — in fact, this summer we laughed at him because he had such a time managing it. He finally got the knack, however, and is now doing quite a good job.

The other day I don't know what happened but he was certainly having a time. Most of the morning and all of the afternoon he was tearing about in a high state of agitation and I am sure accomplishing nothing.

Up into a tree and then down, back and forth across the yard, over the fence and then under — first it was one thing, then another and all the while, his great long tail was flipping and thrashing in great excitement.

Maybe he was frustrated by so many walnuts available and the pressing problem of deciding which ones he wanted because repeatedly he would pick up a nut, carry it a few steps, but quickly drop it and race to something else. Such antics.

☆

THE LITTLE reds are doing their nutting systematically. With no hesitation they race to the nuts, quickly pull off and discard part of the outer husks and carry them — the nuts, I mean — away to their various winter caches.

This tearing away of the fibrous outer covering must make the nuts easier to carry but even so, it often looks as if the squirrels were handling loads much, much too big for them.

And they don't take the easiest roads home either — at least to me they don't look easy. They tote their heavy burdens into the trees and, jumping from one limb to another, away they go.

It is simply amazing to see how little bothered they are by those big walnuts they carry.

So it is that although lately our offerings have been completely ignored the squirrel looking has been good. We have some choice ears of corn which will be put out when Mother Nature's feast begins to dwindle — it's defeating to be dropped so quickly when something a bit better comes along but after all, we can't hold grudges.

Till the squirrels decide to come back to us, I guess all we can say is nuts to them.

'Cutting Edge' To Be Presented by Technical Club

The vitally important role of cutting edges in the advancement of the American way of life will be discussed in "The Cutting Edge" presentation at a meeting of the Adrian Technical Club Monday, Nov. 14 at 8 p.m. in the Eagles Club at Adrian.

Although highly entertaining "The Cutting Edge" presentation of The DoALL Company has an important message for engineers, educators and management people.

It gives a broad view of the entire subject of cutting edges so that their importance in the present world situation can be appreciated.

The presentation is under the direction of C. G. Schelly, well-known scientist, educator, and author.

It consists of three parts; a 43 ft. historical panorama, an illustrated slide talk, and displays of actual production parts.

The historical panorama is a million year record arranged on twelve panels. It shows the step-by-step development of cutting edges from bone, to stone, to bronze, to steel and on to carbides and ceramics.

The panels show actual examples of the cutting edges and the work they produced together with colorful charts and scenes of the life of the times.

The tremendous advances in the last 150 years are shown to be the result of harnessing the cutting edge in a rigid frame and applying power.

Understanding and full utilization of this has brought both the development of cutting edges and standard of living in the United States to the highest level in the world.

"The Cutting Edge" is the third non-commercial educational presentation compiled and sponsored by the DoALL Company, manufacturer of machine tools and industrial supplies.

The first of the presentation is now permanently displayed in the Museum of Science and Industry in Chicago and the second one is in the Hall of Progress at Des Plaines, Ill.

About 50 employees of Tecumseh Products Co. are included in the 200-members Adrian Technical Club.

B-25 Planes Will Bomb Beetle Larvae

Two B-25 planes will bomb parts of Riga Township in the next few days.

Their target: larvae of Japanese beetles.

The two ships will dispense aldrin granules, which looks something like sugar.

Michigan's Department of agriculture is handling the "bombing" program, which covers about 46,000 acres in southeastern Michigan.

Riga Township is the one point in Lenawee County where the larvae has been discovered.

Japanese beetle in the adult stage feeds on more than 250 kinds of vegetation—fruits, ornamentals, vegetable plants and turf.

The larvae spends 10 months underground where it feeds on plant roots before emerging as a beetle. In Michigan the emergence is usually early July.

The adult is a great hitch-hiker and gets from one area to another on cars, trucks, railroad cars, airplanes and other forms of transportation.

Japanese beetle is not difficult to eradicate if the proper steps are taken when beetle populations ar low. When beetle numbers reach astronomic proportions, as they have in some parts of the U. S., eradication becomes almost impossible, Michigan's policy is to halt infestation at the start.

Eradication measures include trapping to detect Japanese beetle presence so the adjacent area may be treated with insecticide.

Contrary to what some persons think, traps are not for controlling Japanese beetles—they merely indicate where beetles are so control measures may be set up.

VOICE of THE HERALD

It Will Be a Battle

Ten days is a long time if you're sitting out a jail sentence.

It's a moment in election year.

Ten days in the time left before we vote on our next president, governor and a host of other offices and issues.

A tremendous battle looms. The Republicans are going to have to get fired up right now or they're going to suffer some crushing defeats.

GOPs take their cue from the party's presidential candidate. We cheered mentally when Dick Nixon said the campaign opened the night he was nominated in Chicago.

Dick did go into action — in that he was on the move.

But he has seemed to be holding back, even with press and party members goading him into a free-swinging clash with Jack Kennedy.

Time is running out, Nixon has got to start slugging, toe-to-toe.

We have gained tremendous respect for Mr. Kennedy—but not enough to help vote in a Kennedy administration. However, this insight has given us cause to re-evaluate the whole race.

Our conclusion: Nixon is in a death duel, along with the whole GOP party. We want him to win, we don't care for government control ideas, we do feel a Republican administration has kept America on an even keel.

Democrats cry, "We've had recessions!" This is true, and always will be under our free enterprise system. But we shudder to think what would have happened had the Democats been in power and tried to solve past years' problems by slapping on government mandates.

Our foreign policy in the past eight years hasn't brought a raft of Nobel prices, but neither has it given us a Korea.

We'll vote for Mr. Nixon.

Now we look at the state scene.

Paul Bagwell is our choice, and like Mr. Nixon, he faces a grim task in besting John Swainson.

Mr. Swainson is a personable chap, but he's confused. His mixed-up attitude comes from the fact he is tied-up lock, stock and barrel by the UAW-CIO. This was proved conclusively when Mr. Swainson said he wanted Con-Con, but when CIO officials said, "no", he made a complete about-face to parrot his keepers.

As Michigan tackles Chapter Two of its "Credit Crisis," Mr. Swainson has no plan for a solution. He doesn't want another penny added to the sales tax, he isn't certain about an income tax. He won't announce his tax idea "until after I'm elected."

Mr. Bagwell gets our vote because he does have a plan. He supports the added sales tax, which will stave off financial chaos. This, coupled with Con-Con, will get us to a point where we can come up with a whole new concept of state taxation.

The Herald advises its readers to vote "Yes" on both Con-Con and the Sales Tax Question. Passing these, along with the election of Paul Bagwell, are the things which will make sense for Michigan.

Drivers — Be Alert

Halloween will present special dangers to motorists.

Countless youngsters will be out for several hours on the evening they have looked forward to for a long time, and they'll be garbed in white goblin sheets, black witches' cloaks and costumes of all sorts — many of them with masks which prevent seeing clearly.

"These youngsters will be so absorbed in the fun of 'trick or treat' that they may forget to exercise the caution they ordinarily use when going to or from school, says Gerald Shipman of the State Safety Commission.

"Motorists therefore must adopt a more solicitous attitude toward these juvenile fun-makers, remembering they themselves once were kids," he added.

"What disturbs state officials even more is the inclination of a comparatively small percentage of older youths to make Halloween the excuse for pranks which can prove dangerous to drives."

"We urge that would-be vandals resist the temptation to deface, twist, or remove highway warning signs, or to place obstructions of any sort in a roadway. Those who gamble with the safety of the driving public are setting the stage for tragedy. These occurances are rare, but even just a few — even one — could have tagic consequences."

EDITORIAL in PICTURE

As in every community all across the nation, Tecumseh has its Sentries of Safety. Posted at street crossings, where youngsters must pass on their ways to and from school, these fellows do a remarkable job. Whether the sun blazes over-head or dark clouds spatter rain drops over the countryside, the youths stand guard. Pictured below is sixth-grader Scott Edwards of the Patterson School patrol, who signals "wait" with outstretched arms at Chicago Blvd. and Union St. His garb was a bright yellow pancho, which the boys wear when it rains. The Herald salutes our community's safety patrols.

LETTERS TO THE EDITOR

TO THE EDITORS:

I enclose a check for $4, a year's subscription to The Tecumseh Herald.

I write a column on birds for the weekly "Inquirer and Mirror" Nantucket Island, Massachusetts, and a nice Mrs. Rohweder, in your city, sent a year's subscription to The Inquirer, because she thought your columnist, Marda Gene Duncan, might like to read about our Nantucket birds.

Now I want to read "Thru My Window" in Michigan and compare birding notes with Marda.

Sincerely yours,
Mrs. Sydney E. Coffin

FOR ACTION

Jaycees Receive Award

A "Community Development Award" was recently awarded to the Tecumseh Jaycees by the U.S. Junior Chamber of Commerce and American Motors Corp.

The award reads in part, "Whereby, in surveying the community and designing action projects to alleviate needs found by analysis of that survey, this chapter did thereby contribute to the overall growth and development of the community."

"The local Jaycees are proud to receive this award for it recognizes one of the basic goals the Jaycees are constantly striving for, service to the community," says president Dyke Helms.

Mr. Helms reports that one of the Jaycees most recent projects is the building and erecting of a 20-ft. pipe frame, spaned with chain link fence, to provide a mounting for service club signs.

The unit will be located at the east edge of town. Its purpose is the centralize the signs that now dot the roadside and provide an attractive and impressive entrance to Tecumseh.

Judge Kuney Is Speaker at Grange

Probate Judge LaVon B. Kuney was the speaker at the meeting of the Pomona Grange last week held at the Tecumseh Grange Hall.

An election of officers was held. The attendance award was presented to the Rome Grange, with most members present.

Palmyra Grange won the percentage award with the largest percentage of members present.

The fifth degree was conferred on a class of candidates by the Pomona degree team.

Our Choice: Nixon and Bagwell

PAUL BAGWELL

Voters in Michigan face some critical decisions Tuesday. They'll be balloting for a new president and governor, as well as a raft of national, state and county officials.

Three crucial propositions are other questions they must help answer.

Proposal No. 1 has to do with school financing. No. 2 is on increasing the sales tax from 3% to 4% No. 3 is the Constitutional convention question.

The Herald urges a "Yes" vote on all three.

The school bonding issue, if passed, guarantees the state's backing to school district loans, thus helping to keep down interest rates.

The penny boost in sales tax is the quickest, cheapest method of getting Michigan out of the red and holding off further cash crisis in the immediate future.

This ties closely with the Con-Con proposal, which should be passed so that eventually Michigan can have a complete new base for its taxation.

For president, we feel that Richard Nixon can lead this nation in the critical years ahead and should receive your vote.

Our choice for governor is Paul Bagwell—and here there is absolutely no comparison between Bagwell and labor-owned John Swainson. If Swainson should win, Michigan would be bossed by Walter Reuther et al.

It is your nation, your state, your future. Be sure to make your feelings known by voting Tuesday.

TOM RIORDAN'S Long AND Short

Our office gals said to mention an item: dates that accompany name of subscribers, which appear on all papers going through the mail don't mean a thing.

Some are getting pretty antiquated, going back to '58, and have nothing to do with the time a subscriber's time is up.

When we switched to our present addressing method — using permanent metal plates — the dates were stamped with the name.

We see now that the dates should have been dropped.

But there they are.

Subscription records are kept right up to the minute in our office card file, so please disregard the date on your paper.

☆

In a word — VOTE.

Don't fall into a frame of mind that, "I want one man and my wife wants his opponent. No use going, our votes will just cancel one another."

Hogwash.

Did you ever analyze this nonsense?

Votes are added together and many a race has been won by one or two — besides, there are a raft of questions which should get your attention.

If you have felt one vote cancels another, drop the thought and VOTE.

☆

"Well, kid, where have you been?" I asked as he hopped up onto my cluttered desk.

"Wow, did I have a cold," responded Bootin' Pussy, "And Doc Knisely wouldn't let me out for a month, football season or not."

"But I'm in top health again and ready to back my Indians.

It's tough we lost to Milan, but the kids bounced back in fine shape.

"Grosse Ile will be awfully tough Friday night," I chimed in.

Bootin' looked worried, "Golly if we can get by those Islanders . . . then it's Adrian. But we won't think about those Maples until Grosse Ile is safely tucked back into their bus with an ignominious defeat tacked on them."

"A what?"

"That means a thorough beating. And that's what we'll have to give 'em."

Readjusting his toothpick to a jaunty angle, the little guy bounded to the floor and was out the front door before I could reply that I really knew what ignominious meant all the time.

Tipton's PTA and Meadowbridge Dairy have undertaken a joint project: providing milk for 15 needy youngsters at school.

The two parties share the expense, which is 2¼c for a half pint of white milk.

The idea is working well in Tipton and Ken Blumerick of the Dairy says he would be happy to coperate in this manner with other PTAs.

Vote Early!

All voting places will be open from 7 a.m. until 8 p.m. Tuesday. Early balloting is recommended due to the record registrations in nearly every unit of government in this part of Lenawee County. In the City of Tecumseh, 3,729 citizens are eligible to vote

Fund Drive Goal Is $70,000

Donations to the 1960 Tecumseh Community Fund Foundation drive so far have reached $29,000, reports chairman Jim McKenna.

The goal is $70,000.

The industrial portion of this year's effort began a week ago and is partially complete, states industrial chairman Joe Fortunato.

Commercial and business solicitations began this week, under direction of Dick Osburn and James Mull. No report is available as yet from this division.

An army of 80 volunteers began to canvass city homes Wednesday and will continue on this phase of the '60 drive until Thursday, Nov. 10.

Professional men are being solicited by Dr. Richard Coak.

Complete reurns for all phases of the drive will probably be tabulated at the end of the month, Mr. McKenna says.

In order to help show progress towards the $70,000 goal, a large thermometer torch has been erected on the flag pole in front of the public library.

As returns come in, the current total of gifts will be painted on this sign.

TORCH OF HOPE

Total charitable budget for the Foundation this year is $23,000. About $5,000 takes care of local obligations such as Girl Scouts, Boy Scouts, Service Club and community parties for youth.

The balance of $18,000 will go to the Michigan United Fund, Lenawee United Found groups, Salvation Army, Red Cross, ups on Valley Child Guidance Hur- and other state and nat ty clinic ional organizations.

All surplus donations are placed in the Foundation's building fund, which stood at $80,000 going into this year's drive.

☆

THE DRIVE chairman has received many phone calls from interested persons, wondering how the campaign was progressing.

He adds that, "Much of the comment was concerned with the funds on hand from last year's whopping success."

"Questions for the most part were merely inquisitive," Mr. McKenna said, "Concerning the future activity of the Foundation, its attitude toward the construction of buildings or the acquisition of property."

"This interest does not stem alone from one segment of our citizens, sisters, teen agers, service clubs and women groups, social and cultural groups have also exhibited curiosity in what is going to be done," he continued.

"As previously reported in two full page ads in this paper, the aims, hopes, goals and aspirations of our city will be fulfilled only when the motto 'Give once for all' becomes a reality," Mr. McKenna concluded.

Liquor Question Is Vote Drawing Card

A record turnout for the Nov. 8 election is expected in Franklin Township when citizens vote from 7 a.m. until 8 p.m. at the town hall in Tipton.

It's a presidential year, but this is only a partial reason for the expected jam at the polls.

A liquor-by-glass question has become a strong drawing card.

Township clerk Maurice Evans' rolls show that 848 persons are eligible to ballot. This is a jump of 195 since the liquor proposition was added.

A petition to place the question on the ballot was filed by Stanley Mieduck of the Pike Inn on Rt. 112.

He states that he wishes "to be able to furnish our patrons with their choice of beverage."

Mr. Mieduck points out that in the two and one-half years he has operated the Pike Inn that there has never been a citation from the State Liquor Commission.

Clinton's state police post verified this statement.

☆

OPPOSITION to the question comes from the United Citizens for a Better Franklin Township.

Its chairman, Mrs. Chester Blaska, has said the group is "concerned about the safety of our children and all the people living and passing through here."

She opinioned that "a startling rise in arrests for drunk driving, accidents and drunkenness accompanies the introduction of selling liquor by the glass."

Mrs. Blaska's group will distribute anti-liquor-by-glass literature to all 451 householders in the township at the end of this week.

☆

FINANCIAL ASPECT of the question has received considerable publicity.

According to law, 85% of all alcoholic license fees are returned to the governmental unit, within which taverns or clubs are located, to enforce liquor laws.

Although Franklin Township has never had its own officer, the state had been sending the refund checks to the township through April 13, 1959. This last check was for $138.12.

No checks have come since and in a letter from the Liquor Commission to Mr. Evans, it was stated there would be none, unless Franklin employed a full-time law officer. The money now will go to the county, to be credited to the sheriff's department.

Mrs. Blaska said that a full-time constable would mean an expenditure of $4,000 annually, with total license refunds to the county being less than $1,000 each year.

Mr. Mieduck counters that the township could do as Cambridge Township does, where there is a part-time constable, who earns approximately $100 a month.

'Charley's Aunt' Scores Big with Capacity Crowd

By TOM RIORDAN

There were many pleasant surprise for the packed house which watched last week's performance of "Charley's Aunt".

It was the Guild of Tecumseh Players first production and the results couldn't have been better.

Expertly directed, extremely well cast, acted with near professional standards, the fun-filled comedy proved a perfect start for the city's new little theatre group.

The Strand Theatre, filled with a 620-standing-room-only crowd, offered excellent acoustics and every seat within close proximity to the stage—conditions which helped make the show a lively success.

Naming an outstanding performer would be an impossible task. They were all good. Most spectators wondered if the group had not been practicing months, instead of only a few weeks.

Dr. Bob Murray was the Oxford student who ended up in the fantastic black satin gown as Charley's aunt from Brazil.

Dr. Murray's background includes many speaking engagements in dental circles and Dale Carnegie speech classes. The experience served him well.

He cavorted about the stage, at first with violent protest, than mild amusement as the youthful Amy, played by Mrs. Bertha Vallelunga; and Kitty, portrayed by Dr. Murray's own wife, showered attention upon "her".

Later, Charley's aunt had to feint off two proposals from a pair of kittenish "oldsters", who thought this was the millionairess, Donna Lucia D'alvadorez.

The two amorous elders, Dr. Carlton Cook as Col. Chesney and Earl Kotts as Spettique, seemed to step onto the stage straight from 1900 London.

Dr. Cook drew two bursts of applause when he strolled majestically off stage, after short bursts of tweedy conversation.

The plot was a melee of fanciful confusion, until the real Donna Lucia, in the person of Mrs. Gloria Jadwin, came upon the scene.

She was accompanied by Laura Seager, as Ella, an orphaned girl, who had fallen in love with an Oxford boy on the Riviera. He turned out to be Fancourt, Dr. Murray, dressed as the aunt.

Dr. Dick Hammel handled the difficult role of Jack and Frank Dalton did Charley, the two conspirators. They were both convincing as students.

In the end, Jack wins Kitty and Charley gets Amy. Francourt is happy with Ella and Col. Chesney, Jack's dad, captures Donna Lucia.

Only Spettigue, who in the second act, chased Charley's Aunt off the stage and out one theatre aisle and later back down the other in a wild outburst of gay slipstick, is foiled.

Special note goes to Dick Boyd. He was perfect as Brassett, Jack's personal servant. Brassett had only a few lines, but he delivered them with authority. His mannerisms and stiff gait won warm audience approval.

There was a student matinee, the same afternoon as the evening performance, attended by more than 300, thus boosting the day's paid attendance to over 900.

The gross receipts topped $600 with expenses of nearly $500. In every way the show was a success

Halloween Party Held at Church

Basement of the Tecumseh Friends Church was gaily decorated with fall leaves, pumpkins and ears of corn for the Halloween party of the Power Class.

Eighteen class members and one guest attended the evening's activities held on Oct. 29.

Games and stunts for the evening included bobbing for apples, fortune telling and a Bible guessing game.

The Rev. Paul Brantingham conducted a discussion on common prejudices during the devotional period.

TEEN NEWS

Elmer Porter and O. James Hansen, senatorial candidates for the State Senate, debated campaign questions Monday in the high school gym.

Moderator Thomas Riordan explained the rules, which allowed each candidate a five-minute opening speech, an opportunity to answer questions from the panel and also questions from the floor.

Howard Lipton, Editor of the UAW solidarity and Frank Gillman, representing the Clinton Local, made up the panel.

Also attending were Fred Groth and Rollo Conlin, both running for representative in the State Legislature.

Wayne Reganall's Senior Government class made the arrangements for the debate.

Tecumseh's freshman football team was victorious 7-6 over Dundee's J V team Oct. 27.

Tecumseh's touchdown was set up early in the forth period when Bob Baker blocked a Dundee punt, picked the ball up and ran 40 yards to the Dundee seven-yard line.

John Oberlin's pass to Gene Manwaring scored for Tecumseh. A pass play to Bob Baker made the point. Dundee scored with one 20-yard pass in the first quarter.

Tecumseh's entire student council met with over 1,300 other student council representatives in lower Michigan at the University of Michigan in Ann Arbor on Oct. 25.

After a general assembly, 34 discussion groups met, each under the leadership of three students.

The representatives were from schools of 100 to 5,000 students. Our council found many of the problems discussed similar to those in Tecumseh High.

Saturday night is a Teen Club dance. In need of repair and redecorating, the club is going to stop the dances in the near future for two weeks and work on these problems.

On Oct. 26, Dermont Poley's Heavyweight team defeated Ted Todd's heavyweight team by 27-2. This made Mr. Poley's team the heavyweight champions.

In the high school cafeteria, following classes, the parents and teachers will be entertained by the chorus.

Coffee and doughnuts will be served, giving those attending opportunity for discussion.

Conferences can be scheduled with individual teachers at this time. Parents are requested to sign for a conference instead of occupying the teacher this evening.

In the junior high, refreshments will also be served during the discussion period.

Mrs. Lavern Seizert, Mrs. Otto Baaske and Mrs. Louis S. Schneider will attend the fall conference of the American Legion Auxiliary this week.

SEE THEM AT THE RIDGEWAY-MACON FAIR — Debbie Blanchard, left and Pam Chumney are two of the dancers from the Peg Harris Studios who will entertain patrons of the Fair Saturday in the Ridgeway School. Victors Move Ahead in Race for Attendance

The Christian Victors moved ahead of the Worldly Scorners by an increase of 20 in the Tecumseh Friends Church "second quarter" of play in the Sunday School attendance contest.

This raised the number present to 272 of which 23 were visitors. The classes hope to top 330, the record.

Dale Ray Johnston, four-year-old, has the lead for the individual.

The Welcome Class, Power Class, seventh grade, fifth grade and pre-school No. 1 are the classes that are ahead in their divisions.

The Faithful Friends and the first grade reported a perfect attendance.

Next Sunday will open the "second half" of play.

TIPTON NOTES

Last Saturday night saw eight 7th and 8th graders gather at the church for their Halloween party and hayride. Mr. and Mrs. Wallace Wilkins and Mr. and Mrs. Dean Cook were chaperons. Amidst a pile of straw and in a Lingerland truck, the kids saw back roads, fog and Tecumseh, plus I am told one or two cow pastures along the way.

After a frigid hour or so which no one noticed, the red nosed group returned to the church basement for an evening of games and cider and donuts. The party adjourned at 10:15 with the fellowship benediction and hopes that the fun will continue throughout the year!

Last Saturday evening saw 30 ghosts and goblins of the senior high variety gathering in the church parking lot for what turned out to be a wild and wooly ride behind Ray Jackson and his valiant tractor. After an hour of hide and seek in the fog and lost and found with four boys, the gay group return to the Grange hall to feast on sloppy joes and cider.

Vi Burnett and Cathy Merritt were in charge of the rest of the evenings activities of games and dancing. A swell time was had by all as evidenced by the fact that no one left until 11 p.m. Mr. and Mrs. Ray Jackson and Rev. and Mrs. Paul Frederick were our counselors for the evening.

Mr. and Mrs. Wesley Whelan and family were Sunday dinner guests of Mr. and Mrs. Darroll Bibbins in Brooklyn.

Mr. and Mrs. Ray Stockinger recently entertained 30 guests including relatives and friends for the sixth birthday of their daughter, Debbie. The guests came from Jackson, Michigan Center, Manchester and Chelsea.

Sylvia Helzerman Exchanges Nuptial Vows with Richard Measel in Evening Ceremony

More than 100 candles cast a soft glow over the sanctuary of the First Presbyterian Church for the wedding of Sylvia Ann Helzerman and Richard D. Measel Saturday evening.

The bride is the daughter of Dr. and Mrs. Ralph Helzerman, 612 W. Chicago Blvd., and the groom's parents are Mr. and Mrs. Milo Measel of Novi.

The Rev. Blair Bashore performed the double-ring ceremony, before an altar enhanced with lighted candelabra, faced with bouquets of large white chrysanthemums.

Hurricane lamps lighted the windows of the sanctuary, centered in arrangements of greens and white blossoms.

The bride was radiant in a formal gown of candlelight Peau-de-soi with pearl embroidered Alencon lace appliqued to the portrait neckline and bracelet length sleeves.

Garlands of lace trimed the front of the belled skirt and hand-made roses and an obi sash topped the ungressed pleats, in the back that swept into a full cathedral train.

A Swedish crown of pearls held in place her tiered waist length veil.

A bouquet of white quill Fuji mums centered with three white orchids and edged with strands of tiny ivy were her flowers.

☆

MRS. BERTRAM UPDIKE presented a program of nuptial music, and accompanied Mrs. Joseph Church who sang.

Hosts at the church were Mr. and Mrs. Marvin Watkins.

Marilyn Jean Helzerman was her sister's maid-of-honor, wearing a street length dress of melon pink crystal satin fashioned similar to that of the bride.

Hand-made roses and a sash at the back waistline topped the boxpleated bell skirt.

The four bridesmaids were Mary Pat McCann, Margaret Champanois, Mrs. Archie Conkey

MRS. RICHARD MEASEL

and Mrs. Tom Measel.

All were gowned in dresses of blush pink crystal satin styled, like that of the maid-of-honor.

Marilyn carried a bridal ring, encircled with pink chiffon roses and ivy topped with a cluster of pale green spray orchids and roses.

Each of the bridesmaids carried the same type bouquet of deeper pink Castinette roses, orchids and ivy.

Ginnie Sue Ousterhout and Cynthia Measel, niece of the groom, were the flower girls.

The gowns of the complete bridal party, including those of the mothers, were made by Maude Bell.

☆

ROBERT CLARK of Northville served as best man and the guests were seated by Ralph F. Helzerman, Jr., brother of the bride, Tom and John Measel, brothers of the groom, and Donald Arthur of Northville.

Gerry Measel, nephew of the groom, served as ring bearer.

Mr. and Mrs. Neville Hart and Mr. and Mrs. Edgar Mansfield greeted the 450 guests at the reception held at the Country Club.

Mrs. R. H. Moore was the serving hostess.

Flowers and candles transformed the main lounge of the club into a delightful setting with a large white bird bath containing lighted pink, floating candles and flowers as the main attraction.

The six-tiered wedding cake centered the room. It was on a circular table, flounced with pink taffeta and white net, draped with strands of similax and clusters of Fuji mums and roses.

Mrs. Elmer Stalb, Mrs. Leland Randall, Mrs. Norman Risk and Anne Carson presided at this table.

☆

FOLLOWING a trip to northern Michigan, the couple will make their home at 6961 Hyne Rd. in Brighton.

The bride is a graduate of Tecumseh High School, Class of 1956, she attended Michigan State University and has been employed as a florist the past year at Ousterhout's Flowers.

She is a member of the National and Michigan Arabian Horse Association.

The groom is a graduate of Walled Lake High School, Class of 1951, served in the armed services with two years in Germany and is employed by Lincoln-Mercury in Wixom.

He is a member of the National and Michigan Morgan Horse Association.

A buffet dinner was served Oct. 23 at the Helzerman home following rehearsal.

LETTERS TO THE EDITOR

It is 9 Oct. 31 and I have three brokenhearted little boys crying themselves to sleep.

Just an hour ago they returned from a trip around the block in their costumes and were so excited and happy with their bag of treats.

They ate some of the candy and popcorn then got ready for bed.

When they were in their pajamas they went to the front door to say goodnight to their Jack-O-Lanterns. (Pumpkins they each selected with such care, helped Daddy to carve "make him meaner, Daddy"—"mine is winking!"

They were so excited, when tonite at 6:30 we lighted the big candles inside of each pumpkin and for my little guys they came to life.

They didn't live too long — about 2½ hours. Bigger boys than mine smashed them in the street.

I guess they too were celebrating Halloween but how do you explain this kind of cruelty to a five year old?

Youngsters Get $303 for UNICEF

Youngsters collected $303.63 for UNICEF in Tecumseh on Halloween night.

The children were driven about the city by 30 adults.

The committee hoped that last year's receipts might be topped in this years drive, but due to weather conditions and so many other activities they are grateful that the amount was equalled.

They extend special acknowledgment to Mayor Harold Easton and Chamber of Commerce Secretary Don Murphy for their support, to the children who made posters,, to the committees of the churches, to the First Baptist Church for the use of facilities and to the drivers.

Following the collection cider and doughnuts were served and Halloween horns distributed.

These were provided by the Kiwanis Club.

Mr. and Mrs. Earl Wood are leaving Thursday to spend the winter months in Florida.

Church Notes

+ Love Is Word Badly Misused in Modern Era

"Love, A Way of Life" will be the sermon topic of the Rev. Allen Wittrup at 10 a.m. Sunday in the Tecumseh Methodist Church.

The word "love" has been so misused in our modern literature and popular magazines that we have not recognized the real meaning of the word.

Love is a way of living, experiencing, and sharing.

The Intermediate MYF will meet at 5:30 and the Senior MYF will meet at 5 p.m. with the Rev. Robert Crosby of Detroit.

At 6 p.m. the parents will join the youth for a potluck supper. At 7 p.m. there will be a parent-youth discussion period with the Rev. Mr. Crosby.

Church School teachers and officers will meet at 8 p.m. on Tuesday evening. Plans for the Christmas program will be the matter for discussion.

The Every-Member-Canvas for the Budget year of 1961 is under way. Donald Purkey is chairman and will make a report to the congregation Sunday.

+ Price of Faith is Sermon Topic for Presbyterians

Session of the First Presbyterian Church will meet next Thursday Nov. 10 at 8 p.m. in the Fellowship Center.

Circle 3 will meet Monday evening, Nov. 7 at 8 p.m. at the home of Mrs. Gordon Garlick.

This Sunday's sermon, entitled, "Expensive Living", is concerned with the cost of Christian Living.

Based on an experience from the life of David, in which David is requested to make a sacrifice for a sin which he has committed, the sermon raises the question of how much modern man is willing to sacrifice for his faith.

In an era when everyone is concerned with prices, this sermon is designed to shed light on the price of faith.

How spiritual enlightenment brings a clearer sense of direction and purpose into daily living will be emphasized at Christian Science services Sunday.

Hobos Bum It at VanValkenburg Farm Saturday

The Youth Fellowship of the Friends Church had a hayride and Hobo party Saturday evening at the farm home of Raynor Van Valkenburg.

Nearly everyone came dressed appropriately for Halloween or as a Hobo with Marilyn Bryan winning the prize for the best costume.

A bonfire was made in the woods to roast hotdogs and heat canned food as hobos do. Other refreshments included fresh cider.

Chaperones were Mr. and Mrs. Walter Weimer and Mr. and Mrs. Van Valkenburg. Thirty-eight persons were present.

Students Attend Nixon Conference

By JANE HODGES

Despite the cold, rainy weather, several thousand people were at the Commodore Perry Hotel in Toledo to greet Vice-President Nixon and his wife Wednesday night.

Among the excited crowd was a group of students from the high school consisting of Kim Dabe, Susan Day, Nancy Nixon, Mary Wing, Bill Wallace, Winfield Walker, Arthur Collingsworth, Carol Billy, Susan Harris, Vickie Peterson, Ben Branting-ham and this writer. Wayne Reganall and James Hoffman, two faculty members from the high school ,drove the students.

Before the arrival of the vice-president and his wife, the excitement and tension grew so intense that it could almost be felt.

Crowds gathered at the hotel entrance and thronged the stairway leading to the lobby.

Nixon buttons, hats, stickers, matches and literature were distributed among the waiting crowd by several "Nixon Girls".

When Nixon and his wife finally arrived, the patiently waiting spectators went wild.

Deafening is the only word that can be used to describe the noise produced by the excited cheering of the crowd and the music of the band stationed across the street.

After his exuberant welcome, Nixon addressed the members of Sigma Delta Phi.

In his speech, Nixon stressed the importance of nuclear development and nuclear ban tests.

After a final speech given at Toledo University that same night, Nixon returned to the Commodore Perry Hotel and spent the night there.

Leaving Toledo at 7 a.m. the following day, the Nixons went by train to Monroe. At its first stop for the day, the vice-president and his wife were greeted by a cheering and eager crowd of 5,000.

Several members of the high school newspaper staff were at Monroe Thursday morning to greet Nixon and were permitted to attend the Nixon press conference.

After being introdueed by George Meader, Republican representative for Congress, Mr. Nixon gave a short speech in which he declared his support for Paul Bagwell, Republican candidate for governor.

After leaving Monroe, Nixon and his wife made a whistle-stop tour through Michigan by train.

FOR ALL WE HOLD SACRED
. . . ATTEND CHURCH !

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Luke	16	8
Monday	Psalms	83	1
Tuesday	Ecclesiastes	3	11-15
Wednesday	Ecclesiastes	9	1-2
Thursday	Revelation	22	13-14
Friday	Hebrews	5	12-14
Saturday	Luke	9	62

It's hard for grownups to grasp what it means to be a child today!

We grew up yesterday. The planes and radios which had startled our parents were commonplace to us. Television and jets we could take in stride. *But Space!* Who among us expected to live in a Buck Rogers era?

Yet to our youngsters nothing seems more natural than man's invasion of the universe. Everything that went before was preparation. We are ready to blast off. And the man who will establish our first colony on Mars is probably training for his mission in a sixth grade classroom . . .

Was there ever a time when religious, moral and spiritual development were more essential to our youth? The Truth man will cherish on Earth, and carry with him among the stars, is being taught every Sunday in our churches. Is your child . . . and the home in which he is growing up . . . FIT FOR THE AGE?

A Message From "Your Pharmacist"

WHY PRESCRIPTIONS ARE BARGAINS

In this election year some political headline hunters are implying medicines are overpriced. Can this be true?

WHAT PRICE THESE RESULTS?

Mastoid operations almost unknown. Maternal Mortality greatly reduced. Polio and Tuberculosis lessening every year. Our Life Span longer. And, millions of people now alive because of modern prescription medicines.

WHAT ABOUT RHEUMATIC FEVER?

A new steriod, taken for only seven days, almost always reduces the heart complication and lessens sickness time. Result is less permanent invalids. Cost of medicine about $25, but isn't that a bargain?

AVERAGE PRESCRIPTION COSTS $3.10.

Six out of every 10 filled cost less. About one out of every 7 costs more than $5 and only one out of 65 filled in 1959 cost more than $10.

PHARMACY IS PROUD OF RECORD.

We will continue to dispense the exact medicine physicians prescribe and keep our prices as low as the operation of a good pharmacy permits.

Repeat Performance Could Give THS Share of Crown

Mike Green, senior fullback, turned in his best game of the year against Blissfield His 80-yard touchdown sprint broke up the tilt.

By JIM LINCOLN

A potentially-powerful Tecumseh eleven proved to hundreds of Tecumseh fans last Friday night that the Indians could upset Grosse Ile here Friday evening in the final home game of the 1960 season.

The Indians rallied from a 7-0 half-time deficit last week to soundly whip the Blissfield Royals 21-7.

The Grosse Ile tilt will determine the Huron League champion.

If the Indians win, Tecumseh, GI and Milan will end in a three-way tie for the No. 1 spot. A Tecumseh loss will drop the Indians to third place.

Tecumseh can juggle the league standings by repeating last week's performance, especially the last half when the Indians really sparkled.

Mike Green's 80-yard touchdown sprint, seconds after the final period opened was the turning point in the Blissfield game.

The stocky fullback took a handoff from quarterback Tim Sisson, broke into the clear 10 yards beyond the scrimmage line and outraced the Royal defensive backfield.

Jon Aho earlier put Tecumseh back into the game when he shot back over right end on a four-yard scoring play. Aho, who tallied all three extra points on runs, scored again after Green's romp from the Blissfield six.

Coach Dunc Lectka couldn't have asked for more from his two offensive stars. Aho scored twice and totalled 15 points. Green was the workhorse, carrying 16 times for 173 yards and a 10.8 average.

Blissfield's TD resulted from a 58-yard drive, ending on the first play of the second period. Bill Mason plunged two yards for the score and then ran for the extra point.

Two Tecumseh penalties, one after a three-yard running loss, kept the march going for the Royals.

A couple of questionable officiating calls stymied Tecumseh in the first half.

In the opening minutes in the initial stanza, Denny Bryan gathered in a Blissfield fumble and ran 22 yards to the Royals 11. The Blissfield ball carrier who fumbled had circled Tecumseh's left end when he was hit and the ball squirted from his grasp.

Why did the officials rule the play dead when the ball carrier was far from being downed and the ball fumbled while he was still driving?

Since he dropped the ball the instant he was hit, many observers felt it was a bad call and the pigskin belonged to Tecumseh.

Another time, in the second quarter, Tecumseh was penalized twice, while within 15 yards of the Blissfield goal. One penalty, a 15-yarder, was called with Tecumseh on the two.

Many from here thought the officiating at Airport the previous week was far from satisfactory. The officiating at Blissfield was little better, if that.

HE SCORED TWICE—Halfback Jon Aho again scored two times, for the third consecutive game. A Blissfield player grits his teeth and manages to get one hand on the Tecumseh captain, but that's about all. Jon will lead the squad against Grosse Ile Friday and then to Adrian the following week for the season's final tilt.

LETTERS TO THE EDITOR

TO THE EDITORS:

Just a note to thank you and your fellow weekly editors for the fine work you are doing in the get-out-the-vote campaign.

I know that during the election period each year you are swamped with material. Yet, you give of your valuable time and news space to support this program. And your support is important. In my opinion there is no other media which can equal the weight of influence of the weekly newspaper.

Politics, regardless of party, is the business of the people. And I thank you for your help in taking this message to the people, as well as for your interest in my own campaign for governor.

Sincerely,
Paul D. Bagwell

What's Going on at BOYSVILLE

By LOUIE CIAVONE

The Sophomore class, under the direction of Brother Edward Cole, CSC put on a Halloween party for the rest of the Boysville student body on October 31.

The party began at 6 in the gymnasium with a pickup supper. Many of the boys wore costumes.

After supper, there were different types of games and contests. The evening was closed with a movie.

The junior class, moderated by Brothers Gregorie, CSC will sponsor the Annual Junior Prom on Nov. 12. Guests of the boys will be students from Immaculata High School in Detroit.

The Star Dates of Ann Arbor (home town of the class president) will furnish the music for the dance.

A new chaplain has arrived on campus to replace Father James Healy, CSC who was transferred to St. Joseph Hospital in South Bend to act as chaplain.

Replacing Father Healy is Father Aloysius Dayberry, CSC formerly pastor of Holy Cross Parish in Austin, Texas.

Several boys attended the matinee performance of "Charley's Aunt" in Tecumseh.

They enjoyed the play immensely, particularly Dr. Robert Murray's excellent interpretation of the lead role.

Many of the boys have their dental work done by Dr. Murray.

Boysville's Fighting Knights won their seventh straight game of the season Friday night against Manchester's determined Dutchman, 28-12.

Mystery Farm Is Herefords

Last week's mystery farm was identified as the Clarence Hereford place on Sutton Rd., south of Britton.

Mrs. George Meads, 315 Adrian St., was the first person to properly identify the farm.

Mr. Hereford purchased the 100-acre farm in 1936 and built all the buildings except the barn.

This farm was formerly known as the Brunt estate.

Leona Martin and Clarence Hereford were married Sept. 9, 1933 and have one daughter, Mrs. James Arft, who lives in Britton with her husband and two children.

They are members of the Britton Farm Bureau and Ridgeway Nazarene Church. Mr. Hereford was a member of the Britton school board for 11 years and at present is a member of the Lenawee County Farm Bureau board

Mrs. Hereford enjoys braiding rugs, embroidery and making foot stools from juice cans.

Grain farming is the main type of farming which they do here before going to Florida for three or four months in the winter.

When asked what they liked about The Tecumseh Herald they replied "the Britton notes."

Linda Starkey Named President of 4-H Clovers

CROP Holding Session Here on Thursday

The northeast area CROP committee, composed of representatives of the churches and organizations of the northeast five towns of Lenawee County, will meet at the Tecumseh Methodist Church Thursday, Nov. 3, at 8 p.m.

After viewing a film "Sounds of the Earth," which shows the conditions of refugees trying to exist and the inadequate attempts of relief agencies, the committee will consider ways and means to present the problem to people of this area.

Work Started on Another Lot

Work begins this week on improvement of another downtown off-street parking lot.

This is the one directly behind Baldwin's Hardware.

The city will remove fences and a tree, then level the area. Black topping will be done next spring.

Baldwin's and DesErmia Furniture agreed to 12-year leases by which their private parking ground will be integrated into a large city lot.

FARM OF CLARENCE HEREFORD WAS FIRST IN MYSTERY PICTURE SERIES

Deer Hunters Will Be Off

About one-half million deer hunters from nine to 90 will head for Michigan's north country between Nov. 15 and 30.

"They will be almost three times as safe hunting as driving or riding enroute," points out Charles Shick, extension wildlife specialist at Michigan State University.

Last year, 16 people died in deer and small game mishaps. Still, hunting took only about a third as many lives per hour as riding.

Gun-safety tips that can cut it this year:

1. Know your gun. Never point it at anyone, and don't carry it into a camp or building loaded. Point the weapon away from your partners when loading or unloading.

2. Never handle another person's gun without permission. And when you pick up a gun or take it from a friend, check the chamber and magazine for shells.

3. Check the safety often. You can easily flick it off without knowing it.

4. Know where your partners are and watch for strangers in the field.

5. Treat every gun as if it's loaded.

☆

"BRIGHT-COLORED clothes are recommended," Shick points out. "Yellow-orange is best as it's visible at a distance. And be sure to dress for comfort."

If he were limited to three items, Shick would take a compass, a knife and matches. Other important tools include a map of the woods, a rope, gloves, tissue paper and candy.

"At the start of your daily hunt tell someone where you plan to go and when you will return," Shick urges.

It's also a good idea to check in at a Michigan Conservation Department field office or a northern state police post. Then officers can reach you with an emergency message.

Law requires hunters to post a registration card at all camp sites. Conservation Department field offices and deer license dealers have the cards.

Liberty Bell Urges Voting

Back Stage Cuff Notes

Cuff notes on "Charley's Aunt."

Casting was terrific, agreed folks who saw the show. However, director Duane Furbush was tempting fate by including two physicians. There is always the chance that a patient will suddenly need care.

As it turned out, neither Dr. Dick Hammel or Dr. Carlton Cook were hauled off the stage and Director Furbush won his gamble.

But just to show how such things work, Dr. Al Phelan was called out of the audience as was Mrs. Jeanne O'Neil, surgical nurse, for emergencies.

For Dr. Cook, it was close. At 9 in the morning one of his patients was in the hospital, awaiting a visit from the stork. The new arrival cooperatively checked in before noon and Dr. Cook was able to make the dress rehearsal at 1.

☆

Ever hear an audience applaud the scenery?

It happened at the start of the second act, the setting was the garden. Russ Steinke did a masterful job, bringing back life to some old drops Walt Nichols uncovered in the Strand Theatre basement.

Added to this were fresh plants and flowers, along with authentic outdoor furniture.

As the curtain parted, the audience seem to lean forward as one, then burst into spontaneous handclapping.

☆

The stage crew, directed by Ralph Dabe, put in a real session Wednesday morning. Waiting until the Strand's regular Tuesday screening was completed about midnight, the workers moved in.

They were hauling, lifting, nailing, tying until 6 a.m.

☆

The program featured an original linoleum cut by Mr. Steinke. It was extremely good.

Incidentally, the Steinke studio, over Pickard's Floral Shop was the rehearsal hall the two weeks before the show and Russ found himself so engrossed in the show he didn't get to any of his oils from mid-October.

☆

Behind-the-scene preparations deserve special commendation, practicularly the costuming by Mrs. Al Snyder and the makeup, which was handled by Mrs. Bertha Vallelunga.

Mrs. Vallelunga, who also turned in a top performance as Amy, is one member of the Tecumseh Players with professional experience in both acting and makeup.

Everyone on stage, under the heavy lights, looked perfectly normal. Only after the show, seeing the cast under ordinary illumination could viewers note the artificial coloring and then realized how perfect the makeup job had been.

☆

Laura Seager, the 13-year-old honey blonde who was Ella, surprised the audience with her extreme poise. Laura's ability to deliver her lines with ease and feeling was a credit to both Laura and her director, Mr. Furbush.

PHOTO BY HERALD.

AMONG THE CAST—Mrs. Gloria Jadwin, Dr. R ichard Hammel and Mrs. Bob Murray all turned in fine performances in "Charley's Aunt." Mrs. Jadwin was the real aunt from Brazil, while Dr. Hammel played Jack, who was in love with Kitty, Mrs. Murray. The entire cast sparkled.

CLEAN TALK

Watch Your Innerlinings

By ROYAL WELCH

You might think that this is a peculiar subject to concern ourselves with when talking about cleaning, garment preservation, stain removal and the like.

Not at all.

Innerlinings, being hidden, are one of those little things that some unscrupulous manufacturers use as an excuse for making petty economics. The innerlining is dyed, and then used without removing the excess dye.

Such "fugitive dye" innerlinings occur in both men's and women's clothing at the following places: Collar, cuff, facing waist band, pocket stay, belts or soulder pads. When the garment becomes moist, either from rain, spilling or perspiration, the innerlining bleeds off the excess dye and it travels either into the body of the fabric or the lining of the garment. Try to remove such a spot, and you get further "bleeding". Then the garment, more often than not, is damaged beyond repair.

Your best bet in avoiding this is to ASK THE MERCHANT IF THE INNER-LINING IS FAST DYED. IF it isn't, why not look a little longer?

And if the garment should become stained without your noticing it,—call it to our attention as soon as you do see it. We may be able to remedy it.

For the best results, whatever the cleaning problem BRING IT TO Welch Cleaners.

Their Diet is Grain

Are Cows Getting Enough?

It might well pay Lenawee County dairy farmers to ask themselves whether or not their cows are getting enough grain to eat since shelled corn may cost less than $35 per ton this year.

Research recently reported from Michigan State University has clearly shown the value of grain in getting the highest milk production from dairy cows, says county extension agent, Jim Sprague.

If your cows are getting less than 15 pounds of grain a day, you can increase the grain by five pounds a day without hesitation to measure their response.

Most of the response from extra grain feeding should show up within a week.

Weigh the milk from all your cows for a couple of days before you try feeding more grain. Then, weigh the milk again for a couple of days at the end of a week of extra grain feeding.

For every cow, who at least mamtains her production level, you can consider the extra grain good business. It is even better business for each cow that increases her production.

Farmers might get a response from grain and not see it in extra milk production. The reason is that a cow normally begins to drop off gradually after she reaches her peak production. If extra grain keeps her from dropping off, you have actually had a production gain.

Farmers who keep their cows in loose housing and milk in parlors have a special problem with grain feeding.

Research has shown that a cow in a parlor stanchion can only eat from 8 to 10 pounds of grain, or from 12 to 14 pounds in a herringbone. That isn't enough grain to maintain high producing cows.

In this case, the farmer either will have to leave the cows in the stanchions long enough to get their fill of grain, or feed extra grain outside to those cows that can make good use of it.

Through My Window

A WONDERFUL, WONDERFUL SUNDAY

October 16 was the day. A slightly dull, over-cast morning, but by noon the skies had cleared and the sun was shining brightly. An ideal day to go someplace and go we did—many, many thanks to Bob.

We saw the Irish Hills, Jackson, Mason, Lansing, the Waterloo area and Chelsea. I can't say we were through these places or in them—we were over them.

Yes, the Duncans took another airplane ride. It was most exciting and thrilling.

The whole trip was absolutely beautiful. To look down upon the countryside at the peak of its fall loveliness is an unforgetable experience.

The still, uncut cornfields look like hemp door-mats and the woods as rich, lush Persian throw-rugs. But "the rugs" are every conceivable size and shape and appear to have just been tossed about at random.

Although this is not the best year for colors, from where we sat Sunday afternoon they were just fine.

The sumac, and my, but there is a lot of it—was brilliant, a fiery, fiery red. The woodlots were all shades of golden yellows and coppery browns, setting off all this gorgeous color were all the different greens — whole fields of bright green and a much darker green in the woods.

☆

TO REALLY appreciate just how much a Water Wonderland Michigan really is, get up in the air.

The many lakes sprinkled in the Irish Hills are so pretty and someplace on our way home—I'm not sure just where because I'm not at all good at spotting familiar land-marks from an unusual position — but anyway, somewhere on the way home, I counted 35 lakes and gave up.

There were just too many to count. All the rivers, streams and creeks were fun, too. Between Clinton and Tecumseh the tree-lined Raisin twists and turns every which way.

We also got a kick out of the roads and highways. The country roads, narrow tan ribbons of dust, neatly divide and bisect the countryside.

The super-highways, like the one from Jackson to Lansing, look so efficient and practical. They are straight and have wide right of ways which have been cleared of all trees and shrubs—

Jackson and Lansing are, of course, big sprawling cities. We flew over the prison at Jackson and were amazed at how huge that was. In Lansing it was thrilling to spot the Capitol. Its dome was distinguishable. It was about here that Mom discovered she was not too good a flier. We headed for home—fast!

☆

THE LAKE dotted Waterloo Area was terrific and although I completely missed Chelsea, the big track at the Chrysler Proving Grounds was easily identified.

Our turn over Tecumseh was small and although I wasn't quick enough to pick out our house, St. Elizabeth's Catholic Church showed beautifully, as did the Presbyterian Church steeple — both were outstanding.

Back on terra firma again, we left a slightly pale mom at home while dad and I carried our search for fall color a bit further. Through the airplane windows it had been beautiful, how would it be from the car?

Hidden Lake Gardens—gorgeous. The sassafras trees were at their peak and is there another red as bright as they can be. We were not the only ones who enjoyed the Gardens, the cars were almost bumper-to-bumper and it was interesting to see the many out-of-state license plates.

Ohio and Indiana people come to Michigan for pretty scenery.

By the time you read this I'm afraid that much of the color will be gone, but please make a drive through Hidden Lake Gardens, a must on your list of things to do next fall.

So it is that Oct. 16 turned out to be quite a day. A wonderful, wonderful Sunday—it was just too bad that mom couldn't enjoy it all.

—o—

Mr. and Mrs. Clyde Bailey are back from a two-week trip through the New England states. Their junket included the Berkshire and Taconic mountains in New York, Canada and northern Michigan. Before returning to their home, they spent four days with their son, Robert, in Gaylord.

WATCH OUT!

Dangerous Months Are About Here

With November and December averaging a fifth of the annual Michigan traffic deaths, Sgt. Carl Anderson, of the Clinton State Police post, is warning motorists and pedestrians to be unusually vigilant in these hazardous months.

More hours of darkness due to shorter days, mean more driving and walking in reduced visibility, Sgt. Anderson pointed out.

Frequent unfavorable weather and road conditions increase the hazards. In addition, holiday shopping adds to the volume of pedestrian and vehicle traffic in these two months.

Sergeant Anderson offered these safety tips:

To drivers: Increase your alertness. Take it easy after dark and in bad weather. Increase your caution at hills, curves and intersections—there may be ice or snow.

Obey the traffic laws and signs and watch out for the motorist or pedestrian who may not. Safe driving can prevent accidents.

To pedestrians: Don't block your vision with packages or other objects. Walk only where drivers expect you, but be on guard for the motorist who may be inattentive or careless.

Be extra cautious at night and in bad weather. Remember, careful walking can keep you unharmed so always take your best steps in traffic.

Druggist, Teacher Aid Youth

"Over and above the call of duty."

Certainly two Tecumseh men have earned the gratitude of 16-year-old John Baker and his parents, Mr. and Mrs. James Baker of Rogers Highway.

John wakened in the night last Tuesday with burning, irritated eyes. He couldn't see.

John roused his parents. He had been welding in shop class at Tecumseh High school that day and figured this was the cause. So John called Paul Burns to get the name of a medication.

The Bakers roused Bill Wright, who opened his drug store at 1:30 a.m. and provided the prescription, which relieved the burning condition.

Mr. Burns, thinking that maybe the medicine was not available at that hour, hurried to the high school, got the needed eye wash and arrived at the Baker home about 2 a.m.

Happily for everyone John recovered quickly.

Hay Ride Is Staged by Clovers

Six members of the Lucky Clover 4-H Club attended the Horse Management School held last week at Lansing. They were accompanied by Mrs. Russell Starkey and Mrs. Ernest Helwig.

Making the trip were Dean Kirkland, Gregg Smith, Linda, Jean and Jeanette Starkey and Karen Helwig.

Jane Mobley attended as a guest.

Mrs. Starkey said that this was one of the most educational programs that the club has ever attended.

They didn't miss any of the two-day program or the banquet Saturday evening.

Twenty members of the club went on a hayride last Thursday night, using tractor and wagon furnished by Eddie Kirkland and driven by Henry Karl Smith.

After a two-hour ride, the group enjoyed weiners, cider and donuts around an open fire and dancing and games in the Smith basement.

History Was Made

History was made in Tecumseh last Wednesday night.

This wasn't a giant event, like the explosion of an A-bomb, but simply the formal beginning of a little theatre in our community.

We'll wager, before many months go by, the staging of "Charley's Aunt" will create almost as much chain reaction as if an atom had been split over the town.

Our review of the show points out that the production was a heart-warming smash.

But behind this event was something much deeper than a mere two hours of entertainment.

This was the first concrete evidence of what an amatuer theatre group can do when properly formed and then stimulated to group action.

As far as we know there is no prima donna in the Guild of Tecumseh Players. But there is much talent. There is also a willingness — and desire — to work hard for perfection.

Undertaking something like this necessitates "team effort." No matter how tiny a duty is, it is vital to the end result and all appreciate this.

Seeing the smooth portrayal of the ancient and venerable English comedy on stage indicated that behind the sparkling scenery were myriads of jobs and arrangements, stretching back many months, each done thoroughly and done well.

We'll be looking forward to the next production by our Tecumseh Players.

Tecumseh Is Setting for Novel

By TOM RIORDAN

Tecumseh would seem to be the setting of Allan Seager's new novel "Death of Anger."

A Tecumsehite would quickly come to this conclusion, although only sketchy mention is made of locale.

Ferreting out these few lines proved an interesting sideline to reading the book.

From chapter 6:

"It was April when I first talked to him. They said he was living out on the old von der Tann place a couple of miles from town.

"'It's part of that Ford property,' they said. 'You'll know it because the house is falling down.'

"Old Ford wanted to plow 20 miles in a straight line, I guess, and he had bought up maybe fifty farms adjoining one another so he could try it, but he died before he got around to it.

"He had the houses and buildings torn off some of them. On others they were let stand. The von der Tann place was one of the latter. Ford's heirs were not interested in farming and the properties went fairly cheap."

The name of our town quietly slipped in just once, then as a middle name, "She was some kin to General William Tecumseh Sherman."

The nearness of the community to Detroit comes up about a third of the way through. "The expansion went up slowly, made out of concrete blocks, the only material then available. I tried to keep an eye on it but I was whipsawed between the sixty-mile drive to Detroit every day or so and managing the business."

"Death of Anger" is beautifully written.

Strictly adult reading, it tells of Hugh Canning, who inherits a thriving business which manufactures automobile parts in a small midwestern city.

Hugh's marriage to a beautiful school teacher turns into a fraud. A first-class neurotic, she refuses to live with him as man and wife, taking to her bed for a dozen years and in the process losing her beauty.

Canning, afraid of what others might think, goes along with this bizarre arrangement, even to preparing meals for the once-lovely Hedwig and taking them to her on a tray.

The town thinks that Mrs. Canning is seriously ill.

It rapidly turns out that her feeling for Hugh is pure hate. She does everything possible to torture the man, even to getting a serious cold by getting soaking wet and standing in front of an open window in bitterly cold weather.

This brings medical aid and a registered nurse. The result: Hugh and the nurse plan an affair, Paris, no less. Money is no item.

In this portion of the book Mr. Seager hits the dredges. The sex element may be a slice of life, but it tends to cheapen an otherwise exciting work.

METROPOLITAN papers give the book a fabulous sendoff.

In The Detroit News, Jay McCormick said, " 'Death of Anger' is a lean, tough book among the flock of novels always awaiting the autumn market.

" . . . (it) may do for Seager what 'Sanctuary' did for Faulkner in the 1930's—shock readers alert to a major figure in American fiction and make them stop sitting on their hands."

He notes that Seager's previous works, "Equinox", "Amos Berry" and "Hilda Manning" have been rated by critics as equal to novels by Faukner and Hemingway.

The McCormick review concludes:

" 'Death of Anger' is an undyingly angry book and a gleaming probe of the sick tissues buried under layers of banality and bluff in our society.

"It's a work of 'pure fiction,' not wholly bound by the rules of literary realism, verging on the myth at times in its figures and events, then ambiguously doubling back to brilliant dicumentation.

"Seager is breaking ground as well as breaking rules; and for those who can keep a little calm about the sexuality which is the common denominator to the story, it should be clear that what he's really after is not sensation, but the soul."

☆

GEORGE LEA'S summation for The Detroit Times was equally as flattering.

"Ten years ago a collection of his stories appeared, called 'The Old Man of the Mountains.'

"It's time for a new Seager collection. Several thousand of us might especially like to read again some of the New Yorker stories like 'Powder River in the Old Days,' a brilliantly written Esquire short-short, "The Silver Dollar with the Hole in It and the Little Candy Hearts,' and the story about the psychologists who were raising a monkey in their home as a baby.

"This is not a heavy book to read," Lea goes on, "But very funny in places, the sort of humor that grows out of knowing a town and people from the inside. The story moves around in time, 1958, 1922, 1946, the way a kaleidoscope does when you jiggle it quickly, but the pattern is precise.

"What the book has to say about love, business, the secret dreams (the real occupation) of men, pride, vanity and manners, all of these are best said, not in a review's poor extracts, but by Seager himself.

"He says it well," end reviewer Lea.

Mr. Seager's book is published by McDowell, Obolensky, Inc. of New York. Copies are on sale at Wright's Drug Store at $3.95.

Can THS Repeat Last Year's Win Over Adrian?

By JIM LINCOLN

Can the Indians whip Adrian Friday night?

This question was partially answered rather emphatically last Friday evening when Tecumseh rallied to trounce visiting Grosse Ile, 33-19.

(Details and pictures on this game, page 2, next section.)

The Indians, in a repeat performance this week, could make it two consecutive victories over the Maples.

Probably 2,000 Tecumseh fans will make the trip to see if the fast-improving Tecumseh 11 has the momentum to chalk up its eighth win of the season.

Game time is 8 p.m. at the Maples Stadium on S. Division St. Fans may purchase their tickets for $1 at principal Neville Hart's office in the high school. Parking facilities are immediately south of the stadium.

Adrian boasts the same boys that took a shellacking here last year in the snow, rain and mud. They've improved somewhat, however, and enter the game with a 5-2-1 record, good for third place in the tough Twin Valley League.

In comparison, the two teams appear about even in size and speed. The lines will be approximately the same size with a slight advantage to the Maples in experience.

Where Tecumseh will have numerous sophomores and juniors in the offensive and defensive walls, the Maples will be predominantly seniors.

The Indians' backfield will be a little heavier and should keep pace with the fastest Adrian backs, with the possible exception of Jerry Dunbar, fleet halfback who also is a favorite pass receiver for quarterback Glen Martek.

Adrian lost most of its power up the middle two weeks ago with an injury to Bob Westfall, fullback, who will miss his final prep game.

In Mike Green and Jon Aho, Tecumseh will have the two outstanding backs on the field. If the Maples stop these two Indians, they will have done something no other team has done — excluding the Milan game when Green and Aho both were injured and played little of the game.

Another game factor — and vital to the Indians — is the tremendous improvement in quarterback Tim Sisson. The sophomore had his troubles early in the year, but apparently has solved them in the past two games.

Other backfield stalwarts include Bob Koffron and Clarence Champanois, one of whom will start at right half. Both will play considerable on defense.

Up front, the Indians will be led by 202-pound Ron Hathaway, Tom Simmons, Ron Sweet and Larry Titley. Like Green, Aho, Koffron and Champanois, they're all seniors. Bob Fisher, a first string tackle for two years also is a senior as are Dennis Bryan and Del Poskariewicz.

If these seniors can fire-up their teammates, Tecumseh could handle the Maples on their own gridiron.

Coach Dunc Lectka, in his third year here, unquestionably would gain much satisfaction from tripping Adrian, one of two teams which have been able to defeat the Indians during his reign.

Lectka's mark here is 22-2-2, a record just about as respectable as any mentor can boast.

TOM RIORDAN'S Long AND Short

A newspaper died.

The Detroit Times published its final issue Sunday, then was taken over by The News Monday morning.

If you're part of the world of newspapering — no matter how small — there's a certain tug at your heart when a paper is buried.

With the demise of The Times, there was a double tug for me.

Many years ago, as a college student I was associated with The Times as its representative on the Michigan State University campus.

The job was a world of fun. Most of my duties were to cover MSU sports events.

Sometimes things grew hectic when there'd be a baseball game, track meet, golf and tennis matches all on the same afternoon. It took a little doing, but I was somehow able to file my stories via Western Union before the next day's pages were closed. That was wonderful training.

This was shortly after World War II, when the communist party was extremely active on the American college scene, attempting to infiltrate student organizations and lure the "young innocents" into the red camp.

The situation at Wayne University was wide open.

Encouraged by success there, the commies pushed hard for equal gains at MSU. For a while, things got a mite sticky.

A thorough investigation by the student daily, The State News, was able to spring quite a yarn about the illegal activities of red students at MSU.

To the everlasting credit of President John Hannah, the infiltration was stamped out almost as it started.

In the middle of the night that this story broke, I filed a long yarn to The Times.

In the next edition, it appeared on the Times front page as the day's top story. There was an eight-column headline (which I'll never forget), printed appropriately in crimson ink, "MSC Prexy Bans Red Front."

What a thrill for a youngster just breaking into the business.

Following graduation, I didn't apply to The Times for a full-time post, figuring that I should seek out a smaller daily, where there'd be a better chance for broad experience, including some in photography.

Eventually, I got into the weekly end of the game (which turned out to be the most fun), but down through the years when temporary calamities came, I'd often ask myself:

"Now wouldn't it have been smarter to have taken a nice, comfy job with The Times and not have all these worries?"

It could have happened.

If it had, there might be more than a tug or two at my heart this week.

Wearing a brilliant orange and black scarf, Bootin' Pussy strolled into the shop Wednesday morning.

"On my way to Adrian, have a few wagers to cover. See you at Maple Stadium Friday night.

Better be early, there'll be a real crowd.

"Would you tell Dunc and the boys they've done wonderfullly well this year. And win, lose or draw this week, they're My Boys," Bootin' grinned.

Industry Donates $33,058

The industrial division drive of the Tecumseh Community Foundation Fund closed Friday with donations of $33,058.

Of this, $29,431.10 was a joint gift of Tecumseh Products employees and the company.

As in preceding years the company matched employee gifts dollar for dollar.

Balance of the industrial portion was collected from other plants in the city. "It appeared that some of the companies also matched employees gifts or pledges," said general chairman Jim McKenna.

Of the $33,058 given or pledged, $4,731.60 was designated for other communities. The sum going outside of Tecumseh is in keeping with the cooperation pledged by the local officials to the Lenawee County United Fund.

Joe Fortunato of the Products personnel department, who spearheaded the industrial division drive remarked that since employment is hot at the same level as last year there was a lower total.

However, employee gift giving per capita was almost equal to that of last year.

The general chairman reported that the various other divisions are making their final rounds this week.

"Results so far are too fragmentary to exhibit results presently," said Mr. McKenna.

Total tabulations are expected to be completed by Friday and a more explicit report ready for publication by Nov. 17.

"It is estimated that volunteers in the 1960 drive, in all divisions, have invested in excess of 1,000 hours in preparation and solicitation in attempting to make this year's effort a monetary success and to enable the Tecumseh Community Foundation to meet its anticipated program," the chairman concluded.

"We wish to thank Tecumseh merchants for their donation," says Mrs. Harold Ruhl.

VOTERS WAITED PATIENTLY IN LINE FOR THEIR OPPORTUNITY TO BALLOT TUESDAY. THIS SCENE WAS IN THE CITY'S FIRE HALL

Vote Records Are Smashed

Voting records were shattered Tuesday throughout the area.

In Tecumseh, 2,968 balloted for a 79% turnout, biggest in the city's history. Ridgeway Township, which includes the Village of Britton, had 638, an 86% mark. Tecumseh Township's 334 also established an all-time high.

As expected, the area went heavily Republican.

One interesting sidenote was the 19th District race for the state senate seat between Elmer Porter and O. James Hansen. Porter, who has held the post since 1936, was the winner, thanks to his large margin in Lenawee County, 19,004 to 10,834. In Monroe County, Mr. Hansen out distanced his foe, 19,090 to 17,877.

Probate Judge E. L. Kuney was upset by Maurice Spear in the election's prime surprise.

Franklin Township citizens turned down liquor-by-glass, 414 to 577, as did folks in Woodstock Township, 399 to 270. However, the same question was passed in Cambridge Township, 577 to 480.

HE HELPED SET RECORD—This voter, along with 2,967 of his fellow citizens in Tecumseh's three precincts, set an all-time turnout record Tuesday. This was the pattern all across the nation and proves that when citizens really want to, they'll turn out in great numbers at the polls. An editorial on the election appears on the last page of this section.

Bob Bonner Is Named to Council

By JIM LINCOLN

Robert Bonner, president of the Planning Commission, was appointed by Council Monday night to fill the unexpired term of the late H. H. Hanna.

Mr. Bonner was elected on the second ballot by a 4-2 vote. On the initial ballot, he was tied at 3-3 by Mrs. Robert Bowers, nominated by councilman Royal Welch.

In other action, architect Jim Smith, in charge of making the city's master plan, recommended to Council that action be taken soon to form a committee for scheduling projects.

During a brief showing of colored slides, depicting many features of the master plan, Mr. Smith stressed the importance of Tecumseh taking action to assure planned growth and expansion.

He predicted that Tecumseh would reach 20,000 in 20 years and would maintain its identity through proper planning.

He referred to examples, where small communities have been swallowed up by others and the unsatisfactory development of "strip" cities. These are developments which occur along main highways in haphazard directions and are not usually ideal environments for progressive communities.

The third reading of the Civil Defense ordinance was tabled until a new one could be submitted by city attorney James Beardsley. Police Chief George Kilbourn and Joe Rice, resident who at one time was active in CD county work, questioned the powers given in the original ordinance.

City manager Ed Nelson reported on picking up leaves and the burning of leaves in the gutter—which is prohibited by ordinance.

The city has requested residents to rake leaves in piles and leave them in the parkway for city pickup service.

Transfer of a beer and carry-out permit from Albert Bagshaw to Joseph and Mary Mykodym was approved. Council also authorized the police chief to make thorough liquor inspections, submit recommendations before license renewals come up next May.

Council indicated that the taverns must make some improvements if they want the city to approve license renewals to the state liquor commission.

Gun Safety, Archery Are 4-H Projects

Gun safety, archery and conservation are becoming "popping good" 4-H projects for city and rural non-farm boys and girls says, Cary Seevers, County Extension Agent, 4-H Club Work.

These projects offer interesting new experiences for youth.

Developments are continually being made in these projects to fit the needs of each individual member.

Those who enroll in a local 4-H club in one of these projects learn about conservation recreation, wildlife, soil, water or forests.

The great value of these projects are that they are worthwhile and interesting for all youth, regardless of their background or where they live.

Anyone who would like more information on these 4-H projects are encouraged to contact the Cooperative Extension Office, courthouse, Adrian phone Colfax 5-5108.

Through CROP, $4 Gift Feeds Youth for Year

The National CROP office received this telegram from the Rev. Elbert Gates, Jr., Hong Kong Church World Service Director:

"A member of the Hong Kong department of education has expressed great concern over 150,000 school children, who are too undernourished to do their school work. There are thousands of children who never get a square meal from one end of the week to the next, they simply live on scraps."

This is only one example of the complex problem of meeting the minimum relief needs for refugees in Hong Kong, Korea, Chile, and the Near East.

R. W. Ries CROP committee chairman says, "you can be sure that your gift to CROP will be used where it is most desperately needed by Church World Service, the largest Christian relief organization in the world."

"A $4 contributed to CROP will give one child one hot meal per day for one year."

"Give through your Church, your organization, or send direct-ly to Willis Moore, Courthouse, Adrian. Be sure to label it for CROP," continued Mr. Ries.

Our Readers Write

To the Editors:

I would like to congratulate Mrs. Rentschler on her recent "To the Editors."

I am certain there are many people in this community who carry her sentiments in their minds, but without the courage to stand out alone among their neighbors and townspeople and express their thoughts. All with the fear they will be shunned.

I have a lot of questions concerning our community but I do have a few "pet peeves" too.

For instance a taxpayer or some of their family can smash up their car. How do they get home? The best way possible!

If it means a mother having to take a small child out regardless of the weather that is all right. But if someone on the Police Department has a child attending some school function the theatre or the library they can be taken home in the Tecumseh police car.

Each and every taxpayer, or a renter—who indirectly is a taxpayer—helps buy the gasoline and oil with which to operate the police car. So, if it is going to be used for a taxi why not let every one have the benefit of a free taxi?

Another question — why a $9.30 difference in an arrest for the same offense, but to two different people?

I happen to know of one persons receipt which shows:

Fine	$15.00
Costs	4.30
Total	$19.30

and also one in the paper which shows:

Fine	$5.70
Costs	4.30
Total	$10.00

I am of the opinion these are some of the reasons for an increasing amount of people wanting to get out of town.

More questions another time if I am allowed them.

Sincerely yours,
Mrs. Donald Morley

Jaycees Seek More 'Young Men of Action'

Living in Tecumseh is a group of "Young Men of Action," who comprise the Tecumseh Junior Chamber of Commerce.

These men are more commonly known as Jaycees.

Many people quite frequently confuse the Jaycees with the Chamber of Commerce.

True, there are some similar interests, and a frequent helping hand, but the two organizations are desegregated.

This fact is worth mentioning because of membership qualifications. Any sincere young man between the ages of 21 and 35 may join the Jaycees.

The Tecumseh Jaycees meet regularly, once a month for supper and a business meeting. There is fellowship and fun, but also a multitude of serious business. The Jaycees are devoted to community service and lead ership training.

The Jaycees are not just a local organization for there are some 4,000 Junior Chambers in almost 100 countries.

In the United States alone, there are over 200,000 members.

President Dyke Helms says, "We need more Young Men of Action who desire to serve their community and acquire training in leadership. We are just an average bunch of guys, and we certainly hope that anyone interested will attend a meeting.

"Jerry Barton is our membership chairman. He or any other Jaycee is ready and willing to talk with anyone interested."

Heat Lamps Will Warm Milk Area

If your milking parlor was cold to work in last winter, you may want to look at heat lamps, suggests James L. Sprague, County Extension Agent, Agriculture.

Medford Pfister, Route 4, Adrian, has this type of lamp installed in his milking parlor.

Infrared heat lamps provided the best comfort for milking parlor operators in Ingham County in a study by Michigan State University agricultural engineers

Walls of most milking parlors are of concrete blocks and are not insulated, making heat loss a major problem. These walls are good conductors of heat to the outside and raising the temperature inside the milking parlor does not appreciably raise the temperature of the inside wall surface.

Infrared lamps radiate a large part of the heat at wave lengths best absorbed by human tissue. Also, infrared radiation at these wave lengths passes through air without heating it.

A copy of a folder about this is free for the asking at the Lenawee County Cooperative Extension office in the courthouse.

What's Going on at BOYSVILLE

By LOUIE CIAVONE

The Boysville Photo Club went on a trip Nov. 1 to Garrick's Photo Supply House in Detroit.

The members who went were Al Andreini, Dennis Frei, Pat Miron, Clarence Riggs and of course, the moderator of the Photo Club, Brother Aloysius Glombowski, CSC.

The purpose of the trip was to purchase supplies for the photo shop and to survey some of the latest equipment.

A Parent-Teacher meeting was held on Sunday, Oct. 30.

At the beginning of the meeting the Boysville Glee Club, under the direction of Brother Philip Armstrong, CSC sang a few numbers.

Then Brother John Lavelle, CSC, Director of Boysville, and Brother Gregoire Bleau, CSC, Dean of Boys, gave talks on the purposes of Boysville and the expected conduct of the boys.

After the business, coffee and cookies were served.

Every Saturday night at 8 the boys go to the gym to see a movie. The Photo Club members run the films.

Most of the movies are enjoyed very much by all. Some of the future movies to be shown on the Boysville list are "20,000 Miles to Earth," "Fort Dobbs," and "All at Sea".

CLEAN TALK

Bad Buttons Can Be Avoided

By ROYAL WELCH

There are a number of buttons on the market which cause trouble upon washing or cleaning. Knowing their characteristics will save you time as well as money.

VEGETABLE IVORY BUTTONS. In the past, the dyes on these buttons faded, and while manufacturers now produce a button colored with fast dyes, there are still a few "vegetable ivory" buttons left on the market which fade. Be sure to give the buttons close attention when you buy a garment, especially on "sale" or on "clearance" itmes

PLASTIC BUTTONS. Major problems here is one of susceptibility to heat. If it's a thermoplastic button it may lose its shape when heat is applied, and may even dissolve in cleaning.

GLASS BUTTONS. Pretty, but a problem. Break in handling and often cut the fabric they're fastened to. If you treasure your glass buttons, why not ask us to remove them before cleaning? or snip them off before bringing the garment in?

COVERED BUTTONS. Some cloth-covered buttons are stuffed with a fibrous material which releases a brown dye in cleaning. This dye, like the vegetable ivory one, may be difficult to remove.

When buying buttons—whether you're buying a garment or loose buttons — check on these points: First, if the button itself is dye fast, and second, whether it is impervious to heat and cleaning.

And for good cleaning — buttons and all — BRING THEM TO Welch Cleaners

Hunters Warned Regarding Dangers of Gas Heaters

Hunters are being cautioned to make sure their trailer heaters are safe to prevent a recurrence of the tragedies which killed nine and hospitalized at least four.

Deaths were attributed to heaters that allowed carbon monoxide to accumulate in the trailer. The defective heater is no longer manufactured.

If you have reason to believe your trailer heater may not be functioning properly, have it checked immediately by a reliable service agency. Do not use the trailer until the heating unit has been tested and declared safe.

Safety precautions for heaters include:

1. All gas heaters must be equipped with an automatic shut off control, which shuts off the flow of gas to the pilot and burner in case of pilot flame failure.

2. Vent stacks should be installed in a rigid manner, raised at least eight inches above the roof line. The weather cap should be non-collapsible with an open area equal to at least the duct area.

3. Heaters should be constructed and installed solidly to withstand road shock.

4. Air intake for combustion must be supplied through openings to the outside, with such opening being adjacent to the heater and having an area of about 10 square inches.

Carbon monoxide is a silent killer. It strikes without warning because it is an odorless, colorless gas. It only takes a few minutes for enough carbon monoxide to build up to kill a person.

It's always safer to leave a couple of windows open.

Other key scenes of the hour-long full-color documentary, as described by World Vision, Inc., which produced it: "Balinese maidens succumb to the powers of demon possession, rise to dance the intricate steps of a ritual they have never been taught . . . . Feathers fly in a temple courtyard, as two savage gamecocks battle . . . . a saintly missionary nurse binds up the wounds of the leprous in the midst of heartbreak such as few in this world ever see . . . "

In the middle of the Galilean ministry, Jesus sent the disciples out to minister and teach the people.

On their return, they brought an enthusiastic picture of their efforts. Along with Jesus, they return to the country and a lonely hillside to compare notes.

Here the crowd finds Jesus and he talks to them of the kingdom and of things fundamental to life.

When it grows dark, the disciples tell Jesus to send the crowd away that they may find food.

But Jesus says to them, "You give them something to eat." The crowd is fed.

This Sunday's sermon, Entitled, "Miracle on a Mountainside," considers "how" the crowd was fed.

Members contributed "white elephants", handmade articles or food for an auction. Dorothy Westgate acted as auctioneer.

At any Fair, great amounts of free literature are given to those attending — so it was Guest Nite as reams of brochures on everything under the sun were passed out.

Donna Elliott was awarded the grand champion prize, a hog statuette.

Those arranging the event were Mrs. Ted Golat, Mrs. John Pobuda, Mrs. R. Dixon, Mrs. Clayton Greenwald, Karen Lytle, Mrs. Don Hardcastle and Dorothy Westdyke.

4,300 Phone Books Distributed in Area

The most widely used book in Tecumseh, Britton, Clinton and Tipton is in the mail this week.

"The new directory is as attractive as ever," D. W. Clark, Tecumseh manager for General Telephone said.

"Shown on the front cover are pictures of the newest equipment offered by General Telephone . . . the hands-free, space-saving and colored telephones. This new book is not only attractive, but also handy", he stated.

More than 4,300 directories will be distributed throughout this area.

Mr. Clark has this suggestion about the replacement of your directory: "Leaf through your old directory. You may find something valuable in it. Money, important letters, and notes, as well as cherished addresses have been found in telephone directories.

"And while you are going through the old directory, you'll want to transfer the frequently called numbers you have written to the new book."

Mr. Clark pointed out that both inside covers have space provided for frequently called numbers. Information to simplify long distance or emergency calling is listed within the introductory pages.

On the inside front cover are rates to the more frequently called out-of-town points.

Last Quarter of 'Grid Game' Will Be Sunday

The Christian Workers suffered defeat from the Wordly Scorners in the "third quarter" of play in the Sunday school attendance contest at the Tecumseh Friends Church.

The attendance dropped three, leaving a total of 269.

Dale Ray Johnston is still leading the individuals.

The Welcome class, Quaker youth, seventh grade, fifth grade and pre-school are in the lead in their respective groups.

The Faithful Friends Class has had a perfect attendance for two Sundays straight.

One quarter of play remains to smash the record of 330 and score a touchdown for Christ.

'Cutting Edge' Traces History of Man's Effort

Man's history has been interpreted from many viewpoints, conquest, political, trade.

Now, very appropriately, a machine tool manufacturer has traced the one thing that most directly and indirectly affects us all, cutting edges.

Cutting edges are not only an item of daily life—they may be the key to the preservation of our way of life.

For this reason, The DoALL Company, a machine tool manufacturer, has compiled a traveling non commercial presentation, "The Cutting Edge".

It features a 43-ft. historical panorama, a wide-screen illustrated talk and displays gathered from all industries.

It will be sponsored by the Adrian Technical Club, Monday evening at 6 in the Adrian Eagles Club.

The presentation begins with a highly condensed but thorough historical review of cutting edges so that present progress can be examined in the mirror of history.

The historical panorama does this with 12 panels showing the successive plateaus of cutting edge development.

Reservations should be made by Nov. 10 with Jack Clark of Tecumseh Products, or by calling him in Adrian at CO 3-2543.

There are many beautiful parks in Rio, even though built in a rough area that limits space.

Most interesting were the pictures of the entirely new seat of government being built at Brazilia.

VOICE of THE HERALD

Swainson Win Leaves Us Shakey

It's all over now.

The Herald stoutly backed Nixon and Bagwell. Well, we sure took a beating — along with many others.

Organized labor has now taken over Michigan. We're more concerned about this then the change in national administration.

Our state has floundered badly the past few years and Michigan's reputation has suffered terribly. Responsibility for this goes to both the state Legislature and gov ernor. Tuesday's vote did nothing to improve this, in fact, it would seemed to have made the situation worse.

The labor bosses are moving right into the governor's office. How present and potential Michigan industry will be affected leaves us a little shakey.

Two rays of hope do shine through.

Citizens approved both the 4% sales tax and new ground rules for calling a Constitutional convention.

Here, Herald editorials matched the thinking of Michigan's citizenry-at-large. The sales tax will get us over the next financial hump and con-con will likely give us a new tax base.

We congratulate area folks who shattered all vote records. Let's get out this way for every election.

Give from the Heart

This week marks the end of the Tecumseh Community Fund Foundation drive.

So far, $32,000 has been donated.

This is less than half of the effort's $70,000 goal.

Have you done your share?

Charitable giving is something personal and private. We should never judge a fellow man's donation.

About the only thing we would say is that each area resident should examine his situation and consider the wonderful results which will be obtained with his gift.

Being generous, within your means, will bring happiness into many lives — most probably your own among them.

Being stingy, when you are able to give more, is a selfish, uncharitable attitude. Christ said, "Love they neighbor as thyself." The city's annual Fund drive is a wonderful opportunity to display that this love is in your heart.

If you haven't been contacted, or you wish to increase your gift, please telephone 1039 or 648.

Heads-Up Play Will Win It

When youngsters play heads-up football, they'll win more games than they'll loose. So it has been with Tecumseh in the past three seasons.

Now we come to the climax of the 1960 schedule—with fingers crossed.

THS has had its bumps, so far, however, still took all but one contest.

Adrian is our final opponent and this one could go either way. Heads-up football will win it.

Fire up, Indians.

ON SCREEN HERE—Frank Sinatra and Angie Dickinson clash in a dramatic scene from the Technicolor production "Ocean's Eleven"- which also stars Dean Martin, Sammy Davis, Jr., and Peter Lawford. The movie plays the Strand Theatre in Tecumseh, beginning next Wednesday.

ONE SIGH OF SORROW

Director Comments on Behind-Scenes Activity at Play

By DUANE K. FURBUSH
Director

At the conclusion of last Wednesday's performance of "Charley's Aunt," there was at least one sigh of sorrow from the director, for example.

The explanation of this is basic: one cannot live long and intimately with another and not feel the loss in parting.

So it is with the director and the play. The director has been called the play-doctor, and with reason.

He must deliver the playright's (brain) child from the quiet of the printed page, nurture it, housebreak it, give it discipline (through line, form and color), and an example of integrity through its actors and himself.

Finally he sends it on its way to maturity on the living, breathing stage.

By the time the play is in front of an audience, the director has been in long and intimate association with it.

"Long" associations is measured, not by time but by intensity.

And the intimacy of the relationship is perhaps best revealed by the great director, Tyrone Guthrie, "the performance of a play is clearly analogous to the performance of a piece of music. By the time the play is ready, if it is properly rehearsed, the diverse voices, the group of people who are playing the thing, will have found a music for their parts.

"Why acting — is so much 'more interesting than opera singing is that the actors invent the music for their parts to a very great extent.' "

And he concludes that the director's duty and function is to help the actors find their music, not by "technique", nor even by instruction, but by "a process of psychic invocation."

To try to achieve what Mr. Guthrie asks for is a painful, but rewarding experience to an amateur director. When the play is presented ,the director is acutely aware of his own shortcomings as revealed by his foster-child, the play.

However he is deeply gratified — if all goes well, and it did last Wednesday — at being able to see the other side of the cloud, "that silver lining side."

He sees the audience' warm response. Beyond them he sees those wonderful creatures, the actors and actresses. But he sees past them and through the set designer's splendid creations to all those other noble stalwarts, who doubled in many capacities, selflessly, and without desire for any other recognition other than the success of the play itself.

The stage manager and her assistant were Mrs. Fred Pokorny and Mrs. Earl Kotts. The resourcefulness of Mrs. Vic Lawson in charge of properties was invaluable and the gratitude of the entire Tecumseh Players goes to those who aided her in both loaning and collecting of these items.

To Mrs. Al Snyder goes the humble tribute of being the combined costume designer, creator and wardrobe mistress.

Mrs. Bertha Vallelanga's professional skill never allowed the make-up to be in the least obtrusive. It was always a touch of singular elegance.

The Tecumseh Players add their appreciative "ohs" and "ahs" to those of the audience in marveling at Russell Steinke's settings.

And with a minute monetary outlay and meager equipment, Dr. Richard Coak and Fred Pokorny achieved a miracle in stage lighting.

Ralph Dabe, Walt Nichols, Al Nemeth, Ray Shelton, Roger Snyder, Bob Beard, Mr. and Mrs. Jack Babcock, Don Schmidt, Duncan Oliphant, Tom Corkery, Mr. and Mrs. Smith and many of the above named can never be thanked enough for the around-the-clock work on the sets.

That this production received wide and varied publicity was due to the organizational skill of Mrs. Richard Coak, who was ably abetted by Mrs. Richard Duffin.

Dick Duffin as house manager and Mr. Duffin in charge of ushers, and the ushers themselves ably served both the audience and the Players.

No production is complete without a program, and so grateful thanks to Mrs. Corkery as program chairman and an original cover by Mr. Steinke.

Finally (with apologies to anyone who inadvertaintly has been left out), all the Players thank Tom Corkery for his management of ticket sales.

He went Mohammed one better. After all, Mohammed had to go to the mountain; Tom brought the mountain to the Players — in the way the demand for tickets mounted.

Now the Players shall soon meet and select the next play for the late winter season.

Jack Collins of Calif. spent the weekend with his parents Mr. and Mrs. Russell Collins and brothers Sunday afternoon they attended the Lions 49er Football game.

City Manager Reports

By ED NELSON

It has been suggested that a report of the progress in the city be made each quarter so that the citizens will know where the money is being spent.

You are no doubt aware that the town has been torn up most of the summer. However, it is being put together again, and when these projects are completed, we believe you will agree that we have accomplished more this year than in any other previous year.

It was unfortunate that most of the streets that were repaired were located where it was difficult to close them off during construction. This made things inconvenient for the motorists as well as our workmen.

We installed over 15,000 feet of curb-and-gutter. This was perhaps more then we should have done, due to the deep cuts we had to make to bring them down to grade.

However, all of the dirt which was removed was used to fill in the approach at the new bridge on Maumee St.

The contractor's estimate on the bridge approach was $10,000. We have done this job for $5,000 so far, with little work left to do. The estimate on the bridge itself was $33,995.

☆

ONE OF THE roughest jobs connected with the construction of the bridge was to eliminate the sanitary sewer main, crossing the old bridge and replacing it with a sewer main below Evans Creek.

It was necessary to start 490 feet east of Maumee St. to obtain the fall. We installed 490 feet of 21" main, ending on the west side of Maumee St.

This main will be extended to the west to pick up residents that do not have the sanitary sewer. When this interseptor is completed, it will eliminate the pumping station on W. Chicago St. and will accomodate all of the area west of Adrian St.

We estimate that this project will be completed within three years. We feel that the Logan St. main will not carry the load after that date. This work constitutes a large step forward in strengthening our sewer system.

☆

WE ALSO installed 2,200 feet of sanitary sewer main on Shady Lane and Adrian St. as well as 1,800 feet of water main. We have approximately 1,400 feet to go in this area.

Sewer and water installations were also completed on Sunset St., with 750 feet on Occidental, which completes the services for all residents on these streets.

Due to the unusual winter and spring back up, it was necessary to re-seal more streets this year than in any previous year.

In all, we re-sealed over two miles of streets besides putting bituminols on N. Union and Brown Sts.

The repairs will amount to approximately $40,000.

It is natural that some of you will think we did a good job this year and others will think differently.

However, we feel that we did the jobs that were most needed, both for safety and for the elimination of costly repairs.

Herrick Book Is Presented

Mrs. Jack Hanna opened her home to members of Circle I of the Presbyterian Church Nov. 1, when Mrs. H. L. Spencer was the program chairman.

Mrs. Carsen House and Mrs. Dale Bowen were assisting hostesses.

Mrs. Spencer read the book, "Master of The Inn" by Robert Herrick, a story of what one person can do to create men out of the refuse of society.

Mrs. Hanna presented the devotions, taken from John 9:35-41.

MRS. MERL SANCH

Virginia Ruth Witt Speaks Vows with Merl A. Sanch in Candlelight Ceremony

BRITTON — Marriage vows were spoken by Virginia Ruth Witt and Merl A. Sanch in a candlelight wedding Saturday evening in Christ Evangelical Lutheran Church of Monroe.

Harold Althaver was the organist and Mrs. Frederick Welly sang. The bride sang "The Lord's Prayer during the ceremony.

An arrangement of red and white carnations were on the altar. Other decorations were candelabra and palms.

The bride is the daughter of Mr. and Mrs. Milton J. Witt, 8239 VanAiken St., Ida.

Parents of the bridegroom are Mr. and Mrs. Verl A. Sanch 386 N. Main St.

Given in marriage by her father, the bride wore a gown of brocade satin, featuring a scoop neckline and three-quarter length sleeves.

The full skirt was designed with a butterfly bustle at the back and featured roses and streamers, which cascaded to a cathedral train.

A crystalette crown held the bride's fingertip veil of silk illusion.

☆

WHITE AND RED roses were in her cascade bouquet, which she carried on a white Bible, a gift of her godmother on her confirmation day.

Elva Ann Dennis, cousin of the bride, was the maid-of-honor. She was gowned in a street-length dress of brilliant red brocade satin.

The fitted bodice was styled with a scoop neckline and was fashioned with a self bow at the front of the waistline.

She wore a headband of petals with pearl at each point and a circular veil.

She carried a white satin ring surrounded with white carnations.

Football Fever Hits Its Peak in Win Over GI

By JIM LINCOLN

Football fever hit its season high here last Friday night when an underdog Tecumseh 11 trounced the Grosse Ile Red Devils, 33-19.

The unexpected victory over the undefeated league leaders gave the Indians a 6-1 Huron League record, giving THS a tie with GI and Milan for the league championship.

GI, undefeated in league play and conquerors of Milan, had lost only its opening game to Riverview.

The local high schoolers turned in by far their best game performance of the season. It was definitely a team victory with the line outcharging the GI line from about the middle of the second quarter until the game ended.

GI gained 103 yards rushing in the first quarter alone, nearly twice what the Red Devils made in the final two periods.

Indian fans waited less than two minutes before leaping to their feet in the opening period. Mike Green tore over the middle and raced 48 yards for a TD on the third play of the game.

Max Gail, 185-pound fullback, evened the count for GI midway through the period with a 34-yard romp over right tackle.

On the last play of the first stanza, quarterback Brian Geisler hit Ed Warren with a nine-yard TD pass to give GI a brief lead, the only time the visitors were ahead.

After each team punted twice in the second quarter, the Indians started a 71-yard TD march which was climaxed with less than a minute and one-half on the clock.

A 37-yard pass from quarterback Tim Sisson to Mike Green was the big yard-gainer in the march. Jon Aho tallied the score, running through several GI defenders from the 10-yard line.

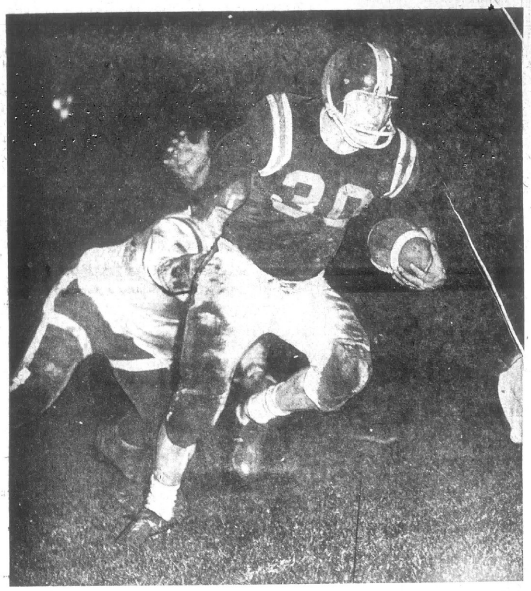
Clarence Champanois ran for the extra point, which gave the Indians a 14-13 lead at halftime. GI's attempted extra point run after their second score was smothered by the Indian line.

Both teams scored once in the third period with Sisson pitching relinquishing the pigskin. With seconds remaining, four incomplete GI passes returned the ball to Tecumseh, less than a yard from the goal line.

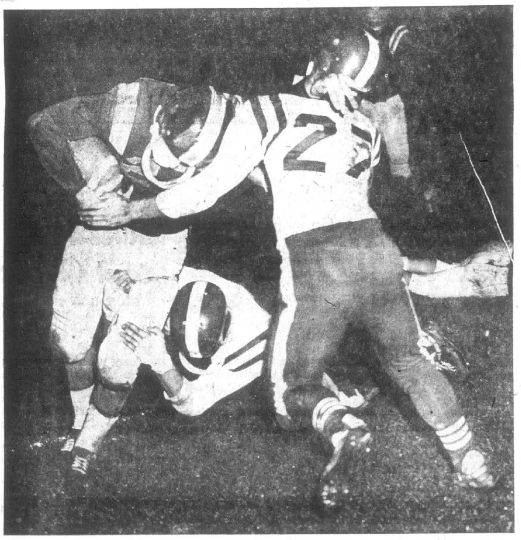
Green scored his third touchdown and 19th point of the game behind a wave of blockers on the final play of the contest.

Guard Tom Simmons scored his first point of his high school career, recovering a fumble in the end zone on Tecumseh's extra point try after the initial TD.

Now comes Adrian!



BIGGEST NIGHT—Mike Green (30) had tdhe big gest night of his high school career against Grosse Ile, dashing for three touchdowns and getting key yardage throughout the contest. Mike, along with nine other seniors, plays his final prep game Friday against Adrian.



GANG TACKLE—It took several Red Devils to bring down Jon Aho almost every time he rushed with the ball. Grosse Ile's Bob White (27) avoids a straight arm and goes high as a mate hits Aho's legs.

Knights Capture League Championship

By LOUIS CIAVONE

Boysville's Fighting Knights beat Adrian Catholic Central, 27-7, to win the River Raisin Conference title.

In the first quarter, which opened in a slight rain, Boysville received the kickoff.

After a series of short-gain plays, Ken Snooks pitched out to Tony McFarr and threw a key block to spring McFarr for a score from the 46.

Bill Gager went over for the point-after on a wedge play.

Boysville kicked to Adrian and after a series of plays an Adrian player raced into the open behind the Boysville defenders and snared a pass.

Speedy John McGeshick came up fast from his position and dragged the CC played down from behind.

Adrian, however, scored soon after, on a power play around Boysville's left end. The point was good.

Early in the fourth frame, McGeshick sprang into action by going through center for Boysville's second score.

After receiving the ball from Boysville on the kickoff, Adrian moved down to the Boysville 21 on a series of well-executed plays, including one long pass.

But the defensive unit of the Knights held and Adrian was forced to give up the ball after four unsuccessful attempts to make a first down.

On the first play, McGeshick swept Adrian's right end behind excellent blocking, and, shaking off a couple of CC defenders, sped 79 yards to score.

A pass from Snooks to Pete Mata gave the Knights the extra point.

Boysville got the ball again and moved down into scoring territory on a long pass from Snooks to Mata.

From 15 yards out, John McGeshick raced around right end to rack up his third touchdown of the evening.

Snooks again found Mata all by himself in the end zone for the extra point.

SO FAR this season the Knights have not lost a game.

In the process they have scored 41 touchdowns and 25 extra points for a total of 271 points, while allowing only 51 points to be scored against them by their eight opponents.

John McGeshick, Lenawee County's top scorer, now has 19 touchdowns to his credit.

Boysville journeys to Ida Friday for the final game of the season.

This could be the first undefeated season in the history of Boysville.

You've never driven a heavyweight that handled like this one!

HERE! EASIER GOING FOR THE DRIVER AND THE LOAD, LONGER LIFE FOR THE TRUCK!

'61 TORSION-SPRING CHEVROLETS

If you don't think scrapping the front axle has made a world of difference, you haven't driven a Chevy in a while. A few minutes behind the wheel and you can feel why drivers are happier and breakable loads are better protected. But the biggest advantage of all, you'll realize, is that the truck itself (sheet metal, tires, chassis components, *everything*) takes less abuse. With independent front suspension soaking up road shock and vibration, the truck lasts longer, goes extra thousands of miles before trade-in time. Add that to what everybody's always known about Chevy dependability and you find yourself looking at the soundest truck investment you could bet your business on. CHEVROLET

and look! **NEW REAR-ENGINE CORVAIR 95's**

A panel and two pickups that put a thrifty air-cooled engine in the rear, the driver up front and as much as 1,900 pounds of load space in between! That's more capacity than a conventional half-tonner. Yet these Corvair 95's are nearly two feet shorter from bumper to bumper. Highly maneuverable. Built to last and bound to save on a busy schedule!

Newest Area Church Is in Beautiful Setting

The Rev. Cyrenus McDonnell, 215 W. Kilbuck St. is the pastor of a new church on Macon Rd. and Billmyer Hwy.

The Wesley Fellowship Church purchased the old Culbertson School from the Tecumseh board for $3,300. The new congregation is busy now, converting it into a country church.

The lot is 200x200 and makes a picturesque setting for a rural church with the stately pines about it.

Mr. McDonnell has lived here for the past six years and worked at the Tecumseh Products for 14 years. He has been in the ministry 24 years.

He was pastor of the Lower Light church in Tecumseh for three years, Wesley Fellowship church in Napoleon, O. for two years, Toledo United Methodists Church for one year.

Plans now are to add pews, carpeting and an altar area to enhance the interior and to enclose the belfry and add a bell.

The basement will be sectioned off for classrooms for the Sunday School. There is oil heat, rest rooms and a water pump.

The first service was held Saturday, Oct. 22.

At present there are 12 members.

Mr. McDonnell's wife, Mildred, and daughter, Bonnie, pianist and a senior at Tecumseh High school, are helping in this project.

The formal dedication will be Sunday, Nov. 27, at 11 a.m. with the Bishop Rev. Oliver Sprague of Jackson officiating.

Services are held each Sunday at 11 a.m. and 7:30 p.m. with Sunday School at 10 a.m. Midweek prayer service Wednesday at 7:30 p.m.

Visitors are welcome, states Mr. McDonnell.

WELCOME HOME

One of the few nice things about the season, which is rushing towards us at break-neck speed, is the birds that come with it. Winter means snow and cold, but it also means busy bird-feeders.

Fall is always so pretty and yet somehow I always feel that Mother Nature tries just a little too much. I think she tries to pull the wool over our eyes.

The bright colors are beautiful but they can't hide the fact that tumbling temperatures and biting winds are to be with us soon.

Each year it gets harder to face winter — let's not hear anything about growing old.

There are some good things coming, however, maybe we should concentrate on them.

As mentioned before, one of winter's blessings is the birds. Many of them are already here. The vanguard of one group flew in a few weeks ago. It seems so good to have the juncos back.

There were five or six birds in the advance party and what a time they had. Scratching through the leaves which covered the lawn, flitting from one tree to another, hopping up and down the creek bank and taking time outs to confer and compare notes out by the fence, they were just full of business, excited and eager to explore every inch of their old winter haunts.

Apparently their report back was good because I am now happy to say we have quite a few of the little fellows around.

☆

JUNCOS HAVE always been favorites, they are so cute. We have found, however, that these little slate-gray birds are not the least bit photogenic.

Their heads are so black that their bright beady eyes don't show up at all, and, of course, those most distinguishing white outer tail feathers are only seen when the birds are flying.

Unfortunately our powers with the camera are not advanced enough for us to tackle birds on the wing — someday we'll do it, but not quite yet.

Several days last winter everything was just right — lots of snow made a white background, a bright sun provided perfect side-lighting — and we were lucky to get some good junco pictures.

One we especially like is of a round roly-poly fellow who has the feeder to himself and is looking straight at the window.

He is a perfect caricature of the big business-tycoon — you know the type, they are the people the cartoons of the Saturday Evening Post and to a less-talented extent, the Free Press.

It takes little imagination to see our boy with a heavy gold watch chain across his gray vest and a big black cigar poking out the side of his mouth. Quite the big shot.

☆

BUT BACK to this year's juncos. Usually they arrive, the main body at least, together, but this year, after the advance detail scouted us out, they have wandered in a few at a time.

Some days we see many, other days none. Of course, the weather has not been bad enough to bring them to the feeders.

They are happy to scratch around on the ground — their best foraging area seems to be the creek-bank.

Although we enjoy them most when they come to the feeders and we have good close-up views, there is no denying that it is fun to watch them scrounge around on the bank. They are all business and full of hustle and bustle.

So it is that the juncos are back and with the warmth reserved for old friends we say "Welcome Home."

It is nice to have them, but I still wish they weren't to be so closely followed by snow and cold.

Scouts Scrape Paraffin From Windows

Peggy Morris and Chris Kelley, members of Senior Girl Scout Troop 79, made things right again for Neil DePuy, 708 Ternes Rd. last week.

Mr. Depuy showed his gratitude of his time with his wife, who is seriously ill at Herrick Memorial Hospital.

Upon arising the morning following Halloween, he was exasperated to find his windows covered with paraffin, right to the top.

Not giving much thought to the fact that their "good deed" would add to their community service work, Scouts Morris and Kelley went to work scraping and washing until the windows were bright and shining.

Mr. DePuy showed his gratitude by taking the girls to dinner at a local restaurant.

From where I sit ... by Joe Marsh

Speak Up, Doc

Doc Turner was up playing cribbage with Smiley Roberts the other day when, long about suppertime, Mrs. Roberts invited him to stay and have a bite with them.

Now, Doc had sniffed a cherry pie coming out of the oven and his mouth was watering. But what did he say? "No, thanks," says Doc. "Some other time, then," says Mrs. Roberts, and back she goes into her kitchen.

Well, next day Smiley ran into Doc on the street. Smiley said, "You missed some good cherry pie last night, Doc."

"Don't I know it," says Doc. "I sure wanted to stay but your missus only asked me once!"

From where I sit, Mrs. Roberts has the right idea about persuading people. Give folks credit for knowing their own minds. For instance, I never coax anyone to join me in a glass of beer. And if they don't try to talk me into drinking *their* favorite beverage, we'll get along fine. You can't persuade folks to be good neighbors, but you can "invite" them.

TOM RIORDAN'S Long AND Short

A lot of Tecumseh people were mighty unhappy about the way the THS-Adrian football game was reported in the Adrian Telegram.

The number included folks at the Herald.

Read our editorial on this subject on the last page of the second section.

☆

Suggestion for winter-time fun: how about forming a Ma & Pa volleyball league with games every week?

Think of all the trim waist lines that would be seen around town.

☆

"A contest in which we can take pride," Bootin' Pussy

started, "We should have beaten Adrian, but the boys did their darndest, so who's to grumble."

"Where to now, Bootin'?" asked.

"Well, you may find this hard to believe, but two of my favorite ex-THS stars need my help."

"Who might they be?"

"Bubbles Curth and Lee Britton. They're at MSU now, you know, and although they started pretty well, there are a few problems.

"The boys have arranged a nice spot for me in the fan room at Butterfield dorm and in exchange I'm going to tutor them this winter."

"Tell Coach Lectka I'll be back in time for his opener next fall. Ta ta."

☆

Before I toss this white shirt into the dirty laundry bag, I better get these cuff notes transcribed.

Let's see.

Steve Ilieck, speaking for the auxiliary police, wishes to thank spectators for their cooperation at home football games and the Band Festival.

What is this scrawl about a Chic Sales? Oh, yes, some admirers presented one to Neville Hart for Halloween.

"V. M. wears W. W."

What in the world does this jumble of initials mean? Ooops, it all comes back to me, Vern Manwaring got slightly confused just before the election and was seen wearing a Wendall Wilkie pin. (Well, that's not so crazy, after all. His man did about as well as mine.)

Here's a good one — "Movieland."

Don't tell me, I'll remember. A new show coming? No, MGM on location here? Hmmmmm?

Wait a moment, this is the story. Jim Smith, the Tecumseh architect, rode with 10 Hollywood personalities on a TWA 707 jet coming from St. Louis to Metro Airport the day before the election.

Jim's seat mate was Robert Young, who was on his way to Detroit for the Nixon show. John Payne was also aboard, complete with dark glasses and turned-up coat collar.

Jim says Young is a wonderful guy and he'll never miss "Father Knows Best" again.

Final election item: in Franklin Township there was an all-time vote 776. There are 848 folks registered there, meaning last week's turnout topped 91%!

Three Lower Grades May Have To Start Half-Day Sessions

A general discussion of finances Monday night by Board of Education members indicate that the school electorate may have a decision to make soon.

Board members verbally agreed to end deficit spending, a manner in which Tecumseh schools have been operating.

Supt. James McDowell, after presenting a revised budget, reported that the schools would end the school year over $130,000 in debt.

The board then requested the superintendent to submit cost figures for many of the present educational services, the savings which could be realized by eliminating them, savings which might be realized by putting elementary grades one, two and three on half-day sessions.

Voters, for example, might have the choice between approving two or three mills or placing the three elementary grades on half-day basis.

The revised budget is $1,020,600, approximately $36,900 more than income. A decrease in anticipated enrollment of about 150 students also considerably reduced the amount of state aid expected.

☆

IN OTHER action, the school board stood firm by state law in refusing to excuse a fourth grade boy from physical education classes.

The boy's parents, friends and a minister from Adrian voiced objections, stating it was against their religious beliefs for the boy to participate, especially in taking showers with his classmates.

Parents and the minister were not clear in stating exactly what they opposed, admitting that they do allow participation in some forms of physical education, such as playing ball.

The father, who had admitted taking the boy out of school in order that the lad would not have to take physical education, and then returning him after the class was over, stated that he would again pick up his son so he would be absent for the class.

☆

SUPT. McDOWELL said that he would have no other alternative but to suspend the boy, if he is removed by the father from school, and notify the truant officer.

The board and superintendent stuck with the school law and read it to the parents and minister. They stated that excusing the boy would be breaking the law, and that they were not about to do that.

They approved allowing the boy to be excused from showering with the other boys and from dance classes. Other physical education classes would have to be participated, in unless excused by a physician because he was not physically able.

TECUMSEH TD—Capt. Jon Aho sprinted into the Adrian end zone in the second quarter as the Indians and Maples tied 7-7 Friday. It was his 13th touchdown of the year and helped Jon finish third in county scoring with 86 points. Team mate Mike Green ended up with 56 for a 9th-place finish. The tie with Adrian gave Coach Duncan Lectka a 7-1- mark for 1960. Complete details of the game and additional pictures appear on page one of the next section.

At Last—We'll Dial

★ ★ ★ ★ ★ ★

Magic Hour Is Sunday at 2:01 a.m.

After years of patient waiting, Tecumseh residents are going to have dial telephones.

The bewitching hour for the change-over is 2:01 a.m. Sunday.

Thus is culminated a $1 million project.

Nearly 5,000 man hours of labor were needed to prepare for the change—which will take approximately two minutes.

The city's main entrance cable is completely installed in the new phone company office at Chicago and Oneida. For the past two weeks a "half tap" into the old office has been taking care of service.

At the signal Sunday morning, circuits to the switchboards will be jerked. As several servicemen remove these, others in the new building will slip back long strips of non-conducting material which have kept new circuits closed.

By these two simple moves, the dial system will be operative.

Of course, there'll probably be a variety of minor problems to adjust and so phone workers will be available Sunday to handle these.

The "half tap" will be removed next week and the old switchboards and building disposed of.

With the new system comes Direct Dialing, which will permit General Telephone's 3,000 customers in Tecumseh, Britton and Tipton to dial more than 52 million homes in the United States.

As dials come in, 31 operators go out.

These gals have manned the switchboards here from five to nearly 30 years.

With their jobs discontinued, most are leaving the company.

Mrs. R. W. Mead is a veteran of 27 years at the boards, the past 14 as chief operator.

She remembers when the company moved into the frame building at 216 E. Chicago Blvd. during the Twenties. This was just before she joined the firm.

Prior to that the switchboard was located over Wright's Drug Store.

As operations here expanded, the boards expanded to nine local stations and four long distance.

Although the operators have worked with amazing speed, each handling as many as 200 local calls an hour, the system was badly outmoded for a community this size.

Mrs. Mead and her girls will gather as a group for the last time Sunday. There'll be a dinner in the Oslo Inn on Rt. 112 at 3:30 p.m.

Attending will be:

ENTER DIAL—Carol LaLonde, an employee of Wright's Drug, gets in some practice at using the store's dial telephone.

Protestants Offer Thanks November 23

A community Thanksgiving service for the citizens of Tecumseh will be held Nov. 23, at 8 p.m. in St. Peter's Episcopal Church.

This service, sponsored by the Tecumseh Ministerial Association, is conducted annually for the Protestant community, offering them the opportunity to gather together and share their corporate faith in the experience of offering Thanksgiving to God.

The Rev. Allen Wittrup of the First Presbyterian Church will preach.

The Rev. Frank W. Hawthorne, rector of St. Peter's will officiate at the service of evening prayer.

The Rev. Laszlo Gero, the Rev. Paul Brantingham, the Rev. Blair Bashore and the Rev. Ray Warnick will also take part.

The choir of St. Peter's under the direction of Keith Bailey will sing with Mrs. Blaine Ballard at the organ.

Smoke Damage

Firemen were called to the home of Lyman Cleveland, 310 S. Pearl St., last Thursday at 8:30 p.m. An overheated furnace was the cause of the alarm, which resulted in smoke damage.

'Holiday Time' Is Party Time

The Tecumseh Hospital Auxiliary has chosen "Holiday Time" as the theme for its annual ball.

The affair is to be held at the Tecumseh Country Club, Saturday, Dec. 3. Music will be furnished by Ken Edwards and his orchestra with dancing from 10 p.m. til 2 a.m. Admission is $5 per couple.

Britton Scouts Stage Program for Presentation

BRITTON—Britton Cub and Boy Scouts will hold a combined charter presentation night, Tuesday, Nov. 22 in the school cafeteria.

A potluck supper will be served at 6:30 p.m.

Families are to bring their own table service and at least two dishes to pass, their own rolls and butter.

Coffee and Kool Aid will be furnished.

Miss Boyce Named to Dean's List

DELAWARE, O.—Julia Ann Boyce, daughter of Mr. and Mrs. Wilbur Boyce, 8607 Billmyer Rd., has been named to the Dean's List at Ohio Wesleyan University, where she is a junior.

Approximately 7% of the University's students are honored for scolastic achievement by being named to the Dean's List.

Gene Tuckey New Prexy of Kiwanis

The Tecumseh Kiwanis Club elected Gene Tuckey as president to head an entire new slate of officers.

Mr. Tuckey succeeds John Pobuda. Merle Hoag was made vice-president, with Owen Merrill as treasurer.

Elected to the board of directors were James Hoffman, Fred Nash, Dr. George Burkhard, Kenneth Blumerick, Harold Kopka, Richard Myers and Carl Lamb.

Plans for the 1961 program of action, which will be coordinated with the remainder of the Kiwanis International District, begin this month.

Divisional Lieutenant Governor James Fridd of Adrian talked about the "Rules and Regulations" in the Kiwanis Organization at the meeting, which included as guests Kenneth Wheeler, Dr. L. K. Cox from Adrian and Robert Hyde.

Planter Is Given Mrs. Hayden

Mrs. Perry Hayden was presented a spinning wheel floor planter by the Tecumseh Friends Church Sunday School during the services.

The presentation was made by Mabel Lockwood, honoring Mrs. Hayden for her many faithful years as church school superintendent.

Appreciation was expressed by several: John Kelly, assistant superintendent; the Rev. Paul Brantingham, pastor; Mrs. Percy Slater, primary superintendent and the present superintendent, Richard Butler.

Awards for the attendance contest, which ended last Sunday, will be presented at Family Night Friday, Nov. 18.

Announcement will also be made of the winner of the poster contest and that award will be presented.

Jim Fielder Nails Buck

Jim Fielder, 112 W. Shawnee St., shot a five-point buck one hour and 20 minutes after starting to hunt near Buckley, south of Traverse City.

Out at 7 a.m., he was seated on a knoll when the animal broke through the brush. A shot through the neck from about 150 yards away brought down the buck.

Since the weather was so warm he hurriedly dressed out the deer then rushed it to a locker plant, in the Irish Hills arriving there at 2:30 p.m.

Rotarians Tour Plant

Dale Clark, manager of the General Telephone Co. office, spoke briefly to members of the Rotary Club Tuesday evening and then took the club on a conducted tour of the new office.

Mrs. Robert Smith and Mrs. Clifford Curran presided in the absence of the president.

Mrs. Vern Eyler read the 101 psalm during the devotional period.

Cookies and coffee were served from a lace-covered table with Mrs. Harold Davidson, Mrs. Ted Templeton, Mrs. Russelll Hall, Mrs. Harry Carney, Mrs. Eyler, Mrs. Cecile Viele and Mrs. E. H. McConnell as hostesses.

Crazier Deals Have Happened; Can Lions Win Last 4 Games?

By TOM RIORDAN

It's crazy.

But it could happen—crazier things have.

If the Detroit Lions can take their final four game, and Baltimore loose theirs, the Lions would win the Western Conference title.

As we note, it would be crazy.

But study the schedule. Detroit entertains three straight weeks in Briggs Stadium — the Chicago Bears this Sunday, then the Green Bay Packers and St. Louis Cardinals.

The Lions close Dec. 12 against the Bears in Chicago.

Detroit should take the next three, but trouble looms when it meets the George Haalas crew in Wrigley Field.

As for Baltimore, now atop the western race, it takes on San Francisco and Los Angeles at home the next two weeks, then meets the same clubs on the coast.

The Colts are favored at home, but may run into rough going in California.

But win or lose their division title the Lions have come a long way in the past few weeks.

Sunday, as The Herald camera worked the Lions-Rams game, there was an electricity in the air, much like the days of Bobby Layne et al, the championship era for Detroit.

This was a strange game for the pros, 3-3 at the half, but it was one in which defensive units just wouldn't give an inch.

Victory went to Detroit, 12-10, primarily because of the Lion defensive crew.

When a guy like Night Train Lane starts after an opponent the resulting crunch sends shudders through the crowd.

A fraction of a second after the photo below was taken, Ram quarterback Billy Wade (9) was racked up by Night Train. It wasn't a tackle. Lane simply ran at full speed into Wade, who was boxed in towards the sidelines.

The hurtling body of Billy scattered half a dozen lensmen, who were posted at the point he went sailing out of bounds.

Professional football is like no other sport.

A screaming crowd of more than 50,000, who saw the Ram-Lion contest, will attest to this fact.

Even when the teams hadn't scored a touchdown in 30 minutes of play, the spectators were treated to a continuing array of spine-tingling events.

When Glenn (Jeep) Davis, Olympic gold medal winner, speared a pass in the opening period, the fans were delighted.

The punting of Yale Larry drew gasps. Wade's picture pass, which carried more than 60 yards in the air and just missed being caught by inches, brought fans to their feet.

If you have never seen pro football, you have missed the biggest spectacle known to sports

DARRIS McCORD (78) SPRINTS AFTER RAMS BILLY WADE (9)

Wear, Tear Determines Carpeting

Carpets for your home can last for many years, or for just a few. It depends on your selection and the wear you give it.

Jessie Marion, home furnishings specialist at Michigan State University, says some homemakers like to invest in a long-wearing carpet, so durability is one of their first requirements. Others would rather buy a high-style, but less expensive carpet, live with it a while, then replace it.

Carpets are made to take heavy, medium or light traffic. Since traffic varies throughout the house, homemakers may consider matching the carpet to the location. Heavy-duty carpet is usually best for stairs and hall ways. Medium-wearing carpet may match the dining room traffic, while less durable carpets may give good service in bedrooms.

In all price brackets there is a rainbow of colors and a variety of styles and fibers offered. Faster methods of construction, such as tufting and knitting, have helped to put some carpets in the lower price range.

Care requirements get consideration from many homemakers. Miss Marion says tweeds and color mixtures can be very practical and easy to maintain. Very light solid colors show soil, and very dark solid colors show dust.

Restaurant Is Moved

Mr. and Mrs. Clarence Randolph are remodeling the old Greenwald Laundry store in downtown Tecumseh for relocating the Tecumseh Restaurant. The Randolphs took over operation of the restaurant a few weeks ago.

Nursing Expert Speaks to Club

Mrs. Stanley Cook entertained members of the Little Garden Club Tuesday evening when John May, nursery representative from Spielmans, was the speaker.

He talked on shrubs and landscaping.

A bulb and plant exchange was held. Each package had a bit of cultural knowledge attached.

Refreshments were served, with Mrs. Wilbur Andrews and Mrs. Richard Colson assisting the hostess.

OPEN DAILY 2 TO 9 P.M. SATURDAY 11 A.M. TO 6 P.M.

THE KENNEDY FAMILY by Joseph Dinneen — "Come in first; second place is failure." This was the motto of old Patrick Joseph Kennedy, the shrewd, tight-fisted son of Irish immigrants, who was born in East Boston in 1858. "The Kennedy Family" is the history of three generations of this family, and their swift rise to wealth and political position.

LOVE IS NOT WHAT YOU THINK by Jessamyn West — Miss West has set forth what is quite possibly the most concise statement to date on this eternally challenging topic. Yet, for all its economy of words, this is a book of enormous richness. It is filled with wisdom and understanding, and with phrases that will linger in the mind long after the book is closed. She makes sharp distinctions between young love and mature love, between purely physical love and complete love, and among the several lesser forms of human emotions that are sometimes confused with love, but more often prey upon it.

BY ANTIETAM CREEK by Don Robertson — A Civil War novel that deals with a fierce, fatal 24 hours which actually preceded the epic battle of Gettysburg.

THE WAIST-HIGH CULTURE by Thomas Griffith — "Waist-high is a term the author uses to describe a culture that exalts the middle. He says, "We are in danger of becoming a mediocre people. Who would say that quality is in any phase of our culture outracing the spreading debasement? Have we sold our souls for a mess of pottage that goes snap, crackle and pop?"

A SILENCE OF DESIRE by Kamala Markandaya — How men and women embroil themselves and each other by silence at the wrong times by exchanging only surface thoughts when their need is to unburden their hearts, is the universal theme of this novel. The story of a few critical months in a hitherto serene marriage, it is set in present day India.

MARRIED 25 YEARS—The family of Mr. and Mrs. Ray Campbell are holding open house on Sunday, Nov. 20, from two to four in the afternoon. Frances Meads and Ray Campbell were married Nov. 16, 1935 at Angola, Ind. They have three children, Mrs. Gayle Fisher, Raymond of Tecumseh and Carol at home and six grandchildren. The celebration will be held in the basement of the Friends Church with all friends, neighbors and relatives invited to attend.

PERFECT NIGHT FOR GAME — The weather Friday evening, although quite cold, was perfect for football—dry and fast. Tecumseh and Adrian gridders had a fine time and this scene shows the Indians about to get an offensive drive underway. Not shown were two men who played an important role in the evening. Dr. Bill Britton and Dr. Merwyn Blanden, who fired up hand warmers, with which the backs helped ward off the chill. Results were good: only two fumbles.

Deer Kill Near Here Is Studied

Hunters killing buck deer near Tecumseh or elsewhere in southern Michigan are urged to phone the Conservation Department's District Office in Jackson.

The Tecumseh hunter can telephone his report collect to this office at Jackson ST 4-3188.

A game biologist will go to the hunter's residence or frozen food locker, determine the age of the deer by the amount of wear on the teeth and measure its antlers and record the weight.

Even if only the head remains he can still obtain the necessary information.

"We need to examine 500 southern Michigan buck deer this fall," states Ralph Bailey, district game supervisor.

"We are now engaged in an intensive study to secure information vital to the management of the southern Michigan deer herd.

"With the high productivity of two fawns from each doe, the herd should be increasing at a faster rate. First of all we need to know how many bucks are being shot and how many bucks of each age class are being removed by the hunter.

"This will be followed around the year by a careful tally of all other causes of mortality including dogs, cars, fences, farm machinery, etc," he concluded.

4-H Rays Take Hay Ride, See Movie on Deer

An installation of officers was held and the group saw a movie on "Michigan Deer."

Refreshments were served by Sandra Shelton, Annette DeJonghe and Sharon Robinson.

The group is grateful to Leslie Marks for driving for the hayride.

LARRY LARSEN

OBITUARIES

Clare Camburn, Band Director, Was 72

Funeral services were held Monday at the Collins-Corkery Funeral Home for Clare H. Camburn, 72, well-known musician and band director, who died Thursday evening at Herrick Memorial Hospital.

He made his home in Macon.

Mr. Camburn had been in failing health in recent months and had been a patient at the hospital for the past two weeks.

He was well known in the state as the founder of the Lenawee County Band Festival, which he organized with the Rev. Blair Bashore in 1956.

In 1959 the Festival, held each autumn in Tecumseh, was dedicated to Mr. Camburn by the Lenawee County Band Directors Association.

For 20 years, Mr. Camburn taught in the Tecumseh public school system. He also taught three years in Adrian. He gave private instruction to many Tecumseh students.

Before that time he traveled as a vaudeville circuit musician.

He was a member of the Tecumseh Masonic Lodge F & AM and the Christian Science Society of Tecumseh.

Mr. Camburn was born in Macon township July 25, 1888 the son of Arthur and Eva Camburn.

He was a graduate of the Warren Ohio Conservatory of Music.

In 1911, he married Agatha Barnes who survives.

Church Notes

+ Being Near Brink of Destruction Brings Thanks

It is significant that the historical and important events for which we are thankful are of times of difficulty and hardship.

We know that a time of danger and want, sometimes even living close to the brink of destruction, has created within us a great sense of being thankful for our deliverance and blessings.

The Rev. Allen Wittrup will be using this as his theme as he speaks on the subject "Be Ye Thankful" next Sunday at the Methodist Church at 10 a.m.

Also at this service a new altar missal will be dedicated in memory of Dr. and Mrs. H. H. Loveland, who were active members of the Tecumseh Church. The memorial is given by their son, B. B. Loveland and his daughter, Mrs. Fred Gordon.

Church School with classes for all ages meets at 11:15.

Grades 6, 7, 8 and the youth choir meets at 5:30 followed by the Intermediate Youth Fellowship at 6:30.

Senior Youth Fellowship meets at 6.

On Monday, Nov. 21, the Mabel Lawrence Circle will meet with Mrs. Robert Wood. The Irene Circle will meet with Mrs. Herbert Dillon on Monday, Nov. 21.

+ Man's Identity

Man's real, satisfying identity will be emphasized at Christian Science churches Sunday in the Lesson-Sermon on "Soul and Body."

+ Linens, Bible Lecture To Be Dedicated Sunday

Sunday during the 11 a.m. worship service at the Presbyterian Church, a new pulpit bible, communion linens and lectern will be dedicated.

These have all been given in memory of Gertrude Sherving, who died a year ago this month.

The Bible, a revised standard version, bound in red leather, will be used for the first time this Sunday following the dedication.

The lectern, which was recently installed as a matching piece of chancel furniture, is already in use.

The Communion linens, which complete the linen set used in the regular quarterly Communion service, include a cover linen and eight bread napkins.

The Bible and the linens are being given in memory of Miss Sherving by her parents, Mr. and Mrs. Sam Sherving. The lectern was given also in memory of Miss Sherving by a member of the Church family.

City Manager Reports

By ED NELSON

Our city is now going through a period which will prove to be costly in the replacement of water laterals in homes in the older sections of town.

So far this year, it has been necessary to replace 32 of these water laterals. This is expensive for several reasons.

It is costly from the standpoint of material and labor and in getting the streets back into condition after the installation. It will take several years to get all of this work done.

It was necessary to replace the casing and screen in one of our wells this year. The cost of this job was $3,000. This well is the oldest in the system, and is now in top condition. In fact, all of our four wells are now in good shape.

☆

WE HAD difficulty coping with the weeds this year. This was due to our wet summer.

Although the cost of this project was one-third higher than in previous years, we believe we were more successful, thanks to the co-operation of our citizens.

One of the other unforeseeable expenses that come up this year was the removal of 40 elm trees that were infected with Dutch Elm disease.

The cost of the removal of these trees doubled the appropriation of $1,300 for tree spraying.

Although we feel that great progress was made in the past summer, we are aware of the fact that it was necessary to neglect many things in order to accomplish what we did.

We hope that next year, new construction will not be so imperative and that we can spend more time on maintenance of the old.

Wednesday, Nov. 23—Creamed turkey on biscuit, cranberry salad, pumpkin squares and milk

Thursday, Nov. 24 — Thanksgiving recess.

LETTERS TO THE EDITOR

On behalf of the senior class, we would like to thank you for all the help The Herald has given us in the past few months.

There were handbills that you printed for registration, and articles in the paper reminding people of the coming election.

Besides all this, you still had enough time to help us with the Porter-Hansen Debate by acting as moderator. Once again, we thank you.

Sincerely yours,
The Tecumseh Senior Government Class.

Gerald L. Rucker arrived at the home of his parents, the L. S. Ruckers, early Sunday morning coming by jet from California to Chicago where he was met by his sister, Mrs. Gerald Biehl. He has completed training on Treasure Island and in San Diego making his communications technician rating. After 15 days leave he will fly from the east coast to Scotland for his next tour of duty.

Past Chiefs night was observed on Wed., Nov. 9, at the regular Pythian Sisters meeting.

The Past Chiefs filled the chairs and after a short business meeting during which nominations of the new officers for the next year was held, they presented a very interesting program entitled "Hillbilly Jamboree" direct from the Ozarks.

The Past Chiefs answered to roll call with their fictitious names and residences.

The T.V. hour program was presented by "Fred Holy" (Mrs. Lyle Whelan) as announcer assisted by "Bean Blossom" (Mrs. Frank Crosby) who presented the very original commercials.

The program included a weather report by "Silas Peabody" (Mrs. Lyle Bailey), a duet by "Daisy Mae" and "Lil' Abner" (Mrs. Charles Driffill and Mrs. Lamont Simmons) entitled "She'll Be Coming Round the Mountain", a reading "An Old Maid's Prayer" by "Cyrus Do Diddle" (Dorothy Baker) and the news report by "Hiriam McQuillacudy" (Mrs. Grover Swarts).

The program ended with a square dance by the "Coon Creek Clumpers" with "Silas Peabody" as the caller and Lil' Abner at the piano.

All Past Chiefs came dressed in characteristic costume complete with corn cob pipes and an occasional jug or two.

Mrs. William Vollmer took moving pictures of the program.

Refreshments of creamed chicken on biscuits and apple pandowdy were served on aluminum pie tins to the members who were seated at bare wooden tables. The only table decorations were jugs of cider, newspaper dollies and odds and ends of jelly glasses that were used for the cider which was served from the jugs on the table.

The program committee was Mrs. Lyle Whelan, Mrs. Richard Platt and Mrs. Robert Roe.

The kitchen committee was Mrs. Roy Willnow, Mrs. Roy Benedict, Mrs. Grover Swarts, Mrs. Dale Cook and Mrs. Lloyd Billington.

Tecumseh Is In Middle

By JIM SMITH
Tecumseh Planning Commission

This general area map is a composite illustration of the urban and industrial growth in the area influencing Tecumseh.

The map indicates Tecumseh on the edge and in the pattern of the growth of the super population center Detroit, and its atenuated extension.

The growth has been without regard for jurisdiction and natural boundaries. Development patterns for cities in the area have not been maintained or executed to prevent a random, irrational growth.

Tecumseh is in the area of influence of this center. That is obvious. The growth will continue and Tecumseh will grow and be affected. That is inevitable.

Tecumseh will be enveloped in the expansion of the growing complex around Detroit.

To accomodate anticipated growth, Tecumseh's Council on March 16, 1959, requested from the City Planning Commission a Master Plan, or General Development Plan, as the first part of a series of legislative acts to insure comprehensive development of Tecumseh as a complete community.

The work of the Planning Commission, inventories of existing uses and conditions, planning proposals, recommendations and conclusions is published here as a guide.

The goal is a community not only in layout and physical facilities, but also complete in social, cultural and economic development, with commercial, industrial, educational, religious, cultural, recreational and residential elements arranged in an efficient, pleasant and satisfying environment for people.

It is interesting that the population of the southern area of the lower peninsula will probably continue to become an increasing percentage of the total population of the state.

The pattern by cities, however, will not necessarily be consistent throughout the area because of local changes in industry and development.

In fact, the rate of growth of the entire area as well as the growth of the cities depends on its competitive ability in relation to the rest of the nation.

Adjustments and migrations will continue with resulting stimulation and depression of local areas.

So, the growth of the general area is more predictable than the growth of local areas. Consequently Tecumseh must be prepared for surges in the population and remain confident that the average growth will be

Tecumseh must recognize also the type of growth that can occur under the exteme pressure created by rapid growth in the entire area, because it will have the choice of submitting to absorbtion in a greater population center or creating its own complete and satisfying community island.

Clothing left from the rummage sale was sent to the welfare chairman here so that it might be used locally.

Naomi Sallows and Mabel Lockwood presented the program, "Women of the Bible."

Mrs. Ashley Chase presented a medley of hymns on the piano.

Thanksgiving Shopping List

It's time again to plan that Thanksgiving dinner and write out your shopping list so that you'll overlook nothing. Here's a suggestion:

FRESH FRUIT COCKTAIL	LETTUCE
TURKEY	WATERCRESS
CRANBERRIES	PUMPKIN
SWEET POTATOES	WHIPPING CREAM
FRESH LIMA BEANS	NUTS
PEARL ONIONS	COFFEE

An interesting thing about this shopping list is that everything on it gets to your favorite shopping center by truck — and many of the items—out of season where you may live—comes miles and miles to grace your happy table on Thanksgiving Day. As a matter of fact, everything you eat, wear, or use comes to you by truck—so thanks be to trucks for better living!

ALL PRESCRIPTIONS MUST BE CAREFULLY CHECKED

A pharmacist first studies every prescription before compounding. The dosage is checked for safety. We make certain we know exactly what your physician wants. If we are in doubt we will call the physician for more information. Then, you get your prescription quickly.

That is why most new prescriptions cannot safely be ordered by mail. You would lose too much time and this personal checking between the physician and pharmacist, if compounded in a distant state, far from your physician.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

It's wonderful to feel cared for

Retirement . . . and hands, maybe, that once guided a lathe now gently graft the tender shoots. These are serene years mostly. Oh, there's a little anxiety about some things. Health, for instance . . . and the cost of sudden illness. But those with Blue Cross-Blue Shield share a special feeling of security here, too. They know they have the most dependable hospital-medical care money can buy. For many retired group members under pension plans, coverage and rates can be the same as they were in the working years. Any wonder that Blue Cross-Blue Shield is one of a retired person's most valued possessions? Shouldn't you have it, too?

Scoreboard Didn't Tell Full Story in Grid Game

By JIM LINCOLN

Friday's grid finale will enter the record books as a 7-7 tie between Tecumseh and Adrian.

However, those who witnessed the clash will remember it as a disappointment for the Indians, who outplayed and nearly upset the highly, overrated Maples.

Adrian, ranked third in the Twin Valley League for the past two years, escaped defeat mostly through the graces of lady luck.

After an even first half, Tecumseh completely dominated the second half, playing practically the entire final two quarters in Adrian's territory.

It appears that the Indians could have held their own in the now defunct Twin Valley, figuring that they're equals, at least, to Adrian this year and were far superior in '59 when the Maples also finished third.

In Friday's tie, Adrian jumped off to a first-quarter lead, scoring late in the period on a 20-yard pass from quarterback Glen Martek to halfback Wayne Klump. Lindle Cochran's placement for the extra point gave the Maples a seven-point lead.

A 66-yard Tecumseh march late in the second quarter evened the count, Jon Aho capping the drive with a five-yard sprint around right end. Aho tallied the extra point, diving in off right tackle.

Although all the scoring was wrapped up in the first half, most of the excitement occurred in the fourth period when Tecumseh rolled 76 yards to within less than two yards of the Adrian goal.

But the Maple line held and Tecumseh's last scoring threat was ended.

Two 15-yard penalties cut drives short for the Indians, once in the first period and again in the third quarter.

After taking the opening kickoff, fullback Mike Green and halfback Clarence Champonis picked the Adrian line apart for 35 yards before a 15-yard penalty on Adrian's 37 stopped the drive. Despite the penalty, the Indians regained 13 yards before punting on fourth down.

The Indians moved again in the third period to Adrian's 43 where another 15-yard infraction was marched off. Both drives were killed by the penalties when it appeared Tecumseh was on the move.

Although total statistics are about even, the Maples were benefactors in the last minute of the first half and the last minute of the game to boost their figures in the statistic column.

In both cases, Tecumseh dropped back on defense, willingly giving Adrian short yardage by rushing and passing, but preventing the Maples from getting the long ones.

During this combined period of about two minutes, Adrian collected four of its total 16 first downs, 29 yards of a total 67 by passing, and about a fourth of its total yards by rushing.

The Maples never got out of its own half of the field in the final stanza and only threatened once inside Tecumseh's 35-yard line after tallying in the initial quarter.

Their only sustained drive resulted in a TD and also their only real offensive show: 75 yards rushing, 20 yards by passing and three first downs.

Adrian undoubtedly missed one of their star back for the fray, halfback Jerry Dunbar. The Indians, however, missed halfback Bob Koffron and a couple others were slowed by injuries. Mike Tucker, Jim Simmons and Dale Tuckey also did not play.

350 Attend Open House

About 350 attended open house at the Tecumseh High School Thursday evening when parents put in a "regular day" of classes.

A record number of parents hustled through the halls, joking about excuses for tardiness and absences.

Members of the Future Teachers Club served as guides.

Neville Hart, principal, said, "We appreciate the interest parents displayed by coming and we are happy that they did take the time to attend."

Following class sessions, the High School Chorus, directed by Leslie Bennett, entertained.

They presented several selections, including "God of Our Fathers" and a spiritual, "Satan's Kingdom's Falling Down."

In conclusion the chorus did a parody about the staff, ending with one about their director.

The cafeteria staff served cake, ice cream and coffee.

St. Elizabeth School Jottings

Parents of St. Elizabeth's students visited school Nov. 4 to receive the report cards of their children.

Sisters and lay teachers conferred with the mothers and dads regarding the progress of their children.

Approximately 97% of the parents attended and this proved to be a successful method of giving out cards.

Veterans Day was most beautifully celebrated last Friday when members of the American Legion Auxiliary presented a new 50-star flag to the school.

A program was held in the auditorium before the entire faculty, student body and the Rev. Thomas J. Collins.

Michael Wykes, attired in his Boy Scout uniform, was master of ceremonies. He welcomed the guests and introduced fellow students Ruth Beidermier and Kenneth Bagby.

Ruth presented a history of Armistice Day, which she had written herself.

Kenneth spoke on flag etiquette.

Representing the Legion Auxiliary, Mrs. Roger Williams gave the flag to Michael and then Mrs. Louis S. Schneider told the group about the work the Auxiliary does for veterans and children.

The fifth graders presented a verse choir, using the poem "Flag of the Free."

The combined fourth and sixth Choraleers sang "Your Land and My Land" and then "America, the Beautiful."

√

Safety is the new slogan at St. Elizabeth.

A squad of boys has been formed to direct students crossing streets and driveways.

√

Second graders are currently working on their health projects. Many helpful posters are being displayed.

Third graders have begun library study and will soon start work on book reports. A large canvas bag arrived Monday morning from the Tecumseh library, which kindly selected the volumes.

√

A pretend television program was prepared by the fourth grade. Quizmasters were Sarah Beck, Ruth Warner and James McKenna.

Commercials were given by Carol Riordan.

High Prize Won by Mrs. Hanna

Mrs. F. C. Hanna won high score at bridge Wednesday at the Country Club.

Mrs. O. W. Laidlaw took second high.

90% of Population Has Been Tested

The medical history and examination portion of The Tecumseh Community Health Study is nearly complete.

In a letter to The Herald, Dr. Robert Horton, director of the study, said:

"We are extremely pleased and gratified with the fine response which has yielded slightly better than 90% participation in the medical examinations.

"The processing and analysis of the information obtained from the histories and examinations will take a number of months, extending well into next year.

"Later this month, we plan to conduct a follow-up study on some of the families who took part in the 1958 study of preschool children.

"Approximately 275 mothers who had a child in the 1958 preschool study will be interviewed in their homes. The interview will take approximately 30 minutes.

"We will seek information about the early growth and development of children, how well mothers are able to remember these things and mother's opinions about child rearing.

"The findings will be related directly to the 1958 pre-school study and will increase our store of information.

"Later this fall, we plan to visit a few selected homes in order to complete the listing of persons who are members of certain kindred groupings.

"This will be done on a limited scale only at this time and will seek mainly to work out the problems which may be encountered in completing the kindred charts.

"Plans for the next major phase of study depend to a large degree on the results of the analyses we are making of the medical histories and medical examinations," Dr. Horton concludes.

ALL ALONE—Mike Green had just taken a screen pass and was all alone next to the sideline. However, there was a row of Adrian gridders 10 yards down the field and they racked Mike out of bounds. The Indian fullback played a fine game and did his usual job of center busting.

Through My Window

ONCE AGAIN THEY DIDN'T FAIL ME

It was what I call and a d . . . day, dull, dark, damp, dreary, dismal, etc. Nothing would go right and even though a good book was on the reading table, my thoughts kept wandering.

Most distracting. It was just one of those disquieting days and to make matters worse, it was the first really bad day of the season.

Knowing that before the long winter ends there will be many more such drab days was in itself discouraging.

The morning had dragged and by afternoon I was in a state. Depressed, down in the dumps, something had to happen soon or my spirits would really be hitting rock-bottom.

I was so busy deploring the miserable state of the weather that although I vaguely heard something it took a few minutes to register.

A shrill high-pitched whistle —what else but a titmouse? I looked around and there, grimly clinging to the small ledge at the bottom of the window and calling for all he was worth, was a perk and cocky tufted titmouse.

Without realizing it at the time, this was the turning point.

As I watched the titmouse fight the losing battle to maintain his balance on such a difficult perch I could not help but laugh. He was trying so hard and really, there was practically nothing for him to grab hold of.

How long he had been fighting the window I don't know, but his disposition was being sorely tried and the more he struggled, the louder and shriller his screams became.

☆

BEFORE UTTER exhaustion set in, our little gray window peeker was given a face saving way out. When a blue-jay came swooping down to the feeder, the titmouse had an excuse to leave.

The jay stalked back and forth on the big feeder, looking but apparently finding nothing to satisfy his hunger.

Of course, I think he was not too interested in eating because surely corn, scratch-feed and sun flower seeds provided a fairly good selection. He nibbled a little and then, with several squawks of complaint, flew away.

Well, a few such episodes as this and the day was not going to be a total loss after all. This thought had hardly taken form when Mr. and Mrs. Downy Woodpecker appeared.

Always sleek, dapper little birds they are especially attractive in their new winter-wear. Their black and white feather suits were so bright and new looking.

The freshly filled suet holder on the little feeding station interested the downies and while he ate, she very politely busied herself with the exploration of the pole on which the feeder is mounted.

AFTER A TIME they changed positions—it was fun to see how carefully they avoided getting too close together. After all, it would never do to start gossip going and this being fall, it would just never do to eat together.

With the birds putting on such a show, the squirrels apparently decided it was time for them to get into the act. Out of the corner of our eye we had noticed something going on in the front yard so, when the wood-peckers flew away, we decided to see what was up.

My, what wasn't going on—one, two, three, four, five squirrels, quite a window full! A last minute frenzy of walnut gathering was under way.

I was smiling as a squirrel who, carrying a nut almost as big as himself, was tight-roping his way along the top fence rail when oops, he came face to face with a nuthatch.

I wonder which was the most surprised. The bird had been walking on the underside of the rail and for some reason suddenly decided to climb up on the top and there was the squirrel.

Maybe the answer to who was surprised is that it was a draw the nuthatch flew away but on the other hand, the squirrel dropped his walnut.

So it is that our d . . . . day turned out to be quite delightful. I needed something to break the mood Mother Nature was forcing upon me and, as they have often done in the past, the birds and squirrels came to the rescue.

All right, everbody, take the index finger on the right hand and poise it over the dial on your telephone.

Don't worry about those beads of sweat on your forehead. It's a common reaction to such a big event. However thousands of others have made phone calls in this manner before. We know you can do it.

Try to keep the mouth and ear piece from shaking.

Now, slowly repeat the number you wish. You say it's Harrison 3-2174. Fine. Now, place your finger in the small hole beneath the GHL and 4. Steady, easy does it. Twist clockwise toward the stop. Fine, now release. Next, dial from ABC and 2.

You're doing fine, keep up the good job. Take the numbers. That's right 3, 2, 1, 7, 4.

The job is done, you've just dialed your telephone. Great, now say something. Hey, wait a minute, why are you hanging up, you haven't even talked?

Oh, the line is busy. Well, that's par for the course. Here is one thing they'll never be able to change.

P. S. Dial switchover comes Sunday. Have fun.

Football Yarn Left Us Cold

When is the daily newspaper in this county going to stop looking down its nose at Tecumseh?

To read the Telegram's report of the Adrian-Tecumseh football tie is to get the idea we're a bunch a bumpkins from the sticks.

The yarn gives us the impression that Tecumseh has no business being on the same field as Adrian, that the Maples were hampered by injuries, that Tecumseh thanked its lucky stars for the tie and that Coach Lectka was "happy" over the result.

In a word — phooey!

Here we consider portions of the daily's story. The writer bemoaned the loss of two Adrian backs as a reason for the deadlock, but never mentioned the fact that THS was without its senior quarterback Dale Tuckey, senior halfback Bob Koffron and senior end Mike Tucker.

The story blamed officials for "several questionable calls" which kept Adrian from "cashing in."

Hanging the outcome on decisions of the officials is strictly bush league.

Tecumseh has proved beyond any shadow it can match Adrian on the grid-iron, despite the fact our neighbors have a much greater enrollment.

The daily's sports writer conveniently forgot it was just 12 months ago that THS buried the Maples in the mud. Friday there was scant difference in the abilities of the clubs. The game could have gone either way as far as we were concerned.

Mentally Handicapped Are Aided

(Editor's note: This is the second article on special education in Lenawee County and deals with the mentally handicapped.)

What happens to a 10-year-old youngster whose IQ indicates that mentally he is only about five or six?

Physically, he is strong and healthy-looking. He matches his fellow students of the fourth grade in everything but ability to learn.

He requires special training.

Lenawee County now has a program for mentally handicapped boys and girls. This is one part of the special education plan that was made possible by a one-half mill tax levy two years ago.

"These youngsters have known nothing but failure," explains Mary Pat McCann, 212 N. Maiden Lane, who teaches 11 boys and girls from the Tecumseh District in a class at West Branch school.

In a short six weeks with the children, Miss McCann has made great strides.

She started by building long-needed self-confidence. All recitation is voluntary.

Several youths have made good progress in their reading, a skill they were far from mastering. Others, who couldn't count beyond two are now up to 10.

Using gentle praise, Miss McCann has helped change her students from withdrawn, unhappy youngsters to outgoing kids with hope for the future.

Another Tecumseh teacher, Mrs. Edgar Buttolph, is also working on this phase of the speciaal education program.

She visits schools within the district and gives special sessions for one or two youngsters at a time, helping them catch up with their classmates.

☆

A COUNTY diagnostician has the major responsibility of selecting the children who can benefit from the state-approved program for the mentally handicapped.

Michigan requires that a child must be placed in a special education room or receive help from the consultant for the mentally handicapped.

This evaluation is made through the use of psychological techniques and tests designed to measure intelligence, achievement and social adjustment.

An attempt is also made, through interviews with parents, teachers, and others who have had extensive contact with the child, to determine the nature of the conditions underlying the problem.

After the psychological assessment had been made, the diagnostician works with the school staff in seeking a solution to the problem or in making educational plans for the child.

Sometimes the solution involves transferring the child to a special class where he can learn at his own level of ability and speed.

In other cases the group decision may be that the child should stay in the regular class and receive special help from the teacher or from other educational specialists.

In working with the school staff, the diagnostician interprets the meaning and background of a child's behavior in such a way that it will add to an understanding not only of that child, but also of other pupils.

What's Going on at BOYSVILLE

By LOUIE CIAVONE

Annual Junior Prom was held in the Boysville Gymnasium between 8 and 11 p.m. Saturday.

The theme of this year's prom was "Sayonara." The decorations followed an oriental motif — dragons, drawn by some of the boys, huge fans and Japanese lanterns hung from the ceiling of the gym.

The dance band, The Star Dates, was placed on the stage with a blue and white background behind them.

There were also many other designs placed around the gym.

Girls came from St. Francis de Sales and St. Gregory's High Schools in Detroit and enjoyed the dance very much.

All in all the junior class, under the direction of Brother Gregoire, CSC put on a nice, colorful prom.

✓

The Boysville Band and Glee Club will travel to the Milan Federal Correctional Institution to play a Christmas concert on Dec. 4.

Brother Philip Armstrong, CSC, director of the band and glee club, has not yet made the final desicison as to which numbers will be played and sung, but many will be reflective of the Christmas season.

✓

The Boysville Bowling League, formed at the beginning of the school year by Brother Edward Cole, CSC, is still going strong.

The bowlers use the lanes at the Tecumseh Airport Lanes every Wednesday night.

So far, the top two bowlers are Rich Michniak with a high game of 215, and Jerry Malaric following up closely with a high game of 191, in which he rolled six straight strikes.

✓

The Fighting Knights won their last game of the season to remain undefeated, beating Ida, 20-0, Friday evening.

John McGeshick, Lenawee County's top scorer, made the first two touchdowns, on a 47-yard end sweep, and the second on a similar run for 12 yards.

Bill Gager scored the final TD on a bull-like, 15-yard line plunge.

The two extra points were made by passes from quarterback Ken Snooks, one to Pete Mata, and the other to Louie Allmacher.

This was the first undefeated, untied season in the school's thirteen-year history.

Here is the way the Knights came out in each game:

34—St. Mary's of Wayne — 0
32 — Deerfield — 0
45 — Britton — 0
39—Summerfield—13
20—Whiteford — 13
46 — Sand Creek — 0
28 — Manchester — 12
27 — Adrian C. C. — 7
20 — Ida — 0

So, the Knights came out with a total of 291 points against 51 by the opposition.

Congratulations of this writer to the coaches, Mike Gendzwill and Dick Heynen.

North Tecumseh — Mrs. Arthur Kunkle
West—Mrs. Terrance Mackin
Herrick Park — Mrs. Morgan Ford

These alumni presidents are shrewd.

They have an eye for getting ink to publicize events of their clans.

Take Bob Price of Adrian, who heads up the Michigan State University Alumni Club of Lenawee County.

When the M&U grads in these parts decided to have a dance, Bob didn't want just the usual, uninspiring name, so come up with "Mooooo U Shuffle."

Here's the way he explains it.

"For years we have taken the jibes and humorous remarks about our 'Cow College', so we decided to turn them into an asset and use the title 'Mooooo U Shuffle'."

The affair is going to be at the Tecumseh Country Club Saturday with music by Cal Damon's "Lost Vegas Trio."

Dancing starts at 9 p.m. and there'll be a buffet luncheon at midnight—all for $6, Bob tells us.

Tickets are on sale at Ousterout's Flowers and The Herald, or by calling Mrs. Jack Brown, or Mrs. Charley Butler.

Mooooo U, indeed!

☆

How we love those new, young subscribers.

Now getting The Herald is Bob Heaney, age 87, of Adrian.

Bob really gets around, does his own cooking, housekeeping; and shopping.

Last summer he stayed with his niece, Mrs. Thomas Murphy, and her family on their Allen Rd. farm just north of Tecumseh.

"He enjoyed The Herald so much," said Mrs. Murphy, "I decided to send him a subscription for his birthday (Nov. 18)."

A fine idea, we agreed.

So, happy birthday, Bob, and good reading.

In getting out this week's edition a day early, we were held down to 12 pages.

However, we'll more than make up for this throughout December.

Our Dec. 8 issue will be filled with Christmas features and this is where we'd like your help.

If one of your family or friends is doing something unusual for Christmas — whether it's baking, decorating, preparing gifts for needy folks—give us a call, HA 3-2174.

No Parking Meters on Off-Street Lots Until '61

By JIM LINCOLN

Christmas shopping in Tecumseh was given a boost Monday night when Council approved a delay in metering city parking lots until after the holiday.

This means that hundreds of free parking stalls behind businesses in all four blocks will be available to Christmas shoppers.

City manager Ed Nelson was authorized to install concrete bumper blocks in the parking lots and also to erect the poles for the meters.

At the brief session, other business conducted was:

Approved American Legion's plans to develop a recreation area of about 13 or 14 acres just south of Burt St. and off Evans.

Adoption of a revised Civil Defense Ordinance.

Approved scheduling for the construction of curb and gutter on N. Pearl St., between Logan and Iroquois.

Accepted the resignation of Dr. William Britton from the Planning Commission.

Complaints about missing garbage-trash pickups were referred to Mr. Nelson.

Council also accepted the hospital board's report, which included negotiations to date with the registered nurses' staff on salary increases and changes in personnel policies.

The report also included the awarding to Aden Mead for the purchase of combination storm doors for the original part of the hospital.

Mr. Mead's bid for Weather-Seal was $250; Moore Lumber, $283; and Tecumseh Lumber, $285.

THANKSGIVING INDIANS — When first grade students of Sally Jo Gibson at Patterson School talked about Thanksgiving, they decided to make Indian bonnets. Here, four of the youngsters display their handiwork. From front to back, Barbara Hamilton, daughter of Mr. and Mrs. Bob Hamilton; Craig Brown, son of Mr. and Mrs. Rod Brown; Pamela Jacoby, daughter of Mr. and Mrs. Tom Jacoby; and Tom Edwards, son of Mr. and Mrs. Lowell Edwards.

Books and Prize Pictures

New books and prize-winning newspaper photographs are the combination.

That's what folks will see when they visit the 1961 Book Fair, being held in conjunction with the "Best of Best" photo show Nov. 30 through Dec. 3.

The event is being staged at the former phone office in the Adrian Federal Savings and Loan building.

Doors will be open from 9 to 5 each day and on Friday evening until 9.

The library is sponsoring the Book Fair, which will feature between 300 and 400 new volumes, that can be purchased for Christmas gifts. There will be both adult and juvenile books.

Consumers Power Co. is bringing the "Best of Best" show to Tecumseh in cooperation with The Herald.

Nearly 50 beautifully enlarged pictures which won prizes in the annual Michigan Press Photographer competition are including in the display.

These photos come from both daily and weekly newspapers and cover a vast area of subjects

One of the shots is by Tom Riordan of The Herald.

There is no charge.

The Book Store of Adrian is providing the volumes and Adrian Federal is donating use of the room.

$1,500 for Decorations

★ ★ ★ ★ ★ ★

Merchants Give $1,000, City $500

Tecumseh's downtown area will take on bright new beauty this Christmas season.

Nearly $1,500 in new decorations are being purchased by the city and the retail division of the Chamber of Commerce.

Business folks are raising $1,000 this week, at $25 a store, for their share. The city has budgeted $500.

A Chamber committee of Mrs. Sally Pope, chairman; Mrs. Bert Ousterout, Harold Green and Don Murphy have purchased the decorations.

Included are six across-the-street steamers. Four will go over Chicago Blvd., one each on S. Evans and N. Evans. These are centered with a lighted, white star in a silver wreath.

All utility poles will be wrapped alternately with evergreens and a bright red material, which reflects lights that shine upon it.

Businessmen are donating to the decoration fund instead of holding their usual group promotion for Christmas.

"We've needed more decorations for many years," Mrs. Pope said. "This is an excellent start towards making Tecumseh one of the prettiest cities in the area at Christmas. We hope to add to these in years to come."

Mrs. Pope adds that such decorations are extremely expensive.

Foundation 1961 Effort at $44,000

So far: $44,000.

That's the report to date from Jim McKenna, chairman of this year's Tecumseh Community Fund Foundation drive.

Returns are still being made as the effort rolls towards its $70,000 goal.

Charitable budget this year is $23,000. Balance of donations will go into the Foundation's building fund.

Its first project will be announced in early 1961.

If you haven't donated yet, please call either HA 3-3181 or HA 3-3797.

Potluck, Supper, Gift Exchange Next for Circle

Mrs. Robert Wood entertained 29 members of the Mabel Lawrence Circle at her home on Shady Lane Monday.

Mrs. Donald Rodehaver conducted the business session when Mrs. Carl Hale announced that a potluck dinner will be held in December with a 50c gift exchange.

She said that members are also asked to bring 50c to be given to the Rev. Allen Wittrup to assist with needs of a stricken family.

The Christmas tree Lane of Dec. 5 was discussed.

Mrs. Ed Beal presented a Thanksgiving program, which included readings by Mrs. James Murphy, Mrs. Ned VerHague and Mrs. Beal.

Mrs. Ed Leighton closed the meeting with a Thanksgiving prayer.

Mrs. Edna Codling and Mrs. Vaynard Close served refreshments.

Hoop Schedule Opens Nov. 23

Basketball gets underway Wednesday, Nov. 23 when Tecumseh goes to Dundee for its first Huron League game.

Home opener will be with Flat Rock Friday, Dec. 2.

"We'll probably press and run a lot," explains coach Doug Murdock, serving in his first term as varsity mentor.

The THS five is an unknown quantity.

No regulars are back. One letterman, Larry Titley, has returned.

Jon Aho, starting center last winter, has given up the sport in favor of concentration on his studies in preparation for college.

One other senior, besides Titley, is on the squad, Jerry Breitenwischer, who moved up from the JVs.

Juniors include Bob French and John Britton, who saw service with both varsity and JV squads last year. Tim Whitney, also a junior, will be out later when his football knee mends.

Coach Murdock expects five sophomores to see quite a bit of duty, especially when the team goes into a running spree. Tabbed for activity are Tim Sisson, Bradley McCombs, Norman Tucker, Jack Dick and Kent Lucas.

Assisting Mr. Murdock will be Jim Hoffman, who'll handle JVs, and Don Brazee, freshman tutor.

Tecumseh has one contest during the Christmas holidays, with Adrian, here Dec. 27.

Christmas Hours Start Next Week

All stores in Tecumseh will be open each Friday and Saturday night until 9, throughout the month of December, announces Don Murphy, Chamber of Commerce secretary.

Beginning Dec. 19, business places will stay in operation every evening.

Named All-Stars

ALL LEAGUE—Ron Hathaway, (left) 6-2, 205-pound tackle, capped his prep football career with a first-string birth on the All-Huron League team. Mike Green, one of the finest backs ever to don the orange and black colors for Tecumseh, was also selected for the first team. Seniors Jon Aho and Larry Titley were picked for the second team, as was Tom Simmons.

Men Try To Lure Youths into Truck

Two men, riding in a truck, tried to lure three young students of Tecumseh Acres School into their vehicle Thursday at noon recess.

The children, two boys, both second graders, and a first-grade girl, refused and ran.

Their quick thinking saved them from possible danger.

The incident took place on Adrian St., only a few hundred feet from the crossing, which is protected by safety patrol boys and a city policeman.

When principal Wayne Kaiser learned of the happenings, he immediately visited every class room in the Acre building to have teachers warn students not to accept rides from strangers.

Police were notified by two of the mothers, minutes after their youngsters came runing into the houses for lunch.

Since there was no license number and only a vague description of the truck and men, police were unable to take action.

The boys said one of the men wore a white T-shirt and no jacket. The other was in need of a shave, the youths told their parents.

Finishes Basic

A3/c Leonard Penrod has finished basic training at Lackland Air Force Base and is to report to Dow Air Force Base at Bangor, Me. by Nov. 24.

His family recently moved to Bainbridge, O.

HA 3-4545 Is for Fire Office

HA 3-4545 is the new phone number of the business office at Tecumseh fire department.

Herald readers are asked to get out their new directories and write in the number just above the fire alarm numbers.

This will be a great help to the fire department. The business number was inadvertently left out of the directory.

200 Take Hay Ride

About 40 from the local Friends Church attended the Quarterly meeting of the Youth Fellowship group Monday evening at the Ypsilanti Friends Church.

A hayride was held with about 200 piling into seven wagons with chaperones.

A weiner roast over bonfires was enjoyed after the ride.

Mr. and Mrs. Clarence Randolph, Ray Sommers, Mr. and Mrs. Robert Hunt, Ben Brantingham and the Rev. Paul Brantingham transported the youths from here.

Four Visit 'Hometown' in Germany

Mrs. Louise Bauman, 212 N. Wyandotte St., recently returned from seven weeks in Germany.

She was in a party of four.

An exciting part of the trip was a jaunt to Berchtsgaden, where Hitler's hideout was located.

A beautiful view of the mountains from there, where a restaurant serves tourists now, was breath taking.

Buses take the travelers up the mountains. Drivers must telephone, when half way up, to be sure another bus is not coming down since the narrow route has only room for a single vehicle.

The group went to Europe on the steamship, "Bremen". They traveled seven days to get there, compared with a ten-hour flight by jet for their return trip.

Motoring along the Rhine, they saw the biggest grape harvest ever recorded.

They went by train, elevator and cable car into the highest mountains in the Alps, which Mrs. Bauman found most exciting.

They also enjoyed the beautiful Tyrol country.

Mrs. Bauman's brother and sister-in-law, Mr. and Mrs. Henry Leutheuser, and Mrs. Louetta Winkle of Saline were the others in the group who spent two weeks at their old hometown of Coburg, about five miles from the Russian border.

They visited another brother and sister and nieces and nephews and drove as far into Austria as Salsburg.

Music Club To Donate

November meetings of the Tecumseh Music Club was held at the home of Mrs. Henry P. Vaughan last Thursday with nine members and two visitors present.

The hymn of the month "Adoration" was sung by the club members.

Members voted to bring a 50c gift for exchange and also to bring 50c toward musical education material for the public library to the December meeting.

After the business meeting, a program on opera was presented by Mrs. Louis Caterina.

Mrs. Arthur Schwartz sang, "Tell Me Fair Ladies" and "Elizabeth's Prayer" accompanied by Mrs. Fred Oberlin

Recordings of songs from Peer Gynt Suite were played.

Sue Day sang "Solvejg's Song," accompanied by Mrs. Oberlin.

Mrs. Louis Caterina sang "Serse Ombra Mai fu" and "Seuedille" accompanied by Mrs. Oberlin.

Selections from Mignon were sung by Mrs. Henry P. Vaughan, accompanied by Mrs. Oberlin.

Mrs. Wilfred Waldron assisted Mrs. Vaughan

Ridgeway Methodist Church Choir sang "I'll Go Where You want me to go" and "Praise Ye the Lord O' "Jesus Is Ever Near You" was sung by the Holloway Presbyterian Jerusalem Choir. Clinton Senior Choir sang "Triumph Thanksgiving."

The Macon Senior Choir closed with singing "The Sixty-third Psalm" and "Onward Christian Soldiers." Rev. Mitchinson of Ridgeway gave the benediction. Members of the choir and Mary-Martha Circle served cookies, cocoa, coffee and tea. Mrs. Charles Gorton Sr. and Mrs. Carl Thomas poured.

The offering that was taken will go towards the new piano. Several years ago Singspirations were held in different churches in Lenawee County. It is hoped that this will again start them. If the full church Sunday evening, despite the rainy and foggy weather is any indication they are sure to be continued.

NEWS from CHURCHES

+ It's Always Darkest Just Before Dawn

The hour before the dawn is the darkest of the night. Before the light's rays break through there is complete darkness.

This is the theme of the Rev. Allen Wittrup's sermon, "Man's Darkest Hour" at the Tecumseh Methodist Church Sunday at 10 a.m.

This is the first Sunday of Advent and the Advent Candle will be lighted. It will continue to burn on the altar through the Advent Season.

There will be infant and adult baptism as a part of the morning service. Those desiring Baptism are asked to call the pastor.

Intermediate Choir practices at 5:30 and Fellowship meets at 6:30 p.m.

Senior Youth Fellowship meets at 6 p.m.

The young people of the church are raising their missionary project money by selling Christmas trees. Tickets for trees may be secured from the young people or the parsonage.

The Commissions meet on Wednesday evening at 7:30 and official board at 8:30.

+ Stewardship Provides Topic for Rev. Pelly

The Rev. William Pelly will use "Christian Stewardship" as his topic for the worship services Sunday at the Presbyterian Churches in Holloway and Deerfield.

Concerning the topic he said, "God has given us the gifts of abundance to use them for Him, also to share these gifts with others in love and in fellowship.

"He warns us to take heed and not to make the mistake of thinking that all the bounty which we enjoy is something we have made ourselves. Therefore it is up to us to show our gratitude by being good stewards."

+ Alertness

Spiritual alertness based on an understanding of Truth brings freedom from evil of every kind. This theme will be set forth at Christian Science church services Sunday.

ACME SELF SERVE Laundry

TECUMSEH'S ORIGINAL SELF-SERVICE LAUNDRY

Our Customers Tell us . . .

"We've tried them all and find that ACME SELF-SERVICE is still the best. At ACME it costs 25c for a washing, extraction is FREE and drying is 10c. At Laundry B washing is 20c, but extraction is 10c and drying 10c. At Laundry C. washing is 25c, there is no extraction, thus drying costs (at 10c) are usually double. Yes, we've tried them all and ACME is still the best bet."

OPPOSITE THE POST OFFICE

THE TECUMSEH HERALD

An Independent newspaper, published every Thursday morning at 117 S. Evans Street. Entered at the Post Office in Tecumseh, Michigan as second class matter.

VOICE of THE HERALD

A Time for Action

We were happy to see Jack Kennedy and Dick Nixon get together in Florida.

Their toe-to-toe battle for the presidency was one of the wildest on record. Yet, here they were, still with great respect for one another, sitting down, quietly discussing the future.

It makes a person glad he's an American.

The phrase is badly shopworn, but what better way to describe the scene, "Only in the United States could this happen."

We'll soon be on our way with a new administration and the transfer of power is being made orderly.

Being Republicans, one of our concerns is for the future of the party itself, especially in Lenawee County and throughout Michigan. Losing has hurt, but even before the battle was over, there were signs of party people carrying on their duties with only lukewarm effort.

More youth and vigor are needed in the ranks of the GOP.

Robert Perry of Adrian, who worked for Paul Bagwell in his drive for the govenor's chair leveled a tremendous blast against Lenawee, calling it "weak and ineffective."

He said that John Keller, who holds the title of County Republican chairman, was too "busy" two weeks before the election to meet with state chairman Lawrence Lindemer, who was in Adrian.

"The state Central Committee really blew its stack," says Mr. Perry.

We did too when we first learned of the incident.

The Herald is of the opinion that Lenawee County Republicans have got to get on the ball—NOW—not just before the next election.

Tecumseh GOPs did a fabulous job last fall and Charley Trickey and Del King, who headed up operations here, are to be complimented.

Folks of their stripe and others on their team who helped keep things jumping in Tecumseh, are the ones we'd like to see get the GOP wagon rolling again.

We have an idea to help stimulate interest as of now.

Attention is soon going to be focused on Michigan's Constitution. How about a series of round-table discussions on the document as it stands now, then go into possible recommendations for the future?

Whatever is started should be gotten in motion before this year ends.

An African Student Here?

When Pete Paddock, Ohio weekly editor and one-time foreign service officer, spoke to Tecumseh teachers Friday evening, he made an unique suggestion:

"Bring an African youth to Tecumseh High School for one year, teach him to play football and baseball, teach him to listen to Elvis Presley records — and teach him about this country."

Mr. Paddock was explaining one way in which the City of Tecumseh can help solve the gigantic African problem.

Admittedly, this may seem like dipping a spoonful of water from the ocean to help drain it. But the idea has great merit, especially, if many communities would do the same thing.

This would prove an excellent method of teaching what democracy really is. It has been done—on the exchange student basis—with youngsters from Holland, Germany, France, England and other European countries.

It becomes increasingly more obvious that such a program should be started with Africa.

We can already hear opposition to having an African high school student in Tecumseh—and in some respects we offer agreement. But at the same time, we are able to view tremendous potential from such a program.

Mr. Paddock even went so far as to suggest that Joe Satterthwaite of Tecumseh, an assistant Secretary of State, be contacted in Washington to assist in formulating a program here. An interesting coincidence, Mr. Satterthwaite is in charge of the African desk for the State Department.

Warn Youngsters Often

"Would you kids like a ride?" the man in the truck asked three Tecumseh children on their way home from school.

Trained never to accept rides from strangers, the little folks sprinted home as fast as their little legs would take them.

May no child in this area ever be lured into the captivity of an unknown person.

It's the job of parents and teachers continually to warn youngsters of these dangers. This lesson can never be taught too many times.

Store Sandwiches Made of Turkey

When there's leftover turkey at your house, consider making turkey sandwiches to store in the freezer.

Home economists at Michigan State University say they will keep for about one month. Moisten chopped meat with a little cream cheese or a small amount of mayonnaise or salad dressing.

Go easy with the mayonnaise since it separates in the freezer.

Baked Apples Are Ideal

Baked apples for dinner are a good idea this time of year. Home economists at Michigan State University note that Jonathan, Stayman Winesap and Wolf River apples rate as "excellent" for baking.

They add that McIntosh, Cortland and Northern Spy apples are "good" for baking.

GAL PROS PLAY HERE — Hazel Walker's Arkansas Travelers will perform in Tecumseh Monday, Dec. 12. Using men's rules, they'll take on the Tecumseh Junior Chamber of Commerce quintet. Miss Walker, second from left, was 11 times named an All-American, is in the Helm's Athletic Foundation of Los Angeles with Babe Didrickson, Patty Berg, Helen Wills. Her center, Mary Graham, stands 6'2". In a preliminary contest, the high school faculty will meet the Chamber of Commerce in a comic contest, complete with costumes.

It's the Most – It's Wool

The most flexible and pliable fiber you can find today has been around for many years.

It's wool.

Fabrics from wool can be shaped through shrinking and stretching with steam to be fitted smoothly over curves or eased along edges.

Eleanor Mullikin, home economist at Michigan State University, explains that there are two general types of wool fabrics — woolens and worsteds. Each type lends special characteristics to finished garments.

Woolen fabrics are woven from soft, loosely-spun woolen yarns. The fabrics drape into folds and may be gathered.

Worsted fabrics are made from tightly twisted yarns and produce springy fabrics. These are unsuited for draping, but the firm construction lends itself to sharp folds, pleats and crease lines.

Worsted fabrics resist wrinkling and are capable of holding a press, so they are especially good for tailored garments.

What's Going on at BOYSVILLE

By LOUIE CIAVONE

Bob Miron, a junior shutterbug, is working on a new idea, a photo-book of the Boysville campus.

It will contain snapshots of the different buildings, taken by Bob.

Under (or somewhere around) each picture there will be a short history of the building. The book will be available to students who desire to purchase one.

The Mission Club is working on Christmas card sales. Members are selling a box of 21 religious Christmas cards for $1.

After Christmas, the top three salesmen will go to Ann Arbor for a dinner and movie. All proceeds from the sale of the cards go to the foreign missions.

Varsity basethall practice has begun again at Boysville.

From last year's squad (which posted a 12-5 record) the Knights have lost two starters by graduation, Bill Venn and Bob Cannon.

The other three starters, Ken Snooks, John McGeshick and Pete Mata, are back.

Coming up from last year's junior varsity are Joe Jaworski, Bill Gager, Mike Carter, Bill McDermott and Tony McFarr.

The loss of Venn's height will be partially compensated for that of Al Andreini, Louie Allmacher and Tony McFarr.

The team is again under the fine coaching of Mike Gendzwill, who has brought the Boysville team to the top in the past two years with records of 12-4 and 12-5.

The Knights started their season last year with 10 straight wins.

On Wednesday, Nov. 23, the boys will start home for their Thanksgiving vacation. Checkout will be 3 p.m., following which most boys leave immediately.

Some, however, will have to wait until a later time because their parents were not able to pick them up directly at 3.

Three Are Practice Teaching

KALAMAZOO—More than 200 senior students in the school of education at Western Michigan University are busy this fall with student teaching assignments on the campus and through-out southwestern Michigan.

Dean James H. Griggs and Dr. A. L. Sebaly, director of student teaching, consider this phase of the students' profesisonal training for classroom duties after graduation as a most important experience.

Many of the students are actually teaching daily in front of a class, with the supervision of experienced teachers in guiding them in their work.

Among those practice teaching this semester are:

Ray Larned and Rita Crosby of Tecumseh, and Robert Benham of Ridgeway, all Tecumseh High School graduates.

Ray, the son of Mr. and Mrs. Gerald Larned, 301 Chippewa St. is teaching government and biology and coaching at Paw Paw.

Rita, daughter of Mr. and Mrs. H. L. Crosby, 305 E. Pottawatamie St., is teaching second grade at Vine Street Elementary in Kalamazoo.

Robert, son of W. E. Benham, 8400 Monroe Rd., instructs mechanical drawing at Muskegon High School.

Mr. and Mrs. Robert Spence and son, Billy, and daughter, Nancy, were Thanksgiving dinner guests of her sister and family, Mr. and Mrs. Owens in Ann Arbor.

Breakfast Will Help Stop Slump

Eat something before you "hit the road" in the morning. Home economists at Michigan State University suggest that "something" be protein, such as eggs, meat, milk or cheese.

The final date for the trip has not been chosen, but it will be in April.

The negative and affirmative teams for the 1960-'61 debate season have been selected. Fawn Choske is first affirmative and her partner is Nancy Nixon, second affirmative.

First negative is Sue Fuller and Arthur Collingsworth is second negative. Alternates are Sharon Gillin and Phil Miller.

The first debate will be held Wednesday, Nov. 30, at Ypsilanti Lincoln High School.

The school newspaper "The Scout", has been able to give every high school student a free copy of the paper for the first three issues.

However, it has become necessary for "The Scout" to have additional assistance with their finances and it is now being sold for 10c a copy.

The student council has agreed to help the staff, and it has been proposed that several student council members aid the advertisement department in gathering ads and sponserships.

It was the original purpose of "The Scout" to print a paper which would be given to students.

Plastics Help in Quick Sand

Plastics can be used under drain tile to keep them in place, across quick sand pockets or other unstable soil materials, says John Comstock, County Extension Director for Lenawee county.

Some vinyl plastics laid under tile six years ago on a demonstration line near Palmyra, were still in good condition and were holding the tile line in place when checked recently.

The tiles were placed on top of a vinyl plastic sheet put on the bottom of the trench when it crossed a sand pocket. Since the vinyl is waterproof, the sheet plastic under the tile kept sand from running into the line through joints of the tile.

Debate Coach Preps Youths for Big Year

The topic this year is "Resolved, that the United Nations should be significantly strengthened."

The local team will compete with teams from 232 Michigan high schools.

LETTERS TO THE EDITOR

TO THE EDITORS:

I would like to avail myself of your letters to the Editor column to thank the many people in your community who voted for me for Governor in this past election.

It is a source of personal satisfaction to me that the people approved the program I presented on taxation and government reform even though I lost by a very narrow margin.

In this respect, I believe that this was a constructive election campaign which accomplished a great deal of good for the general public interest.

It is impossible to thank each of 1,600,000 voters personally, so I am taking this means to say "Thanks for your help" to all those who voted for me.

I am deeply grateful for the confidence they placed in me, and I hope now we all work together to make this a better State in which to work, to live and to raise our families.

Sincerely,
Paul D. Bagwell

Why pay more for a "compromise compact" when a full-size Ford costs less?

Does it make sense to pay a big-car price for one of the new-name compacts? They lack compact economy—they lack big-car comfort. You can actually save money by driving a 1961 Ford Fairlane instead!

Believe it or not, this full-size Ford Fairlane actually costs *less* to buy than some "compromise compacts" . . . up to $84.48 less.* Yet it offers more passenger room, more luggage room, a longer, steadier-going wheelbase, more weight, more beef, more brawn. More of *everything*, and in addition, you get a car that saves you many dollars in operating costs.** Because like all '61 Fords, this Fairlane is beautifully built to take care of itself. Come in for the whole savings story today.

*Based on a comparison of manufacturers' suggested retail delivered prices for similar models with similar equipment
**Based on 18 minutes' service at today's national average labor rate

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubricates itself. You'll normally go 30,000 miles between chassis lubrications. Then a Ford Dealer lube job (which costs about $4.00**) will get you set for another 30,000 miles.

Cleans its own oil. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Adjusts its own brakes. New Truck Size brakes adjust themselves automatically for the life of the lining.

Guards its own muffler. Ford mufflers are double-wrapped and aluminized—normally will last three times as long as ordinary mufflers.

Protects its own body. All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish. New Diamond Lustre Finish never needs wax.

MARDA GENE DUNCAN'S

Thru My Window

ALONG EVANS CREEK THEY'RE NOT

"This is a rather characterless and uninteresting bird, with neutral plumage and somewhat monotonous habits". So starts the discussion of brown creepers which appears in "Birds of America."

I disagree and whole-heartedly say, "Not true."

We have always enjoyed the creepers and found them not the least bit characterless, uninteresting or monotonous.

All last winter one teased me and several weeks ago the game was picked up right where it was left last spring. The little brown bird finds two or three of Marshs trees so interesting that he can't come to investigate any of ours.

Almost everyday we see him patrolling their big elm but oh my, he is careful not to be caught trespassing over here.

Tiny, barely five inches long, his brown color almost exactly matches the tree trunks upon which he spends so much time—an excellent example of protective coloration.

So the brown part of his name fits but I am not so sure about the creeper. The pace at which he climbs is much, much faster than usually thought of as creeping.

This speed coupled with the bird's size and color makes watching them quite difficult — especially at a distance. Our creeper, or maybe I should say Marsh's, play hide-and-seek and believe me, it is usually a one-sided game.

☆

ALTHO HE IS fun at distance we would, of course, like some closer looks and towards this end we are plotting. We have a secret weapon. Brown creepers, like nuthatches and woodpeckers, are insect eaters; incidentally, this is a most beneficial trio.

They compliment each other in that each specializes and is adapted for what the other two don't bother with.

For example, the creeper's bill altho rather weak, is thin and slightly de-curved — with such equipment he is able to get into the tiny crevices which his two compatriots miss.

But back to our plans for luring the creepers to our trees. As insect eaters they are attracted to suet. This will be the bait.

Can tops, the thin ones which fit many glass jars, will be filled with melted suet into which a little scratch feed has been stirred and then, when the suet has hardened, our secret weapon will be ready.

A single nail through the center of the can top will fasten it to a tree trunk. Several trees thus doctored will, we hope, bring some brown creepers to us, to us.

☆

THAT THESE can-top suet holders are patronized by brown-creepers, we know from past experience. For years, we have kept them on the elm tree which grows by the back door—and can be seen so well from the breakfast nook — how many, many breakfast and lunch hours have been spent watching not only creepers but woodpeckers and nuthatches too.

And right there may I again take exception to what many birdbooks say they are all so emphatic about the birds never coming down a tree trunk.

Well, we have never seen them come down head first as the nuthatches do, but they back down. Maybe it isn't their unsual habit but we have seen it happen quite often.

So it is that there are several points of disagreement about the brown creepers. Possibly there are places where and people to whom these little brown climbers are dull and uninteresting, but certainly along Evans Creek they're not.

From where I sit ... by Joe Marsh

The Milky Way Tragedy

Chub Jackson, the town's only milkman, tells us he missed on an important delivery the other day.

Up way before dawn, Chub went busily about his daily rounds. Three quarts of milk for Mrs. Anderson, a gallon of milk for the Fishers, and so on.

Finished with his deliveries, Chub pulled the empty truck up to his front door. "What would you like for breakfast?" called his missus. "A big bowl of cereal with cream," answered Chub. "Sorry, dear," said Mrs. Jackson, "the milkman passed us by today."

From where I sit, it's wonderful the way folks forget themselves to do things for others. My neighbors are like that. When I have supper with them, they always serve my favorite foods and my favorite beverage—beer! They drink tea themselves, but they're happy to accommodate my preference. If we all accepted each other's right to have preferences, we'd never "milk" our friendships dry.

Trustees Favor Major Building Project

Trustees of the Tecumseh Community Fund Foundation agreed Tuesday evening that they favor a major building project rather than a variety of minor ones.

"However, we will act according to the will of the people," states Trustee president Vern Manwaring.

Trustees discussed two possibles:

1. Civic center.
2. New library.

Members leaned toward the library project since it is needed now and within reach, based on available funds, about $100,000.

This would be more than half of the total cost for construction of a library, which could be part of an eventual civic center made up of several buildings in a campus-type arrangement.

Thus, the site for such a plan will be vital and must allow for all possible future construction.

Trustees gather again Dec. 20 to discuss a civic center of this type, which is now being built in Huntington Woods. Jim McKenna, 1960 drive chairman and trustee named to fill the vacancy created when the Rev. Jim Nixon moved from Tecumseh, will visit that community and report back.

In January, there will be a town hall meeting of citizens with the Board of Trustees. It will be at this session that a final decision on a building will be made, states Mr. Manwaring.

Mr. McKenna told the Trustees that to date $44,142.83 has been tabulated in the '60 campaign with still more reports due.

TOM RIORDAN'S Long AND Short

An appointment with an eye specialist took our family to Detroit Saturday.

Finished with the appointment by noon, we decided to tour Hudson's toyland and see Santa.

Never, never, again.

First, there was the chore of parking our car. We decided on the new underground lot beneath Grand Circus Park.

After considerable maneuvering behind the wheel, the car was in place. Dad was perspiring freely and already shouting orders to the rest of the clan.

Woodward Ave. was jammed with humanity. The short walk to Hudson's turned into a facsimile of a halfback's dash through a broken field. Only instead of just 11 guys to dodge, we had about 11,000, all sizes, shapes and ages.

Inside Hudson's the scene was the same.

At the elevator, I asked the kindly operator on what floor Santa resided.

"Twelve," she said. "But I'll let you off at 11."

"But if he's on 12, why let us off at 11?"

She smiled indulgently and purred, "Because that's where the line starts."

When we stepped out of the car, there was a giant snake of people clogging the aisle. A harrased young man was herding folks into position.

"How long before we can see Santa?" I inquired, pretty well knowing the answer.

"About one hour and 20 minutes," he replied.

Searching the grim faces of fellow parents in the lineup, it was evident such a wait would be most tedious.

Mom and I decided the kids could forgo Santa until he arrived in Tecumseh. Certainly we could pass up the slow trudge to his throne room.

It wasn't many minutes later that we were back in our car, heading out the Expressway, happy in the thought that Detroit was growing fast behind and we lived in a small town.

Great effort is made all across the nation to induce industry to move into new locals.

Pay dirt is struck about once in every 10,000 tries.

Tecumseh has an industrial development committee, a part of the Chamber of Commerce, which works diligently on the "new industry" project here.

A big part of the job is, after finding an industry interested in Tecumseh, to learn if Tecumseh would be interested in that particular industry.

Many of the prospects want the town on a silver platter, with a side dish of gravy (sometimes as much as $250,000.) Obviously, these are questionable operations and probably would leave nothing but a wake of unfortunate results.

During the past year, the committee has talked with 30 manufacturing firms — both good and bad. Several of them would do wonderfully in Tecumseh and the committee has done everything physicially possible to bring them here.

And we may hit that 10,000-to-1 shot yet.

Last week, the committee — chairman Karl Schneider, Bill Powell, Del King, Jack Osburn, Dr. Bob Laidlaw, Dr. Bob Murray, Royal Welch and Don Murphy — huddled with a chap named George M. Stinnett, Jr.

Mr. Stinnett is finance director for H. F. Campbell Construction Co., which is the world's largest commercial contractor and will put up cash for bona fide industrial projects moving into new locations.

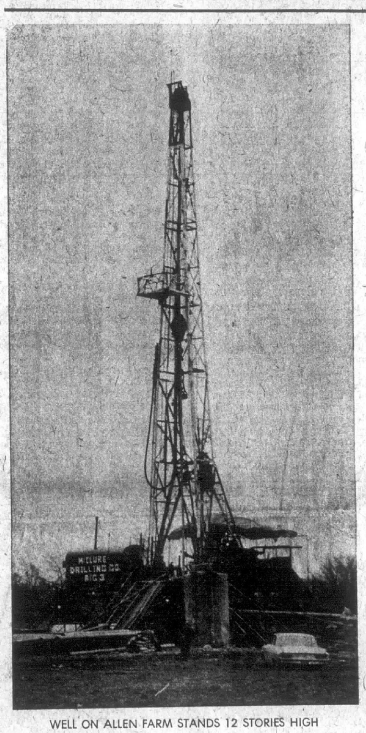
The guest told the local group: "In most cases, new industry locates in a city because of enthusiasm generated from within that city. There is no pattern for locating new industry.

"Leads may be found anywhere, usually they start as rumors or come from newspaper stories," he added.

The thought our fellows carried away was "enthusiasm from within".

Thus, if a community wants more industry, its citizens must first of all have a real desire to see the new plants settle in their town.

This could be described as climate — which must be favorable if the planting is to bear fruit.



WELL ON ALLEN FARM STANDS 12 STORIES HIGH

Will 'Rig 3' Strike Black Gold Here?

One of about every 25 wildcat oil-well drillings hits pay dirt.

Could there be a strike right in Tecumseh's backyard?

A few more days will probably tell.

The McClure Drilling Corp. of Mt. Pleasant is sinking a well on the farm of Charles Allen, along Murphy Hwy.

McClure moved in a $150,000 rig Nov. 22 and has been operating 24 hours a day ever since.

Before it is determined if the well is "wet" or "dry", the company will have spent between $30,000 and $40,000 on wages and equipment.

As in most wildcat oil ventures, much of the outlook is strictly one of hope.

Day driller Charles Bennett, who has brought in more than 100 successful wells, explains that the crew is heading for the Trenton Line, or level.

This is the same underground formation in which oil was hit so abundantly in the field near Albion in recent months.

A drilling time log, kept by Charlie and the other two drillers on the afternoon and night shifts, show the specific layers and depths at which they have been hit:

Traverse Line—812 feet
Dundee—938
Detroit River—1,019
Sylvania—1,258
Bass Island—1,351
Salina—1,538
Brown Niagara—2,171

Still to come are the Gray Niagara and then the Trenton.

A crew of four men work each eight-hour shift, the driller, derrick man and two floorman.

A McClure geologist, Phillip Hurry, who has handled such chores for 20 years, checks in regularly. He gets soil samples, which are made every five feet, takes them back to his lab in Jonesville for analysis.

These help him predict at about what point the next level will come.

Rig 3 is now drilling at 250 feet every 24 hours.

Water plays a key role in the digging, as a powerful stream is forced down the well pipes to set the three-cone drill bit spinning. A bit lasts about 60 feet.

What happens if the rig hits natural gas?

This would be welcome, but the operation would probably go right on, still in hopes of hitting the black gold.

For land owner Charles Allen, success, whether it be gas or oil, would bring one-eighth of all royalities paid.

Burned Out

A Negro family needs help.

Burned out Tuesday night were Mr. and Mrs. Charles Davenport and their three children, in a tenant home where they lived on Broadview Farms near Macon, Mills Hwy. at Welch Rd. Mr. Davenport is a Broadview employee.

The blaze, of unknown origin, started in the basement.

The Davenports narrowly escaped, saving only the clothing they wore. The family includes two boys, one a teen-ager and another, 5, and a girl, 4.

Britton firemen were called and they in turn asked for help from the Tecumseh department. Efforts to save the dwelling were futile.

Anyone wishing to donate articles of clothing or household furnishings to the Davenports should phone Mrs. Walter Damberg, Macon 27 or drop off items at The Herald office.

A washing machine is desperately needed.

The family is temporarily residing with another tenant family at Broadview.

Art of Cake Decorating

The Progress Extension Club members were given a demonstration on the art of cake decorating Monday evening by Mrs. Frank Robinette.

The meeting was held in the home of Mrs. Roland Boyers with Mrs. Kennard Wise conducting the business session.

The cakes were baked by Mrs. Wise. Color slides of other decorated cakes by Mrs. Robinette were also shown, as well as slides of "The Land of Smiles" in Okinawa.

Plans were completed to help a needy family at Christmas time.

Nobody Is Home Thursday as Fire Guts Two Rooms

Two rooms were gutted by fire in the home of Mrs. Mae Parks, 610 W. Chicago Blvd., Thursday at 5:20 p.m.

The fire had made considerable headway before being noticed by neighbors.

No one was in the house when the blaze began.

Firemen, who had the trouble in ice by about 6 p.m. were summoned again at 9 p.m. when the davenport began to burn and caught a window sill on fire.

The cause of the fire is not known, nor the amount of damage.

Makes Tour of Hospitals

Mrs. M. R. Blanden, Mrs. William Damon and Mrs. James Danforth accompanied Future Nurses Club members to Detroit recently where they toured Grace Hospital.

On Sunday, the same group with their advisor, Mrs. Mervyn Boltz, toured Mercy Hospital in Toledo.

Sylvia Klught, student nurse and former Tecumseh High School graduate, was the tour guide.

Kathy Tomorsky is completing her nursing studies there.

Those accompanying the girls on this trip were Mrs. Victor Peterson, Mrs. Gerald Dunn, Mrs. George McCombs, Mrs. Don Woods, Mrs. Joe Horvath, Mr. and Mrs. Walter Bird.

After visiting the dormitory, school and hospital, refreshments of punch, mints, nuts and cake were served.

ANNUAL HOLIDAY BALL

Pixie Faces Greet Guests

Pixie faces will greet the dancers at the entrance of the Country Club Dec. 3 for the "Holiday Time" ball, sponsored by the Hospital Auxiliary.

A huge clock above the mantle will be a feature of the decor, as will a musical scale placed on one wall.

Other delightful decorations have been arranged by Mrs. Earl Baldwin and Mrs. W. L. Schroer and committee:

Mrs. James Mull
Mrs. Fred Pokorny
Mrs. Joe Fortunato
Mrs. Fred Randall

Off to Greece

Mrs. H. H. Hanna left Thursday to spend several months with her daughter and family, Mr. and Mrs. Donald Oseid, in Greece.

Mrs. Don Ketteman
Mrs. Richard Eggleston
Mrs. Jack Brown
Mrs. Robert Laidlaw
Mrs. Harold Easton

Mrs. Arthur Geisenhaver and Mrs. Carlos Knisely are general chairman of the event.

Mrs. Earl Kotts and Mrs. Charles Stevenson are in charge of the invitations and tickets.

Mrs. Norman Bailey is refreshment chairman.

Mail Rush Starting

Post offices in Tecumseh, Tipton and Britton are geared for the annual Christmas rush.

To help speed the flow of cards and packages, they'll be open all day Saturdays, Dec. 10 and 17.

Area postmasters, Jack Metcalf of Tecumseh, Ron Cheever of Britton and Mrs. Thelma Swarts of Tipton, join in saying:

"Early mailing of all Christmas cards and gifts is the biggest single factor in getting all of the mail delivered before Christmas. "Post Office facilities have been expanded, extra help will be available, and everything is geared up to handle a record Christmas mail this year."

The postmaster adcise, "Don't take chances on mailing poorly wrapped packages. Use sturdy corrugated mailing cartons plenty of heavy wrapping paper and strong cord. Cartons containing several gift packages should be well stuffed with tissues or old newspapers to cushion the contents."

"If you have articles of unusual size or bulk, better check with the post office before attempting to mail them. The limits of size and weight of packages vary, depending on where you mail your packages from."

Send all Christmas mail going long distances before Dec. 10. Follow up promptly with cards and gifts for local delivery.

It would also help if cards for "out of town" and "local" were tied and marked separately. Labels for this purpose are available at all post offices and from carriers.

In Tipton, starting Dec. 10 office hours will be 7:45 a.m. to 5:30 p.m.

News From Boysville

The Boysville Photo Club is going on another trip Dec. 8. This time they will go to Interline Photo Co. in Plymouth, Michigan.

Al Andreini, Photo Club member, is selling personalized picture Christmas cards. Each card, besides having a Christmas motif, has the student's picture on it if he so desires.

√

The Boysville Mission Club gave away a brown and white puppy last week.

Any boy, who had given at least a nickel to the missions, was eligible to win the little fellow. The little Brittany puppy, along with four other dogs, was donated to Boysville by a friend of Brother Alexander.

The lucky boy took the pup home with him at Thanksgiving vacation.

√

Theme of this year's Freshman basketball team might possibly be "Three Nights a Week," because that is how often they will be practicing.

The team is under the expert coaching of Joe Fortunato of Tecumseh. Mr. Fortunato also coached the freshman football team.

Honor students enjoyed a night out a couple of weeks ago. The students went to a movie in Ann Arbor, a reward for having achieved honor status in first quarter studies.

The boys who made high honors were seniors Al Andreini, Rich Michniak and Nick Somma; junior Dave Mason; sophomores Denny Frei, Chuck Stone and Frank Turner; and freshman Tom Stone.

√

Four of Boysville's top footballers made honor positions on the All River Raisin Conference First Team.

They were Pete Mata, left end; Ken Snooks, quarterback; John McGeshick, left halfback; and Bill Gager, fullback.

McGeshick also won honors as Lenawee County's top scorer with 21 touchdowns and one extra point for a total of 127.

Three other Boysville players received honorable mention: Terry Kuhn, tackle; Dave Tucker, guard; and Joe Landazzi, guard.

√

Basketball season opens Friday against Summerfield.

The Knights have the advantage of playing their first game at home, but that is about as far as advantages go, as they lack height.

Tallest on the probable starting team is center Bill Gager, a six-foot, 215-pound competitor. The Knights will have to bank heavily on quickness and sharp shooting.

Returning from last year's first team are Ken Snooks, John McGeshick and Pete Mata.

Other two starters will probably be Rich Michniak and Bill Gager, although Tony McFarr and Gerry Klos are pushing hard to take over.

It looks this year like the team will be employing a man-to-man type defense.

√

Pictures were taken on Nov. 17 and 28 for the Boysville yearbook, the PIONEER. The Senior portraits were taken, along with faculty pictures.

The staff has already chosen the color and design of the cover. It is supposed that most of the yearbook will be completed by the time Christmas vacation is over.

'Miss Cinerama' Turns Out To Be City's Joyce Wilbar

By DOROTHY GRIGG

There were two attractions for this writer when "Cinerama" opened at the Paramount in Toledo two weeks ago.

1. An opportunity to view the original version of Cinerama.

2. A chance to see the "Miss Cinerama," who happens to be Tecumseh's Joyce Wilbar.

It's hard to say what thrilled me the most.

Probably it was Joyce, so let's talk about her first.

Standing radiantly beautiful just inside the foyer, greeting theatre goers was our Miss Wilbar, lovely in a light blue chiffon gown.

Her jet black hair was piled high on her head in the latest bouffant style.

TECUMSEH'S JOYCE WILBAR AS "MISS CINERAMA"

JOYCE AT OPENING

It was hard to realize this was the same girl who graduated from Tecumseh High School in 1958 and was working behind the counter at Van's Pastry just a few months ago.

Now a student at Toledo's Patricia Stevens School of Modeling, she was chosen Miss Cinerama in a contest which included 600 beauties from the Glass City.

She was judged to have the most poise, ability and beauty.

Through it all, Joyce is just as sweet and friendly as ever. When asked how it felt to be selected for the role, she grinned, "I was a little more shocked than anything. I was cold all over."

In addition to her classes at the Stevens School, Joyce now models for Walbridge Bell Photographers.

Her parents are Mr. and Mrs. Robert Wilbar, 421 N. Evans St. She came with her family to Tecumseh about nine years ago from Lake City, Tenn. Her birthplace is Middleboro, Ky.

☆

CINERAMA, narrated by Lowell Thomas, in his famous easy style proved to be just as stupendous as has been reported.

After Mr. Thomas explains the development of this new technique, which gives the audience a feeling of actual participation, the three cameras provide film for a screen six times the normal size.

Niagara Falls in reality is scarcely more thunderously beautiful than when viewed from the air by the medium of Cinerama.

The theater-goer has the feeling of being world traveled after viewing such scenes as the canals of Venice from aboard a gondola, a bull fight in Madrid and a gathering of the clans at historic old Edinburgh Castle.

America, from the Grand Canyon to Cypress Gardens, is radiant in color and sound on the huge screen.

Anyone who has not availed themselves of the opportunity to see and hear this splendid modern miracle should certainly do so.

Charles Mueller Makes All-League

Charles Mueller, senior quarterback on Adrian Catholic Central's football team, was named to the All-River Raisin League team.

Chuck is the son of Mr. and Mrs. Walt Mueller, 511 W. Kilbuck St., and is a graduate of St. Elizabeth's grade school.

'Sweater Hop' Dance Attracts 158 Students

Multi-colored balloons and colored streamers were used to decorate the high school cafeteria Saturday evening when the Band Boosters sponsored a "Sweater Hop."

Mrs. Fred Dickinson, Jr., general chairman, and her committee also placed a wishing well in the center of the floor.

About 158 students and 16 adults danced to music played by the Lamp Lighters Band.

Door prizes of crisp, new dollar bills were given to:

Tom Simons, Tom Wilson, Bill Work, Linda Refner, Joe Bailey, Mike Wilson, Tim Whitney and Cheri Packard.

Others were Gregg King, Andy Risner, Corky Squires, Bill Wallace, Bradley McCombs, Inara Roberts and Pat Lawson.

Mrs. Dickinson and Mrs. Don Beevers, president of the Band Boosters Club, extend gratitude to the committees who made the event a success, as well as to those who donated.

Sessions Slated for 4-H Leaders

"Just For You" is the title of a series of four training meetings for 4-H leaders. The information that will be included is based on the requests made by over 70 different 4-H leaders in the county last spring.

The first of these meetings will be Monday, at the Consumers Power building in Adrian. Sessions begin at 7:30 and end at 9:30 p.m.

Gary Seevers and Jane Campbell, County 4-H Extension Agents will be in charge of the sessions.

'Echoes of Christmas'

The Tecumseh High School Chorus will present its annual Concert, "Echoes of Christmas," in the high school gym Monday, Dec. 19, at 8 p.m.

The 104-voice chorus has been preparing since September for the concert.

Many the traditional Christmas events will be enacted in full costume as they are sung.

Echoes of Christmas will reflect many of mans Christmas moods.

Flowing through the concert will be the singing of several actual "echo" songs, sometimes involving widely-separated groups of singers.

The concert will take place before the hills of Judea, stretching away to the roof tops of Bethlehem in the background.

In the foreground, a crude outdoor stable of stone will be the scene of the Nativity and the adoration by the Magi and the poor little drummer boy.

In echoes of the hills, a lighter mood will prevail. During the singing of "My Favorite Things" from the "Sound of Music", a boy and girl dressed in Swiss Alpine costume will perform an original dance.

Tickets are being sold by chorus members. Adults 75c, students 50c.

Situation in Africa Could Get Worse

Conditions in Africa could get much worse, Pete Paddock of Plymouth, O. told 200 attending the Tecumseh district banquet of the Michigan Education Association Nov. 18.

A weekly newspaper publisher, Mr. Paddock has spent 11 years in Africa as a soldier and State Department foreign service officer.

Much of the difficulty on the Dark Continent arises because natives are ill-prepared to take over full responsibilities of governing themselves, he said.

The United Nations hold the key.

First, it must stop all fighting.

Second, the UN must convince Britain, France, and Belgium that colonial days are over.

Thirdly, Africans must be taught to work with their hands.

The United States must help in all of these areas and people of the US should be encouraged to invest capital in Africa.

If the problem is not contained in this manner, much graver trouble will result, the speaker stated.

Jim Howard, math teacher, was in charge of arrangements and served as toastmaster.

The affair was held in Tecumseh Country Club.

Scouts Are Entertained

Twenty girls from Troop 173 Intermediate Scouts, with their leaders, Mrs. Ernest Hammack and Mrs. Robert Meads, were entertained recently by the sponsor, the Missionary Socity of the Friends Church.

Following a potluck supper, featuring scalloped chicken, the troop presented a talent show.

Cartoons were shown for the pleasure of the group.

It was announced that the joint Christmas party for Post and Auxiliary will be held Dec. 4, with a program at 3 p.m. and potluck dinner at 5 p.m.

Mrs. Gaza Kish is the chairman.

Members voted to send a cash gift to the VFW National Home for the Children's Christmas party.

+ Presbyterians To Hear Sermon, 'No Time for Boys'

If you asked the average person, "Does man need God?" the answer would be "Yes", without hesitation. Most people believe that we need God. But the real question is 'What Kind of A God do we think that we need?'

Almost 2,000 years ago God came to man, but certainly man does not view this coming in the same manner as does God.

As we go into the Christmas season, this Sunday's sermon at the Presbyterian Church entitled "No Time for Boys", consider these contrasting views.

Speaker Says USSR May Take Babies in 1965

Mrs. E. R. Boynton and Mrs. Ed Jordan attended the meeting of Adrian Branch of the American Association of University Women Monday evening when Dr. John H. Dawson, president of the Adrian College, was the speaker.

Dr. Dawson spoke on his findings in Russia, where he recently spent 10 days of a European trip.

He said that it is quite probable that by 1965, babies in Russia will be taken from their homes and placed in boarding schools for indoctrination.

This would be a tremendous emotional strain on the people, because the family ties are extremely close there.

This meeting had a record attendance.

Any University woman, who is interested in attending these meetings or joining the group, may contact Mrs. Boynton or Mrs. Jordan for information.

The next meeting will be held Dec. 19 at the home of Mrs. William Austin when the program will be "Christmas Traditions."

Our Readers Write

Dear Sirs:
"To Whom It May Concern!"
"To whom I write these words of phrase—
I certainly do not give any praise!—
For I find myself in a little haze,
In these "Modern, Convenient, Electronic Daze."
I have the machines and I do pull the switch,
To wash the piles of dirty clothes which
Get dirty while my husband at another machine,
Brings home the money for which we lean.
Now I do have a sweeper, to make housework cheaper,
And a phone to call the doc, the grocer and pop,
But today I find these machines have to stop,
I can't Wash the clothes, for the washer has quit,
My husband can't find a clean shirt and he's having a fit.
To the Laundermat I planned to go —
But the car won't start and I whine "Oh! No!"
So back to the modern house I go blue,
To call the doc with the modern phone true.
But to my further dismay on this day—
I find the phone is gone DEAD!
I wish to my bed I had kept this poor head.
But little Susie is up in the morning at six,
and within minutes is working at tricks,
She spilled the Wheaties and cried boo-hoo!
The milk tipped over and the sugar, too!
The sweepers broke down—
And on my head is a frown,
For I' know I'm in a modern housewife's dilema.
And the check book has the figure that's getting thinna
Now about this modern, convenient, electronic age—
I wouldn't dare write another word on this page!

Sincerely,
A housewife on the bum
Mrs. James Feight

P.S.
Perhaps by tomorrow the fight I will have won,
To get back to my chores all in fun,
But the broom is made into a riding hoss,
The old washers motor into a sages boss,
The phone I find is only a temporary loss,
So into the ring my troubles I toss.
Does anyone here have a good solution?
For "Good old Modern Days" pollution?

Civil Defense Day Recalls Sneak Attack

Civil Defense Day is Dec. 7—the anniversary of Pearl Harbor.

Proclaimed by the President, this is a time for each to reflect on that day 19 years ago when America suffered a devastating enemy attack.

The attack then was on an island thousands of miles away. That island is today one of our States.

War today and for a good many years hence can be fought to any one of our States by a strong, ruthless enemy.

Allen Dulles, director of Central Intelligence, has said this about Civil Defense.

"The evidence is that the Soviets intend to use nuclear blackmail as a major weapon to promote their objectives—namely to spread communism throughout the world.

"They showed this intent at the time of the Suez crisis when they threatened England and France with ballistic missiles.

"They used these tactics again, chiefly against Turkey, at the time of the Middle East crisis about a year ago. They will use the same threat against this country."

One deterrent to such an attack is military strength, but just as important, says Tecumseh Director Steve Illeck are the intentions and actions of every American citizen.

"To keep America strong, we must prepare our homes and selves spiritually, ideologically and physically to meet any attack the enemy might pose," he said.

FOR ALL WE HOLD SACRED . . . ATTEND CHURCH !

Johnny built a snowman! From white, cold snow he made it. It was hard work, and Johnny was justly proud.

Johnny built a snowman—in a day! He packed the snow hard, put in coals for the eyes and nose, and Daddy's hat was placed on top.

But far more of Daddy than just his hat went into this snowman. Just as Johnny worked hard to build the snowman, his father is hard at work too . . . building Johnny. Daddy's greatest dream is to see Johnny moulded into a man of strength, vision, and character.

Luckily for Johnny, Daddy is a wise father. He realizes that the most important single influence upon his son's life is the teaching of Christ. Daddy will see to it that his son receives that teaching by sending him to Church services regularly. In making certain that Johnny knows the beauty of God's words, father will see his greatest dream come true.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Gal Cagers Are Terrific

"They don't come any better," is a phrase often written about Hazel Walker's Arkansas Travelers after they've staged a basketball exhibition.

Loaded with feminine hardwood talent, the Travelers play men's rules, against men's teams Tecumseh area folks will get an opportunity to see Hazel and her gals when they tip off against the local Jaycee quintet Monday evening, Dec. 12 at 8 p.m. in Tecumseh High School gym.

A comic preliminary game between the Chamber of Commerce and high school faculty opens the night's fun. Both crews will appear in costume.

The Travelers, who barnstorm from coast to coast in a specially-built station wagon, are all "Southern Belles", hailing from Arkansas, Mississippi, Louisiana and Texas.

Coach, manager and captain of the team is a sprightly veteran of 10 years on the circuit, Frances Garroutte, who bears the unlikely nickname of "Goose".

The title comes as a result of her uncanny ball handling and shooting skill, closely resembling the original Goose—Reece Tatum.

Frances has average 40 points against top male opponents.

Another Traveler, Toby TNT Rayborn is the team playmaker, a wonderful dribbler and in her sixth year on the circuit.

Two gals the Jaycees will probably have difficulty with will be Jennie McGuffee, who stands 6'-1", and Mary Graham, 6'2", both crack rebounders.

Tickets are now on sale at Hodges Drug Store, Joe's Food Market and Country Markets, Inc. Prices are $1 for adults and 50c for students.

Building Job for Doug

Flat Rock High School's basketball team comes to Tecumseh Friday night for the Indian's home opener.

Coach Doug Murdock of Tecumseh has a real building job on his hands.

He realized this at the start of workouts weeks ago, but the task was put into sharp focus when THS met Dundee the night before Thanksgiving.

The Vikings had little trouble in pinning up a 66-41 edge.

Tecumseh failed to score a single point in the second quarter.

All told, the Indians fired 72 times at the hoop, netted but 18 field goals for a 25% shooting mark. Dundee made 43% of its shots.

But there were rays of hope for Coach Murdock who is handling the Indian varsity for the first time.

Sophomore Tim Sisson, fresh from chores as THS football quarterback, looked good while dunking 12 points.

Larry Titley, one of only two seniors on the squad, also drew praise from the mentor. Larry contributed 10 tallies.

The Indian junior varsity also had a bad night at Dundee, falling 40-27.

Craig Rosacrans sparkled for the Little Indians, pitching in eight baskets and a free throw for 17. Dan Green's nine points and a free toss by Jack Rutherford were the only other JV tallies.

BAG OF THREE—Mrs. Harry Hammel again got her deer, as did her son, Dr. Dick Hammel (left) and son-in-law, Jeff Banning of Vincentown, N. Y. A daughter, Irene of Kalamazoo, also scored. The game was bagged on family land near Hubbard Lake.

Hammel Clan Scores

It was a wonderful deer season, as far as the Hammel family is concerned.

Together, the clan bagged four.

Mrs. Harry Hammel downed a six-pointer, taking her career kill over the 20 mark.

In her first seven seasons she got seven bucks with seven shots. Admitting that she was slightly cocky about her hunting abilities at this point, Mrs. Hammel adds that she then suffered a series of misses and discovered she was like every other nimrod.

Also scoring this fall were son, Dr. Dick Hammel; son-in-law, Jeff Banning of Vincentown, N.J. and daughter Irene of Kalamazoo.

All the bucks were dropped in the Hammel family's 600-acre plot near Hubbard Lake.

Another Tecumsehite scored in the same area.

He is Fred Betzoldt, age 17, who nailed a 10-pointer on land owned by his dad, Ray. The area adjoins the Hammel property.

165 POUNDER—That's what Fred Betzoldt brought back from his trip north during deer season. It had 10 points and was killed opening day at 10 a.m.

Snow Tree Makes Neat Centerpiece

Here's an interesting idea for a table centerpiece during the Christmas holidays—a snow tree.

Simple to make, the little fellows really look beautiful.

Materials needed:

A. Sixteen small plastic snow balls, about the size of golf balls.

B. 750 toothpicks.

C. Can of artificial snow.

About 45 toothpicks are stuck into each ball at every possible angle.

Assemble the tree by placing seven balls on bottom row, five on the next, three on the next and one on top.

Then comes the spray, which will completely cover the entire tree.

The effort may be topped off by adding miniature decorations or glitter.

The result is a beautiful centerpiece.

Friends Surprise

Lauranne Williams, daughter of Mr. and Mrs. Berdell Williams, was pleasantly surprised by 25 friends on her 13th birthday at the Tipton Grange Hall Saturday night. Dancing and games were enjoyed by the group. Refreshments were served by Mary Merritt from a candlelit table centered with a beautiful decorated birthday cake.

IT'S CONVENIENT

CHRISTMAS IS A'COMIN' — Mrs. Thomas Harrison, personnel supervisor at Woolworth's puts the finishing touches to a snow tree, which is perfect for a centerpiece.

At the football assembly Nov. 15, gridders received awards for 1960 play.

Vic Lawson, coach of the freshman team, presented his able players with numerals after a season of three wins, one loss and one tie.

Freshmen earning numerals were Bob Baker, Bob Barth, Joe Hanna, Jerry Hebb, Ron Jones, Dave Lemerand, John Lindstrom, Greg Long, Gene Manwaring, Doug Luce, John Mensing, Gary Naugle, Jim Newell, Jay Osburn, Al Ross, Glen Schmidt, Charles Squires, Mike Wilson and Gary Carpenter, manager.

Junior varsity coach Jack Trudeau reported the season's scores of one win, two losses, and one tie to the assembly. Mr. Trudeau was proud of his team for many of the sophomores, who would have strengthened his team, but were playing varsity ball.

Those winning junior varsity letters were Ron Baxter, Gary Blatchford, Don Becker, Dick Carter, Harley Cherry, Steve Fretwell, Kent Lucas, Bradley McCombs, Dennis Martinez, Jack Rutherford, Larry Ruhl, Tom Simmons and Dan Van Valkenburg.

Coach Duncan Lectka, assisted by Charles Gross, awarded the large, orange varsity letters to 26.

Seniors winning letters were Captain Jon Aho, Eugene Bryan, Dennis Bryan, Clarence Champanois, Robert Fisher, Ron Hathaway, Mike Green, Del Poskarbiewicz, Dale Tuckey, Larry Titley, Mike Tucker and Bob Koffron.

Underclassmen also receiving letters were John Britton, Kent Naugle, Chuck Osburn, Mike Rohrer, Tom Simmons, Ray Sweet, Tim Whitney, David Blanden, Tim Sisson, Dan Green, Mike Osburn, Phil Radant and Norman Tucker.

Receiving junior varsity letters for adding strength to the varsity bench were Larry Gray, Jack Dick, Dick Golat, Jerry Forsythe, John Oberlin, Jim Simmons and Jim Tilton.

Ken Beevers and James Ripley received a varsity manager's letter and Mike Bartenslager won a junior varsity letter for managing.

Mr. Lectka felt that Mike Green was definitely college material. He was able to get more out of his 165 pounds than most fellows his size.

Jon Aho was chosen by his team mates as outstanding back. Ron Hathaway was selected as outstanding lineman of the year.

When asked if he had any comment on this season, Jon Aho replied,

"The football team of Tecumseh was a success because of individual pride and team desire (which usually came in the last half of many games). The team played over many injuries, drop-outs, and lack of experience.

"A major portion of the success was due to the underclassmen whose self-improvement lifted the team to greater heights. I was proud to be captain of the 1960 Tecumseh High School football team."

A new policy concerning the constitutions of all school clubs has been put into effect by the Student Council.

This year, the Student Council is requiring that all clubs submit a report of last year's activities, a report of future activities and a draft of their present constitution.

The Student Council will then decide whether to give the clubs charters for one year only, or to disband any clubs that do not measure up to the standards set by the Student Council.

MACON NOTES

THE UNTOUCHABLE by Eliot Ness — The thrilling story of the handful of incorruptible men who smashed the bootleg empire of "Scarface" Al Capone.

ANNA TELLER by Jo Sinclair — The coming to America of a Hungarian grandmother, who in 1956 fought in the streets of Budapest, is the beginning of an absorbing story of conflict, and the search for understanding. Ann Teller's American son, his family, and his friends, believe that she will show them a clear way out of their tangled and unrewarding lives.

VILLAGE OF STARS by Paul Stanton — Perhaps tomorrow, or next week, or some time next year, this novel will be re-enacted in actuality, and people will realize that the world has grown too small for man to play at war with forces he cannot always control. To a frightening situation the author brings a background of flying, and more than that, he has woven a warm and tender love story.

ORDEAL BY HUNGER by George Stewart — The misadventure of the Donner Party constitutes one of the most amazing stories of that land of amazing stories, the American West. In 1846 eighty seven people set out overland for California. Many of them perished. From the diaries of the survivors the author has written the definitive history of that ill-fated band of pioneers. It is an astonishing account of what human beings may endure.

THE LAST TEMPTATION OF CHRIST by Nikos Kazantzakis — This is a deeply spiritual work and at the same time an extraordinarily vivid and exciting novel. It is the recreation of Christ's life and passion.

Through My Window

OH, DEAR, NO DEER

Something new has been added to my west window picture. Across the creek, beyond doctor's bridge and near the end of the fence, there is a small white block. Well, don't laugh but it is a salt lick.

They say there are deer around and we are doing our best to coax them into view. Will they come to a "feeding station?"

For some time now there have been reports of deer in the county. Products workers coming from Adrian, Britton, Holloway, etc. often spot them.

Last hunting season one was shot near Brooklyn and Gertrude has seen them on her way to Deerfield.

Unfortunately some have even become traffic statistics. Several weeks ago one was killed when he ran in front of a car on Rt. 112.

And did you hear about the couple who live on a farm between here and Macon? They were discussing a hunting trip to the upper part of the state and just by chance she happened to glance outside — wow! There, in their own yard, were three deer.

Such are the deer tales in Lenawee County.

☆

UNTIL ABOUT six months ago I was almost a non-believer. I was not too sure there were any wild deer anywhere. Never in all our trips North had we seen any, let alone spy them around here.

But worst of all are the signs that warn people, "Beware, Deer Area," or "Deer Crossing." Even now I don't believe these — I think they are just trying to fool us, excite the out-of-state tourists or something.

This year's vacation however proved to me that there really are deer to be seen in the wild. While crossing the Little Big Horn mountains in Eastern Wyoming we saw our first buck.

He was grazing in a meadow surrounded on three sides by the forest — —a perfect setting and what a thrill.

Three days later we were in Yellowstone and late one afternoon, on our way back to Canyon Village, we saw four of the pretty creatures. They too were browsing in an open field, but alas there was not enough light to try a picture.

☆

OUR THIRD white tail experience was almost too good to believe. The place was northern Wisconsin and the time, between five and six p.m.

We were heading East on Rt. 2 when all of a sudden a lovely doe bounded across the road ahead of us, jumped the fence as if it were nothing, streaked across the field and disappeared into the woods. A beautiful sight.

But back to why we have a salt lick across the creek. This fall there has been "close to home" deer excitement.

October 20, the opening of pheasant season and that I suppose could explain why, one was seen back of Wegner's store.

A delivery man drove in and saw a deer standing in the middle of the creek. That, dear readers, is not too far from us.

☆

BUT THERE was more to come and it was closer still. I understand that Fullers — —and they live just across the creek and a field away — see deer occasionally and quite frequently have seen their tracks.

Corn fields are apparently the attraction there. Finally, and this is almost unbelieveable, but I checked and it's true, Mrs. Ken Herrick has on two different occasions, seen them from her own home.

Imagine — just imagine deer right here in town.

If we should happen just once to see just one at our salt-lick it will be, well, I can't begin to think how exciting. It is amazing how closely that little area is being watched, now, whenever anybody is by a window they take a few moments to look around.

All of us keep hoping and looking, but so far we can only sigh and say, "Oh, dear, no deer."

NEXT WEEK
MY, BUT HE IS RED!

LETTERS TO THE EDITOR

To The Editors:

Do you think that we, the public have forgotten so quickly. A couple of years ago the Tecumseh merchants were screaming to high heaven because some of the business places were moving to the outskirts of town where there was ample free parking.

Much ado followed, and new off-street parking was planned and obtained.

Fine so far. Now I see where meters are going to be placed on the new lots.

OK if that's the way it's to be, we'll go back to doing our shopping in Adrian. We pay there too, but there the town is big enough for a wide range of choices.

Or we may go to Clinton. They don't charge there.

Yours in disgust,
Elwin Whittaker

THE TECUMSEH HERALD

An Independent newspaper, published every Thursday morning at 117 S. Evans Street. Entered at the Post Office in Tecumseh, Michigan as second class matter.

VOICE of THE HERALD

A Time Machine Junket

H. George Wells wrote many fantasies around the turn of the century, about things that would happen in the coming 100 years. Many came true.

One novel, "The Time Machine" was made into a movie, which at first viewing might be considered ridiculous. But the more one ponders, the more it takes on aspects of reality.

So, as we sit before typewriter on this dreary Monday afternoon, the thought comes to mind, what if there was a Time Machine right here in Tecumseh?

Wouldn't it be exciting to slip behind the controls and rev forward a conservative 25 or 30 years from now?

Here is what we might view:

A spacious city, with well over 20,000 population.

Four blocks of downtown Chicago Blvd. all gone. In their place is a lovely, long park, onto which smart store fronts face. There are trees and bushes, where once was asphalt and concrete.

Behind the business buildings are large parking lots — and look at those strange, bug-like vehicles. Why, one is taking off like the old-fashioned helicopters we knew in 1960.

Strolling east, we come upon a gorgeous setting. There's the city hall, but note how it's twice as large as it was when built. The post office, across the way is striking.

North on tree-lined Maumee St. is the civic center. Happy citizens are streaming in and out of it. A giant, sunken garden is located behind the auditorium portion of the building, complete with outdoor reclining chairs and sofas. Those older folks seem to be enjoying themselves, some reading The Daily Herald, others playing a game, which looks a little like the old-time checkers, but the objects they're moving are tall and slender.

Looking towards the Globe Pond, is a rolling green, dotted with clusters of giant trees. Modern shelter houses, opening towards the water have cooking and eating facilities. The pond seems much bigger and a regatta of some sort is taking place with about 25 small sail boats rounding a buoy at the far end.

The whole scene in breath-taking. Could it happen?

Like some of the things Wells wrote about, which did become realities, so might the sights we just saw by making a trip in the Tecumseh Time Machine.

Fact is, our City Planning Commission is looking 25 years into the future as it formulates a Master Plan for Tecumseh.

You may have noted the start of a series on the plan, which appeared two weeks ago in The Herald. A second article runs on this page. About five more are coming.

Later, a brochure is going to be printed, incorporating all the illustrations being studied by the commission, along with explanations. These point to a Tecumseh of 1985 as having many of the same things we noted on our Time Machine junket.

We're glad the future of our city isn't being left to chance.

You'll Enjoy This Event

If you haven't already, be sure to drop into the old phone office in the Adrian Federal building to see the Book Fair and "Best of Best" Photo Show.

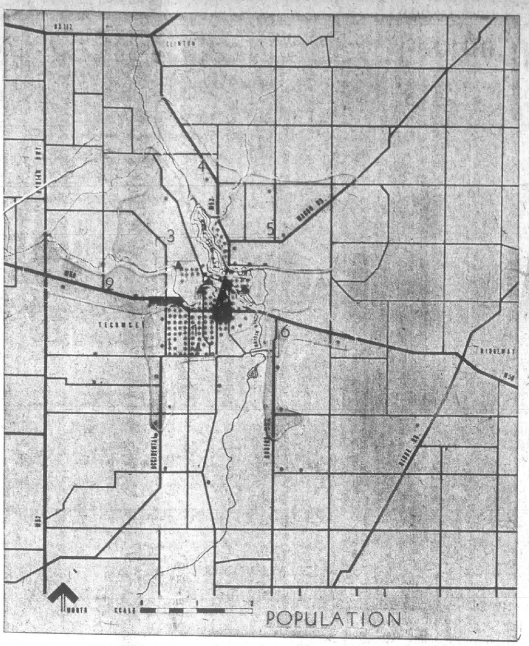
It's entirely free.

The event is sponsored jointly by the city's library board and The Herald, in cooperation with Consumers Power Co.

About 300 new books, adult and juvenile, are being shown. These can be purchased for Christmas giving.

The photo portion is a traveling display prepared by Consumers and containing the best newspaper pictures taken by Michigan dailies and weeklies during the past year.

The show continues through Saturday.



Growth Pattern Is Well Defined

(Editor's note: Jim Smith, architect and member of the City Planning Commission, has prepared a series of articles on the future of Tecumseh, based on the new Master Plan. This is the second one and deals with population and neighborhood development.)

By JIM SMITH
City Planning Commission

In the opening article of our series, we printed an illustration of the area and the growth influencing Tecumseh. This week the map shows the development of the local area for a population three times the present.

Tecumseh has already experienced an accelerated increase in population. Around 1940, after approximately a century at an almost constant figure, the population of the city began to increase rapidly.

There was a 37.6% increase from 1940, to 1950 and an increase of 74% from 1950 to 1960 to bring the present population to 7,000 persons.

If the numbers continue to increase at a rate of 70% the total would be 20,000 in 1980.

If the population were to increase at more nearly the rate of increase for the county (about 25%) the total would be 11,000 in 1980. Increases will likely continue at the higher percentages.

☆

TECUMSEH'S EXISTING neighborhoods are differentiated, old from new, because of the many years of almost constant population.

The old neighborhood (1), in the downtown area has, at the same time, valuable well-kept homes and a large percentage of depressed houses.

More than 55% of the population lives in the older houses and the implication of multiple dwelling is in this figure.

At the sudden increase in population, many older homes were converted for multiple dwelling. Preparation of the Land Use Map confirmed this.

Approximately 40% of the people are in developments constructed since 1938. In spite of the fact that these are recent constructions, approximately 30% of this development is minimum type and is kept from becoming depressed only by the home owners' constant efforts to improve them.

Badly designed and constructed development must be prevented in the future.

☆

THE POPULATION map and neighborhood development indicates future neighborhood locations.

The locations are in the areas most attractive for residential development with boundaries most often being rivers, thoroughfares, and other physical features.

The boundaries are assumed, but must be respected to work as a guide to street improvement and services development.

In addition to street and services development, each neighborhood must include landscaping and parks and similar aesthetic and recreational improvements.

The boundaries are therefore determined in consideration of the schools and parks and recreation plan, as well as in consideration of location of services, topography, and economical installation and maintenance of utilities.

The boundaries are selected also for isolation from industrial and commercial development.

☆

THE TENDENCY to multiple dwellings must be recognized and properly located, well designed development of this type of housing encouraged.

On the map, each dot represents 50 people. The concentration of the present population can be seen in the older part of the city and while the newer developments have used larger areas it is clear that the population density is less.

This is good.

Concentration of multiple dwellings in the downtown area is good if these dwellings and their surroundings are improved and developed.

The Rev. Frank Hawthorne described the steps leading to ordination to the priesthood for members attending Rotary Tuesday evening.

He explained that the steps were much the same in most denominations.

To illustrate he used a film strip and recording with a setting at General Seminary in New York City, where he studied for the priesthood.

The program for November will be titled "House Hunters" and will be in charge of Glenn Kohler.

TOM RIORDAN'S Long AND Short

How does this sound, a 25-acre ranch in Brazil?

Folks at The Herald and other newspapers all across the land are being given an opportunity to own such layouts.

For that matter, we could have up to 500 acres.

Here's the gimmick — and one of the most interesting we've seen in some time.

The Companhia Pan-Americana de Terras e Desenvolvimento na Brazil wants to advertise in United States papers.

Instead of cash, the international real estate organization will give land. Neat, eh?

If we should go for the 25-acre setup, the land cost would be $8 an acre, which would give Pan-Americana de Terras $200 worth of advertising in The Herald.

Should our wishes lean to a big spread, say 500 acres, the total amount would hit $3,625 or $7.25 an acre.

Reading the dope sheet is pretty fascinating and has us wondering if maybe this might be the deal to get into.

Here is how it goes:

"LOCATION: The lands offered herewith are located in the geographical center of the State of Mato Grosso, 295 miles north of the State Capital, Cuiaba, a city of over 44,000 population. The tracts lie within the municipality of Chapada dos Guimaraes.

"DESCRIPTION OF LAND: Almost entirely flat terrain with slight roll, laced with numerous small rivers and lakes. Suitable for full mechanization in agricultural development. Heavily timbered with trees of many commercially valuable varieties. Elevation approximately 1,200 feet above sea level.

"ROADS AND COMMUNICATIONS: Federal Highway BR 16, which leads from Cuiaba to Santarem in Para State, is now under construction, and cuts directly through the property. This highway, when completed, will link the property directly to the great network of super-highways throughout Brazil and will also connect with the projected Pan-American System at Cuiaba, thus providing a direct route to all United States cities.

"CLIMATE: Sub-tropical, similar to Southern California and South Florida. Temperatures average 76° in summer (January, February, March) and 70° in winter (June, July, August). Ample rainfall Average annual relative humidity 73.5%.

"PRESENT AND POTENTIAL USES OF LAND: At present some coffee plantations are thriving in and around Ubiratan. Commercially valuable timber found in abundance on the land include rubber trees, cocoa, native chestnut (Brazil-nut), vanilla, among others too numerous to mention.

"Mineral wealth of undetermined amounts include gold and diamonds. The land is superlatively suitable for various types of agriculture which will undoubtedly be pursued as better transportation facilities are completed.

"Rice, wheat, corn, sugar cane, bananas, beans, etc. are some crops which have thrived in the vicinity of the tracts. Mineral exploration is incomplete, but preliminary reports show vast mineral wealth in this area. The land is also suitable for cattle raising.

"WATER SUPPLY: Excellent. The tracts are served by the Manitsoua Misu River and its tributaries which form an intricate hydrographic basin. Abundant sub-surface water is obtained at a depth of from 20 to 30 feet and is crystalline clear with exceptional analytical qualities."

Final kicker in the deal is the comparison between Brazil and our western states at about 1860.

"One-hundred years ago, choice land in the American west sold for pennies an acre. Today it is priceless!

"Today, Brazil, like America 100 years ago, stands on the threshold of an era of breath-taking jet-age expansion."

Wow, sounds wonderful. Think we should jump in?

Kiwanis Club Hosts Groups for Training

Sixty-five Kiwanians from the Lenawee and Monroe County area enjoyed a training conference for Division 7 club officers at the Tecumseh VFW Hall last Thursday.

Attending were Frank Staiger, Pontiac, district secretary and Thomas P. Oliver, chairman of achievement reports for the Michigan District of Kiwanians.

In charge of the program was James H. Fridd, Jr., lieutenant-governor of District 7. He introduced his successor, Harold C. Webster from Monroe, who will take office Jan. 1.

The afternoon conference consisted of two hours of indoctrination and training for the various jobs to be carried on within the Kiwanians clubs in this district.

Attending were club presidents for 1961 and their officers in each club. Duties and responsibilities of each office were carefully explained and the general Kiwanians theme for 1961 of Building Responsibile Citizenships were expounded.

The program was highlighted by an evening dinner, following which Mr. Staiger presented the goats for Kiwanians for 1961.

He explained the "call to the greatest project of Kiwanians of good citizenship" for 1961.

President John Bobuda of the Tecumseh club presided over the meeting.

$65,000 Bond Is Sold

By JIM LINCOLN

Final step in financing improved off-street parking lots for downtown Tecumseh was taken Monday night by Council with the sale of $65,000 in parking meter bonds to the Kenower, MacArthur and Co. of Detroit.

The bonds will be paid off with revenue from meters.

City Manager Ed Nelson announced that employees would now proceed with the construction and installation of concrete bumper blocks, and installation of meter poles in the downtown parking sites behind business places.

Meters will not be in operation until after Christmas, giving customers free parking for the holiday season.

Plans also were reported about closing property deals with lot owners before the first of the year and the demolition of several buildings, all necessary to begin improving the parking lot in the northeast block, behind Baldwin's Hardware Store.

Lots in all four blocks are open, although the one in the northeast block is not yet paved.

The bonds were sold at an interest rate of 4.90525% and at a net interest cost of $38,128.38 It was the only bid received. Dean Stanley, municipal finance consultant, told Council he recommended the bid be accepted and that it was a good one.

☆

UNITED SAVINGS BANK was awarded the bid for tax anticipation notes amounting to $18,600. The interest rate is 3%.

The money will be used to purchase the house and property just west of city hall for parking and eventual expansion of municipal facilities.

☆

IN OTHER action, Council:

1. Appointed John Zeigler, Tecumseh attorney, to replace Dr. William Britton on the Planning Commission.

2. Approved American Legion and VFW plans, presented by Don Maves and Dick Colson, for erection of a Veterans Memorial in front of city hall.

3. Recommended investigation of a Birmingham painter who charged a local resident over $3,500 for the painting of a slate roof and also for working here without a license.

4. Authorized City Attorney James Beardsley to determine action for handling a petition from residents asking a clean-up of the building and area at 303 E. Pottawatamie St.

5. Approved closing the alley next to Strand Theatre to vehicles, curbing the entrance to it on Chicago Blvd, and possibly erecting a public telephone booth at the opening of the alley.

6. Refused angle parking on E. Pottawatamie for the Coin-Op Laundry.

7. Set a March 15 deadline for taverns to improve their facilities.

8. Authorized Mr. Nelson to take a one-month vacation, starting about the middle of January.

Davenports Say 'Thanks'

When area folks learned last week that a Negro family near Macon had been burned out, help poured in.

The Charles Davenports were overwhelmed. To all who sent clothing, food, furniture and money they say, "Thanks".

Mr. Davenport has been an employee of Broadview Farms for two years. His specialty is swine and he cares for 300 pigs and sows.

He, his wife, Helen, and their three youngsters lived on a tenant farm on Broadview property.

Tuesday evening, they made a trip to Britton to buy some used clothing for their children at a second-hand store.

As the Davenports returned up Welch Rd. about 8:30 p.m., they saw their home was in flames.

Believed to have started in the basement, the fire raced through the frame house.

☆

ALTHOUGH Britton and Tecumseh fire departments hurried to the scene there was little they could do except protect the barn from also being engulfed in flames if the wind shifted.

Everything the family owned was destroyed.

Mrs. Davenport was doubly crushed. The family dog, Pal, part collie and part setter, was trapper in the blaze. A new Bible she had recently purchased, as well as all her school books which she saved over the years, were also burned.

Badly stunned, the Davenports were taken to the home of Mr. and Mrs. Shirley Coulter, another colored family living at Broadview.

The Davenports have been promised a third Broadview place as soon as a family, no longer associated with the operation, moves out.

Mrs. Davenport told Herald writer Dorothy Grigg Tuesday that the family now has an adequate supply of clothing and bedding, along with some household items.

☆

TIMBERS AND household possession at the disaster site were still smoldering when spontanious aid began to arrive.

In Macon Mrs. Hamilton Moore and Mrs. Walter Damberg coordinated efforts , in Britton Mrs. Fred Bryan and Mrs. Paul Rowlands were busy rounding up assistance. The Herald served as a collection point in Tecumseh.

In all three communities, folks kept stopping by with donations of clothing and household goods.

Paul Hohenstein, treasurer of Tecumseh Products Co., gave a washing machine, which was badly needed. At least three other offers of washers were made after Mr. Hohenstein's donation.

Perry Cook, owner of Cook's Electric, presented the family with a second-hand electric range in excellent condition.

The Doug Halls gave a bed, quilts were provided by the Tecumseh Service Club.

Fred Nash donated his time and truck to haul the appliances and bed, along with a load of clothing. Assisting him were the Rev. Paul Brantingham, George Meads and John Westgate.

When Mr. Brantingham learned of the Bible's loss, he returned home for a new Bible, which he presented Mrs. Davenport.

You Told Us

BY DOROTHY GRIGG
Herald Society Editor

Along with the beginning of rehearsals for Christmas programs, cantatas and the band concert, Dec. 22, comes the desire for snow by the younger set.

It just seems that with Christmas preparation and carols and talk of Santa's trip there should be a sniff of snow or at least that is what this writer is told each morning as the little men look out of the windows from their beds.

"No snow, where is the snow, Mother?"

When it comes it will further enhance the main street of Tecumseh, which is already sparkling with the beautiful new decorations for holiday time.

These, too, the young people are enjoying as much as the adults.

Marjorie Bidle, daughter of Mr. and Mrs. Valden Bidle, was home over the weekend from the Mercy School of Nursing in Detroit.

Mrs. Bernard Fero with sons, Tim and Kelly, were in Owosso Sunday. Mrs. Fero will attend a dinner dance in Buffalo with her husband Saturday evening given by Pratt and Letchworth Co., where he is employed. She will return to Tecumseh Sunday.

Four girls from the Rainbows of Tecumseh recently visited Maple Lane Manor with the Adrian Assembly. They were Nancy Beland, Shirley Hunt, Sally Hunt and Connie Kirkendall.

Mr. and Mrs. Harvey Robinson recently returned from a deer hunting trip to Baldwin in Lake County where she said there was 36 to 40 inches of snow. They were accompanied by Mr. and Mrs. Francis Ely of Medina, James Rinker of Adrian, Ronald Francouer of Adrian and Norman Relitz of Saline.

Thursday Mr. and Mrs. Harvey Robinson will leave for Fort Knox, Ky. to see the graduation ceremonies of their son, Pvt. Harold Robinson. After a furlough Pvt. Robinson will go to Fort Bliss, Texas.

Mr. and Mrs. George Duncan (nee Joyce Partridge) are parents of a baby boy, Jeffrey Herbert born Nov. 22 in a Big Rapids Hospital. His weight was 8 lbs. 13¼ lbs. The Duncans are expected at the home of her parents, Mr. and Mrs. Owen Partridge Dec. 17 for a three-week vacation. Don Partridge telephoned home from Switzerland the day following Thanksgiving to learn the good news about his sister's baby.

Holiday Ball Draws Happy Capacity Crowd

The holiday ball, sponsored by the Hospital Auxiliary, was described as a huge success by many attending Saturday evening.

A capacity crowd of dancers enjoyed music by the Ken Edwards orchestra in the club, delightfully decorated in the "Holiday Time" theme.

Mrs. Don Murphy, of the publicity committee, reported that all committees worked together wonderfully to make the event a pleasure to attend.

Gratitude is extended to these committees by the chairmen and also to the husbands who spent so much of their time the evening preceding the ball.

What's Going on at BOYSVILLE

By LOUIE CIAVONE

The Boysville Fighting Knights edged Summerfield's Bulldogs Friday, 44-40, on the Boysville hardwood in a overtime thriller.

The game started with the Bulldogs moving out in front, 8-6, in the first quarter.

Summerfield was ahead, 22-17, at the half.

In the third quarter the Knights switched to a man-to-man defense, which cooled the Bulldogs. Boysville began to hit the basket and at the end of the third quarter the Knights were ahead 33-31.

The fourth quarter was a real battle.

With 10 seconds to go and a man at the foul line, Summerfield was ahead 40-38, and things looked dark for the Knights.

The foul shot was missed, however, and Bill Gager, Boysville's center, pulled down the rebound and passed quickly to Pete Mata, who drove to the key, jumped, shot, and made the tieing basket as the buzzer sounded, sending the game into an overtime.

In the overtime, Jerry Klos hit the first basket for the Knights, putting Boysville into the lead 42-40.

Summerfield had several chances to score, but missed on each occasion.

Ken Snooks ended the scoring with a bucket at the seven-second mark.

Pete Mata was top scorer for the Knights with 12 points. Gager had 10, Snooks 9, and Dick Michniak hit for five. John McGeshick and Jerry Klos each had four.

The Knights were handicapped by lack of height, and were rated as underdogs. On Friday the Knights take on the Britton Tories in an away-from-home game.

The Boysville JV lost its opener to Summerfield, 51-32.

Sam Bishop, a short, stocky sophomore, was high scorer for the Boysville five with 10 points. Gunars Vilums was next with six.

The JV needs work on passing and shooting, having thrown quite a few passes away, and having missed a great number of shots.

The Junior Knights will take on Britton's JV team at Britton preceding the varsity game.

Boysville's Band and Glee Club played a concert for the inmates of the Milan Federal Correctional Institution Dec. 4.

There were many numbers played and sung, and most of them reflected the Christmas season.

A few of the numbers played by the band were "Christmas in England", "White Christmas medley arranged by Brother Philip, CSC, director of the band and glee club.

Among other songs, the glee club presented "O God of Loviness," and "De Camptown Races."

A small instrumental combo, the Satan Chauffeurs, played three numbers during the intermission. The group is comprised of Ken Snooks, Pete Mata, Charlie Kramer, Jerry Seitz and Joe Jaworski.

On Dec. 11 the band and glee club will present their annual Christmas Concert at the Boysville gymnasium at 2:30 p.m.

The concert is open to the public. Approximately the same program will be followed for this appearance as at Milan.

A couple of weeks ago, the Boysville Mission Club received a donation of some puppies from a friend of Boysville.

These pups were given away before the Thanksgiving vacation. Boys who had given a nickel or more to the Missions were eligible.

School Carnival Packs Gym Saturday

BRITTON — The junior class of Britton-Macon held a school carnival in the gym last Saturday evening.

This was the first such event to be held in the school for quite some time.

Participating were classes from eighth through 12th.

The Band Boosters, Business Education Club, Varsity Club, cheerleaders and the FFA also took part in the event.

The admisison was five cents for children and 10c for adults.

As guests entered, they bought as many tickets as needed for five cents each. The tickets were used instead of money at the various booths.

In the hall eighth graders sold refreshments.

The B E C had a fortune telling booth in the gym.

On the stage the juniors held a pit throw and the students got their chance to toss pastry pie at two of the teachers.

In the girls locker room, there was a fun house, which was quite a thrill.

The Band Boosters held a bake sale.

In the center of the gym, the cheerleaders held a record request.

The 10th grade staged a raffle for a red and white poodle with Mrs. Carl Luegge as winner. There also was a penny pitch, grab bag and home-made candies by the sophomores.

An auction was held at different times during the evening with Neil Benedict as auctioneer.

Some of the items auctioned were: four invitations for pizza and pop some Saturday evening in Miss Pippitt's apartment in Tecumseh, one of coach Sam's baseball caps, one of his whistles, a can of Mrs. Barrett's beef noodle soup and Mr. Miller's praying mantis.

At a basketball throw, people who had the most consecutive shots won $2.

At the end of the evening a ride in Mr. Crittenden's red-and-black sports car was auctioned.

The F F A had a washer throw, in which guests could get their tickets back if they landed on the high numbers.

In the boys lockerroom, the ninth graders held bingo.

The Varsity Club had a dart game, which could not have been profitable to people, if they hit the right balloons.

Many students spent the entire d.y preparing for the carnival.

He's Second Britton Scout To Earn His Eagle Award

Jerry Rhora, 17 year-old senior at Britton-Macon High School, received the Eagle Scout award Wednesday evening in the Court of honor at the school.

Jerry is the second Scout in Britton to accomplish this honor.

He is the son of Mr. and Mrs. Howard Rhora, 5994 Ridge Rd.

Some of the 21 merit badges he was required to get included camping, swimming, nature, wild life and first aid.

Bob Auten is his Scoutmaster and Dick Lutton, the assistant.

Jerry has worked about five years on badges to receive this high award in Scouting.

He says of the program "You learn a lot of interesting and important things, as well as have a lot of fun."

He especially enjoyed the Klondike Derby last year when his patrol came in firsts at Camp Kenasatake on Washington Lake.

Jerry thought it interesting to read in recent reports that Judge Kuney reported he had never had a Scout come before him.

Christmas Season Ushered into Town at Fellowship Night

BRITTON — Family Fellowship Night in the Congregational Christian Church joyfully ushered in the pre-Christmas season on Thursday evening as more than 100 members and friends gathered for a potluck dinner.

During the evening guests visited the displays of the many and varied Christmas decorations, learned how they were made.

Centerpieces, wall hangings, mantle and corner decorations were both conventional and unique, but all were glittering and fascinating.

A number of the creches had been made by pupils in the Sunday School.

An array of Christmas goodies, candies, fruit cakes, cookies and party snacks were also displayed.

During the social hour, Christmas carols were sung. Mrs. Ronnie Frayer led and was accompanied by Peggy Jo Pocklington at the piano.

An appreciative audience saw the colored slides of a recent western trip shown by Edmund Millyard.

As a prelude to the pictures, a reading "God's Unfinished World" was given by Mrs. Charles Patterson.

Mrs. Earl Murphy read the Christmas story from the Scriptures and the Rev. Gustav Hanevik led in a closing prayer.

An Advent season family altar devotional had been prepared and was presented to the families as they left the church.

The Baraca Philathea Class sponsored the event with Mrs. Elmer Eberhardt as chairman of the program committee and Christmas Ideas displays.

Blue Is Color of This Concert

As "Echoes of Christmas", the forthcoming High School Chorus Concert has a theme, it also has predominant color.

The audience will view the program in an auditorium fashioned of blue crepe paper streamers.

Chorus members began construction of a large simulated auditorium last Saturday, by cutting to lengths strips of crepe paper amounting to 16,000 lineal feet.

The streamers will extend from the floor of one side, over the top and down to the floor on the other side. The structure will narrow towards the Chorus and the Judean Hills background.

The streamers are intended to focus attention on the groups performing and to improve the gym acoustics.

Near the beginning, there will be a processional of choristers in blue robes, carrying blue flashlights.

From this point on many colors will enter the concert as robes and costumes worn by shepherds, wisemen and the Alpine dancers appear.

The Chorus is also renting a powerful spotlight and dimmer from Detroit to help brighten the colorful musical production.

This Saturday evening, Chorus members are taking a field trip to Toledo to attend a free concert of Handel's Messiah performed by the Toledo Civic Chorus and members of the Toledo Symphony Orchestra.

The performance is being conducted by Sam Szor, in the Peristyle Auditorium of the Art Museum.

This will be a refreshing musical experience for Chorus members before performing their own concert the following week.

"Echoes of Christmas" will be Monday, Dec. 19, at 8 p.m. in the High School gymnasium. Tickets are being sold by chorus members, adults 75c, students 50c.

Why buy a high-priced compact?

YOU GET SO MUCH MORE IN A '61 FORD
...and you save plenty to boot!

You Pay the Least for a full-size 6-passenger sedan in this Ford Fairlane with the equipment most people want.* Shown with optional whitewalls.

For less than you'd pay for some compacts, you can enjoy a '61 Ford Fairlane! And get more passenger room, more luggage room, a longer wheelbase to cradle your ride. More built-for-people comfort. More weight, more beef, more brawn. More second looks with the Classic Ford Look, too!

Who wants a "compromise" compact? Not when you can ride in comfort and luxury in a big full-size '61 Ford that's priced $84 *less**! And you save as you drive because the '61 Ford is built to cut operating costs way down. For instance, you'll normally go 30,000 miles between chassis lubrications! Drive proud. Drive shrewd. Drive the big one that saves like the small ones. Now at your Ford Dealer's.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

Lubricates itself. You'll normally go 30,000 miles between chassis lubrications. Then a Ford Dealer lube job (which costs about $4.00**) will get you set for another 30,000 miles.

Cleans its own oil. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

Adjusts its own brakes. New Truck Size brakes adjust themselves automatically for the life of the lining.

Guards its own muffler. Ford mufflers are double-wrapped and aluminized—normally last three times as long as ordinary mufflers.

Protects its own body. All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.

Takes care of its own finish. New Diamond Lustre Finish never needs wax.

A few are new but primarily these people wok have served as project chairmen in the past and have accepted the challenge of helping others for the future.

Among project chairmen are:

Travelers Have Played 2,150 Tilts—Won 80%

Basketball fans in the area are in for a treat Monday night.

They'll have a chance to watch some of the best professional girl hoopsters in the nation.

Hazel Walker's Arkansas Travelers are a band of hardwood nomads who tour thé land from coast to coast in their specially-built station wagon.

The club has also played in Mexico and Canada.

Far too good to meet feminine teams, they go against men, using men's rules. And they have won 80% of the time.

The Travelers face the Tecumseh Jaycees.

The program, in Tecumseh High School, begins at 8 p.m. with a comic game between the Chamber of Commerce and THS faculty.

Tickets are $1 for adults and 50c for students. They can be obtained at the door.

The cage tilts are sponsored by the Tecumseh Kiwanis Club with proceeds going to its youth projects. A crowd of well over 1,000 is expected.

Miss Walker, who owns the team, and makes all the bookings, is an exceptional cager.

She was enshrined in the Helm's Foundation Sports Hall of Fame with such other great women athletes as Babe Zaharias, Helen Wills, Patty Berg and Pauline Betz.

In her native Arkansas, when that state selected an Hall of Fame in 1959, Hazel was named to it along with Ball Dickey, ex-Yankee catcher and Bill Lee Howell, New York football Giants coach.

The average age of the Travelers is 23, average height six feet and average weight, 155 pounds.

The Travelers were once featured in Ripley's "Believe It or Not" and made a movie short called "Shoot the Basket."

In the past 11 seasons, the club has played more than 2,150 games in the States and during its tour of Mexico. All told, the feminine quintet has covered 550,000 miles.

Seniors Foul Out, THS Falls

It was close until the half.

But then the roof fell in and Tecumseh's Indians lost their second straight start, this time to Flat Rock.

Final tally, 52-44.

At intermission time, the Rams held a slender, 26-24 margin and the Indians were very much in the game.

Things changed radically when both Jerry Breitebwischer and Larry Titley, only THS seniors on the squad, fouled out. Their rebounding talents were especially missed.

Coach Doug Murdock's roster is dotted with players who have seen little or no varsity experience until this season and it's difficult keeping a steady pace.

However, things are bound to improve as the season rolls on.

In the junior varsity preliminary, the JV Rams also won, 66-34.

Next action: Friday at Airport.

Oil Crew Hits Snag

The oil well drilling crew at Rig 3 has struck a snag, a big one.

If the men are not able to resolve this maintenance problem, it could mean starting over from scratch.

Tuesday the well had reached a depth of 2,876 feet when a 10¾" surface pipe either split or parted.

The crew placed a packer in the well into which cement was poured, standard procedure in such situations.

However, the packer did not hold its position and trouble resulted.

McClure Co. oilmen are now attempting to cut the packer in two to get it out.

Richard Allbee, one of the drillers said, "The $300 cost of the packer would mean nothing in comparison to the expense if we have to vacate this well and start over."

He said on the plus side, drillers appreciate the warm weather because they can let water remain on the rigging without it turning to ice. Considerable water is used for cleaning purposes.

Height of the huge Rig 3 is 108 feet, 11 feet of it is substructure. It is located along Murphy Hwy., north of Tecumseh, on the Charley Allen farm.

FFA Members Attend Show in Chicago

Tecumseh FFA members, accompanied by adviser Paul Burns, Otto Miller, and Charles Hassenzahl attended the International Livestock and Horse Show in Chicago last week.

In addition, the group made a tour of the Ingersoll Steel disk plant, where about 80% of all disks are made in the United States, and the International Harvester crawler tractor works.

The tour through the International Harvester plant was made in cooperation with the Tecumseh Equipment Co.

Also visited was the Shedd aquarium, Adler planetarium, the Museum of Science and Industry and the Natural History Museum.

Just before returning home they visited the Chicago Board of Trade.

While in Chicago they stayed at the Atlantic Hotel.

TEEN

Tecumseh's Freshman team defeated Mason's sophomores, 44-40, Dec. 1 in an overtime thriller.

At half-time, Tecumseh was trailing, 24-12.

It looked like a win for Mason. Tecumseh's hustlers pressed Mason's tall team, closing the gap to 30-27 by the end of the third quarter.

At the end of the game the teams were tied 40-40.

In the three minutes overtime, John Oberlin scored three free throws and Clark Nichols one free throw to give THS victory.

Scorers for Tecumseh were Oberlin 16; Clark Nichols, 14; Jim Newell, 5; George Morez, 2; Jim Baker and Jerry Hebb, 10.

At the November meeting of Future Homemakers, special guest Dale Tuckey, discussed the contents of the charter which the Student Council is requiring this year.

Pickard's Floral Shop will help the girls make centerpieces for Christmas.

An invitation to a swimming party, extended by the Girls' Athletic Association, was accepted.

Refreshments of ice cream and hot fudge were served by Diane Damon.

Upon the arrival of the chapter plaque from National Science Club, the Science Club held a meeting to elect officers and organize activities.

The thirty-one members selected:

President—Dean Eddy
Co-vice-president—Barbara Damon and Bob Koffron
Secretary—Nancy Beland
Treasurer—Frank Csokasy
Librarian—Linda Dicks
Historian—Janice Hall
Photographer—Larry McClain

Student Council presented the first of a series of lectures given by local professional men Nov. 29. The Rev. Julian Gresham said that some of us were getting only "half an education, and not the best half."

DOLLAR and SENSE FARMING.

MANAGE HOGS FOR TOP GAINS THIS WINTER. Feed hogs a 16% protein ration until they weigh 100 pounds; then reduce protein level to 14%. You'll get the best results by feeding grain and protein supplement in a complete mixed ration. When fed free choice, hogs tend to overeat either corn or protein—slower growth and higher cost of gain result. Improved performance usually offsets the extra cost of preparing a mixed ration.

PREVENT SELF-FED EWES FROM GETTING TOO FAT. Normally, self-fed ewes tend to eat too much and gain more than necessary. During early gestation, use a ration containing 70% ground corn cobs. Later in the gestation period and during lambing, more shelled corn and less corn cob can be fed. Ewes will maintain their weight and bloom without getting fat.

TIMBER CAN GIVE EXTRA FARM INCOME. Maintain a vigorous, healthy woodland by culling out all overmature, defective and low quality trees. Trim and remove defective branches from remaining trees. This practice will allow more young trees to grow and flourish, making your woodland a greater potential farm crop in future years. Ask your county agent for farm woodland management advice.

PROLONG TRACTOR TIRE LIFE by maintaining proper inflation pressure. Check tire pressure every two or three weeks. Most tire manufacturers now recommend 14 pounds pressure for rear tires. Keep slippage to within 15%. Each 200 pounds you add to the tractor will increase its pulling ability by 100 pounds.

THE TECUMSEH HERALD

An Independent newspaper, published every Thursday morning at 117 S. Evans Street. Entered at the Post Office in Tecumseh, Michigan as second class matter.

VOICE of THE HERALD

Yes, We Were Unhappy

When Gov. G. Mennen Williams was appointed to his role as Assistant Secretary of State for African affairs, there were plenty of unkind remarks for the new administration from these parts.

Not that Tecumseh folks didn't realinze Soapy was going to get a political plum for his work in behalf of Jack Kennedy in the recent presidential campaign.

Rather it was because in giving Gov. Williams the African desk, it meant that capable, veteran careerman Joe Satterthwaite was being bounced.

Tecumseh is mighty proud of Joe, a native son, and we're sold on the job he has been doing.

We telephoned Washington Monday in hopes of chatting with Joe and finding out where he'd be going now. He was out, but his secretary helped bring us up to date.

There has been no appointment as yet and probably won't be until President-elect Kennedy names his Secretary of State and he in turn calls off the revised lineup.

Joe, who is now 60, has served his nation as a member of the State Department for most of his adult life.

Chances are he'll be posted overseas, adding to his long-string of foreign duty that includes service in Africa, Mexico, Burma, Turkey, Ceylon, Bagdad and Egypt.

Africa had long been a troubled spot on the State Department's agenda and that was why two years ago, John Foster Dulles created the desk for African affairs.

As we all know now, the Dark Continent has since erupted into a conflagration that will boil over for months and probably years to come.

We feel that placing a man of Joe Satterthwaite's depth and experience in the top post dealing with Africa was excellent thinking. Then comes Gov. Williams' appointment. A change now, especially when the replacement has had no particular background for the job, shook up lots of folks.

But, this is politics. We accept its workings 1,000 times without notice, then discover, when the switch affects someone in the neighborhood how much it can hurt.

Keep Our Fingers Crossed

"It's crazy," an article in The Herald stated on Nov. 17. "But it could happen — crazier things have."

"If the Detroit Lions can take their final four games, and the Baltimore Colts loose theirs, the Lions would win the Western Conference title."

The piece was zanzy, certainly. We realized at the time this was a nutty idea, but it did have possibilities. Maybe, just maybe, the impossible would take place, we thought two weeks ago.

Having watched the professional variety of the gridiron sport for about a dozen years, we've learned one thing—any club can beat any other on any given day.

The NFL player draft plan makes this all possible, keeping the talent on an almost identical keel for each team from year to year.

Tremendous games, attracting upwards of 55,000 spectators every week, are the result.

Detroit's chiller over Baltimore is an example.

We imagine that several thousand sports enthusiasts of this area were huddled in front of their TVs Sunday afternoon, watching the impossible take place.

They agreed, it couldn't happen, but it did.

By winning that one, the Lions have made our story look almost reasonable.

If ever Dame Fortune was beckoning a team to trod the glory trail, the 1960 Detroit squad is it.

Now, all together Lion fans, let's cross our fingers.

Decorations Look Swell

New decorations for Christmas in the downtown section look grand.

There were some headaches when they first went up — short circuits, no lights at night — but everything is being worked out.

It's amazing how much the various items cost. Between the materials and the expense of putting them up and taking them down, about $1,500 will be spent.

The decoration committee of the retail division of the Chamber of Commerce hopes to continue getting more display material, a little each year, until eventually Tecumseh is one of the sharpest looking communities at Christmas time in the entire state.

Our Readers Write

December 3, 1960

To The Editors:

I was interested in the letter you published last week from the gentlemen who was unhappy that the city is going to put parking meters in the off street lots.

Especially as the same issue mentioned that $1,500 is being spent for Christmas decorations.

It seems to me that the Tecumseh merchants could create a longer lasting good will by using the money instead to help pay the cost of the parking areas, and leaving them free as at present.

Don't misunderstand me. I am all in favor of beauty at Christmas.

I am also in favor of giving a break to the fellow who keeps you people in business.

Let's not soak him at every opportunity.

Frank Stanton

(Editor's note: The merchants' share of Christmas decorations was $1,000. To provide A-1 parking facilities — buy land, hard-top, light, mark — will cost about $65,000.

Merchants worked nearly one year trying to figure how the much-needed parking program could be financed without metering the spaces. There just wasn't any.

While a storeman can afford to chip in $25 to help purchase Christmas decorations, he cannot kick in about $1,500 to $2,000 for parking, plus continued contributions for upkeep.

Under the present plan, revenue bonds are providing needed cash. The bonds are paid off with pennies and nickles that will be collected from the meters. Thus, everyone is helping to pay for our excellent downtown parking, , customers and merchants alike.)

To The Editors:

Since I have spent nearly 10 months at King Salmon Air Force Base, Alaska, I have found that receiving The Herald is about the only real way of knowing what's going on around Tecumseh.

King Salmon is at a remote site, located about 300 miles southwest of Anchorage. Because of long working hours, we are unable to get a leave or pass to leave King Salmon, so you can see what sort of a place this is.

Television is one thing we don't have up here, so that's another bad thing about it.

I've always read The Herald and think it's real great. Receiving it has really made this tour up here easier for me.

I'll be leaving King Salmon by Jan. 24 and coming home on a 35-day leave before going to Greenville, Miss.

Thank you for all that you have done.

Yours truly,
A/3c Donald L. Sweet

I'm a retail lumber dealer in Spring Lake, Michigan, whose hobby is the Civil War. I collect Civil War relics, documents, weapons, letters, etc.

I'm now doing research for a talk on "Southern Michigan Men In The Civil War." I would appreciate hearing from any of your readers who have any Civil War material; letters, pictures, equipment, relics, etc., which they no longer want or which they would let me borrow. Needless to say, it would be guarded carefully and returned promptly.

If any of your readers have Civil War material they would let me use, I can be contacted at the address below.

THROUGH MY WINDOW

MY, BUT HE IS RED!

Streaks and flashes of red have enlivened our window pictures lately and made the watching most interesting. Yes, cardinals are around and of all the birds we see they are, I think, everyone's favorite.

Everyone in this house, that is. They are so bright and colorful that even their far-away visits are fun.

Far-away? Well, maybe I should just say they aren't coming as close as we would like them to.

The situation is not as bad as it was with the brown creepers. The cardinals are at least coming into our trees, which is more than cen be said for the stubborn creepers who are still preferring Marsh's big elm.

We are however, never completely happy with the red birds until they come to the feeders. This is going to take more weather than we have had as yet — come snow and come the pretty ones.

But, as mentioned earlier, we are seeing cardinals and for that we are most thankful . . . a sudden flash of crimson or that unmistakable "cheep, cheep, cheep" are attention alerters.

He may be sitting in the wren tree, she may be searching along the creek bank or perhaps a small flock will be out in the barberry bushes.

How many — well, sometimes there is one, sometimes two and on specfal occasions four. Two males and two females. My, but they are a handsome bunch.

☆

INDUSTRIOUS too — they are always busy, especially when working at the barberry. They apparently find the bright red berries tasty — hope they don't eat them all before the bad weather sets in.

Corn is also good cold weather food. The corn tree and the ears on the fence receive much attention. Those strong bills make short work of twisting kernels free and then grinding them open to expose the eatable inside portion.

Usually our fine red feathered friends — and probably I shouldn't call them that, but really, this is a little maddening, they are fond of sunflower seeds, but with all the good weather making "eating on their own," so easy, they are completely shunning our feeding station and it's sunflower seeds bill-of-fare.

I said the cardinals were a hard working, heavy eating lot and 'tis true, but with a single exception. One male seems to do little except sit around and look beautiful.

He is above such things as berry eating and corn cracking — at least we seldom see him doing anything but posing.

Of course, he has a right to be proud and a little vain. He is a truly handsome bird, so bright and brilliant that the others seem dull in comparison.

☆

WE ARE hoping that the indications hold true and this turns out to be a good cardinal winter. As mentioned before several times we have had a foursome, but once, several weeks ago, we saw six of the birds together.

They were in Marsh's yard, flitting in and out of the big evergreens — red against green, a lovely sight. And this brings up another point in favor of the cardinals, especially the men folk.

Their crimson suits are so noticeable that, even at a distance, the birds can be readily seen and enjoyed.

☆

SPEAKING OF enjoyment and good cardinal winters, I think we can never equal, let alone top, a winter many years ago. It was a hard season, cold with lots of snow.

Our bird feeding activities centered around a window-sill tray and a big covered feeder on the fence. Many times that year we looked out and counted 12, 14, even 16 cardinals.

They would be on the fence, near the window — well, just everywhere, I shall never forget how beautiful and how thrilling, all those red birds were — one cardinal and deep white snow make a perfect picture, just imagine having 16.

So it is that the cardinals are around and our fingers are crossed for a good season. They are all so pretty, but one is especially beautiful, my he is red!

Outstanding Holiday Gifts

Tecumseh Stores Are Ready for Giant Christmas Season

With some of the biggest inventories they've carried in years, Tecumseh stores are all set for a giant Christmas season.

Beautifully-decorated store windows are attracting the eyes of gift buyers, who have been busy preparing for the biggest giving spree of the year.

There'll of course be a lot of late Janes and Joes. Merchants in Tecumseh have done their best to make sure they too will be properly taken care of by stocking popular items in depth.

But even this won't always guarantee any of the most-sought-after merchandise being available the last day or two before Christmas.

So the storemen join in saying, "Shop early. In this way you'll be more certain of getting what you want for those real special folks on your gift lists."

All business places in Tecumseh will be open from 9 until 9 each Friday and Saturday until Christmas. Beginning Monday, Dec. 19, the hours will be 9 to 9 every day until Christmas eve.

On the final night, in deference to employees being with their families, stores will close at 5:30 p.m.

Santa Claus has reported he'll be coming to Tecumseh Friday, Dec. 16 at 4 p.m.

He'll be downtown each day from then on, 9 a.m. until 5 p.m. Santa's headquarters will be a trailer, parked in front of the D&C store. This is being furnished to storemen at no charge by Paul's Trailer Court and Sales Co.

A giant free cartoon show for kids is slated for Saturday, Dec. 24. In the morning from 10 to noon, children under 10 will be the guests of the merchants at the Strand Theatre. In the afternoon, from 1 to 3, it will be movies for youths 11 and over.

Santa will be passing out goodies to all the theatre guests.

Arrangement for all these Christmas events are being made by the retail division of the Chamber of Commerce.

EXCELLENT OFF-STREET PARKING FACILITIES ARE A FEATURE OF DOWNTOWN TECUMSEH'S BUSINESS SECTION. THIS IS HARD-TOPPED, LINED, LIGHTED LOT BEHIND FIRE HOUSE.

LENAWEE COUNTY'S OLDEST NEWSPAPER

SERVING TECUMSEH, BRITTON, RIDGEWAY, MACON AND TIPTON

VOL. 110 — ONE HUNDRED ELEVENTH YEAR — NUMBER 9 TECUMSEH, MICHIGAN, THURSDAY, DEC. 15, 1960 16 PAGES — TEN CENTS A COPY

TOM RIORDAN'S Long AND Short

His Honor Harold Easton was phoned last week by his opposite number in Adrian, Mayor Roy McPhail.

"Would you do us a favor," Mr. McPhail asked, adding in effect, "We were wondering if you would send telegrams to Senators Hart and McNamara and Rep. Meader in Washington, asking for their help in having the old Bridgeport Brass plant sold to Harvey Aluminum, instead of being sliced up for junk."

He said that mayors of Blissfield, Hudson and Morenci had all agreed to do this.

Mayor McPhail could probably see Harold grin as Tecumseh's head man replied, "All taken care of, Mr. Mayor. Telegrams to all three were sent yesterday. Besides, we did you one better, sent one to Ike, too."

The previous day Chamber of Commerce members gathered informally to discuss how Tecumseh might aid Adrian's cause, which, of course, has its affects on the entire area.

Wires seemed the best plan and they were dispatched post haste.

The Bridgeport situation has been the point of conversations all around the county since bids on the old White Elephant were opened two weeks ago.

As most folks already know, Harvey was second high in the bidding. Its officials announced should it get the Adrian plant, there would be a going operation there, employing 2,500.

High bidder was a junk firm, which said it wanted to tear down the building and salvage the materials.

It's quite obvious, even to an elementary student, that every effort should be made to work a deal whereby Harvey would be declared the winner, by matching or topping the junkmen's offer.

Adrian wins not one whit should the Bridgeport plant give way to wrecking bars.

But, man, should a full-blooded industry start going there, it would begin a flow of millions of dollars through the area.

That's like giving blood to an accident victim, instead of measuring him for a pine box.

Adrian needs the Harvey plant, so does the entire county.

This lone bold stroke would go a long way to boosting the over-all economy from one of lethargy to a real boomer.

Tecumseh sure hopes Adrian's leaders are going to make a "sale" with officials of Government Service Administration, which handles the sale of surplus federal property.

Mrs. Hamilton Moore, Jr., our Macon correspondent, points out that members of the Emmanuel Lutheran Church of Britton were among the first to lend assistance to the Charles Davenport family, which was burned out two weeks ago.

☆

Attending Sunday's Christmas concert by the Boysville chorus and band was enjoyable.

Of special interest was hearing the musicians play several original compositions by Brother Phillip Armstrong, CSC, who is in charge of music at the nearby school.

In addition to the Christmas music, there was also a delightful jive session by a five-man combo called the "Satan Chauffeurs."

A rendition of their theme, which the boys wrote themselves and titled "Satan", is worth recording.

Strand Girls Like To Arrive on Same Dates

Mrs. Raymond Pask reports an interesting coincidence in the family of her daughter, Mrs. Henry Strand, 1205 Murray Dr.

A baby girl, Tena Marie, was born Dec. 1, 1960 on the 18th birthday anniversary of Mrs. Strand's oldest daughter, Donna Rose.

Four years ago on April 21, Easter Sunday, another daughter, Joan Helen, was born on the ninth birthday anniversary of a fourth daughter, Carol Louise.

Beside these four girls, the Strands have two other daughters, Sonya Jean and Marcelle Yvonne.

They also have three boys, Henry Alfred, Terrance Nelson and Mark Wilbert.

Board Wrestles Cash Problem

By JIM LINCOLN

Possibly next month, or at least in February, the Tecumseh school board will make its decision to thwart deficit spending in operating the Tecumseh schools.

Members agreed Monday night that they should first study the University of Michigan survey of the schools before reaching a decision. The completed survey is expected here next month.

Supt. James McDowell presented cost figures of several school departments and services, totaling $109,116.57 (note breakdown at right.) Elimination of some departments, it was pointed out at the meeting, would cause the schools to lose their accredidation.

Members and the administrator discussed each item, its cost and the practicability of continuing or dropping it from the school program.

The board's choice lies between cutting expenditures or again asking the school district electorate to approve an increase in millage.

☆

IN OTHER action, the board:

1. Refused to change the bus regulations to pick up a 14-year-old boy who has to walk three-tenths of a mile to the bus stop.
2. Requested bids for installation of a draft inducer stack fan for the Macon school.
3. Welcomed the assistance of the Chamber of Commerce, represented by Royal Welch, director, in helping the schools through their financial predicament.
4. Accepted the resignation of Sally Baker, Tecumseh Acres kindergarten teacher.
5. Granted leave of absences for the next school semester to Mrs. Donald Zink, Mrs. James Keller, Mrs. Edward Baltz, and Mrs. James Lincoln.

Accepted a gift of $872.04 for library books from the Tecumseh Acres PTA.

Leo Bishop Has Resigned as Club Pro

After 11 years as professional at Tecumseh Country Club, Leo Bishop has resigned.

Mr. Bishop submitted his resignation to the board of directors and said that he is taking a position with a Detroit area club.

At Tecumseh, he served as both golf instructor and greens superintendent.

His talents at both golf and maintaining the layout were widely recognized. Greens and fairways here have been regarded as among the finest in the state.

Mr. Bishop resides at 630 N. Union St. with his wife and daughter, Sandy, a junior at St. Joseph's Academy in Adrian.

CATHY MERRITT AND DAVID IRELAN POSE IN COSTUMES THEY'LL WEAR MONDAY

Echo Favorite Moods

The Tecumseh High School Chorus concert coming next Monday evening, should echo some mood of Christmas close to the heart of each person in the audience.

Whether it be intellectual, emotional, old or very young, choral works of great composers will be sung, interwoven with some of the simple carols everyone knows by memory.

Colorful pageantry will range from the pomp of processionals by the chorus and the Three Kings, to the adoring approach to the stable by the ragged little drummer boy, the angels on the hillside and the shepherds in the valley.

The audience will feel the realness of the Judean hillside when they view the sheep among the rocks, hear them call to each other and finally, to hear the shepherds echo the announcement chorus.

"The Christmas season brings with it many of our favorite things. We renew old friendships, we visit distant relatives, we sing out best loved songs, we are buoyed up and refreshed by some of life's finest expressions of generosity and good will," says Les Bennett, director of the chorus.

The Broadway hit song "My Favorite Things" will be included in the Echoes of the Hills portion of the concert. Two chorus members, Cathy Merritt and David Irelan, have created an original dance to interpret the song for the audience.

They will be dressed as a couple from the Austrian Mountains, which was the original setting for the song.

The program will include:

1. Echoes of Announcement
2. Echoes of Anticipation
3. Echoes of Adoration
4. Echoes of Legend
5. Echoes in the Hills
6. Echoes of Praise
7. Echoes of Hope.

Truck Collides with Automobile

Perry Wirick, 61, of Occidental Rd. and Howard Brooks, 65, of rural Tecumseh, were involved in an accident Wednesday at 7:45 a.m. on M-50, one mile west of Tecumseh.

State police stated that Mr. Brooks, who was driving a truck tractor owned by Hayden Flour Mills, made a left turn from M-50 into the driveway of the Tecumseh Equipment Co. in front of the Wirick auto.

Mr. Wirick was taken to Herrick Memorial Hospital.

Britton Well Hits Black Gold

BRITTON — A pocket of oil was hit by McClure drillers on the Milburn Preston farm north of here last week.

The strike was made between 2,600 and 2,827 feet in the Trenton Line.

It won't be known how productive the well will be until a pumper is brought in and pumping operations started.

Mr. Preston, owner of the land who will collect one-eighth of all royalties paid, enjoyed the privilege of being covered with oil as it sprayed in a fine mist from the drill stem.

Nothing So Far at Allen Well

The McClure drillers on the Charles Allen farm north east of Tecumseh were down to a depth of 3,953 ft. Wednesday with "nothing encouraging" says Kirk Roberts.

The Trenton area has been passed and they are into the Black River level. The drillers expect to go as far as the Prairie Du Chein level which is 4,045 ft. before they quit.

PHONE FIRST

Before Giving Baskets

Those planning to help the needy of Tecumseh and the surrounding area at holiday time are invited by the Service Club to do this work in a systematic way.

Mrs. F. F. Dickinson says, "In order that duplications may be avoided it would be helpful for any group or organization delivering baskets to clear names of the families assisted, with the Tecumseh Service Club."

She asks that such information be called to her HA 3-2707 or to Mrs. John Thompson HA 3-2831.

With the assistance of individuals and organizations, citizens may be assured that no Tecumseh area family will be without a Christmas basket.

Study Committee Is Being Formed

Tecumseh Chamber of Commerce board of directors voted Monday night to organize and sponsor a Citizens Study Committee, which would help the Tecumseh schols, especially at this time when the schools are in a financial crisis.

The directors, by letter to the schools, agreed to assist if full cooperation of the board was received.

8 Arrested for Thefts In Market

A crackdown on petty stealing in the Country Markets, Inc. store here last week produced eight arrests, including three juveniles.

All eight admitted their guilt when stopped by a detective as they left the store.

Arraigned before justice courts here and in Clinton were:

Mable Jane Cowan, 81, of 120½ W. Chicago Blvd., fined $10 and $4.30 costs and given a 10-day suspended jail sentence.

Frances K. Prochaska, 44, of Pennington Rd., fined $10.75 and $4.30 costs and a 10-day suspended jail sentence.

Jennie M. Radar, 29, of Staib Rd., not arraigned yet.

William H. Rogers, 43, of 301 Maple St., fined $15 and $4.30 costs, or three days in jail. Fine paid.

Geraldine W. Strahle, 35, of 304 E. Chicago Blvd., fined $15 and $4.30 costs and given 10-day suspended jail sentence.

The youths' names are not allowed to be published. One was 17-year-old, another 16 and the third 12.

The items taken included canned hams, roasts, cough drops, butter and throat spray.

Shop lifting has taken an upswing in the store here during the past six months, explained store manager Merle Hoag.

The detective, hired by Country Markets, Inc. to police all of its stores, makes regular visits here. Last week's arrests hit a peak.

Pilferage losses in the Tecumseh outlet has topped several thousand dollars a year, Mr. Hoag stated.

Other Tecumseh business places have reported rising losses from shoplifting in recent months.

There is a possibility that merchants will hire detective to cover stores on a continuous basis to stamp out the petty thievery.

In Thawing Pipes Fire Is Started

The Fire Department answered an alarm Monday at 9:05 p.m. at the home of Henry A. Strand, Jr., 1205 Murray Dr.

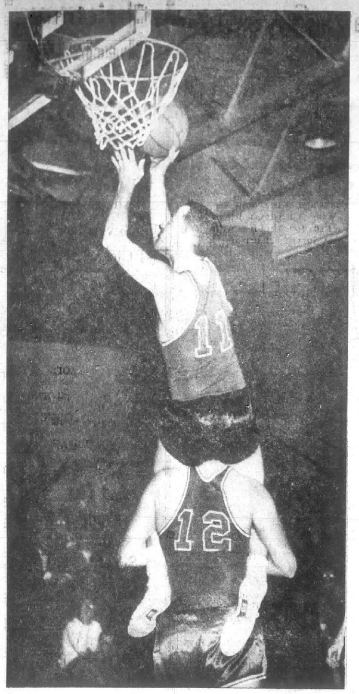
Doors of the Strand Theatre open at 10 a.m. for youngsters 10 and under. Show for those 11 and older starts at 1 p.m.

Santa Claus will be on hand and pass out treats to the youngsters.

This annual free event is made possible through a donation from the Tecumseh Community Fund Foundation.



JAYCEE HI JINX—After being the brunt of several jokes Monday night, the Jaycees decided on one themselves, with Jerry Barton getting onto Chuck Sanch's shoulders. When Jerry got the ball he shot, missed, shot and missed again. On the third try he got the goal, but by then the referee had called "steps" on the Barton-Sanch duo.

'You're Pinching!'

"One shot, you're pinching," referee Dunc Lectka bellowed at Dike Helms, a Jaycee basketball player Monday night.

The crowd howled.

Helms was the victim of just one of the gags which took place on the Tecumseh High School hardwood as the Jaycees faced Hazel Walker's Arkansas Travelers.

When the battle was over, the Jaycees were fagged and the scoreboard showed them on the short end of a 61-54 count.

In a preliminary contest, the Chamber of Commerce stopped the football-uniform clad Tecumseh School Faculty, 30-20, in a game that had its share of laughter.

The evening's entertainment was sponsored by the Kiwanis Club. A thin crowd of about 300 attended.

The gal pros are great athletes.

Their 5-11 Frances "Goose" Garroutt poured through 26 points with an amazing one-handed shot.

She and her teammates displayed uncanny ball handling abilities. Their revolving offense had the heads of their opponents spinning.

Tiny Gina Wood was one of the best players on the floor. She continually snatched the ball from the fellows and at one point dribbled through the legs of a Jaycee and calmly dropped in a bucket.

The Jaycees were a bit ragged in the first half and possibly taking their feminine opponents too lightly.

They hustled more in the final two periods and managed to cut the score a bit, but the gals always managed to keep things under control.

☆

THE OPENER of the double header saw the teachers trotting onto the floor in gridiron garb.

But they couldn't match the Chamber eagers' in the shooting department. Dick Hicks, manager of the D&C Store, poured through six baskets to pace the winners.

For the faculty, John Pobuda and Jim Hoffman led the individual tally parade.

At one point, the ball changed hands half a dozen times without ever getting more than 15 feet from mid-court.

First one team would intercept a pass, then the other. When this interchange was finished so were all 10 players on the floor at the time.

Officiating were Tim Neill, dressed as Marshall Dillon complete with six-gun which fired blanks, assisted by Jim McKenna, as Chester, gimpy leg and all.

It was an evening of fun.

With 15 Seconds, THS Quintet Wins on Britton's Goal

There were 15 seconds showing on the clock when John Britton tossed in a basket that gave Tecumseh its first win of the season.

The 52-51 decision was over Airport Friday on the Jets' court.

Next two tilts for Coach Doug Murdocks Indians are on the local floor, Blissfield this Friday night and Adrian Tuesday, Jan. 27.

The victory over Airport was a Huron League game.

In the final minutes of play, the Indians saw a comfortable five-point bulge disappear when the Jets put on a full-court pressing defense.

Airport held a one-point margin when Britton got his key bucket.

Both Britton and Larry Titley ended their night's work with 16 points.

"John and Larry did a good job offensively," Coach Murdock stated. "Titley and Mike Tucker performed well on rebounding.

"Sophomores Norman Tucker and Bradley McCombs turned in fine performances at the guards," the coach said.

Varsity record now stands at 1 and 2.

☆

THE JAYVEES won a thriller from Airport, 46-39, and the defensive play of Roy Rodriguez played an important part along with the scoring of Craig Rosacrans.

Tecumseh was behind 27-16 at the half.

Coach Jim Hoffman sent Rodriguez and Clark Nichols, up from the freshman team, into the Junior Indian lineup to open the third quarter.

Rodriguez was assigned the job of guarding Airport's Bill Harold, who had netted 19 points in the opening half.

Roy held Harold to six tallies and Nichols hit for 10, eight of these in a row.

Tecumseh rammed through 15 tallies in a row to close the gap late in the contest and then roll along to the victory.

The Indians' high scorer, Rosacrans, had a fine evening, getting 25 markers.

Phil Radant worked well on the boards for Tecumseh the coach reported.

This does not prevent them from taking their choice or specific jobs and overseas enlistments.

The group met at the home of Mrs. Victor Voorhees for a cooperative dinner, Christmas meeting and gift exchange.

Mrs. John Quigley will deliver the boxes to the hospital.

43,000 Acres Were Treated for Beetles

More than 43,000 acres, infested with Japanese beetle in three of Michigan's southeastern counties late this autumn were aerially treated to destroy the larvae of the insect.

Work in the counties of Wayne, Monroe, and Lenawee started on Oct. 13 and was finished on Nov. 19.

Total cost was about $140,000, of which the state's share is approximately $70,000.

The insecticides used was aldrin at the rate of 20 pounds an acre. Only two of the 20 pounds was active ingredient with the rest inert matter. The amount used in the aerial treatment program was 461 tons.

The beetle is known to feed on 250 different kinds of plants.

The bride approached the altar in a street length sheath of winter white, imported wool, lace over taffeta.

It was fashioned with a modified scooped neckline and shirred elbow length sleeves.

She wore wrist length white gloves and a white velvet petal clip hat with nose length veil of misty sheer illusion.

☆

HER SINGLE strand of pearls and matching earrings were the gift of the groom.

Christmas Pageant Is on Sunday

Sunday evening, Dec. 18 at 7 p.m., the Sunday School Department of Tipton Community Church will present its Christmas Pageant.

The play entitled "The Littlest Angel", is proving to be an enjoyable and unusual one. The story concerns the birth of Jesus, and its effect upon the angels in Heaven. Most especially, it presents one little angel's problems and concerns over the coming event.

Playing the part of Michael, the littlest angel, will be Robert Osburn. Others in the cast will include: Diane Spycher, Kay Becker, Connie Cox, Nancy Evans, Richard Fritz, Brenda Allen, Danny Dewey, Richard VanSickle, Robert Platt and Steve Daniels.

There are also numerous minor characters and an "angelic choir of 80 members.

Lillian Whelan is in charge of the costumes and scenery Working with her will be Connie Jackson, Gerry Buell, and Doris Crosby.

The public is invited to attend this year's performance

Ministers

The Lenawee County Ministerial Association meeting will be held at the Raisin Presbyterian Church in Holloway Monday.

A special Christmas dinner will be served at noon by the Ladies Oid of the church.

The Rev. William Pelly, pastor of the church, invites all ministers and their wives in this area to attend.

He says that a special program is being prepared for this event, which is the only meeting during the year when the wives join their husbands.

One of Nation's Best

Sharon Mitzner, daughter of Mr. and Mrs. Russell Mitzner of 8912 Matthews Hwy., scored well in judging at the National Livestock Exposition in Chicago last week.

The 18-year-old Sharon, a member of the local Country Hi-Steppers 4-H Club, came in sixth in the nation, judging sheep. Her score was 141 points.

With a score of 178 she was seventh in judging swine.

Teams of four members from 35 states spent the entire day last Friday judging swine, beef and sheep.

Michigan's team, Sharon, Mary Lathrop from Riga, Dick Haist of Chelsea and Allan Ayris of Mt. Pleasant, rated 16th in the competition.

They were 12th in the nation in judging cattle.

The group stayed at the Conrad Hilton Hotel and enjoyed a banquet at the stock yards Saturday evening, a party in the grand ballroom at the Palmer House and breakfast for the Michigan delegation Sunday morning, given by the Michigan Farmer magazine.

Sharon is a freshman at Adrian College this year, majoring in science. She hopes to be a doctor of veterinary medicine or work in the veterinary research field.

Sharon had hoped to win some money in this competition to enable her to go to Michigan State College.

She came so close that it really was disappointing even though she scored so well in the national contest.

In a tie for fifth place the winners were chosen by name alphabetically. For the moment it was sad that Sharon couldn't have been Sharon Adams instead of Sharon Mitzner.

Coldwater Comes Here for Debate

Tecumseh High School's debate team participated in its first competition of the season last week in Ypsilanti.

Fawn Choske, freshman, and Nancy Nixon, sophomore, were the affirmative team and Arthur Collingsworth, junior, and Sue Fuller, freshman, made up the negative side.

Though the group lost this contest, Anthony Bronzo, advisor, said they handled themselves well.

They were debating against senior students with several years experience.

For many of the local group this was their first contest.

Phillip Miller accompanied the group to Ypsilanti.

On Dec. 20, two separate debates with Coldwater will be held in the high school study hall and the library here at 2 p.m.

Topic of the debates scheduled this year is "Resolved that the United Nations should be Significantly Strengthened.."

They were attended by Mr. and Mrs. Norman Dinius.

A reception for about 30 relatives and friends was held at the home of the Rev. and Mrs. Bashore during the evening.

MRS. GEORGE HALBERSTADT HAS MASTERED ART OF MAKING THE BEAUTIFUL STRAW STARS

Stars from Straws

Lovely Swiss Christmas stars can be made from colored cellophane soda straws and crochet cotton at an extremely low cost.

The stars, with 20 points, may be made in two sizes, two feet or a giant four feet from tip to tip.

A dexterous person can make a star in three hours from 75 straws and 60 yards of crochet cotton.

The two foot star of eight-inch cellophane straws may be made for less than $1.

The four foot star of 18-inch straws costs $1.25 per 100 straws.

A needle of florist wire is used to thread the straws. It must be a bit more than twice the length of the straws.

Bend wire double, twist strands together, leaving a loop at doubled end, small enough to pass through straws.

Cut 15 of 75 straws in half. Thread wire loop with crochet cord. Pass needle through three halved straws.

Cut cord and tie ends to form a triangle. Add triangles (Figure A) by rethreading one straw of the finished triangle, then adding two more halved straws. Cut cord and tie.

Repeat process (Figure B) to form figure at top, take cord hanging from last straw, pull up to triangle, as shown by dotted line tie tight. This forms the tentlike figure.

Finish core of the star (Figure C) by same threading process, using remainder of straws. Figure is made by adding triangles (indicated in black) to bottom straws of tentlike top. Add base straws to these triangles.

To base, add bottom triangles (Figure D). The bottom of the core should look exactly like the top. By attaching five triangles to the base straws of the firm structure, the core is automatically completed.

To attach the points, full-length straws are used, three for each point. Each of the 20 triangles of the core gets a star point added to it.

Pass needle through full-length straw, through half straw on core and up through another full-length straw. Cut cord at top of point, leaving ends loose.

Now pass needle down through left long straw and back through opposite base straw of triangle, up through another full-length straw and tie ends of cord with others at the point of the star. Complete points for each of the 20 triangles.

Mrs. George Halberstadt, who makes these pretty stars, is willing to demonstrate for any local group who would like to make them.

Mail Now

Postmaster Jack Metcalf has put his "Mail Early For Christmas" Campaign into high gear.

Jack said, "We're heading into an all time record for Christmas mail this year. Every facility of the Post Office has been expanded to render maximum service. We've added extra trucks and personnel.

"Special mailing schedules have been set up to insure prompt handling of the tremendous flood of both incoming and outgoing Christmas mail."

"The vast volume of Christmas mail is only part of our problem," the postmaster continued, "carelessly written names and addresses, poorly wrapped packages, insufficient postage, and other oversights are bound to result in delays and disappointments."

Patrons can insure delivery of Christmas cards and gifts before Christmas eve if they follow these simple requirements:

- Be sure your Christmas card and gift mailing list are up-to-date.
- Wrap your Christmas gifts securely.
- Use complete addresses — including street number, rural route or post office box number. Be sure name of street is complete with avenue, parkway or drive included. Do not abbreviate street and state names. Use zone numbers.

Most important of all—mail your Christmas cards and gifts within the next few days.

Newsman Is Speaker at Rotary

Winston K. Pendleton, head of the Florida Press Bureau in Washington D. C., provided the entertainment for a Rotary ladies night at the Baptist Church, December 6.

Mr. Pendleton approached his subject "People and Rotary from a point of View" from many different directions.

Each approach was a humorous emphasis of the fact that acquaintance is the first step to service.

Mr. Pendleton firmly believes that no one can worry and laugh at the same time.

Dr. John Dawson, president of Adrian College, will speak to the Rotary Ann meeting Feb. 14.

The Rotary club will bring Mort Neff to Tecumseh May 16.

Altar Society Enjoys Holiday Gift Exchange

Fifty-six members of the St. Elizabeth Altar Society met at the school Dec. 7 for a Christmas party with gift exchange under a decorated tree.

During a business session it was voted to extend the traveling baskets and the "coffees" through the month of January.

Tea was served from a white linen-covered table centered with a Christmas centerpiece of red and white.

A cleaning session will be held Dec. 23 at the church. All ladies are invited by the committee to assist in making the sanctuary lovely for the holiday.

Mrs. T. J. Wagner was awarded the centerpiece.

Not Taking Part

Through an error, Osborne's Dept. Store was reported last week as being open for Men's Night, Dec. 14.

Neither Mr. nor Mrs. James Osborne were contacted about the particular evening and did not wish to be included or advertised as being open.

Filmstrips Are Shown

Sixteen members and guests of the Power Class of the Tecumseh Friends Church met at Rock Inn for dinner Nov. 26. Two talking filmstrips were shown.

The Rev. Paul Brantingham led the devotional portion of the evening, by conducting a discussion around John 3:16.

The December meeting of the class will be held at the home of Mr. and Mrs. Dick Butler, at which time the group will pack the treat for the annual Christmas program of the Sunday school.

Mr. and Mrs. Clark Pearson and their committee were in charge of arrangements for the evening.

Grace Lutheran Members Enjoy Pre-Yule Concert

A pre-Christmas concert was held Sunday, Dec. 11, at the Grace Lutheran Church.

Seventeen numbers were separated into two parts, the first musical numbers of the year's church music and the second Christmas numbers.

William Cyr sang a bass solo, "O Come, O Come Emmauel."

The Rev. K. F. Koeplin, pastor of the church, said that he hopes that this concert may become an annual advent service.

The Rev. Darvin Raddatz, a professor at the Michigan Lutheran Seminary, spoke Dec. 4 in the Grace Lutheran Church Sunday due to the illness of Rev. Koeplin.

The Rev. Koeplin said that it was the first in nine years that he had not been able to serve in the pulpit.

You Told Us

BY DOROTHY GRIGG
Herald Society Editor

Santa Claus must be on a diet. Three times now it has been reported that the jolly old man has almost lost his trousers.

This last incident occurred at the family Christmas party of the Mothers of Twins Club Sunday, following a potluck dinner at the Grange Hall.

Old Santa, a good natured high school student, took the stairs three at a time in his haste to escape the view of the 62 persons, making up the families of ten members of the club.

Luckily the mishap took place after he had presented each girl and boy with a gift however.

Mrs. Norman McConnell, Mrs. W. J. Morse accompanied Mrs. Horace Aten and Mrs. Hazelle Eaton of Jackson to DuBary, Fla. They left Thursday morning.

Mrs. Russell Hall left Wednesday to visit her daughter and family, Mr. and Mrs. Elwyn May, in Los Angeles.

Barry Brock arrived home Monday from Michigan State University to spend the Christmas holiday.

Mrs. Richard Woodcox underwent eye surgery Tuesday at Bixby Hospital.

Mrs. E. J. Aebersold underwent eye surgery Wednesday at St. Joseph Hospital in Ann Arbor.

Mr. and Mrs. Lee Elliott and family of Trenton were dinner guests Sunday of Mr. and Mrs. Claude Sebring.

Mrs. James F. Hartsell left by plane for Germany Tuesday. She will spend two months with her husband who is stationed there with the Air Force.

Mr. and Mrs. William Hotrum were in Howell Sunday for the confirmation of her grandson, Jackie Campbell at the Episcopal Church. Jackie is the son of Mr. and Mrs. Loren Campbell, former Tecumseh residents.

Charles E. Henson Is 'Boot' Graduate

GREAT LAKES, Ill.—Charles E. Henson, son of Mrs. Mamie Henson of 308 E. Chicago Blvd. graduated from recruit training Nov. 19 at the Naval Training Center, Great Lakes, Ill.

The graduation exercises marked the end of nine weeks of "boot camp".

Sports Car Show

The Henry Ford Museum's tenth annual sports car show will open January 13 and run through February 5.

Miss Champanois Weds Mr. Peterson at Baptist Church

Margaret Champanois and Richard Peterson were married Dec. 2 at the First Baptist Church by the Rev. B. O. Bashore in the presence of the immediate families.

She is the daughter of Mr. and Mrs. Clarence Champanois and the groom is the son of Mrs. Paul Peterson and the late Mr. Peterson of Cleveland, O.

Mrs. Edwin Lewis and Jerry Fox were the attendants.

Mr. Peterson is employed at the Tecumseh Kroger Store.

The couple will make their home here after a wedding trip to Florida.

"Dear Santa . . ."

All over America, boys and girls are eagerly awaiting the coming of Christmas . . . looking forward to the toys for which they've asked in their letter to Santa. It's a big job for Santa—keeping all these boys and girls happy—but he has a big helper in the trucking industry. The hundreds of thousands of trucks and trailers that all year long bring Americans everything they eat, wear or use are kept extra busy at Christmas-time. From factory to showcase to Santa's pack, the toys and other gifts that bring so many happy smiles on Christmas morning depend on trucks to get where they're going . . . Merry Christmas, everyone

It's wonderful to feel cared for
Comfort means more to the aged. A favorite chair. A newspaper at evening. The privilege of slipping silently off to sleep. These things grow in meaning with each year. And then there's the special comfort of knowing that sudden illness will not be a financial hardship on others. That's where Blue Cross-Blue Shield can help. You can keep your Blue Cross-Blue Shield protection after retirement if you are employed in a firm having Blue Cross-Blue Shield. And there's no need to worry about having it canceled because of recurrent illnesses or repeated hospital stays. These are added reasons why Blue Cross-Blue Shield protection is chosen by nearly half of the people in Michigan. How about you?

Mystery Farm Has Dairy Herd of 30

Martin M. Halley is the owner of last week's mystery farm, located on Staib Rd. and known to many as the Kaiser farm.

There are 133 acres, which are primarily cropped for the 30 Holstein dairy herd.

Mr. and Mrs. Halley have resided here for 13 years and have made many improvements.

Rumor states that the house, which was built in 1855 by Horatio Kaiser, constructed of bricks which were made right on the farm. Thumbprints are still visible on some bricks.

The Halley family has two married daughters, Mrs. Norman (Margaret) Bless of Onsted, teacher and Mrs. Pablo (Katharine) Valencia of Cambridge, Mass.

A son Roger is a teacher in Onsted and another daughter, Marlynn, attends Adrian College.

The Halleys attend the Friends Church, belong to the Farm Bureau, Grange, Tecumseh Lodge F. & A.M. and the Order of Eastern Star in Ohio.

Mrs. Chet Godzina of Britton was the recepient of two passes to the Strand Theatre for her identity of the farm.

Jerry Barton To Chairman 1961 'March'

Jerry Barton has been named Tecumseh chairman for the annual March of Dimes.

The event will take place during the entire month of January.

On Jan. 3, Mr. Barton plans a special coffee, in which local restaurants will give coffee to patrons, who in turn will make a dime donation to the March.

The annual Mothers March is going to cap the campaign, coming on the evening of Jan. 31.

The March of Dimes is no longer supporting just research on polio, but now had broadened its base of operation as The National Foundation, to include birth defects and arthritis.

Concrete Can Be Poured Now

When certain precautions are taken, concrete structures can be built despite winter's freezing temperatures, states Clyde V. Stevenson, president of Kuhlman Concrete, Inc. of Tecumseh.

Citing research by the Portland Cement Association, Mr. Stevenson explained that the rate at which concrete hardens and gains strength is retarded by low temperatures and is accelerated by high temperatures.

Best results are obtained when the temperature of the concrete is about 70 degrees when placed in the form.

What's Going on at Boysville

By LOUIS CIAVONE

Boysville's Band and Glee Club held their annual Christmas Concert Sunday in the gym.

The concert was a mixture of Christmas and other music.

The "Satan Chauffers," an instrumental combo comprised of five students, played two numbers, including their own theme song, "Satan."

One of the highlights of the concert was "Three Bach Chorales," played by a brass quintet consisting of Joe Jaworski and Ed Budzynski on trumpet, Al Andreini on the bass, Ken Snooks on the baritone and Ted Malinowski on the trombone.

√

A new bus is being purchased for Boysville. It is expected to be ready for delivery around Christmas, perhaps shortly after.

A 45-passenger vehicle, it will have three-seat rows on one side of the aisle, and two-seat rows on the other.

This new bus will be a great improvement over the old Blue Goose.

Funds for the new bus were furnished by the Archdiocese of Detroit.

√

Winner of the $10 first prize and a weekend home for selling the most Christmas cards for the Boysville Mission Club was won by Leon Mayotte.

Leon sold 72 boxes.

Ken Bennett and Ron Wells came in for second and third. Their prizes: a meal and a movie in Ann Arbor.

Brother Francis O'Donnell, C.S.C. moderator of the club, said that the card drive was quite successful.

√

Dec. 21 is a big day at Boysville when students will leave for Christmas vacation, beginning at 3 p.m.

Everyone is eager to see what Santa is bringing him!

√

The short but swift Fighting Knights of Boysville beat the much taller Britton-Macon Tories, 54-47, on the Tories' home court Friday.

The first quarter showed Britton ahead 18-16 and apparently in charge of the situation.

But Bill Gager's hook shots led the Knights in the second quarter as they gained a tie score, 24-24.

In the third quarter, the shorter Knights took possession of the all-important lead.

Dick Michniak and Ken Snooks started the Knights off, leaving the Tories behind by 10 points.

In the last quarter, Pete Mata led the scoring section of the Knights and was helped tremendously by the rebounding of Jerry Klos.

Although the Tories came to within three points of knotting the count again, a quick bucket by Klos put a stop to the surge, and the Knights were never seriously threatened again.

Bill Gager was high scorer for the Knights with 12. Dick Michniak and John McGeshick each had 11. Pete Mata got 10, Ken Snooks 8 and Jerry Klos 2.

The Knights take on the Deerfield Minute Men in a league contest on the Knights' home hardwood Friday.

Hubert Clarence Rosenberg, 45, of Lansing was arrested Tuesday at 12:35 a.m. and charged with being drunk and disorderly. He was found guilty and ordered to pay a fine of $25 and $4.90 costs or spend two days in jail. He was committed.

Phillip E. Dillon, 45, of 335 N. Grinnell St., Jackson, was given a summons for failure to stop in assured distance when he struck the rear of a car, driven by Frederick James Mattis, 46, of Springville Hwy.

Mr. Mattis had stopped for a car driven by John Gilberrtt Babcock, 28, of 305 Adrian St., which had stopped to make a left turn into Joe's Market.

The accident happened Saturday at 6 p.m.

Otto Herman Baaske, 65, of 309 S. Union St., was given a summons Monday for failure to halt for a stop light when the car he was driving ran into the car of Mary Patricia McCann, who had the green light. The accident took place Monday at 1:50 p.m. on Chicago Blvd. and Union St.

Ruby Giannini Robinson, 44, of 103 Bidwell St. and Idella Iva Wegner, 34, of 303 Outer Dr. were invovled in an accident Monday at 11:20 a.m. on Chicago Blvd. and Evans Street.

Both stated they had the green light and thought the other would stop. Mrs. Wegner was given a summons for driving with an expired operator's license.

Clyde Leroy Burleson, 20, of Pennington Rd. was given a summons for having a loud muffler on his car Sunday at 10:59 a.m.

Thomas Michael McCann, 20, of 212 N. Maiden Lane was given a summons Thursday at 8 p.m. for speeding 35 mph in a 25 mph zone.

Tecumseh Grade in Honors Group

ANN ARBOR—Over ten percent of The University of Michigan's College of Literature, Science and the Arts is enrolled in an honors program for gifted students.

Among the students is freshman Janet Graham, a Tecumseh High School graduate.

The Literary college's honors program was created at the freshman level in 1957. Students who entered then are now seniors, making the U-M one of the few institutions with a four-year honors program.

Beginning with about 140 freshmen, the LSA program has reached a total of 788 students at all undergraduate levels.

Pontiac trims side overhang to give you a new Wide-Track... greater stability
Notice that the sleek lines of the body are closer than ever to track width. We've trimmed side overhang. Every inch and ounce of this '61 Pontiac travels with steadier footing.
The change is also noticeable inside. We've increased seat height and allowed more headroom, legroom and footroom.
Clearance between steering wheel and seat is 12 per cent more than before. Doors are wider, swing open farther.
More balanced in motion. More comfortable inside. That's the Wide-Track way to travel. And there's only one place to try it . . . in a '61 Pontiac! Take a deciding drive soon.

THE ONLY WIDE-TRACK CAR! Pontiac has the widest track of any car. Body width trimmed to reduce side overhang. More weight balanced between the wheels for sure-footed driving stability.

THE TECUMSEH HERALD

An Independent newspaper, published every Thursday morning at 117 S. Evans Street. Entered at the Post Office in Tecumseh, Michigan as second class matter.

VOICE of THE HERALD

Stealing Affects Many

"Thou shalt not steal."

This is one of God's laws. Nothing we say or do can change it. Stealing is wrong.

In the last few days, there has been a crackdown on the thefts in a Tecumseh store. The more common name for this sort of thing is shop lifting, but it all boils down to stealing.

As with every crime—petty or major—there are ever-widdening circles of effect, far beyond the comprehension of the person who commits the act.

The theft might start to realize these later on, especially if he or she is caught.

We hate to write about such things, but they cry for discussion.

This isn't like the starving man taking a loaf of bread to feed his family.

Stealing in Tecumseh stores has been going on for many years, and it will probably continue. There are some persons who will swipe things no matter how often they're caught or warned.

Editorializing to them will probably do little good. The people we do hope to shake-up are the marginal or thrill thiefs, who would shutter if they could watch themselves steal.

These people can change—and they should, starting now.

We have authentic reports from Tecumseh High School students who tell us that often times their fellow scholars will show various items, like cigaret lighters, which they have stolen and brag about their "accomplishment."

Supposedly innocent, these pranks could open a chapter in a youth's life that might end in real tragedy.

Here, the responsibility rests with the parents. It would be a good idea if every father and mother in the community chatted with their youngsters about stealing, pointing out the seriousness of such missteps.

It also is vital that adults, who have stolen or are stealing, should consider these facts:

Not only are they breaking a law of God, but they also are endangering their whole future as well as the reputation of their children.

We're sincerely sorry when people find themselves in this sort of trouble. As the community newspaper, we feel it's our duty to issue a stern warning now to those who might easily become entrapped in a life of petty crime.

A Complete Reappraisal

When we told the backshop an editorial on foreign aid was being written for this week's issue, we said in bitter jest:

"It's so grand that we send all our money overseas."

The reply from our foreman was a short and sweet, "Yeah," dragged out with a tone of hopelessness. This one word spoke volumes and reflected our thinking completely.

How come we dole out cash as if it were going out of style—not hundreds of thousands or millions, but millions—much of it poured into pools of confusions and distrust.

The time has come, says the common man to his fellow common man, when we must get some sense in the way tax dollars are spent abroad.

Sure, we must help some of our less-fortunate neighbors—but they must help themselves a little, too.

Let's get business-like with our giving, let's cut it to the point where we're living within our means.

Our honest-to-goodness friends abroad tell us Uncle Sam is going at it all wrong by flashing a big bankroll. Train the young people in technical schools so that they can make good on their own, is their suggestion.

As one man we discussed foreign aid with said, "A few years ago if someone spoke against it they would be branded a heretic."

Times are changing however, and Americans are now asking for a complete reappraisal of foreign aid. We want to help others, but not so much that we drain all our reserves.

Murph Reports

By DON MURPHY
Chamber of Commerce Secretary

Included in the Chamber of Commerce activities since it's organization 2½ years ago is "Solicitation Control".

There was much work put in on this project because we feel that it is a service to the whole community.

This business of solicitation is considered a multi-billion dollar business a year, this would rate with the largest business enterprises in the country today.

You might ask this question, "Just how does this business get into such a high bracket?"

Using the case of a roofing man from out-of-town and a spinster who is a citizen of Tecumseh, let me say this.

A couple of weeks ago there was a man who called on this lady and said that her roof needed fixing, that if it did not already leak that it was just a matter of days until it would.

Now I want you to realize that the lady he was talking to is a long-time resident of Tecumseh.

It seems that these solicitors, at least the greater part of them, sort out the homes where there isn't a man, they like to prey on the widow or spinsters and they really put on the pressure.

To get back to the story, this lady was concerned about her roof and told the man to go ahead and fix it. This is just what this gentleman wanted her to say — no agreement or any contract of any kind — just go ahead and fix it.

In the first place the house has a slate roof, it hadn't been leaking and as far as can be found out, was in good shape. And even if it had been leaking anyone will tell you that painting a slate roof is just worthless, but paint it they did.

After getting the roof finished they painted the cement blocks in the foundation, another worthless operation.

Now $300 or even $400 or even $500 would be too much for the job that was done, but when the man collected $3,530 for the job this was beyond the dreams of anyone.

The Chamber has tried to help people of Tecumseh make sure they know whom they were dealing with, or better to use home town businessmen or make them show a permit from the Chamber of Commerce.

Since February it has been required to get a city license, all of this is protection for local folks.

It is much harder to do something about this kind of larceny after it happens. If we would use the precautions and stop it before it began then this kind of a thing could not happen.

☆

WHEN I WAS talking so much about trying to control solicitations in Tecumseh last winter, there were many people who said that such a little thing didn't count so much. But it is the little thing that grow into larger ones.

I think you will agree that we should try and stop this kind of gyping.

I would ask that anytime anyone comes to your door, either selling a product or selling services, that you ask him for a city license.

If he doesn't have a license call the police station and report him.

Get the license number off the car, description or something so that the police will have something to go on.

Now this goes for all solicitors regardless of the product or service, from magazine salesmen to chimney pointers.

Remember we don't want any more of our people taken for any amount of money large or small.

☆

ALSO REMEMBER that living in Tecumseh are competent businessmen who can satisfy your every need.

Our business people have reputations for doing a good job and remember if they don't do the job you want, that they are here where you can get in touch with them.

Royal Welch New Director

Royal E. Welch of Welch Cleaners in Tecumseh was elected area director of the Michigan Institute of Drycleaning at the Annual Convention in Detroit, Dec. 2, 3 and 4.

Marda Gene Duncan's THROUGH MY WINDOW

LET'S TALK ABOUT KIDS

Christmas hustle and bustle is upon us, holiday excitement is everywhere. Even the birds and squirrels have the spirit — there hasn't been a thing going on outside today, apparently they are all busy with last-minute Christmas shopping.

Well, all right, if that's the way they want it, OK. Let's talk about kids.

It seems to me that people with dogs or children are always ready with the latest doings of their "little dears." Just lately the children have come up with some niffies.

A proud grandmother brought me this one.

Her daughter, a friend of mine, is a modern, up-to-date person who, I can well imagine, keeps informed about all the latest trends in child psychology and obviously subscribes to the theory of reasoning with children.

One morning she found her three-year-old daughter using the wrong soap to wash her face.

"Annie", she said, "please don't use that soap on your face. It's too strong."

The youngster stopped washing, looked at her mother and asked, "Whose face is this?"

"Why, yours, of course."

"All right, then I believe I will wash it and use this soap."

With that, she resumed washing.

☆

A FAVORITE second-grade story. The teacher had instructed her class to use modeling clay, and asked each one to fashion a bird. She noticed that one little fellow was having trouble.

As much a perfectionist as anyone at the tender age of seven can be, he was apparently most dissatisfied with his bird.

In fact, several times he started, only to get a little ways, then stop and start all over again.

Finally he solved his problem and started modeling so fast that the teacher went over to investigate.

On his work-bench was a carefully shaped clay saucer or bowl with a little round ball inside — a nest and an egg!

"But Tommy," she said, "that isn't a bird."

"No," he replied, "but a bird will."

☆

SOMETHINGS, of course, happen right in my room.

How is this for the perfect squelch? A couple of little six-year-olds were visiting me and after the usual amount of giggling and tee-heeing, they launched into the female version of the little boy boasting my-dad-can-lick-your-dad style.

The first little girl said, "Miss Duncan, I know your mother! My mom and dad take me into the bank and we see her."

The second answered that she, too, knew my mother and then, the boasting started as she added, "My mother teaches school — in the high-school, too."

Not to be outdone so easily, the first youngster quickly rose to the challenge and tossed back, "Well, my mother is going to have a baby-! !

That did it, the conversation changed quickly; in fact, the whole visit ended quickly. After all, what could top having a baby?

☆

LINDA IS a pert and perky pre-schooler with blonde hair and a mischievous twinkle in her eyes.

The last time she and her folks were here visiting, there was a large plant in my room. It was a pretty thing, a shaggy blossomed purple mum. It caught Linda's fancy and she kept going back to look at it.

"Pretty," she repeated over and over again, "pretty."

At this age, although according to Linda's mother she talks a "blue streak", words are new and exciting and oh, there are so many names of things to learn.

On her umteenth trip over to the flowers Alice carefully explained to her daughter, "Honey, that is a chrys-an-the-mum plant."

She was not about to be tricked into trying to say that tongue-twister.

☆

SO, WHAT have your kids been doing lately?

THEY WORK HARDER BECAUSE THEY RIDE EASIER!

Because they ride easier they last longer, too. They take better care of payloads and they make a long day's work a lot more pleasant for the driver. All that—primarily because of Independent Front Suspension (I.F.S.). If you think it's stretching a point to attribute that many advantages to a suspension system, you haven't driven a new Chevy with I.F.S. Take the wheel and feel its road-leveling ride, its almost total absence of shimmy and wheel fight, its ease of steering even in the big rigs. Spend hours behind the wheel and you're not nearly as tired. You're not and neither is the truck. That independent suspension soaks up the worst shock and vibration—the kind that can twist sheet metal and loosen joints and increase your maintenance costs. That's why Chevy trucks keep on working and saving for extra thousands of miles.

I-beam type front axle. A stiff-beam design that transmits road shock right through the truck.

Chevy Independent Front Suspension. Wheels flex independently, minimize body wear and tear.

Free Kids Shows Are on Saturday

Twelve gift certificates, each worth $5, will be given to youngsters attending the annual free Christmas shows at the Strand Theatre Saturday.

The event is made possible through a donation by the Tecumseh Community Fund Foundation. The Chamber of Commerce made arrangements.

Youngsters up to and including nine-years-old will be treated to a cartoon show at 10 a.m. Six of the certificates will be given at that time.

For youths 10 and over, the theatre opens at 1 p.m. Balance of the prizes will be awarded then.

As the boys and girls leave the show at both performances, Santa will give them treats.

TOM RIORDAN'S Long & Short

Merry Christmas.

This year, I thought my letter to Santa should include a few requests for some of my friends.

Here's a carbon of the note.

Dear Santa, Would you bring the following 'smail' items for some wonderful people in our city:

Earl Roe and Russ Garno: A book of jokes (those about the election are wearing thin.

Julian Gresham: a typewriter that has something besides all caps (so we can rush Presbyterian Church copy back to the Linotype without hen-scratching it first.)

Carl Lamb: a pogo stick (to speed him from one meeting to the next).

Dunean Leetka: a big fence around the THS gridiron (so everyone who watches games is a cash customer and the bank account can swell to get new lights.)

Dermont Poley: new pair of hip pads (to give more authority to his down-court thrusts in old men's basketball games).

Royal Welch: roll-top desk (for his office-to-be in state senate.

Jack Metcalf: 48 hours of rest (after Christmas rush.)

Tim Neill: a five-gallon jug of Metrecal.

Ralph Mull: a vault (to stash his rent receipts).

Clayton Greenwald: a palm tree (to center his isle drive. What could look nicer?)

Harold Green: a guy from the moon (with cash and wanting to be a fashionable earthman.)

Wayne Reginall: a fool-proof excuse (to give Neville Hart for skipping school two days to get married in Chicago.)

Charlie Trickey: the county GOP gavel.

Ray Herrick: torrid summer weather in April (to bring king-size demand for air conditioners this summer.)

Sally Pope: a dozen more Democrats in town.

John Surratt: a tenant next door.

Harold Easton: a direct phone line to city hall.

Ed Nelson: a "Put it in Writing" memo pad.

Louie Schneider: another Buick lover.

Charlie Butler: a king-size etching of the ol' hoss trader's corral to hang in the front room.

Bob Bowers: the technique of hitting an over-the-trap pop shot (so capably mastered by some golfers).

Carson House: a curved softball bat (that will take the guess work out of hitting in blooper ball.)

Jim McDowell: a bundle of cash.

Jack Osburn: another big deal (any kind.)

As for me, Santa, sent the knowledge that these friends enjoyed this column.

How's business going to be in 1961?

This question has already been booted back and forth from coast to coast.

I'm no expert, but here's a straw in the wind, gleaned from a Tecumseh man who sells ready-to-wear goods to 125 shops in southern Michigan and northern Ohio.

During October and November he marketed his spring and summer lines, which will go on retail sale from March to July.

His total business was $71,285 as compared to a year ago of $51,285.

Optimism about 1961 seemed to be a keynote.

"Three years ago," he told me, "there was a big demand for imported goods. Now stores don't want them.

"Although the foreign-made items are cheaper, they don't fit as well and wear out quicker."

Storemen have found that customers prefer to pay a little more for domestic lines, which are better quality.

Good news, eh?

☆

The world of the professional girl athlete is a strange one.

Hazel Walker, who brought her feminine basketball team here last week, told me that her club is booked solidly through to next summer.

There'll be a game a night, including Christmas eve and Christmas day. All told the club takes to the court 250 times a season.

"Are any of the girls married?" I asked.

Meters and Parking Tickets

★ ★ ★ ★ ★ ★ ★ ★ ★

Council Hears Discussions about Both at Monday Session

By JIM LINCOLN

Possible concessions to property owners and businessmen adjoining the city's parking lots and the announcement that the lots would be metered by Jan. 1 highlighted Monday night's Council session.

Harry Morris, Ken Blumerick and Dave Mack questioned Council in erecting meters where they would obstruct their interests.

Mr. Morris said his family secured permisison 15 years ago to erect a garage adjoining what is now the city's northwest parking lot. He asked Council to allow access to the garage by eliminating two meters.

Mr. Blumerick, Meadowridge Dairy owner, requested an exit into the same lot for trucks delivering milk to his dairy. This concession would eliminate one meter.

Mr. Mack, who operates The Diner, suggested Council leave out a meter directly in front of his restaurant's door.

In handling these requests, Council asked the Parking Committee to prepare a report for the next meeting and discussed leasing rights of access through non-metered areas to the interested parties.

By leasing, Council would not lose any revenue.

☆

SEVERAL councilmen recommended that police chief George Kilbourn crack-down on parties who refuse to pay their meter and traffic violations.

To a remark that many people were laughing at the police force, Chief Kilbourn said that the local justice of peace at times has dismissed tickets and warrants or incurred small fines.

He said that officers were disgusted at his handling of cases and the department was thinking of taking cases to an out-of-town J-P.

City Attorney James Beardsley said that he had counseled Ernest Oliver, Tecumseh J-P, about dismissing cases.

Mr. Beardsley also reported to Council that a warrant has been issued for the Birmingham painter who alledgedly charged a local resident $3,500 for painting her slate roof.

☆

IN OTHER action, Council:

1. Accepted four 50-star flags as gifts from the Tecumseh Junior Chamber of Commerce. President Dyke Helms made the presentation.

2. Appointed Richard Eggleston, president of the Chamber of Commerce and local jeweler, to succeed Robert Bonner on the Planning Commission.

3. Authorized the city attorney to prepare a resolution for eliminating some of the city costs now paid to housing subdividers.

4. Authorized free parking on the streets for the Christmas season in downtown Tecumseh.

SANTA'S HELPERS — A lot of area folks have been working in recent weeks towards one objective: "No Tecumseh Family Without a Happy Christmas." Shown loading gifts, to be distributed Saturday, are, from left, Ken Zornow and John Day of the Jaycees, Mrs. John Thompson and Mrs. Fred F. Dickinson, Jr., of the Service Club. The Jaycees again repaired toys for the third straight year, turning them over to the Service group, which devotes itself to taking care of needy families in the area the year 'round. Jaycees will aid in the distribution, furnishing man power and vehicles.

Foundation Asks Study on Library

states Vern Manwaring, Trustee president.

A citizens committee will be formed to work with Council, Plan Commission, Library Board and the Board of Education, key groups in library operations here.

Actual study will probably not get underway until after the Jan. 10 meeting of the Trustees in Products Union Hall, when three new boardmen will be elected.

In other action:

1. Attorney John Zeigler advised the group on its tax status.

2. FACT members Dr. Bob Laidlaw, Bob Moore and Bob Bonner spoke about various findings their committee made and added their support on the library study plan.

3. Jim Smith of the Plan Commission showed colored slides of future plans for the community.

4. Bill Austin of the Huron Valley Child Guidance Center said the Lenawee branch had problems, but that continued been closed because of financial support of the main branch in Ypsilanti would still aid county youngsters.

The program will include both sacred and secular Christmas music.

Among the selections are "White Christmas" by Irving Berlin, "Sleigh Ride" by Leroy Anderson, a rhapsodic interpretation of "Jingle Bells", and the "March of the Little Tin Soldiers" by Gabriel Pierne.

Sacred selections include "O Holy Night", a baritone solo by Gale Kimerer, the "Overture from the Messiah" by Handel, and "Silent Night."

Featured in the program is a brass sextet playing "Adoramus Te" by Palestrina.

"The selections for the bands' Christmas Concert were chosen to afford all of us time to relax for a moment and enjoy Christmas without concern for the monetary aspect of the holiday season", he adds.

Sixty-five unfortunate families are assured a Merry Christmas because of the diligent work of this group, assisted by other organizations and individuals.

The Jaycee Auxiliary has dressed 25 dolls and the Jaycees have collected and prepared a great number of toys.

Mrs. Dickinson said that the response has been terrific this year, not only in material things, but much help has been volunteered.

Late Monday night the workers heaved a great sigh of relief knowing that the Christmas Eve deadline could be met with a generous supply of food, clothing and toys, as well as many used games and books.

MEMPHIS, Tenn.Jack R. Bryan, personnel man third class, USN, son of Mr. and Mrs. Robert G. Bryan of rural Tecumseh was recently promoted to his present rate while serving at the Naval Air Station here.

Pinata Party Tuesday

Spanish-speaking folks in the area are in for an evening of fun at Blissfield Tuesday.

Special motion pictures in their native tongue will be shown at the local theatre.

For the children there will be additional excitement.

Three genuine pinatas, brought from Mexico over the weekend, will be smashed open by young guests.

They'll be filled with Mexican candy and sweets, which will spill out onto the stage and be scooped up by the youngsters present.

The pinata party is a colorful one in which the children gather in groups around the pinatas.

One child at a time is blindfolded and given a decorated stick with which he or she is allowed three swings at the suspended pinata.

If not successfully broken the blindfold and stick are passed on to another boy or girl, who repeats the process.

The blindfolded child is turned 'round and 'round adding to the confusion of where the pinata is located.

The pinata is eventually broken and the children are all in for a treat.

Pinata's date back, in their odd shapes and forms, to unknown origin when they were made of thin, brittle clay.

Eventually they evolved into the paper-mache ones of today, decorated with colorful streamers and paper.

But, made of paper or clay they still carry the joy, happiness and fun to children during festive celebrations.

LIKE THIS — John Guerrero, son of Mr. and Mrs. Mike Guerrero of Riga, shows Christina Gariway how to break a pinata. She is the daughter of Mrs. Clara Sanchez of Blissfield, where three pinatas will be shattered Jan. 27 at a movie and party for Spanish-speaking folks of the area. The pinatas are loaded with candy and goodies, which kids scoop up when pinata is broken.

Wilson Motor also handles Plymouth and Valiant.

Did Not Often Enough . . . . . Now Coach Awaits Old Santa

By TOM RIORDAN

When Doug Mudrock tiptoes into his living room early Christmas morning, he'll head for an over-size stocking, pinned carefully to the back of a chair.

It will have been placed there the night before by the Tecumseh High basketball coach.

If the stocking contains a big bulge in the toe, Mr. Murdock will certainly smile.

Gingerly reaching into the sock, Doug will extract a shiny new basketball, lettered on it:

"Merry Christmas, here's what you want most, a victory over Adrian. Santa."

"Wow! that really is what I wanted," Doug will shout.

☆

COULD IT happen?

The youthful Indians tipoff with Adrian Tuesday night on the THS floor.

The Class A Maples will be heavily favored. The experts say that the sophomore-laden Indian quintet just won't have a chance.

But that's what some of these same fans were saying about the Lions early in the year.

Professional or amateur, sports boil down to one item: desire.

How badly a team wants to win often decides its fate. Great clubs have fallen because the players "didn't care." Mediocre crews have risen to unbelievable heights on sheer determination.

☆

COACH MURDOCK'S hoopsters have won one and lost three In each outing, they have showed improvement.

Against Blissfield Friday evening, the Indians were down at halftime, 35-23. Their cause seemed hopeless.

The Indians didn't quite have the steam to make up the difference, finally losing, 51-57, but they showed moments of excellence in the final half.

The quintet is starting to jell — oh, so gradually — but there are the makings.

Seniors Mike Tucker, Larry Titley and Jerry Breitnwischer are providing the leadership — and most of the rebounding.

Balance of the talent is allsoph, John Britton, Bradley McCombs, Tim Sisson and Norm Tucker.

Coach Murdock has brought up Craig Rosacrans, high scorer of the Jayvees, who may later fit into the picture nicely.

Adrian could well be the victim Tuesday. It all depends on how badly the Indians want to win.

☆

THE JAYVEES lost a heartbreaker to Blissfield, 41-40.

A jump shot by the Royal's Roy Rothfus with two seconds gave the visitors their victory.

"Poor ball handling in the fourth quarter plus fouls caught up with us," explained JV Coach Jim Hoffman.

"Roy Rodriguez again played a good defensive game and also scored 10 points for us," the coach added. "He sparked the team."

"Clark Nichols was high with 11. Dan Greene played his best game, scoring 10 points and worked well on the boards," concluded the mentor.

New Freight Plan Closes NYC Office

The New York Central Railroad annouced installation of a new and more personalized rail freight service for its shippers in Tecumseh and 11 other communities in southeastern Michigan.

This new service, labeled the centralized agency system, will be initiated Monday.

Under this new arrangement, shipments here and Manchester, Clinton, Blissfield, Morenci, Jasper, Ida, Deerfield, Petersburg, Ogden, Weston and Riga will come under the jurisdiction of the agency at Adrian.

There will be personal calls made at the shippers plant, and a toll-free telephone service made available to Central freight customers.

This will take several days and pumping cannot begin before this is determined.

Gifts Help Feed Kids

Many churches and organizations in the Tecumseh area are working on projects to help CROP provide one hot meal a day for 150,000 Hong Kong school children.

R. W. Ries is northeast area CROP chairman.

A recent report from Willis Moore, County CROP treasurer, lists the following organizations from this five township area as having already sent in contributions:

Britton Congregational Church
Clinton Congregational Mens Fellowship
Clinton Union Thanksgiving Service
Clinton Youth Fellowship groups of the Congregational Episcopal and Methodist Churches
Deerfield and Holloway Presbyterian Churches
Ridgeway Methodist Vacation Church School
Ridgeway Methodist Church
Ridgeway Sunny Rays 4-H Club
Tecumseh Presbyterian Church
Tecumseh Union Thanksgiving Service
Tecumseh VFW Auxiliary

Each $4 contribution will provide one hot meal per day for one child for one year.

Mr. Ries says that the need is real and all groups planning to help are urged to complete their projects and forward the money directly to Mr. Moore at the courthouse in Adrian.

Air of Mystery

By DOROTHY GRIGG

An air of mystery—as on the first Christmas night—prevailed over the beautifully-decorated Tecumseh high school gymnasium Monday evening.

This was the setting as the THS Chorus of 108 voices sang delightfully under the direction of Leslie Bennett in their "Echoes of Christmas" concert.

In the dark, the eyes of the audience were drawn to a sunset over the Judean Hills, carefully built at the top of a section of bleachers.

A spotlight played on the hill scene with resting sheep, a stone wall and a manger in the foreground.

Colorful costuming enhanced by the spot lighting helped to make the production effective.

Of the many fine selections sung, probably one that is especially enjoyed by the Chorus and audience alike is "The Carol of the Drum."

It was beautifully sung as Gary Tietsema as the drummer boy presented his drum at the manger of the "Babe."

Dian Hess and Bill Bishop portrayed Mary and Joseph in the nativity scene.

This year's concert featured the full Chorus in many more numbers than usual with an occasional solo, quartet or ensemble number.

Ann Marks, Linda Dean and Carol Owens sang solos. The accompanists were Alice Shirley, Jean Thomas and Jeanette Allen.

The Magi in royal robes were Gregg King, Clifton Doyle and Ronald O'Neill, each singing solos.

Outstanding in the concert was the part entitled, "Echoes of Praise," opening with the anthem of Psalm 150.

The young voices seemed to pour forth their praise in such a crescendo of music that the audience must have been filled with the spirit of thanksgiving too.

Certainly the whole production was one to be remembered as a highlight of the Christmas season.

LONG & SHORT

(Continued from page 1)

"No, none of them. I was once, but my husband was killed in 1940" — making Miss Walker somewhere in her forties.

She didn't play here because of a bad cold, but does regular duty with her amazingly-talented crew.

These young ladies are devoted entirely to the game of basketball.

Hazel remarked that it cost her $250 a day in salaries and expenses to field her club. Incidentally, she lost about $150 here because of the slim crowd and her smaller-than-usual cut).

How much does she make, working on a percentage at the gate?

"When everything is complete for the year, between $15,000 and $20,000," was her reply.

That's a lot of money—but more loneliness and diner cooking than most gals could endure, I'd imagine.

GUESTS FROM PONTIAC

Mr. and Mrs. Lawrence Dreweyor will entertain Mr. and Mrs. Larry Drewyor of Pontiac as over-nite guests Christmas eve.

MacDonald Home Scene of Party

Mrs. Robert MacDonald opened her home for a Christmas party for members of the Raisin Green Bees Extension Club Dec. 19.

Presbyterian Youths Stage Gala Affair for Ypsi Patients

The Senior Hi Fellowship of the Presbyterian began holiday activities with a rewarding project.

They are preparing for a combined birthday and Christmas celebration for 75 young patients at the Ypsilanti State Hospital.

These are children between the ages of eight and 16 years, who are able to attend classes.

On Dec. 4, while the boys erected the nativity scene on the church lawn, the girls made favors and prepared supper at the John Hamilton home. After eating, the group worked on decorations.

Dec. 8, nine members accompanied by the Rev. and Mrs. J. Gresham, Mrs. Frederick Dickinson, Mrs. John Quigley, Mr. and Mrs. Hamilton were taken on a tour of the hospital.

Supper was served to about 90 from tables gay with marshmallow and cardboard snow men on milk carton evergreens and plastic snowballs.

December birthdays were honored by a cake featuring colorful plastic snowmen and other cakes decorated in the holiday theme.

The Tecumseh young people would like to express their gratitude to Mrs. Gerald Roberts, Jerry Rendel of Country Markets, John Day of Woolworth's, Donald Saul of Kroger, Bud Morley, The Tony Baking Co., Richard Myers of New Era Potato Chip Co., Twin Pines and Driggs Dairies, whos generous contributions made the project possible.

A hospital staff member assured the local people that the youngsters would talk about the party all year and that they would look forward to a similar event next December.

Among those attending the event were Janyce Hall, Bruce King, Carol Bilby, Tom Barton, Janice Saling, Bruce Parrett, Tom Dickinson, Mike Cook and Larry McLain.

Dec. 11, the group went skating at Sand Lake and then returned to the home of Bruce and Greg King for supper.

Dec. 18 they went caroling.

Regular services will be held Christmas Day at 9:30 and 10:45 a.m., but no Sunday school classes will meet.

+ Presbyterians Have Two Special Holiday Services

There will be two special Christmas services at the Presbyterian Church.

The first will be the annual Christmas eve candlelight communion service at 11 p.m. It will be one of hymns, scripture, meditation and holy communion.

On Christmas, there will be one combined service at 10:30 a.m.

Planned for the entire family, it will feature hymns and scripture that will be meaningful to children as well as adults.

The sermon will be the telling of the Christmas story and the events surrounding the birth of Jesus.

Both services will be approximately one hour in length.

Vaccinate Calves Now;

Most of the replacement calves in Michigan's cattle herds will be eligible for calfhood vaccination against brucellosis within the next four months, according to the Michigan Department of Agriculture.

Dr. Bill Britton, 726 N. Union St., who is the Federal-State Department of Agriculture veterinarian in the Lenawee and Monroe counties area, urges calfhood vaccination.

Brucellosis is a highly contagious disease of cattle and has cost Michigan cattle owners millions of dollars over the years in loss of calves, sterility, and reduced milk production. Under certain conditions man may contract the disease through infected animals. This is sometimes known as undulant fever.

DOLLAR and SENSE FARMING.

FEED BABY PIGS FOR TOP GAINS. It takes very little feed to produce a pound of gain early in the pig's life. Every extra ten pounds a pig puts on during the first two months will cut 12 days off the feeding time in the feedlot. Start feeding a pre-starter as soon as pigs are a week to ten days old. This should be provided in special baby pig feeders right in the farrowing crate. If sows and litters are in regular pens, set up a pig creep for self-feeding commercial pre-starter.

PREVENT EXCESSIVE TRACTOR ENGINE WEAR IN WINTER. During warm-up, when the tractor is being choked, gas tends to wash oil from the cylinder walls. If you put a full load on the engine during this time, you will get unnecessary engine wear. Your engine will warm up faster if you cover the radiator while the engine is still cold. Change oil more frequently in winter—it sludges up faster.

INSURE AGAINST VITAMIN A DEFICIENCY in your beef fattening ration. Although corn and roughage normally contain sufficient amounts of vitamin A to meet cattle requirements, deficiencies have been showing up. Rate of gain and feed efficiency drop drastically. Common symptoms are an unthrifty appearance, lameness, night blindness, watery and inflamed eyes and convulsive seizures. Include a vitamin A supplement in the ration if many animals show symptoms.

STICK WITH THE ALFALFA VARIETIES BEST ADAPTED TO YOUR AREA. Don't plan on ordering several varieties this winter with the intention of seeding a blend next spring. Research indicates that single adapted varieties do better than blends.

The Rosacrans Store

A VERY, VERY MERRY CHRISTMAS TO ALL OUR PATRONS AND FRIENDS

There is an art to giving

The manner of giving a gift shows your true character more than the gift itself. When you take a moment to wrap a present in a way that compliments the receiver, your added thoughfulness is appreciated almost as much as the gift. A tailored bow for a man's package . . . a lovely blending of colors for the lady of the house . . . an intriguing design for a child's gift . . . all these extra touches make Christmas presents that are admired even before they're opened. And, most of all, you have given something of yourself. It's easier than ever before to master the art of giving . . . to create Christmas packages that are conversation pieces . . . if, like other thoughtful people, you choose from the wonderfully wide selection of new Hallmark gift wraps now on display at our store.

CHRISTMAS EVE, U.S.A.

It's merry Christmas-time again!
There's magic in the air . . .
Blent of love and happiness,
It sparkles everywhere!

Now families gather home again
To share the happy hours,
And friendships bloom anew as cards
Arrive in welcome showers.

Stars dance in every youngster's eyes,
Small ears are tuned to hear
Across the stillness of the night
An elfin sleigh draw near!

Far off the church bells bless the air,
And hearts are opened wide
To welcome in, with joyful hymns,
The King of Christmastide.

* * *

It's happy Christmas-time again!
May all men, everywhere,
Soon know the peace and joy and love
That fill our own free air!

THE DEAN'S WATCH by Elizabeth Goudge — An English cathedral town in the mid-nineteenth century forms the background for the warm and gentle story of Issac Peabody, an obscure clockmaker, a dreamer but a dedicated craftsman, and of Adam Ayscough, the brilliant, pious Dean of the Cathedral, whose great love for his parishioners is stifled by his own unconquerable shyness.

MANY A VOYAGE by Loula Erdman — Her brightest dream was to settle down in her own home town and raise a family. But when she married Edmund Ross, Fannie was caught up in a whirlwind. Fearfully she read her husband's stirring newspaper editorials that decried slavery, and saw him responding to the fervent call to "Go West." The Rosses soon were off on the dangerous overland journey to "bleeding" Kansas, the hot center of the conflict between the states. Few women have ever had to summon up such devotion, trust, courage, adaptability and understanding in a marriage.

SAINT PATRICK'S BATTALION by Carl Kruger — In 1848, Michael Fitzgerald, son of the Earl of Desmond, fled from his native Ireland with a price on his head and the promise of America in his heart. To gain citizenship he willingly enlisted with the U.S. Army in its war against Mexico.

MADAME GOLDENFLOWER by C. Y. Lee — Two remarkable women emerge as the most powerful figures in this many-faceted fictional version of the period of the Boxer Rebellion in China, and of the occupation of Peking by the eight foreign powers in 1900. Mr. Lee shows us the terrifying and yet often emotionally childlike Tsu Hsi, the Empress Dowager of China, who loved actors and loathed foreigners. In contrast is the complex and unpredictable Madame Goldenflower who, at seventeen, with her delicate beauty and small bound feet, was the most sought after singsong girl in Peking, and who, at nineteen, became the concubine of the ambassador to Germany and Austria.

DECORATE TEEN CLUB — Members of the Teen Club have been busy in recent weeks painting their club rooms on the third floor of the Sage building. Taking time out for the camera of Kim Dabe were from left, Dave Lemerand, Mike Rohrer and Ron Lemerand. The decor has been changed from dark walls to light ones.

What's Going on at Boysville

By LOUIS CIAVONE

The Boysville Glee Club sang a number of songs for the Dominican nuns in the infirmary at Siena Heights College Dec. 13.

A few of the songs were, "Danny Boy", "Joshua Fit the Battle of Jericho," and several Christmas carols.

After the concert the boys were treated to refreshments by the Rev. James Frawley, chaplain at St. Joseph Academy.

√

Goal set by the Boysville Mission Club this year is $700.

As of this time, the club, under the direction of Brother Francis O'Donnell, has collected nearly half that amount through the sale of Christmas cards, popcorn at the movies, etc.

The Mission Club will give away several collie puppies before Christmas vacation begins.

√

Visitors to the Boysville campus will, upon visiting the chapel at the north end of the propery, be confronted with stained glass windows surrounding the plate glass doors.

Each window is about two and one-half feet high and about one and one-half feet wide.

The windows were the giff of Henry D. Schubert, Grand Knight of the Bishop Foley Council of the Knights of Columbus in Dearborn.

The plate glass doors were the gift of Mrs. Thomas Beaton of Escanaba, as a memorial to her late husband.

√

Snow! Snow! Snow! Everyone at Boysville is enjoying the lovely snow that has fallen in the past week.

In addition to the snow, the boys have been skating on the pond for some days. Many have been practicing hockey.

The juniors, under Dave McKnight and Jerry Malaric, have plans for starting a hockey league among the boys on campus.

√

The Fighting Knights lost their first game in three starts to the Sand Creek Aggies, 54-49, on the Aggies' home court Dec. 16.

Sand Creek started out strong, and, although the Knights kept within striking distance at the end of the first half the score was, 26-19, in favor of the Aggies.

Bill Gager and Pete Matis were hitting in the third quarter to keep the Knights in the game.

In the fourth frame, with the Aggies leading, 46-35, the Knights started using a "zone press."

Gager and McGeshick brought Boysville to within two points of catching Sand Creek with only 43 seconds remaining.

But the Knights fouled twice, and the Aggies hit on three of four foul shots, putting them in front to stay.

The Knights lost the game at the foul line, hitting on only five of 17 attempts.

The Junior Varsity Fighting Knights lost their third game to the Sand Creek, 50-41.

The Junior Knights, although much improved on their passing, could not match the high-scoring Aggies.

Larry Fisher was high-point man for the Knights with 11. Stan Klos and Gunars Vilums each contributed nine.

√

The eighth grade Boysville basketball team, coached by Brother Aloysius Glombowski, C.S.C., beat Adrian Catholic Central's eighth grade Sunday, 24-16.

The fine shooting of Concanon, who hit for 18 points, put the Little Knights in the win column.

The eighth graders, commonly referred to as the "seventh grade team," lost to the Adrian seventh graders, 15-13.

WITH TECUMSEH TEENS

Don't forget the game with Adrian here on Dec. 27. The Spanish Club will have charge of the dance afterwards.

√

Last Friday night, after the game with Blissfield, the student council and the Cheerleaders collected toys, which will be distributed to needy children through the Service Club.

√

Inez Boltz has been chosen as this year's DAR Good Citizen. Inez is a senior and has been active in high school all of her four years.

In addition to being a good student, Inez has participated in Student Council, Future Nurses Club and is vice-president of her class this year.

Congratulations, Inez!

√

The debate team played host to Coldwater Tuesday afternoon at the school.

√

That time of the year has come again, much to the dread of many seniors.

College entrance exams are now being given at Ann Arbor, Jackson, Detroit and Kalamazoo.

Those seniors wishing to take the test should sign up with Mr. Pobuda or Mr. Bronzo. The exam has already been given earlier this month, and will be given again in January, February and March.

LETTERS TO THE EDITOR

TO THE EDITORS:

I am corresponding with you in regard to your "sensational" handling of petty thievery in the December 15, 1960 Herald.

Some people would like to believe and say that there are some of us who are simply born "good" or "bad". In some quarters we will hear vehement denials of this thesis but our actions express a strange compromise with this charge.

We set apart a small periphery group and then we punish. If this proves unsuccessful we have no resource but to continue punishing and of course paying inevitable mounting bills.

It seems that in these particular cases which have been brought to the foreground we are not concerned with the people who have been hurt or denied the hope for normal human growth nor are we concerned because as they follow this course they will inevitably damage themselves but only because they dent our "profits" do they receive such notoriety.

When people steal from us we respond only to what they do not to what they are nor why they do this deed.

Rarely do we look first to ourselves and our own definition of the word "good."

I believe that if we are to make any genuine attack upon the greatest of all crimes — the waste of human happiness we must not consider the deed first, but the doer.

We reinforce each day the premise that as adults we wish to punish not to help, to destroy not to build, to exploit not to protect.

One editorial or column will not solve the existing situation and we can not control permanently with fear.

Albert J. Reiss, Jr. in the "American Sociological Review XVI" April 1951 page 196 states, "One cannot rationally and purposefully prevent devient behavior, that is, remove the causes of its appearance without having an explicit or implicit idea as to what the causes are."

We, in Tecumseh, seem to have an absence of concern with the concept of cause.

Sincerely,
Harriett Rohrback Babcock

Auxiliary Gives Third Food Cart

When gals of the Herrick Memorial Hospital Auxiliary want to make money, they really get out and work.

During the past year, they've had three major events—a rummage sale, card party and their annual Holiday Ball.

Profit: $2,000.

The card party idea was a new one this year and paid off handsomely. Simultaneously, 18 hostesses staged card games in their homes for several hundred ladies.

Thanks to the Auxiliary's talent at earning cash, the Hospital now has another food cart.

Costing $1,600, it went into service this month.

This makes three such carts which the Auxiliary has gotten for the hospital.

The newest model will carry 20 trays, keeping the food warm in one portion and at the same time chilling cold dishes in another. It also has a freezing unit for ice cream.

There are drink dispensers for both hot and cold liquids.

Snow Shoveler's Heart Disease on the Increase

LANSING — Snow shoveler's heart disease, a malady which has been on the increase the last few winters of heavy snowfalls, may strike you if you don't take it slow and easy.

This note of caution was sounded by doctors at the state health department with the recent arrival of winter's blast. It was directed principally at men over 40 who aren't used to strenuous physical exertion.

If you aren't in good physical condition, leave the shoveling to the kids, doctors suggest. They can use the money. You can't afford a heart attack if you can avoid it.

Any sudden exertion by a person not used to exercise or earning his living "by the sweat of his brow" may be sufficient to bring on a heart attack, doctors point out.

If you must shovel, either because you can't get someone else to do it or because you may feel you must prove to someone you're not a pantywaist, take it easy and don't rush.

If you have had a heart attack previously, check with your doctor before you attempt snow shoveling.

An "it can't happen to me" attitude leads too many men to snow shoveler's heart disease, doctors say.

A dollar or so to a husky lad will bring a big smile. This will warm your heart, not cripple it.

The Tipton Community Church will observe its 2nd Annual Christmas Eve Service, Saturday, Dec. 24 at 11 p.m. The evening will be highlighted by a Candlelight Communion service and a play by the senior high fellowship. There will be no Sunday school on Sunday, Dec. 25 and no nursery school during the morning worship service during which Holy Communion will be celebrated.

From where I sit ... by Joe Marsh

Shorty Johnson's "Sound" Remover

Our volunteer firemen's convention is quite a noisy affair. It often takes 15 minutes to bring the meeting to order. So this year, "Shorty" Johnson, our chairman, tried a new approach.

Amid all the noise, Shorty got up and began to speak. At first, you couldn't hear a word he said. But he kept on until things suddenly quieted right down.

Said Shorty, later: "I figured if I spoke softly enough, someone would wonder what I was saying and shush the man next to him. That man would quiet down the man next to him, and so on. All I was saying up there was 'Meeting will come to order.' And it did."

From where I sit, Shorty's quiet method proves there's more than one way to do things. If a neighbor, for example, prefers a glass of beer while you prefer iced tea, that's just two different ways of cooling off. It's all a matter of personal taste. And when you're tolerant of the other fellow's choice, you can be sure of "meeting" with friendship.

Francoeurs Honored

Mr. and Mrs. E. J. Francoeur were honored at a reception Sunday afternoon at the home of their son, Ronald in Adrian.

The event honored their 25th wedding anniversary. Arrangements were made by their children, Mr. and Mrs. Ronald Francoeur, Robert and Judy.

Robert and Judy Francoeur were host and hostess. Sue Hammack registered the guests.

Others assisting with the guests were Kathy Hammack and Mrs. Ernest Demlow.

The predominating color note of the house and serving table was in keeping with the holiday season.

Refreshments were served from a white linen-covered table.

Small china slippers held bouquets of white chrysanthemums with silver ribbon.

Red candles in crystal holders were used on the tables flanking the decorated cake which was garnished with red poinsettias and topped with silver bells.

The anniversary cake was cut and served by Mrs. Julius Vincze. Mrs. DeMerce Francoeur and Mrs. Donald Long presided at the tea and coffee service.

Others assisting in serving were Mrs. Ronald Francoeur, Mrs. Ernest Hammack, Mrs. Darwin Creger and Mrs. Harry Creger.

About 50 guests attended from Detroit, Wayne, Saline, Clinton, Tecumseh, Britton, Sand Creek, Palmyra and Adrian.

The engagement of Mary Howell of Tipton to John Hoelzer of Clinton is being announced by her parents, Mr. and Mrs. Homer Howell. Mr. Hoelzer is the son of Mrs. C. W. Hoelzer of Clinton and the late Mr. Hoelzer. Dec. 28 is the date set for the wedding.

Ice Fishermen Should Play Safe

Ice fishermen should "play it safe" during the early stages of the new season, Conservation Department officials warn.

Although ice has formed on inland waters in most parts of the state, extreme caution should still be used. A few anglers have already found themselves being "fished" from thinly-coated lakes which, on the surface, may have looked safe enough.

Fishermen will be wise to check out lakes before hauling their shanties and other gear onto the ice. Checking ice around shores will give a quick clue to conditions.

When the lake's ice is thin, it will break up first around the shore if the freeze-over is interrupted by mild weather.

Discolored ice is often a good sign of danger. Spring-fed lakes generally have some thin patches, especially around their inlets. Tree branches or other markers should be placed at danger spots.

Parties of fishermen are urged to spread out. When four or five anglers mingle in a small area, it's sometimes more than the ice can support at this time of the year.

Driving cars on the ice at any time can be dangerous.

Anglers are reminded to use public fishing sites or other public access points to avoid trespassing on private property.

Manger Scene Opens Program

Following a processional, a manger scene portrayed by pupils of Primary III of the First Baptist Church School opened the program Sunday afternoon in the Youth House.

The Rev. Blair Bashore told the Christmas Story to the children, assisted by the nursery class and Kindergarten I singing, "Away In a Manger."

Mrs. Walter Glenn, Mrs. Robert Rutherford and Mrs. Calvin Rickard are teachers of this group.

Guy Manwaring, Kelly Fero and Debbie Kotts presented recitations, followed by a song by the entire Primary Department.

Mrs. Rickard and Kindergarten I presented an exercise, "Just Like You and Me."

Kindergarten II, with Mrs. Claude Sebring, presented an exercise entitled, "Christmas Day." Primary I and II, under the direction of Mrs. George Halberstadt and Mrs. Harold Davidson, also presented exercises.

A Christmas pageant was presented by students of Mrs. Francis Packard's Primary III group with Jamie Danforth taking the solo part, Mrs. Packard and Barry Packard taking the speaking parts.

Pastor Speaks on War Mankind Faces from Birth

"Rapture of the Saints" was the subject of the Sabbath School lesson enjoyed by the Seventh Day Church of God at the Pythian Hall Dec. 10.

Elder A. E. Lidell of Ypsilanti, presiding pastor, chose the subject of "Warfare" for his morning sermon. He said there is a war we are all engaged in. As soon as we are born into the world we are faced with this situation.

We are to "put on the whole armour of God, that we may be able to stand against the wiles of the devil", he said.

There will be a vesper service at the home of Mrs. Nora Williams, 719 Company St. in Adrian, next Sabbath night at 5:15.

Old Timer Can Recall 'When'

(Editor's Note: A reader suggested that The Herald chat with Roy Pritchard and get his views on how the city has changed over the years. Mr. Pritchard is one of the community's real old timers. This is the result of that interview.)

By DOROTHY GRIGG

Roy L. Pritchard, 124½ W. Chicago Blvd., is a native of Tecumseh and holds the position of "town handyman".

He was born Nov. 1, 1890 in the old Pritchard homestead at the corner of E. Logan and Maumee Sts.

An electrician by trade, Mr. Pritchard has fixed everything from a broken switch to filling in as Santa in the downtown area at Christmas time.

His father, Edward, was a well digger and raised quantities of lima beans at the old home where new houses have since been built.

When questioned about the beans Mr. Pritchard said, "Yes, they were the worst thing I've ever done. I used to pitch for the baseball team on Saturday and the only way we got to play was for the rest of the team to help me get those beans picked."

In telling about the highlights of Tecumseh in the past, Mr. Pritchard recalled the bicycle tournaments that were held here when up to 400 people from all over Lenawee and several adjoining counties would gather at the race track where Beach's Bulk Station is now located.

He spoke of one particular tournament day when Leon Roscrans and Guy Davidson were vieing for the county championship.

Mr. Pritchard went on, "Guy was champion, but Leon beat him that day."

At that time the main business section of the village was located on Maumee St., but when the railroad moved to Evans St. the business section moved with it.

Mr. Pritchard said that his grandfather was the third rector of the St. Peter's Episcopal Church and he remembers pumping the organ as a boy.

His eyes twinkle as he imitates the organist' hushed voice saying, "Roy, Roy, wake up", one time when he fell asleep at his work.

Along with his many other occupations, Mr. Pritchard has spent seven years on the Tecumseh police force.

At that time, there were two policemen, he and Ed Wilson, night watch.

Mr. Pritchard served as traffic officer for seven years. Only excitement during those years was a murder at 2 a.m. one morning in Ridgeway.

As he reviews Tecumseh's past history and compares it with life here today he says.

"You used to know your neighbors and now you don't. People seem to be against each other, but the city is certainly progressing."

12 Million People — 500 Are White

Mrs. Lawrence Ehinger was speaker at a meeting Dec. 6 when Presbyterian Circle 2 entertained members of Circle 1 at the home of Mrs. Ralph Helzerman.

Mrs. Chester Beach introduced Mrs. Ehinger, who went to Africa in 1952 with her husband and son for the Friends Missions.

She explained that wild beasts and natives kept the interior of the "Dark Continent" undeveloped so long.

Only when news of vast wealth in gold, diamonds, tin and uranium came out did traders from European countries brave these obstacles to reach them.

Africa has developed fantastically since World War II, from five countries to now over twenty-two.

Of the population of 12 million, only 500 are white. Only a handful of native Africans have had college educations.

For hundreds of years, traders have taken Africa's natural resources with little or no benefit to the natives.

From personal experience, Mrs. Ehringer knows that not all Africans want independence immediately, only when they can be trained for it.

Since Mrs. Ehringer's return to Tecumseh, she has kept in touch with missionary friends there. One well-known from Lenawee County is Dr. Peter Racoson of Addison.

One listener said, "It is hard to believe that one as young and attractive as Mrs. Ehringer could have such a wealth of knowledge and such experiences in a country that we know so little about."

Maladjusted Have Trouble with Tension

The Rev. Julian Gresham was speaker last Monday at the meeting of Child Study Club No. 1 in the home of Mrs. Carson House.

In speaking of "Religion and Life's Tensions," he said that tension and adjustments go hand in hand.

If we are well adjusted there is little tension, if not then there is tension.

He said, "You cannot primarily seek spiritual therapy in religion, but it offers an answer to tension to the extent in which we are involved in religious life."

"Religion helps develop right relationships, helps us to understand ourselves, gives us confidence in knowing that another cares for us," he went on.

The House residence was beautifully decorated for the holiday season.

Candy cane favors were provided by Mrs. Owen Partridge and Mrs. Charles Clark.

May all the joys and pleasures of the Yuletide be yours this Christmas.

VOICE of THE HERALD

Library Is Our Choice

It's generally agreed that Tecumseh needs a new library.

Our present library was constructed in 1904 to serve approximately 2,500 people.

Its scope has increased tremendously over those 57 years — yet the physical layout has remained unchanged.

Now providing for 15,000 persons, the Tecumseh library serves an area of 86 square miles.

A survey last winter showed that since 1954, circulation of books here has jumped 400%.

The library is an integral part of the Tecumseh School District and thus a vital link in the education of our youth.

What do we need in the way of new facilities?

In the above mentioned survey, conducted by professional consultants, these recommendations for Tecumseh were made:

1. A library with 1,200 square feet, 5,000 for adults, 2,800 for children, 900 for multi-purpose room (films, meetings, exhibits), 2,100 for administration and work rooms, 1,200 for maintenance. (Our present building offers 2,000 square feet.)

2. Forty-five-thousand books, 30,000 for adults and 15,000 for juveniles. (There are 17,000 total at present.)

Such a setup would cost about $300,000, opinion the people who did the report.

What better project could the Tecumseh Community Fund Foundation undertake?

The Herald has watched closely every phase of the Foundation, during its more than one year of existence.

It has grown tremendously, now has assets of more than $100,000. This money, and additional funds which are to be donated in years to come, will be used for "the betterment of citizens in the Tecumseh area."

What fills the bill so completely at this time as a library?

In January, Trustees of the Foundation are going to decide upon the first major project to be undertaken.

"We will be guided by the desire of the people," Trustee president Vern Manwaring has said. With this idea in mind, the Foundation will have a public meeting next month. Residents will be asked to attend and state their preference. The Trustees will follow the voice of the majority spoken here.

As to the meeting itself, may we suggest that the Strand Theatre be used. First of all, it can comfortably seat 600. Acoustics are perfect, an item that always bugs such gatherings in the Union Hall and High School gymnasium. It's easy to hear in the theatre — and at a public meeting of this importance, every comment will be vital.

The Strand is also centrally located, with ample parking close by.

As to the $300,000 construction cost of a library, we feel when it is announced what the project is and work started, other donations will soon start to arrive. Next fall's drive should then go a long way to completing the job of furnishing the balance of needed funds.

As you'll note in the recommendations, a portion of the library would provide room for showing educational films, for exhibitions and meetings. Excellent use can be made of these facilities, by both adults and youngsters.

The Herald favors the library idea. We hope most of you agree.

In any event, be sure to plan on attending the general meeting in January. That one evening will go a long way to shaping the future of our city.

Time To Flood — Now

Ice skating is a great sport.

The recent nip of freezing weather has brought out the skaters in force the past week or two.

The city, in previous years, has done a good job in starting and maintaining rinks in town, mainly for smaller citizens.

We hope that this practice will be continued — and that the weatherman will cooperate.

If the city hasn't definite lots as yet, it seems that steps should be taken immediately to decide where and start flooding.

Christmas

Christmas time is here again,
with Santa and his reindeer,
Christmas time is here again,
it brings us joy and cheer,
Christmas time is here again,
O' hear the Sleigh bells ring,
Christmas time is here again,
it's such a joyous thing.

Christmas time is a happy time,
with soft white downy snow,
Church bells ring,
and children sing,
every where you go.
This day of days is coming soon,
for everyone to see,
Santa drives his reindeer,
with toys for you and me.

Troop 4 Holds Court of Honor

Fifty-six Boy Scouts, their parents and friends attended Troop 4's annual Christmas party and Court of Honor Dec. 13 in St. Elizabeth's auditorium.

This was the first such gathering since the reorganization of Troop 4 under the sponsorship of St. Elizabeth's Church on Nov. 1.

The Rev. Fr. Thomas Collins gave the invocation, after which a potluck supper, arranged by the Boy Scout Mothers Committee was served.

Detective Leslie J. Wykes, Michigan State Police and Chairman of the troop committee, acted as master of ceremonies and introduced members of the committee.

Wallace Whiting—institutional representative
Dr. Robert Laidlaw—treasurer
Francis Packard—district advancement chairman
Lester Ruhl — ass't. district commissioner
Frank Cubon—Scoutmaster
Richard Brighton—ass't. Scoutmaster
George Choske — ass't. Scoutmaster

☆

THE COURT of Honor was conducted by Mr. Packard.

A ceremonial board occupied the center of the stage. As each of the 16 lights on the board, indicating the light of Scouting, the three lights of the Scout Oath, and the 12 lights of the Scout Law, were lit its meaning was narrated in the background by Scout Brian Packard.

Induction ceremony was held for:

Fred Choske, Francis Moros, Michael Duffin, Terry Packard, David French, Merwin Smith, David Jadwin, Rodger Young, Richard Klught, Ricky McDill, Jerry MacGeorge and Craige Mullins.

Tenderfoot badges were issued to Fred Choske, Terry Packard and Bill Watson.

Second class badge recognition was conducted for Michael Wykes, who had received his badge previously.

Star badge went to Rick Rick Brighton.

Merit badges were given:

Swimming — Rick Brighton, Butch DeMoss and Michael Wykes.

Grasses and Legumes — Rick Brighton.

Home Repairs—Steve Hollar.

Citizenship in the community —Wayne Ruhl.

Camping—Brian Packard.

Citizenship in the nation — Brian Packard.

50th Anniversary Achievement award—Brian Packard.

☆

AT THE completion of ceremonies, a Red Cross film on rescue breathing was shown by Mr. Wykes.

Gifts were presented by the mothers committee to the Boy Scouts, who also exchanged gifts.

Highlight of the Christmas Party was a Santa Claus Pinata, which was hung from the ceiling and filled with candy, novelties and pennies.

After being blindfolded, the Scouts took turns trying to break the pinata with a stick. When it finally smashed, they scrambled to get their share of the contents.

Troop 4 invites boys interested in joining to attend meetings on Tuesday evenings at 7 p.m. in St. Elizabeth's School.

THROUGH MY WINDOW

MERRY, MERRY CHRISTMAS

According to radio, record-player and TV, everyone is "dreaming of a White Christmas." And why not — is there anything nicer? Snow for Christmas means all the little ones can use their Santa-brought sleds and the older ones their toboggans and skis.

makes it seem more Christmasy.

Of course, if I had my way, we would have a white Christmas Eve, too. A gentle snow-fall—you know the kind with pretty, big snow-flakes, which just sort of sift down—such a soft storm would be perfect.

It could start late enough so as not to interfere with the homeward bound travellers on the highway. Perhaps the time for it to begin would be just as the midnight church services start.

I remembered such a Christmas Eve oh, so many years ago. On our way to church there were a few white particles in the air but our minds were busy with other things and we thought little of the snow.

Once inside we were swept up in the glory of the service — the church looked beautiful, and as we sang the familiar carols, listened to the beloved Christmas story and finally, partook of the Holy Communion our hearts were full.

Going back outside we were amazed to discover everything snugly tucked beneath a blanket of snow. It was a beautiful sight and all the way home the quiet happiness, the feeling of innerpeace never left us. A truly wondrous night.

☆

BUT WHITE or green, the greatest day of the year will be with us soon. Because our feelings are the same, may we repeat, in part, our Christmas article of two years ago.

During this blessed Christmas season it seems fitting that we all re-examine and re-affirm our faith. If anyone ever has doubts about the existence of a Supreme Being, an all-powerful Father, he need only to look outside at nature.

The beauty of a bird, the perfection of a single feather; the always fascinating parade of clouds across the sky; the miracle of growing things, trees, grass and flowers.

The fury of a strong wind; the flash and crash of a thunder storm; the soft quietness of a gentle snow-fall. The bright warmth of sunshine, the muted stillness of a heavy fog.

The glory of a sunrise and the splendor of a sunset. These are a few of the things that make us believe.

In a little less than two weeks it will be 14 years since an automobile accident left me completely paralyzed from the neck down. Fourteen years—it sounds like a long time but looking back it doesn't seem long.

Tecumseh has been good to me. Wonderful friends and the most marvelous family a person could ever wish for have made my life full and rich.

☆

ALTHOUGH MOST of my time is, of necessity, spent in bed, I can, with the aid of full-length body braces, comfortably sit in a wheel chair or the car.

When warm weather permits, I love to get outside. In the wheel chair we prowl the neighborhood enjoying the lovely yards and gardens.

Rides in the car, whether short drives through our pretty country side or long vacation treks which we occasionally are privileged to take, are always exciting.

But, as mentioned before, most of my time is spent in bed—a hospital bed whose head elevates so that some part of each day I can spend sitting up.

When in an upright position I look out through lovely big picture windows at well landscaped yards, always busy bird feeders and picturesque stretch of twisting and turning Evans Creek.

When lying flat and looking up, the world outside still attracts my attention. Birds, tree tops and the vast expanse of heaven, whether it be blue or gray, is always inspiring.

Truly, no matter where we look there is a constant reminder of Him whose Son's birthday we are celebrating this joyous season.

In closing may I wish you all the Merriest of Christmases and Happiest of New Years.

May you find lots of presents beneath your Christmas tree and a full measure of peace and joy in your heart.

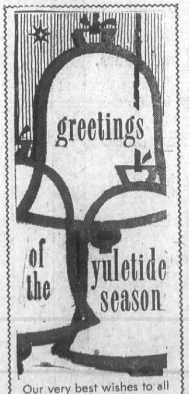
Clothing Headquarters FOR MEN & BOYS — TECUMSEH, MICHIGAN



Our very best wishes to all our patrons and friends for a Merry Christmas and a glorious New Year.

The Christmas Story....

On that night many years ago, as white stars glittered and angels' voices rang out triumphantly to proclaim his coming, there was born unto mankind, a Saviour. Humble shepherds, gathered in the fields tending their flocks, heard the message and came in haste to visit the babe lying in a manger, and they were filled with joy.

Far to the East, the Wise Men saw the great Star of Bethlehem and they followed it to where the Young Child was, bringing rare and precious gifts in their adoration.

Across the ages, the ever-wonderful story of the birth of Christ inspires mankind with a feeling of new hope. Today, in the spirit of the Holy Season, it is for us to rededicate ourselves to His teachings and humbly pray that the ideal of brotherhood will light the way to a lasting peace in this troubled world.

Let us rejoice in the true meaning of Christmas with sincere reverence and harken to the words of the angel, "Glory to God in the highest, and on earth peace, good will toward men."

Tecumseh Can Have 245 Acres for Recreation

(Editor's note: This is another in the series of articles explaining what Tecumseh could become if the proposed Master Plan becomes a reality.)

By JIM SMITH
Tecumseh City Plan Commission

We have discussed the anticipated growth of the City of Tecumseh and the need for planning future neighborhoods for a population approximately three times the present 7,000.

We have discussed the need for parks or recreational areas in future neighborhoods to make them complete and pleasant places in which to live.

The PARKS AND RECREATION PLAN is presented as an illustration of a solution for these facilities.

An accepted area of 10 acres per-thousand people should be the minimum goal of parks and recreation development in the city.

This can be a total of areas used for neighborhood playgrounds and general park area for passive recreation activity for both children and adults.

The PLAN shows a method for joining all these types of areas into a system that has good continuity and therefore should be easy to develop, maintain and supervise.

The PLAN indicates the use of the bottom land of Evans Creek and the Raisin River as a general park area, to connect most of the existing school playgrounds, used for more active recreation, into a continuous system of parks that touches on nearly every neighborhood area in the plan.

Future neighborhood parks should be created by the developers in the area shown here.

The continued use of the school properties for active playground activities and neighborhood parks is good.

This practice of intense use of school property for the entire year, utilizing school system personnel for summer activities, has good citizen support and is recommended by the Michigan State Department of Public Instruction.

The economics of this multiple use of land and the economies in the flexible labor force available to the city through the use of school system personnel are apparent.

Under the park system outlined here, we should utilize approximately 75 acres of school property, reserve approximately 20 acres of land for other neighborhood parks and develop approximately 150 acres of bottom land for general park area.

The total of all this, 245 acres, is a good area for a population of 25,000, which is within the limits established for this plan.

With the development of the land areas for parks the city should anticipate the need for a full-time, qualified superintendent of parks and recreation.

The general administration of the system should be through a parks and recreation board of approximately seven members, representing the important participants in this program.

The PLAN for parks and recreation for the City of Tecumseh is a particularly good part of the total development plan because it outlines a good method for economical utilization of all the existing recreational facilities in an orderly pattern of green park areas.

This park area, because it follows the natural bottom lands, will present a large, continuous, visual pattern of green area for the city.

Aim: Help Youth Make Most of Self

John Pobuda, director of guidance and counselling in Tecumseh schools and president of Kiwanis, spoke to members of the Rotary Club Tuesday evening.

He described the program and its aims pointing out the purpose, "Helping the Student Make the Most of Himself."

Guidance and counselling begins

"In the early school years, the tempo increase as the student approaches the end of high school. A student may elect to train for employment after high school, vocational training or entrance in a regular college or university.

"In any event, the aim of counseling is 'helping the student make the most of himself.'

"Approximately half of the high school seniors elect to pursue some form of higher education and some follow up work is possible with these students, "the speaker said.

Mr. Pobuda pointed out that colleges and universities are still most interested in the scholastic standing of their freshmen and therefore maintain close relations with high schools maintaining counselers.

A Message From "Your Pharmacist"

THE GIFT OF GOOD HEALTH
It is now possible to live a longer and healthier life. This priceless gift may be yours if you ask your physician to help you attain it.

RESEARCH DISCOVERS NEW DRUGS
Scientists, and pharmaceutical chemists are perfecting new diagnostic techniques, improved treatments and even man-made new chemicals that can cure or relieve many diseases formerly considered almost hopeless.

GIVE YOURSELF A CHRISTMAS GIFT
Ask your physician for a complete body check-up. The odds are he will find nothing seriously wrong and what a glorious feeling will be yours when you hear such good news. But — if there is some condition needing correction, follow his advice about diet or any needed medication. Even an incurable disease—and we have so few—can be comfortably lived with if the diagnosis is early.

DEPEND ON OUR CO-OPERATION
We have more than 4000 different medicines and health-aids in our prescription laboratory. Each one is properly stored to insure maximum potency and classified for immediate availability.

ANNOUNCING PAYMENTS TO RAMBLER BUYERS AS RAMBLER'S SALES VOLUME INCREASES

Why You Should Join Rambler's New Crusade For Adequate Progress Sharing With Customers

GEORGE ROMNEY
President, American Motors Corporation

"I believe participation by all consumers in economic progress is absolutely necessary in meeting the nation's economic needs."

Rambler's rise to a top position has put us in position to undertake a new crusade. This program, which could provide greater individual and national benefits than any we've yet undertaken, calls for customer progress sharing.

As volume goes up, costs come down. So, sharing economies that would result from a 50% Rambler sales gain over last year for the period December through March could provide payments to customers of $18,698,062.

But, before presenting our new Rambler crusade, let me review some highlights of the first one.

When we forged our basic Rambler concepts, U.S. cars were in a size, horsepower and styling-change race that cost the car buyer money. So, we developed the compact, economical, modernly engineered Rambler.

CONSUMER BENEFITS FROM LOWER PRICES

Because of low volume, we had to price our first Rambler Americans about equal with Chevrolet and Ford, traditionally "lowest priced."

As our output and economies increased, we shared the resulting economic advantages with Rambler customers. Despite inflation, we kept prices low. We also concentrated on durability and quality. That is why Rambler excels in trouble-free operation, as shown by trade surveys made by others.

What has this done? It has increased our sales—made us a vigorous new competitive factor, compelling *all* competitors to introduce compact cars. Their compact cars unquestionably are better buys than their big cars, because their big cars don't have the compacts' advanced engineering.

Despite these moves to meet Rambler competition, **Rambler American models are now priced not only below competitive big cars but below their economy compacts as well.**

In addition, Ramblers provide customers several exclusive trouble-free engineering advances such as the acid-proof, rustproof Ceramic-Armored muffler and tailpipe.

The Rambler line includes three basic sizes of compact cars—Rambler American, Rambler Classic and Ambassador, the latter two developed after the original American series.

RAMBLER SALES SOAR

In two years, Rambler's per cent of market has more than doubled. For the last 38 straight months, Rambler sales have established a new record for that month. We want to continue this growth by serving you even better.

THE NEW RAMBLER CRUSADE

Our new Rambler crusade, like our compact crusade, is based on sharing Rambler progress with car buyers.

We believe the new Rambler crusade has timely significance. Our country currently is experiencing a mild economic slowdown—with rising foreign competition and weakness of the dollar. Our larger competitors are considering partial manufacture and importation of cars for the U.S. market from abroad. There is a general profit squeeze.

We believe the greatest single economic cause is that relatively too much of the fruit of industrial effort has been going to a few well organized economic groups, not to the consumer.

CUSTOMERS TO SHARE RAMBLER PROGRESS

We decided there was something we could do. We decided to share future progress with ALL customers who take delivery of a new Rambler or new Metropolitan between December 1, 1960, and March 31, 1961, from an authorized Rambler dealer (excluding governmental sales), giving them most of the benefit of additional cost reduction resulting from further increases in Rambler sales volume.

This can mean a sharing with Rambler buyers during the 4-month period of government savings bonds (Series E) with a maturity value from $3,679,850 (10% sales increase), to $24,930,750 (50% increase). See chart for details.

HOW PAYMENTS TO BUYERS WILL BE DETERMINED IN AMERICAN MOTORS' CUSTOMER PROGRESS SHARING PROGRAM

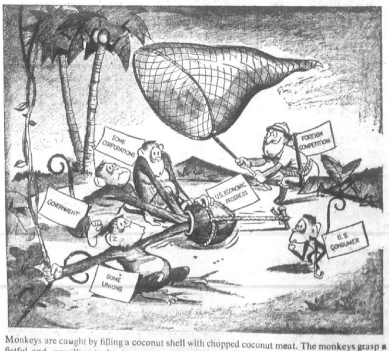
IF SALES ARE UP (over last year)	BUYERS RECEIVE U.S. SAVINGS BONDS (Maturity Value)	BOND PAYMENT SALES LEVELS DECEMBER (Dec. sales)	JANUARY (Dec.-Jan. total)	FEBRUARY (Dec.-Jan.-Feb. total)	MARCH (4-month total)
50%	$125	45,247	97,671	140,139	195,946
40%	$100	42,231	91,159	130,796	182,883
30%	$ 75	39,214	84,648	121,453	169,820
20%	$ 50	36,198	78,136	112,111	156,757
10%	$ 25	33,181	71,625	102,768	143,694
SALES FOR SAME PERIOD LAST YEAR		30,165	65,114	93,426	130,631

NOTE: *In all cases, "BUYER(S)" means a person who actually takes delivery, not places an order.*

WHY IT WILL PAY YOU TO BUY NOW. This unique program is cumulative and retroactive. Early buyers can get more, but never less bonds, than buyers in succeeding months. Your Rambler dealer will be happy to give you the complete details of the plan but here is a quick example of how it works and keeps on working for you:

If December Rambler deliveries increase 20% over last December, December buyers of new Ramblers or Metropolitans will receive $50 bonds. As the four-month period progresses, additional bonds will be mailed to the December buyers each time the cumulative sales reach a higher bond payment sales level.

Also, if sales increase for the four-month period exceeds 50%, proportionate additional payments will be made to all buyers during any of the four-months.



Monkeys are caught by filling a coconut shell with chopped coconut meat. The monkeys grasp a fistful and, unwilling to let any go, cannot withdraw their paws. So, they are easy victims. The U.S. consumer is not yet as scrawny as shown, but unless there is a more equitable division of the productivity increases, he will get that way. One of the three American groups must let go and set an example—or all will be captured and, along with the consumer, all will suffer.

BOTH CUSTOMERS AND AMERICAN MOTORS GAIN

You have everything to gain and nothing to lose by joining this crusade. The same is true for us.

You can't lose because Ramblers are better than big cars and the best of the compacts. Ramblers are more trouble-free, more useful, lower priced.

You make your regular deal in the regular way for a new Rambler. You then may share proportionately in the economies and profits of higher Rambler volume in December, 1960, and the first three months of 1961.

We gain by acquiring more Rambler owners, which will make our growing market even larger in the future. That's because Rambler owners become Rambler salesmen and are the most loyal "repeat buyers" of any make.

Ask your neighbor all about his Rambler, then join the Rambler crusade. Join us in focusing the nation's attention on the essentiality of equitably sharing economic progress with ALL consumers if the WHOLE NATION is to prosper.

George Romney

P.S. Some may say one company can't do much about national problems as big and complex as those cited above. Well, that's what skeptics said about Rambler's first crusade. Let's remember, every great thing is born small. If this new Rambler crusade is right, it can succeed and spread, just as the compact car concept did.

Mr. Romney's recent New York Press Conference on "Customer Sharing and the Nation's Economy" attracted nationwide notice. For complete text of his statements, write American Motors, Box 29, Detroit 32, Mich.

TOM RIORDAN'S Long AND Short

In the hustle and bustle of last week, we didn't give enough credit to the Jaycees for their efforts in bringing toys to unfortunate youngsters at Christmas.

The fellows put in about 240 man hours repairing, painting and renovating used toys.

This year, the third time they've undertaken this project, they worked in the basement of the city filtration plant on east M-50, opposite the Talon plant.

Ken Zornow, who is on duty there as a city employee, served as "host." It proved an ideal place for the chore.

Chairman of Operation Toys was Charlie Wheeler. About 20 Jaycees helped out.

As the men fixed skooters, tractors, trucks and games the Jaycee wives made costumes for 25 dolls — and surely brought bright smiles to 25 youngsters in the community last Sunday.

It's grand having such a fine group of workers as the community's Jaycees.

☆

A Moslem from Turkey was a guest in town over Christmas.

New Year's is the big holiday in his land and this was his first view of streets and homes decorated for the Christian feast.

Actually, Dr. Mehmet Nazlioglu, a veterinarian, wasn't here to observe Christmas or our religious ceremonies — or even Americans in general.

His mission: learn disease control in cattle. He will take back his findings to Turkey and put them in use.

His trip is being sponsored jointly by the Turkish and American governments.

His points of call include Washington, D.C. (to be squared away politically, I guess), Lansing and MSU for a few weeks, Chicago's Union Stock Yards for a few more, then Ames, Iowa and finally Jacksonville, Fla.

In each location he will study findings of veterinarians regarding disease control.

Officials in Lansing asked Dr. Bill Britton of Tecumseh to show him this section and Dr. Nazlioglu was a house guest of the Britton family for two days. It was a grand experience for everyone.

When I met the guest, I was as much interested in how he liked Americans as what his scientific search was producing.

"You people are most hospitable, kind and gentlemanly," the Turkey vet told me.

"I was most surprised," he added with a twinkle in his eyes.

"Will you tell your friends back home what you discovered about people in America?" I asked.

"I certainly will," he grinned.

Diplomacy on the level of the common man — nothing beats it.

Library Is 1st Choice of Trustees

Subject to public approval, the first project to be undertaken by the Tecumseh Community Fund Foundation will be a new library.

Trustees of the Foundation have agreed that of nine ideas submitted in the FACT report, the library has the most appeal for the greatest number of citizens.

A library will probably cost about $300,000. The Foundation currently has assets of approximately $100,000.

A meeting is being held Tuesday, Jan. 10 in the United Products Workers Union hall at 7:30 p.m. The public is invited to come and express opinion on the library proposal.

As was pointed out in an editorial last week, Tecumseh can well use new library facilities.

The present building was constructed in 1904 for about 2,500 people. This number has swelled to nearly 15,000 as the library now serves not only city residents, but the entire 84-square-mile Tecumseh School District.

☆

A PROFESSIONAL SURVEY last spring indicated that library floor space here should be upped from 2,000 to 12,000 square feet. Volumes should total 30,000 as against the current 17,000, the report recommended.

A new library for Tecumseh should include areas for meetings, exhibits and showing of education films, the experts reported in the survey.

In addition to discussion of the first project by the Foundation, the Trustees will also elect three boardmen. Terms of John Thompson, Mrs. H. H. Hanna and Owen Partridge expire this month.

A complete review of the year's activities will be made, including a full financial report.

THE 22ND YEAR — Employees of Tecumseh Products Co. were given turkeys or hams Friday in the firm's 22nd annual Christmas gift program. As workers came off the shortened first shift at 11 a.m. they filed past huge A&P van's which were loaded with the meats. This year all persons layed off but on the active seniority were also included. The skies were sunny, but the temperature stood at about 15 degrees. However, the cold didn't seem to bother anyone as smiles abounded in every dirction. "Red" Wilson, personnel director, was in charge. All told, more than 2,850 folks received turkeys, an aggregate of 27 tons. Another 300 chose hams.

Rotary Club Brings MSU Concert Band

Rotary Club members discussed the Michigan State University Concert Band appearance here Friday, March 24, at Tecumseh High School.

It is being sponsored by Rotary.

Carlos Jones gave a reading on "Christmas Memories". The newest Rotarians the Rev. Al Wittrup, provided the program in the form of a story titled "The Night the Light Went Out".

This story reviews the experiences of a woman who had completed all of her Christmas chores early and found the experience less than happy until the lights failed and set off a series of experiences in soft candlelight that taught her that true "Peace on Earth and Good Will to Men" is found in giving and not in receiving.

New Basement Scene of Party for 4-H Clovers

Twenty-two parents and members of the Lucky Clover 4-H Club gathered in the newly-built basement at the home of Linda, Jeanette and Jean Starkey Dec. 17 for the annual Christmas party.

Green and white streamers, a large white bell and four smaller red bells were used to decorate the ceiling of the room.

Large candy canes placed on the walls carried out a candy stick theme.

A gift exchange was held and gifts for parents, purchased by the club, were distributed from beneath a gayly-decorated tree.

Refreshments including pink popcorn balls and fudge made by Mrs. Charles Irelan. Assorted cookies, coffee and seven-up were also served.

A Christmas tree cake made by Mrs. Eddie Kirkland centered the buffet table covered with a Christmas print cloth.

Gregg and Phil Smith and David Irelan furnished records for dancing.

A New Year's party was planned for the group also to be held at the Starkey residence.

Library May Close

Whether or not to keep the Hall-Memorial Library at Ridgeway in operation will be discussed at a meeting there Monday, Jan. 9 at 8 p.m.

Present income from endowment funds covers about 40% of costs-heating, lights and maintenance of the building.

Unless some new source of income is found it may become necessary to close the library and allow the property to revert to the heirs of the original donors.

Reports of the librarian, the treasurer and elected officers for 1961 will be heard at the meeting.

Heart Attack Proves Fatal as Driver Rams Two Cars

Harold M. Dayton, 55, of Manitou Beach, suffered a fatal heart attack Tuesday at 5:20 p.m. while driving his auto on W. Chicago Blvd.

When Mr. Dayton slumped over the wheel, his foot pressed the accelerator, causing the car to run off the highway into Greenwald's Laundry parking lot and strike two cars before coming to a stop.

The autos were owned by Charles J. Clutter of Tipton and Clayton L. Greenwald. Both were parked when hit.

An ambulance was summoned and Mr. Dayton was declared dead on arrival at Herrick Memorial Hospital.

'My Car Won't Start'

"My car won't start. Could you come out?"

So pleaded hundreds of motorists around the area Friday when winter arrived in full furry.

Thermometer on the city's fire station registered 11 degree below zero.

The sudden bitter cold was too much for 300 to 400 car engines, including some 1960 and '61 models.

When The Herald started phoning around to find out exactly how many autos needed help, the voices answering at most stations were noticeably weary.

After answering a few questions, the interview would usually terminate with the station man saying, "If you'll pardon me now, I'll have to get back to work. We're snowed under."

At Harold Easton's Mobil station they finally had to turn down calls about 11:30 a.m. Friday because they had so many to answer.

During Thursday and Friday the mayor estimated starting cars for about 64 residents.

Don's Super Service helped about 25 motorists, one nearly half way to Toledo.

Bug's Super Service assisted 75 or more from Holloway, almost to Adrian and all over the area in getting their cars started.

Gale Hooten's City Service Station aided 50 to 60 motorists.

L and S Gulf Station attendants were "crazy" with work, starting about 70 autos.

Woodward's Sinclair Service Station was "busy with won't starts and freeze-ups."

Mahlon Sebring of the Standard Station said he and his crew had started about 50 cars. He had only been in the station about an hour that day, the rest of the time on service calls.

Many families with two cars were still immobile. Neither one would start.

Randolph's Gulf Service helped about 25 get started or thaw radiators that did not have sufficient anti-freeze in them.

Fisher Pontiac's Sunoco Service was a "mad house." The truck was on the road from early until late.

Lee Purkey and Sons Garage assisted 48 car owners on Thursday with dead batteries, freeze-ups and with a push to start. On Friday they assisted 65.

IT HAPPENED IN 1960 — Tecumseh's "Avenue of Flags" was one of the note worthy news events which broke during 1960. For a chronology of the past year, from the pages of The Herald, see pages 1, 2 and 3 of the second section.

Wolfs Sell Out

One of Tecumseh's largest retail stores will change hands on Jan. 9 when Robert Wolf becomes sole owner and operator of Wolf's Tire and Appliances.

Cliff and Paul Wolf, partners, are going out of business, after operating one of this area's leading stores since 1943.

The two brothers started here in 1943 at the store now occupied by Cal's Tog Shop in downtown Tecumseh.

About seven years ago, they built a new and larger layout at the intersection of Adrian St. and Russell Rd. on the south edge of Tecumseh.

For a number of years they were known as the largest appliance dealer in Lenawee County and this area, and also once operated a food service line with the sale of freezers.

About two years ago, they added the Goodyear tire line to their sale of merchandise.

Both brothers acknowledge and appreciate the patronage from many Tecumseh and area residents.

The new owner, a nephew of the brothers, has been associated with Wolf's Appliances for over five years. No major changes are contemplated except that the store will be held open Friday nights and Saturdays, after he acquires ownership.

Tecumseh Clobbers Adrian

By JIM LINCOLN

Santa arrived late with Coach Doug Murdock's Christmas present Tuesday night, but it was worth waiting for.

His Indians notched their second victory of the season, a welcomed 61-56 win over the visiting Adrian Maples.

Tecumseh's record is now 2-3 for the season. Adrian is tied for second place in the supposedly-tough Twin Valley League.

Although John Britton paced his teammates in scoring with 18 points, the game was won through a tremendous desire to win by all Tecumseh cagers.

Mike Tucker turned in one of his best prep tilts and was Tecumseh's top rebounder as the Indians generally controlled both boards.

This was accomplished despite Adrian's height advantage, including 6-4 Bruce Brown.

Tecumseh led most of the game, momentarily losing the lead midway in the initial quarter and again in the third period.

The Maples threatened late in the final stanza when a full-court press at one time narrowed an 11-point deficit to three points.

Larry Titley iced the game for the Indians with three straight points just before the game ended.

Three of Murdock's cagers scored in double figures with Britton's seven goals and four free thows topping both clubs. Titley finished with 14 points and Tucker 10.

Adrian's leading scorer, Dick Stevens, was nearly blanked with only five points. Roger Ilvonen was the Maples' top scorer with 15 points, 13 coming in the second period.

Tecumseh's margin of victory came at the foul line where the Indians hit over 70%, sinking 21 of 28 attempts. Adrian collected on 14 of 25 free throws.

What's Going on at BOYSVILLE

By LOUIE CIAVONE

Annual Christmas Candlelight Banquet was held in the Boysville dining hall Dec. 21.

It opened with a few songs by the Boysville Glee Club. Then the meal, which was delicious, was served.

Everyone enjoys the fine cooking of Mr. and Mrs. James Parker and Mr. Carlo Mobley, the cooks at Boysville.

After the meal, presidents of the five classes short speeches.

The banquet closed with a short talk by Brother John Laveile, C.S.C., Director of Boysville.

The exquisite decorations by Brothers Paulus McGory, Romain Healy and Gregoire Bleau, were impressive.

√

Awards for the All River Raisin Conference Honorary Team were made in the Boysville gymnasium on the afternoon of Dec. 20 at a special assembly.

Also given at the assembly were the league football championship football trophy, won by Boysville with a 9-0 record.

The All Sports trophy, won by Ida, for having amassed the greatest number of points for their records in the four major sports last year, was given.

Tom Johnston, sports director for radio station WOIA in Saline, was the principal speaker.

Mike Gendzwill, head coach of the Boysville Fighting Knights, was the master of ceremonies.

Mr. Gendzwill also received the football trophy for Boysville.

Pete Mata, Ken Snooks, John McGeshick and Bill Gager of Boysville received certificates for being named to the honorary first team.

Terry Kuhn, Joe Landazzi and Dave Tucker received certificates for being named to the honorable mention team.

√

The Fighting Knights dropped their second game in four starts to the speedy Deerfield Minute Men, 58-53 on the Boysville hardwood Dec. 20.

It was a fast game, and the Deerfield team showed some fine ball handling. Deerfield was ahead throughout the game, but the Knights put on a tremendour effort nevertheless.

John McGeshick was high-point man with 14 for the Knights. Bill Gager followed with 11. Ken Snooks, who fouled out in the second half, had 10, all sunk in the first half.

Pete Mata, Rich Michniak and Jerry Klos hit for nine, eight and one respectively.

√

The Junior Knights won their first game against the Deerfield Junior Minute Men, 51-38.

Fine shooting and ball hawking of Stan Klos, who was high-point man with 30 points, led the Junior Knights to their victory.

The team has improved much on shooting and passing since the beginning of the season.

JVs Win, Too

Two baskets by Kent Lucas in the pressure-packed final minutes broke up the Tecumseh-Adrian junior varsity tilt, paving the way for a 51-44 Indian victory.

Insurance scores were tossed in by Clark Nichols (a field goal and free toss) and a basket by Jerry Hebb.

Just as their "big brothers" were to do later in the evening, the JVs of Coach Jim Hoffman out fought, out rebounded and out shot the Maples.

Dan Greene topped individual scorers with 15 points, while Nichols and Lucas both had 14.

Tecumseh led at the half, 29-23.

THROUGH MY WINDOW

M. N.'s CHRISTMAS GIFT TO US

Apparently, the Grand Old Dame of the Outdoors took to heart and heeded all the pleas to "shop early and avoid the crowds", "mail packages so they will arrive in time", etc.

Of course, I am not sure how much shopping and mailing was involved, but I do know her gift arrived several weeks before The Day. What was it? What else—a new bird.

Early Friday morning — let's see, it must have been about Dec. 9 when we looked out to see what at first glance appeared to be a fluffed-out woodpecker.

Although the sun was shining, the temperature was low and we thought nothing of the bird being so ruffled up — on these cold days most of the birds seem to almost double their size.

But this was no woodpecker. The entire top of his head and a spot under his chin were crimson, his back, even though it was black-and-white like the downy's, was not smooth and neat looking.

Furthermore, his breast was not a clean white, but almost a tattle-tale gray, slightly spotted and stained a yellowish color. We had a yellow-bellied sap-sucker on our feeder. Wow!

☆

HIS FIRST visit was fairly long. Perching on the edge of the feeder he made a complete survey of its bill-of-fare and then settled for a snack of suet.

His long, chisel-like bill was more than a watch for the hard frozen suet block. He ate with ease and relish.

Needless to say, all afternoon we waited for Mr. Yellow-Belly to pay us a return call, but it was not until the next morning that he encored.

Again he ate suet. Sunday he most obligingly timed his arrival so that both mom and dad were in my room and believe me, it was a pleased threesome he obligingly played to that day. All told, the sap-sucker made an appearance for nine days. I am afraid he has not been back since.

But I am not really sure. He never made any noise to announce his arrival and with all the hustle and bustle, the almost utter confusion of this holiday season, the feeding stations have not received the careful watching to which they are accustomed.

☆

IN ADDITION to fun, a new bird always presents a challenge. Can we get pictures?

Well, we can try and that is exactly what we did. The film is not back from the processing lab yet, but we are hoping for the best.

We plotted one day, put the suet just so, planned everything and, of course, Mr. Yellow-Belly perched at the one spot we hadn't figured on. A newcomer, he obviously didn't know that diners on our feeders are expected to co-operate and "pose for their suppers."

I think, however, that we got a good shot of him anyway. He was in back of the suet, a little to one side—head-on is not his best position, but as he insisted upon looking straight into the camera, that is how he was photographed.

Seeing him thus, he looked something like Scrooge—so cross and crabby. His dark red cap was pulled forward, almost to the base of his big bill and small stripes of black and white through and above his eyes made a perpetual scowl.

Certainly not a happy looking bird, but even tho I am sure that under his breath he was mumbling "Bah! Humbug!" it was thrilling and most exciting to have another "first".

☆

ALTHONGH we haven't seen the sap-sucker just recently, we are hoping he will behave as did Mother Nature's Christmas bird of a few years ago.

That was a red-breasted nuthatch, if you will remember, and after his initial visit, he disappeared for a while, but then returned to spend the whole winter with us. In this area are we apt to have Yellow-Bellies all year around?

According to the one book I have had time to consult, these are the most migrating of all wood-peckers, so maybe he was just passing through.

On the other hand, it lists southern Michigan as among their winter and summer territories. I guess we will just have to wait and see.

But whether he comes back or not, I do want to thank Mother Nature for her Christmas gift — it was great.

VOICE of THE HERALD

We Applaud Decision

We applaud the decision of the Tecumseh Community Fund Foundation Trustees to establish a new library for our community as its No. 1 project.

If the public adds its approval at the general meeting Jan. 10, planning will be started in short order.

First of all, committee will be formed to coordinate the thinking of the library board, City Council, the Board of Education and the City Plan Commission, all of whom have a vital interest in this endeavor.

From sessions of this committee will grow architect's plans, selection of a site and other specifics.

The Herald hopes that area citizens agree whole—heartedly with the Trustees and will give a vigorous "second to the motion" going on the floor next week.

Don't miss the session Jan. 10.

Mr. Weatherman, Please Cooperate

It should be noted that the city has been busy with skating rinks around town, as in previous winters.

Keep up the fine work, fellows.

Now if Mr. Weatherman will continue to cooperate, our citizens—junior and senior—will have some fine exercise during the coming months.

Devotions were given by the Rev. Pelly, followed by a discussion concerning daily devotion programs over the radio station.

Sgt. Harold Bliss of the Michigan State Police Post in Jackson was the speaker.

"There can never be a civil law effective unless people know moral law," said Sgt. Bliss.

Twenty-one ministers and their wives were present for the meal served by the Ladies Aid and the meeting.

+ Students Are Recognized by Methodists

Mission of the Methodist Church to the academic community is the planting of a Christian colony, a community of Christians in which the Lordship of Jesus Christ is believed and acted upon.

The most powerful witness of this community is not in words, but in inclusive love and service.

On Sunday, the Tecumseh Methodist Church will observe Student Recognition Day with our own college students taking part in the 10 a.m. service.

The Methodist Student Movement in its Wesley Foundations and campus units is striving through its worship, study, and service programs to proclaim the gospel of Jesus Christ in word and action.

Students themselves are seeking creative places of service within the total life and mission of the Church.

Student Recognition Day is a time for recognizing and honoring those who are seeking to become better citizens and leaders in the world and the church by obtaining a higher education.

The WSCS of the Methodist Church will be meeting Wednesday, Jan. 4, 1961 at 8 p.m. The program is entitled "Recalling Our Heritage and Expanding Our Horizons" with Mrs. Richard Loughney as the leader.

+ Pray for Miracle Is Sermon Topic

Sermon at the First Baptist Church Sunday will be "Pray For a Miracle in 1961."

The Rev. and Mrs. Blair Bashore will be hosts for a combined session of the members of the ladies Missionary Society of the North Rome Baptist Church and those attending the annual meeting.

It will be held Jan. 4 with a luncheon at noon.

+ Communion

Communion will be served at the Presbyterian Church this Sunday morning, during the regular morning worship service.

Ann Arbor by-pass is typical of Michigan's modern freeways

Again Michigan leads the Nation! **500 miles of freeways now open to traffic in Michigan!**

A record-breaking 500 miles of modern freeways—easier driving and four times as safe as conventional highways—are now in use by millions of Michigan motorists and thousands of vacation travelers. One highway alone—Interstate 94—runs 203 continuous miles from downtown Detroit to St. Joseph. It's the longest stretch of toll-free, limited access highway in the United States!

Today, Michigan holds 1st place in Interstate System construction—up from 35th place just 3 years ago. Since 1957, Michigan's freeway mileage has increased 5 times! You can thank your capable state highway engineers, backed by efficient contractors and crews.

You can be glad, too, that more than 99% of these beautiful new freeways are paved with concrete. Its lower cost and proven performance save tax money. Concrete highways and streets outlast asphalt almost 2 to 1 and cost up to 60% less to maintain. Add greater safety. Concrete gives more skid resistance, wet or dry, and better nighttime visibility.

In front-running Michigan and other progressive states, highway engineers choose concrete to save money and provide motorists with the safest, smoothest-riding, longest-lasting highways.

A SINCERE THANKS

Last January, Hastings Mutual announced the observance of its 75th Anniversary year. It was in 1885 that we began to serve the people of Michigan with windstorm insurance. At that time, our company was known as Michigan Mutual Windstorm Insurance Company. Today, as we start our 76th year, we serve more rural Michigan patrons than any other all-Michigan insurance company. In addition to windstorm, Hastings Mutual now offers fire, liability, hail, homeowners and multiple peril protection.

While striving to give you the fastest, most efficient claim service possible, we also offer the security of knowing that you are protected by one of Michigan's oldest, most respected insurance companies. To you who made this growth possible during the past 75 years, Hastings Mutual and its more than 350 licensed agents express their most sincere thanks.

Those responsible will never know how much we appreciate the downtown Christmas decorations this year.

Every time we come into Tecumseh from the west, we seem to come into a Christmas fairyland. t is the most attractive decor we have ever seen.

Appreciate the committees choice of new ornaments.

Someone has done a lot of work putting up and taking down to make this a most enjoyable season.

Yours truly,
Mrs. Raynor VanValkenburg and family

Sorry For Action

To the Student Body of Britton High School:

We wish to extend the apologies of the students of Summerfield to you and your community.

Four graduates of your school were abused and jeered for no apparent reason by some people of this community after the ball game last Friday night. They were followed to their cars and one boy was struck. In addition some eggs were thrown, by some unknown persons, on your bus.

We have not had any such behavior within our memories. We have not thus far been able to identify who these persons are. But we are certain that they do not represent the feelings and behavior of 99% of Summerfield's students. We shall do all we can to see that this does not occur again. We are deeply ashamed of these incidents. Please accept our shamefaced apology.

Immigrants To Register This Month

The Immigration and Naturalization Service advised that the annual alien address report program is again under way.

Nearly 145,000 aliens reported their addresses last year in Michigan.

The number this year is expected to be slightly larger.

Address reports are required by law and willful failure to comply with these requirements may lead to serious consequences.

Forms with which to make the reports are available at all post offices and Immigration offices. It is an easy matter to fill out one of the cards and return it to the same office.

Trained personnel will be on hand in all Immigration offices to answer any questions the reporting aliens may have regarding immigration and naturalization matters.

A Message From "Your Pharmacist"

CAN YOU AFFORD TO GAMBLE?

Prescription buying by mail is the latest device to entice business. Discounts are being offered. For a dubious saving of a few dollars per year, you risk the dangers of delay, loss of your pharmacist's personal interest in your welfare and the necessary immediate contact with your physician that is so often needed.

THE AMERICAN MEDICAL ASSOCIATION OPPOSES MAIL-ORDER PRESCRIPTIONS. They reported that "It is not in the best interests of the patient." The five to ten day delay can be dangerous. Often a pharmacist must consult with the physician before dispensing to avoid possible error. Firms advertising price savings are under temptation to offer lesser quality drugs.

AVERAGE NET PRESCRIPTION PROFIT IS ONLY ABOUT 8% BEFORE TAXES. That is all that is left after paying cost of ingredients, salaries, rent and all the other expenses needed to operate a good pharmacy. It is possible to offer a discount only if we were to raise our prices. This we will not do. Be wise. Get your prescriptions from your local pharmacist whom you know you can depend on for fair prices and reliability.
